01 Welcome

The digital ecosystem has arrived with force and is transforming project management. This transformation has been advancing unstoppably, bringing about profound and constant changes in all aspects of business management. And, predictions suggest it will continue to change very rapidly. For this reason, it is necessary to reflect deeply on the changes that continue to take place in this environment and their possible impact on the way we do business. In addition, an exclusive and complementary Masterclass, developed by a prestigious and internationally renowned expert in Program Management, will be included. This will allow graduates to reinforce and perfect their knowledge and skills in this constantly developing field.

Postgraduate Certificate in New Trends in Digital Transformation and Their
Impact on Business.
TECH Global University

“

Would you like to become a specialist in Program Management? TECH will offer you access to a unique and additional Masterclass, led by an internationally renowned lecturer in this field”

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class center for intensive managerial skills education.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"*Microsoft Europe Success Story*", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

+100000

executives prepared each year

+200

different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

+500

collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (postgraduate learning methodology with the best international valuation) with the Case Study. Tradition and vanguard in a difficult balance, and in the context of the most demanding educational itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level”

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

01

A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of students achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of the company

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional fields.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

You will take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects.

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different fields in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to study with a team of world-renowned teachers.

04 Objectives

This program is designed to strengthen management and leadership skills, as well as to develop new skills and abilities that will be essential in your professional development. After the program will be equipped to make global decisions with an innovative perspective and an international vision.

“

International experience, ethical commitment, and business acumen are some of the most sought-after characteristics in executives in the digital age.”

TECH makes the goals of their students their own goals too.
Together they work to achieve them.

The Postgraduate Certificate in New Trends in Digital Transformation and Their Impact on Business will enable students to:

01

Analyze in-depth the continuing change in the digital ecosystem.

02

Utilize the major trends that will impact the way successful businesses operate in the near future.

03

Examine the impact of information and data management in a digital environment.

04

Understand the importance of the Internet of Things (IoT) in the digital ecosystem.

05

Break down the main trends of change in online marketing and sales.

06

Understand the limitations and privacy risks and data management which arise in these environments.

05

Structure and Content

The Postgraduate Certificate University in New Trends in Digital Transformation and Their Impact on Business is a tailor-made program that is taught in a 100% online format so that you can choose the time and place that best suits your availability, schedule and interests.

A program that takes place over 6 months and is intended to be a unique and stimulating experience that lays the foundation for your success as a Business Manager.

“

What you study is very important. The abilities and skills you acquire are fundamental. You won't find a more complete syllabus than this one, believe us..."

Syllabus

The content of the Postgraduate Certificate in Digital Transformation and Their Impact on Businesses is designed to promote the development of management skills that will enable the professionals to obtain information that will allow them to adequately manage the reputation of a brand or company.

Over the course of 180 hours, the student analyzes a plethora of practical cases through individual and team work. It is, therefore, an authentic immersion in real business situations.

This program deals in depth with all strategic areas of the company and is designed to prepare managers and experts in the sector, so that they understand business management from a strategic, international and innovative perspective.

A plan designed for you, focused on improving your career and preparing you to achieve excellence in the field of business.

A program that understands both yours and your company's needs through innovative content based on the latest trends, and supported by the best educational methodology and an exceptional faculty, which will provide you with the skills to solve critical situations, creatively and efficiently.

Where, When and How is it Taught?

This Postgraduate Certificate takes place over 6 weeks. You can complete it 100% online.

A unique, key, and decisive educational experience to boost your professional development and make the definitive leap.

Module 1. New Trends in Digital Transformation and their Impact on Businesses

1.1. Internet Evolution

- 1.1.1. Evolution of the Digital Ecosystem
- 1.1.2. New Digital Trends
- 1.1.3. New Customer and Future Customer

1.2. E-commerce 2.0: Trends

- 1.2.1. From 1.0 to 2.0
- 1.2.2. Emotional Selling
- 1.2.3. Sharing Economy
- 1.2.4. New Trends in Online Sales

