01 Welcome

Today, organizations and companies of all sectors and sizes are fully aware of the importance of human capital to their success. Human Resources experts play a very important role because, through the specific actions they put into practice, they will be able to nurture the company with selection processes that attract, recruit and manage top-level professionals who will enhance the company's development. But in this context, it is essential that the professional has a thorough knowledge of the rights, policies, and actions that protect workers in terms of equality and diversity. Therefore, this program will focus on providing participants with the knowledge that will enable them to understand the importance of ensuring equality and inclusion in the workplace.

Postgraduate Certificate in Strategic Management of Equality and Diversity in Human Resources.
TECH Global University

“

Acquire the knowledge of a specialist in Human Resources capable of understanding and applying the most effective social and labor policies, both externally and internally in organizations"

A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"*Microsoft Europe Success Story*", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

+100000

executives prepared each year

+200

different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

+500

collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (postgraduate learning methodology with the best international valuation) with the Case Study. Tradition and vanguard in a difficult balance, and in the context of the most demanding educational itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level”

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

01

A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Global University community.

We give you the opportunity to study with a team of world-renowned teachers.

04 Objectives

The objectives of this program are based on alleviating the educational needs of Human Resources professionals in this field. In this sense, a complete and optimal program has been realistically established to lead students to academic excellence and encourage them to efficiently advance in their professional careers. For all these reasons, this training will be for the student a journey of personal and professional growth that will lead them to the highest quality in their intervention as a psychologist or Human Resources professional.

“

If your goal is to expand your career as a specialist in HR, with the qualifications that will enable you to compete among the best, look no further. This training will give your career the boost it needs"

TECH makes the goals of their students their own goals too Working together to achieve them

This **Postgraduate Certificate in Strategic Management of Equality and Diversity in Human Resources** will qualify you to:

01

Know how to apply different government programs and policies

02

Analyze social groups, social exclusion, as well as women in employment

03

acquired a vision of equality and diversity in the workplaces

04

Interpret different government programs and policies

05

Examine social groups, social exclusion, as well as women in employment

06

Obtain a vision of equality and diversity in the workplace

05

Structure and Content

The syllabus of this Diploma has been designed and created by a team of experts in the field to respond, in a specific way, to the needs of Human Resources professionals. This compendium of contents has also been designed with a perspective focused on applied learning, allowing the professional to intervene successfully through a broad vision connected to the real environment of the profession. Therefore, this syllabus will become the student's main asset when it comes to successfully entering a labor market that increasingly demands more and more professionals specialized in the field.

“

A complete program created to offer psychologists an effective and fast learning process that is compatible with personal and professional life”

Syllabus

Without a doubt, today almost everyone is aware that for an organization to be successful, the correct selection of personnel is an extremely important element. In this sense, if the right people are hired, the correct development of the tasks and duties to be covered can be promoted and, therefore, the best possible functioning of the organization will be ensured. This is where the Human Resources professional comes into play and acquires a fundamental role because, after carrying out the selection processes, it is essential that he/she knows the policies that must be implemented within the organization to promote a good socio-labor environment, ensuring respect for equality and diversity in the company.

For all these reasons, TECH professionals have designed this Postgraduate Certificate that will provide Psychology and Human Resources professionals with the skills that will enable them to understand the functioning of social and labor policies that protect workers in various situations. This knowledge will become the student's main asset for their professional growth, as companies are increasingly demanding more professionals with skills in this area to ensure the welfare of the organization in different cases.

Therefore, throughout the training, the professional will acquire in-depth knowledge that will enable them to understand inequalities in work environments and how to work with them in order to mitigate their effects. In this sense, the role of underprivileged groups such as abused women or disabled people in the work context and the measures that can be carried out to promote the professional and personal development of these people will be addressed.

This comprehensive compendium of content is designed to be taught in 100% digital format. Therefore, you will only need an electronic device with an Internet connection, and you will have access to the largest information bank imaginable. Also, since it is in an online format, you will be the one who decides when, how, and where to study, so you will not have to give up the rest of your daily activities in order to continue your education.

This Postgraduate Certificate is held over 6 weeks and is divided into 1 module:

A unique, key, and decisive educational experience to boost your professional development”

06

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“ *You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

Our Students' Profiles

Our Postgraduate Certificate in Strategic Management of Equality and Diversity in Human Resources is a program aimed at professionals in Labor Relations, Human Resources, and Psychology who want to update their knowledge in the area of Strategic Management of Equality and Diversity in Human Resources and advance their professional career towards a promising future in this field.
