# 01 Welcome

The business work of dental clinics requires adequate purchasing management that allows them to have the necessary resources to be able to continue with each work process without unforeseen events. Therefore, the specialization of those responsible for purchasing and warehouse management is a plus that should be included in their resumes, as it will give them the keys to develop with total security and guarantees of success. To meet the information needs in this field, TECH has designed this program that aims to bring students to educational excellence.

Postgraduate Certificate in Purchasing Management in Dental Clinics  
TECH Global University

“

*Specialize in purchasing management  
in dental clinics and improve the  
profitability of your business”*

02

# Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class center for intensive managerial skills education.

“

*TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"*

## At TECH Global University

### Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"*Microsoft Europe Success Story*", for integrating the innovative, interactive multi-video system.

### The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

**95%** | of TECH students successfully complete their studies

### Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

**+100000** executives prepared each year  
**+200** different nationalities

### Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

**+500** | collaborative agreements with leading companies

### Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

### Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

### Analysis

---

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

### Academic Excellence

---

TECH offers students the best online learning methodology. The university combines the Relearning method (postgraduate learning methodology with the best international valuation) with the Case Study. Tradition and vanguard in a difficult balance, and in the context of the most demanding educational itinerary.

### Economy of Scale

---

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

### Learn with the best

---

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

*At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"*

03

# Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

*We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level”*

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

01

### A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

*70% of students achieve positive career development in less than 2 years.*

02

### Develop a strategic and global vision of the company

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional fields.

*Our global vision of companies will improve your strategic vision.*

03

### Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

*You will work on more than 100 real senior management cases.*

04

### You will take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

*45% of graduates are promoted internally.*

05

### Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

*You will find a network of contacts that will be instrumental for professional development.*

06

### Thoroughly develop business projects.

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different fields in companies.

*20% of our students develop their own business idea.*

07

### Improve *soft skills* and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

*Improve your communication and leadership skills and enhance your career.*

08

### You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Global University community.

*We give you the opportunity to study with a team of world-renowned teachers.*

# 04

# Objectives

This program is designed to strengthen the management and leadership skills of the professional, in addition to developing new competencies and skills that will be essential in their professional development in the management of purchases in a dental clinic. After the program, the graduates will be able to make global decisions with an innovative perspective and an international vision.

“

*Your objectives are our objectives and, for this reason, we put all our resources at your disposal so that you can acquire the expertise you need"*

**TECH makes the goals of their students their own goals too**  
**Working together to achieve them**

The **Postgraduate Certificate in Purchasing Management in Dental Clinics** trains students to:

01

Use theoretical, methodological and analytical tools to optimally manage and direct their own clinical-dental businesses, effectively differentiating themselves in a highly competitive environment

04

Professionalize the clinical-dental sector, through continuous and specific specialization in the field of business management and direction

02

Incorporate strategy and envisioning skills to facilitate the identification of new business opportunities

03

Foster the acquisition of personal and professional skills that will encourage students to undertake their own business projects with greater confidence and determination

05

Describe the current situation and future trends of dental clinic management and administration, to be able to define objectives and differentiating successful strategies

06

Become familiar with the terminology and concepts specific to business management and administration to effectively apply them to dental clinics

08

Use digital tools that facilitate the effective planning and management of dental practice tasks, resulting in significant cost savings in the short term

09

Apply tools and work procedures that are essential for an optimal purchasing and resource warehouse management, avoiding unproductive expenditure flow

07

Discover and analyze the key points of successful business models of leading dental clinics in order to increase the motivation, inspiration and strategic mindset of future managers

10

Develop negotiation skills with which to deal with suppliers, customers and team management focused on win-win results

05

# Structure and Content

The Postgraduate Certificate in Purchasing Management in Dental Clinics is a program designed to suit the professionals, which is taught in a 100% online format. In this way, you can choose the time and place that best suits your availability, schedule and interests. The program is developed over 6 weeks and is intended to be a unique and stimulating experience that will lay the foundations for your success as the director of a dental clinic.