1.3. CRO and Growth Hacking

- 1.3.1. Importance of Conversion
- 1.3.2. CRO
- 1.3.3. *Growth Hacking*

1.4. Big Data and Data Science

- 1.4.1. The Importance of Data
- 1.4.2. Big Data
- 1.4.3. Data Scientist Role

1.5. Internet of Things (IoT)

- 1.5.1. IoT Analysis
- 1.5.2. Impact on the Company
- 1.5.3. Wearables
- 1.5.4. Connected Home

1.6. Industry 4.0

- 1.6.1. New Trends
- 1.6.2. The *Makers*
- 1.6.3. New Industrial Production and Robotization

1.7. Digital Marketing Trends

- 1.7.1. Programmatic
- 1.7.2. Video
- 1.7.3. Content: Native Advertising

1.8. Internet 3.0 Semantic Web

- 1.8.1. Where the Network is Evolving To
- 1.8.2. Robot Assistants: Alexa, Siri and Google Assistant
- 1.8.3. Semantic Web

1.9. Future of Relationships: The Privacy Challenge

- 1.9.1. Privacy Challenge
- 1.9.2. Data Protection Regulation
- 1.9.3. Consumer Privacy

1.10. New Technological Horizons

- 1.10.1. New Trends
- 1.10.2. The Blockchain.
- 1.10.3. Future Developments and New Challenges
- 1.10.4. Upcoming Technologies

A unique, key and decisive learning experience to boost your professional development"

DIGITAL TRANSFORMATION

06

Methodology

TECH is the world's first university to combine the **case study** methodology with **Relearning**, a 100% online learning system based on guided repetition.

This disruptive pedagogical strategy has been conceived to offer professionals the opportunity to update their knowledge and develop their skills in an intensive and rigorous way. A learning model that places students at the center of the academic process and gives them the leading role, adapting to their needs and leaving aside more conventional methodologies.

“

TECH will prepare you to face new challenges in uncertain environments and achieve success in your career”

The student: the priority of all TECH programs

In TECH's study methodology, the student is the main protagonist.

The teaching tools of each program have been selected taking into account the demands of time, availability and academic rigor that, today, not only students demand but also the most competitive positions in the market.

With TECH's asynchronous educational model, it is students who choose the time they dedicate to study, how they decide to establish their routines, and all this from the comfort of the electronic device of their choice. The student will not have to participate in live classes, which in many cases they will not be able to attend. The learning activities will be done when it is convenient for them. They can always decide when and from where they want to study.

“

*At TECH you will NOT have live classes
(which you might not be able to attend)”*

The most comprehensive study plans at the international level

TECH is distinguished by offering the most complete academic itineraries on the university scene. This comprehensiveness is achieved through the creation of syllabi that not only cover the essential knowledge, but also the most recent innovations in each area.

By being constantly up to date, these programs allow students to keep up with market changes and acquire the skills most valued by employers. In this way, those who complete their studies at TECH receive a comprehensive education that provides them with a notable competitive advantage to further their careers.

And what's more, they will be able to do so from any device, pc, tablet or smartphone.

“

TECH's model is asynchronous, so it allows you to study with your pc, tablet or your smartphone wherever you want, whenever you want and for as long as you want”

Case Studies or Case Method

The case method has been the learning system most used by the world's best business schools. Developed in 1912 so that law students would not only learn the law based on theoretical content, its function was also to present them with real complex situations. In this way, they could make informed decisions and value judgments about how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

With this teaching model, it is students themselves who build their professional competence through strategies such as Learning by Doing or Design Thinking, used by other renowned institutions such as Yale or Stanford.

This action-oriented method will be applied throughout the entire academic itinerary that the student undertakes with TECH. Students will be confronted with multiple real-life situations and will have to integrate knowledge, research, discuss and defend their ideas and decisions. All this with the premise of answering the question of how they would act when facing specific events of complexity in their daily work.

Relearning Methodology

At TECH, case studies are enhanced with the best 100% online teaching method: Relearning.

This method breaks with traditional teaching techniques to put the student at the center of the equation, providing the best content in different formats. In this way, it manages to review and reiterate the key concepts of each subject and learn to apply them in a real context.

