### Be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified professors from the most prestigious universities in the world: the TECH Technological University community.

*We give you the opportunity to train with a team of world renowned teachers.*

# Objectives

The main objective of this Postgraduate Certificate in Organization, People and Organizational Culture is to provide the professional with the best strategies, protocols and techniques for internal business management. In this way, you will be able to improve the processes and tasks that take place in your own company, maximizing the benefits and streamlining all the activities that take place in it. This will improve the performance of your company, leading it to success in the sector in which it operates.

" *This Postgraduate Certificate will allow the professional to learn the best organizational methods to improve the internal processes of his own company"*

TECH makes the objectives of its students its own.
They work together to achieve them.
This **Postgraduate Certificate in Organization, People and Organizational Culture** trains the student to:

**01** Know the corporate organization and the function of people or "human resources" in the company
**02** Understand how consulting helps companies in the marketplace to improve all aspects related to these areas

**03** Master the concept of function transformation

**04** Know what role it plays within an organization

**05** Also, delve into the main roles and responsibilities of the Human Resources function

**06** Describe a typology of typical projects or the most common business consulting projects in the field of Human Resources

**07** Learn about the type of services provided in business consulting according to trends, business and technological disruptions and the needs for change and adaptation demanded by companies

**08** Acquire a complete vision of the reality of business consulting companies, how they are organized, how they provide their services, what professionals they need to develop their services, what types of projects they carry out and how they carry them out from a methodological perspective

**09** Understand the overall strategic planning process and how it adds value to organizations

**10** From the most general to the most particular, the student will learn to differentiate between the company's strategy and how to implement it in its operation

05

# Structure and Content

This Postgraduate Certificate in Organization, People and Organizational Culture has been structured in one specialized module, subdivided into 10 topics, through which the professional will delve into issues such as the management of internal departments of a company, change management, the role of the Human Resources Department, the levers of change or the work of sizing each department.

*You will not find a more complete syllabus than this one to integrate the best organizational techniques in your company"*

## Syllabus

Organizational culture is one of the most important elements within a company, regardless of its size. However, there are not many that apply a correct structure, so their performance is affected. For this reason, the best solution is to adopt the best organizational methods to be able to meet all the proposed objectives.

But in order to achieve these goals it is necessary to know the best solutions applicable to each company, so a program like this Postgraduate Certificate in Organization, People and Organizational Culture is essential to achieve success.

Thus, this degree offers the professional a deeper understanding of issues such as workload and sizing of each department, applications of monetary and non-monetary compensation, talent and performance management and the levers of attracting, retaining and attracting talent.

### 1.10. Transformation. Change Management
1.10.1. Main Differences in Project
1.10.2. Change Manager Role vs. Transformation Manager
1.10.3. Management Tools

## 06
# Methodology

This training program offers a different way of learning. Our methodology uses a cyclical learning approach: *Re-learning*.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the *New England Journal of Medicine have considered it to be one of the most effective.*

*" Discover Re-learning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"*

## At TECH Business School we use the Harvard case method

Our program offers a revolutionary method of skills and knowledge development. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

"

*At TECH, you will experience a way of learning that is shaking the foundations of traditional universities around the world"*

*We are the first online university to combine Harvard Business School case studies with a 100% online learning system based on repetition.*

*Our program prepares you to face new challenges in uncertain environments and achieve success in your career.*

## A learning method that is different and innovative

This intensive program from TECH Technological University School of Business prepares students to face all the challenges in this area, both nationally and internationally. We are committed to promoting personal and professional growth, the best way to strive for success, that is why TECH uses Harvard *case studies*, with which we have a strategic agreement that allows us to provide our students with material from the best university the world.

> ❝ *You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments"*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

## Re-learning Methodology

Our university is the first in the world to combine Harvard University *case studies* with a 100%-online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance Harvard *case studies* with the best 100% online teaching method: Re-learning.

*Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.*

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Re-learning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

01 learning from evidence

02 relearning from evidence

03 testing

04 learning from an expert

05 neurocognitive context dependent learning

06 Von-Restorff effect

07 case based learning through storytelling

08 competencies testing (retesting)

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

*Re-learning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.*

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

**This program offers the best educational material, prepared with professionals in mind:**

### Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

### Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

### Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

### Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

**30%**

**10%**

**8%**

**3%**

**30%**

**15%**

**4%**

### Case Studies

They will complete a selection of the best business cases used at Harvard Business School. Cases that are presented, analyzed, and supervised by the best senior management specialists in Latin America.

### Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive multimedia content presentation training Exclusive system was awarded by Microsoft as a "European Success Story".

### Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises: so that they can see how they are achieving your goals.

## International Guest Director

Awarded by the Public Relations Society of America for her scientific dissemination through multiple webinars, Erin Werthman has become a prestigious Business Administrator highly specialized in the field of Marketing and Communications.

As such, she has worked in international reference entities such as Collegis Education. Among her main achievements, she has developed integrated technology and operational efficiency solutions that have significantly optimized the operational activities of institutions. For example, she has managed a client portfolio of more than 15 million dollars, while obtaining a gross profit margin of 58%. In this sense, it has also generated a collaborative work atmosphere, where work teams perform their functions with the highest quality to ensure customer satisfaction.

On the other hand, she has been in charge of preparing multiple corporate strategic plans in crisis situations. As a result, it has helped companies to enjoy an excellent image in the community. At the same time, by anticipating potential setbacks arising from its practice, she has ensured that entities can continue to operate effectively even under adverse conditions. She has also forged proactive and transparent relationships with the media. In this way, it has been able to maximize both the visibility and reputation of organizations.

In addition, in her commitment to excellence, she is a regular speaker at international conferences and symposiums. There she shares her holistic knowledge on subjects such as Social Responsibility, Public Relations or Advertising. It is worth mentioning that her professional performance has been rewarded on several occasions in the form of awards, such as the award she received at Rasmussen College for her leadership skills, resolute attitude and improvement of advertising campaigns.

# Ms. Werthman, Erin
