- 1.10.4. Enforcement and Application of Arbitration Awards with Respect to Contracting

“

Thanks to the specialized knowledge you will acquire with this program, you will be able to include among your skills the orientation to carry out successful foreign investments”

06

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning.**

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“

You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

Our Students' Profiles

This Postgraduate Certificate is aimed at university graduates and graduates who have previously completed any of the following degrees in the field of economics, business and finances. It also offers tools to understand and be able to manage with fluency international contractual legal advice for companies.

This program uses a multidisciplinary approach as the students have a diverse set of academic profiles and represent multiple nationalities.

Professionals who, being university graduates in any area, have 2 years of work experience in the administrative and consulting sector, may also take the Postgraduate Certificate.

“

A significant plus that will make your professional profile stand out from the rest”

Nereida Palenzuela

Senior Technician in Contractual Legal Counseling

"I had been working for the same consultancy for 7 years and I felt I needed to aspire to more. One day, searching for courses online I discovered TECH and this program especially caught my attention. Now I know how lucky I was, because in less than 6 weeks I was able to specialize in a field that I was passionate about within the area of legal advice: international contracting. Thanks to the specificity of the contents that TECH has included in this Postgraduate Certificate, I was able to acquire specialized knowledge about management tools and the drafting of contractual agreements for companies in different geographical locations. Undoubtedly, a plus that helped me to get, months later, the job of my dreams"

08

Impact on Your Career

The field of legal counseling is constantly changing, especially in the international context. For this reason, professionals who are concerned about updating their knowledge in this field will have more options to enter the labor market. In addition, the exhaustive handling of aspects such as the general regime of international contracting or the management of guarantees, means of collection and payments are skills in great demand in the current legal-contractual sector, something in which the graduate will be able to work with this Postgraduate Certificate.

“

You will be able to differentiate yourself from your peers with your unique and efficient knowledge of setting up companies abroad”

Are you ready to take the leap? Excellent professional development awaits you.

TECH's Postgraduate Certificate in International Contractual Legal Advice for Companies is an intensive program that prepares you to face challenges and business decisions in the environment of the organization you are part of. The main objective is to promote your personal and professional growth. Helping you achieve success.

If you want to improve, make a positive change at a professional level and network with the best, then this is the place for you.

If you are aware that your professional career needs a change, choose a program that guarantees you a considerable qualitative leap in line with your requirements.

A perfect academic option to specialize in legal counseling through a program that includes the latest and most detailed information on international contracting.

Time of Change

Type of change

Salary increase

The completion of this program represents a salary increase of more than **25.3%** for our students.

09

Benefits for Your Company

This Postgraduate Certificate has been designed taking into account the needs of companies. For this reason, the professional who is qualified with it will acquire a series of skills that will allow the entity to grow considerably based on the application of the most effective legal and contractual strategies. Thanks to this, they will be able to take on more complex and specialized projects, guaranteeing their success through specific and specialized planning for each case.

“

Any company that has in its staff a graduate qualified through this Postgraduate Certificate will benefit from a series of unique knowledge that will raise its quality to the highest level”

Developing and retaining talent in companies is the best long-term investment.

01

Growth of talent and intellectual capital

The professional will introduce the company to new concepts, strategies, and perspectives that can bring about significant changes in the organization.

02