In the same line, and according to multiple scientific researches, reiteration is the best way to learn. For this reason, TECH offers between 8 and 16 repetitions of each key concept within the same lesson, presented in a different way, with the objective of ensuring that the knowledge is completely consolidated during the study process.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

A 100% online Virtual Campus with the best teaching resources

In order to apply its methodology effectively, TECH focuses on providing graduates with teaching materials in different formats: texts, interactive videos, illustrations and knowledge maps, among others. All of them are designed by qualified teachers who focus their work on combining real cases with the resolution of complex situations through simulation, the study of contexts applied to each professional career and learning based on repetition, through audios, presentations, animations, images, etc.

The latest scientific evidence in the field of Neuroscience points to the importance of taking into account the place and context where the content is accessed before starting a new learning process. Being able to adjust these variables in a personalized way helps people to remember and store knowledge in the hippocampus to retain it in the long term. This is a model called Neurocognitive context-dependent e-learning that is consciously applied in this university qualification.

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, email contact with the technical secretary, chat and videoconferences).

Likewise, this very complete Virtual Campus will allow TECH students to organize their study schedules according to their personal availability or work obligations. In this way, they will have global control of the academic content and teaching tools, based on their fast-paced professional update.

The online study mode of this program will allow you to organize your time and learning pace, adapting it to your schedule”

The effectiveness of the method is justified by four fundamental achievements:

1. Students who follow this method not only achieve the assimilation of concepts, but also a development of their mental capacity, through exercises that assess real situations and the application of knowledge.
2. Learning is solidly translated into practical skills that allow the student to better integrate into the real world.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

The university methodology top-rated by its students

The results of this innovative teaching model can be seen in the overall satisfaction levels of TECH graduates.

The students' assessment of the quality of teaching, quality of materials, course structure and objectives is excellent. Not surprisingly, the institution became the best rated university by its students on the Trustpilot review platform, obtaining a 4.9 out of 5.

Access the study contents from any device with an Internet connection (computer, tablet, smartphone) thanks to the fact that TECH is at the forefront of technology and teaching.

You will be able to learn with the advantages that come with having access to simulated learning environments and the learning by observation approach, that is, Learning from an expert.

As such, the best educational materials, thoroughly prepared, will be available in this program:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

This content is then adapted in an audiovisual format that will create our way of working online, with the latest techniques that allow us to offer you high quality in all of the material that we provide you with.

Practicing Skills and Abilities

You will carry out activities to develop specific competencies and skills in each thematic field. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop within the framework of the globalization we live in.

Interactive Summaries

We present the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

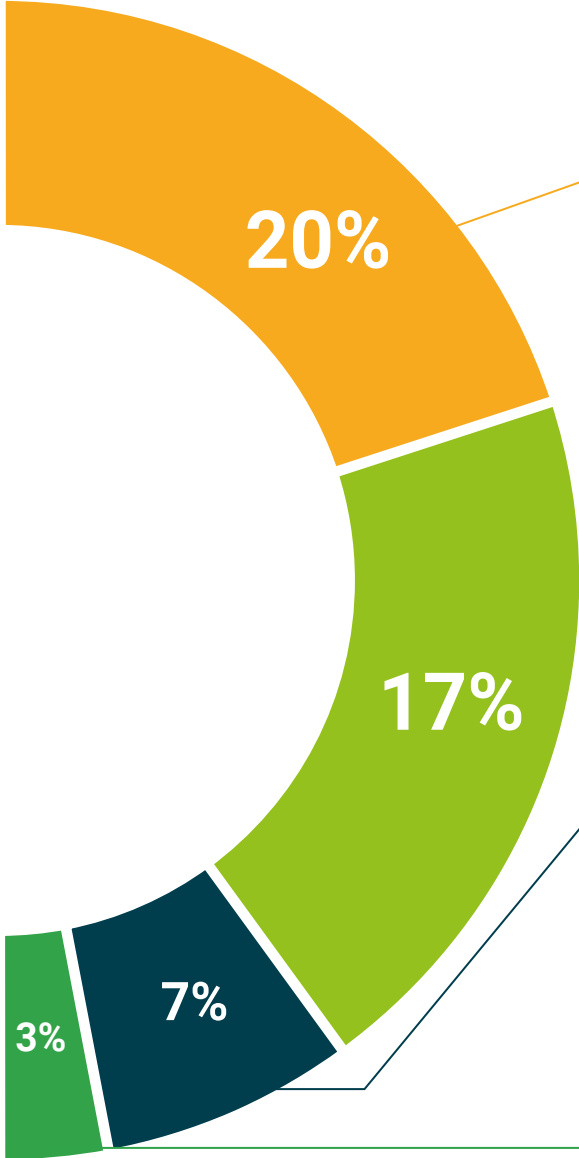

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents, international guides... In our virtual library you will have access to everything you need to complete your education.