“

*Our syllabus has been designed to get the most out of your effort, so that you develop the necessary skills that you will need to apply during your daily work"*

## Syllabus

The Postgraduate Certificate in Purchasing Management in Dental Clinics of TECH Global University is an intensive program that prepares the students to face challenges and managerial decisions at the sanitary level, both nationally and internationally. Its content is designed to promote the development of managerial skills that enable decision-making with greater rigor in uncertain environments.

Throughout 150 hours of study, students will analyze a multitude of practical cases through individual work, which will allow them to better understand the information provided and, therefore, to apply it with complete confidence in their daily work. It is, therefore, an authentic immersion in real business situations.

This Postgraduate Certificate deals with different areas of dental clinics and is designed for managers to understand the management of a dental center from a strategic, international and innovative perspective.

A plan designed for the students, focused on their professional improvement and that prepares them to achieve excellence in the field of leadership and health management. A program that understands your needs and those of your business through innovative content based on the latest trends, and supported by the best educational methodology and an exceptional faculty, which will give you the skills to solve critical situations in a creative and efficient way.

This Postgraduate Certificate takes place over 6 weeks and is made up of just 1 module:

### Module 1

### Purchasing and Storage Management

### Where, When and How is it Taught?

TECH offers the possibility of developing this Postgraduate Certificate in Purchasing Management in Dental Clinics completely online. During the 6 weeks of the specialization, the students will be able to access all the contents of this program at any time, which will allow the students to self-manage their study time.

*A unique, key, and decisive educational experience to boost your professional development and make the definitive leap.*

**Module 1. Purchasing and Storage Management**

<p><b>1.1. The Importance of an Appropriate Purchasing Plan</b></p>	<p><b>1.2. Responsibilities of the Purchasing Duty in a Dental Clinic</b></p>	<p><b>1.3. *A very well-structured syllabus that will give you the keys to develop successfully in your profession"*

# 06

# Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

*Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"*

## TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

*At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”*

*This program prepares you to face business challenges in uncertain environments and achieve business success.*

*Our program prepares you to face new challenges in uncertain environments and achieve success in your career.*

## A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

**“** *You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

## Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

*Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.*

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

*Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.*

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

### Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

### Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

### Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

### Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

**Case Studies**

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

**Interactive Summaries**

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge. This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

**Testing & Retesting**

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

# Our Students' Profiles

The Postgraduate Certificate in Purchasing Management in Dental Clinics is a program aimed at business professionals who want to update their knowledge in this field and advance in their professional career. ## International Guest Director

Chyree Heirs-Alexandre is a **Public Health Management Specialist** with extensive experience in managing medical office operations. As **Director of the Worcester Family Medical Center** in the United States, she has worked to improve the health and well-being of Worcester residents. In particular, she has offered her assistance to culturally diverse populations by providing access to **social services** and **primary care**. Its goal is to ensure affordable, quality and comprehensive care, regardless of patients' ability to pay.

Her ongoing commitment to **Public Health** has led her to advocate that health services and policies are geared towards ensuring well-being and quality of life. Following this line, she held the position of **Assistant Director in Office Management** at **Brockton Neighborhood Health Center**. In this position, she furthered her skills in coordinating the activities carried out in medical centers.

As a specialist in this field, Heirs-Alexandre aims to provide efficient healthcare administration based on the latest organizational tools and strategies. In this regard, she has worked in a wide variety of areas to **promote health** and **prevent disease in communities**. In line with this, in 2020 he participated in the vaccination efforts during the COVID-19 pandemic, ensuring access for all people to immunization against this disease.

Some of her main functions have been to collaborate in **disease prevention** programs and **promotion of healthy habits**, among others. On the other hand, Chyree Heirs-Alexandre serves as **Associate Director** and **Chief Operating Officer** at Harvard School of Dental Medicine. In this position, she is responsible for managing the day-to-day activities and support staff of the center.

## Ms. Heirs-Alexandre, Chyree