Case Studies

Students will complete a selection of the best *case studies* in the field. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Testing & Retesting

We periodically assess and re-assess your knowledge throughout the program. We do this on 3 of the 4 levels of Miller's Pyramid.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.
Learning from an expert strengthens knowledge and memory, and generates confidence for future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical and effective way to help students progress in their learning.

07

Our Students' Profiles

Our Postgraduate Certificate in New Trends in Digital Transformation and Their Impact on Business is a program aimed at managers and executives who want to update their knowledge, discover new ways of managing projects and advance in their professional career.

“

If you have experience in the financial sector and are looking for an interesting career boost while continuing to work, then this is the program for you”

Carla Pérez

Digital Business Manager

"This is the best program about new trends in digital transformation that I could have done. The multimedia methodology and the huge number of practical cases has allowed me to quickly acquire the knowledge. Also, I have been able to implement everything I have learned in my daily work"

08

Course Management

The teaching staff are professionals with extensive experience in the analysis and application of emerging technologies and their influence on business strategy. As such, these experts, with a solid academic background and a history of working on the implementation of digital innovations, will provide graduates with a comprehensive understanding of how current trends such as Artificial Intelligence, Blockchain and automation are reshaping business models and business operations. Furthermore, its educational approach will focus on the critical assessment of real-world cases, adaptation to rapid changes on the market and identification of strategic opportunities arising from digital transformation.

A black and white photograph showing three people from a different perspective, looking down at a screen. The image is partially obscured by a dark blue diagonal shape that separates it from the white background containing the text.

“

The teaching staff will prepare you to lead and manage digital transformation effectively, ensuring that you can anticipate and benefit from the impact of new technologies on business"

International Guest Director

Shahzeb Rauf is a leading **telecommunications** professional with over 18 years of experience. Specializing in complex program management and implementation of **technology solutions**, he combines advanced technical skills with **management, analytical** and **teamwork** capabilities. In fact, his approach is goal-oriented, standing out for his innovative capacity and his ability to negotiate and influence, which allows him to manage successful **working relationships** and meet **business objectives**.

As such, throughout his career, he has worked in key roles such as, for example, **Group Technical Director at Huawei, Pakistan**, where he has led strategic projects in the **IP Optics Access** and **Core** domains, mastering strategic transformation programs, such as the **modernization of IP** and **broadcast networks**, as well as the launch of **VoLTE** and **LTE Roaming**. These experiences have allowed him to hone his skills in **strategic project execution** and cross-functional team management.

Likewise, he has been internationally recognized for his ability to align **methodical tactics** with **business objectives**, as well as for his ability to build strong relationships with stakeholders. His expertise in **risk management, resource allocation** and **optimization** has been instrumental in his success in the **telecommunications industry**.

In addition to his professional background, Rauf has contributed to the industry through **project management** and **team mentoring**. In turn, his focus on **Huawei Level-5 solution architecture** and technical management has been key to the success of his projects. Likewise, his expertise in **network modernization** and **advanced technology** implementation underscores his commitment to excellence and innovation in a constantly evolving field such as **telecommunications**.

Mr. Shahzeb, Rauf

- Group Technical Director at Huawei, Islamabad, Pakistan
- Network Performance and Optimization Manager at NSN, Pakistan
- Wireless Networks Manager at Motorola, Pakistan
- L2 Wireless Support Team Leader at Motorola, Pakistan
- GS Systems Engineer at Motorola, Pakistan
- B.Sc. in Electronics and Communication

“

Thanks to TECH you will be able to learn with the best professionals in the world"

Management

Mr. Barrientos, Giancarlo
