01 Welcome

The script is a fundamental part of a television program or any audiovisual product intended for public consumption. Knowing how to adapt it to the required format is a skill that must be developed by the project manager, since he/she will be in charge of putting words into action. Thus, this program will allow students to understand this process from the producer's perspective. In this way, they will be able to aspire to a relevant position in a production company of international or national prestige.

Postgraduate Certificate in Television Scriptwriting. Programs and Fiction.
TECH Global University

“

*Understand the creative process behind a script
and adapt it to the needs of the production”*

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class centre for intensive managerial skills training.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Global University

Innovation

The university offers an online learning model that combines the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"Microsoft Europe Success Story", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

100,000+
executives trained each year

200+
different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

500+ | collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning methodology (the most internationally recognized postgraduate learning methodology) with Harvard Business School case studies. A complex balance of traditional and state-of-the-art methods, within the most demanding academic framework.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH you will have access to Harvard Business School case studies"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you training of the highest academic level"

This program will provide students with a multitude of professional and personal advantages, particularly the following:

01

A significant career boost

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of participants achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of companies

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional areas.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

Take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different areas in companies.

20% of our students develop their own business idea.

07

Improve *soft* skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

Be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified professors from the most prestigious universities in the world: the TECH Global University community.

We give you the opportunity to train with a team of world renowned teachers.

04 Objectives

The program will help students develop the skills they need to know and apply different writing techniques focused on screenplays. In this way, they can be adapted to the needs of the production and the genre for which they are intended. All this to ensure the development of analytical thinking, which is the basis for performing the role of the director.

“

The audience is your greatest source of inspiration for creating unique audiovisual work"

Your goals are our goals.

We work together to help you achieve them.

Postgraduate Certificate in Television Scriptwriting. Programs and Fiction will enable the student to:

01

Understand the creative and industrial process in the development of a fiction script for television

04

Learn how a television program format is related to its writing techniques

02

Identify the different genres of television programs in order to determine the scripting techniques they require

03

Know the different tools available to a television scriptwriter

05

Understand the basics of the dynamics of a television program format

06

Gain an overview of international franchises of television program formats

07

Use a critical point of view when analyzing the various genres and formats of television programs based on their scripts

08

Know the ways to present a draft script for a television series

05

Structure and Content

The Syllabus of this Postgraduate Certificate in Television Scriptwriting. Programs and Fiction will be taught online for student convenience. This represents an advantage, since it will allow the theoretical knowledge to be put into practice almost immediately.

“

*A television script is different from a film script.
Distinguish them with this program"*

Syllabus

Postgraduate Certificate in Television Scriptwriting. Programs and Fiction of TECH Global University is an intensive program that provides students with a range of skills to meet new work challenges. Taking into account the critical thinking of a director when adapting a script.

The program is structured in such a way as to ensure the development of students' managerial competencies. In this way, they will create an appropriate strategy to learn about the tools available to a screenwriter.

During the program, a global vision of international franchises and the formats they handle will be developed in order to understand the dynamics that govern the creation of a script of these dimensions. Students will also be helped to improve their skills to present a paper to a television network's board of directors and have a favorable outcome.

Therefore, this program is focused on encouraging the student to aspire to become a prestigious director or producer. Based on innovative content and the best teaching methodology, it meets the needs and requirements of large production houses, providing the necessary skills to bring a script before a board of directors.

This Postgraduate Certificate is developed over 6 week and is divided into 1 module:

Module 1

- 1.10.3. Talent Show
- 1.10.4. Documentaries
- 1.10.5. Other Formats

With TECH you will become a multifaceted manager ready to face any challenge at work"

06

Methodology

This training program offers a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH Business School we use the Harvard case method

Our program offers a revolutionary method of skills and knowledge development. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a way of learning that is shaking the foundations of traditional universities around the world”

We are the first online university to combine Harvard Business School case studies with a 100% online learning system based on repetition.

A learning method that is different and innovative

This intensive program from TECH Global University School of Business prepares students to face all the challenges in this area, both nationally and internationally.

We are committed to promoting personal and professional growth, the best way to strive for success, that is why TECH uses Harvard case studies, with which we have a strategic agreement that allows us to provide our students with material from the best university the world.

“ *You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

Relearning Methodology

Our university is the first in the world to combine Harvard University case studies with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance Harvard case studies with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

They will complete a selection of the best business cases used at Harvard Business School. Cases that are presented, analyzed, and supervised by the best senior management specialists in Latin America.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive multimedia content presentation training Exclusive system was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises: so that they can see how they are achieving your goals.

07

International Guest Director

Awarded by Women We Admire for her leadership in the news sector, Amirah Cissé is a prestigious expert in **Audiovisual Communication**. In fact, she has spent most of her professional career managing international projects for renowned brands based on the most innovative **marketing** strategies.

In this sense, her strategic skills and ability to integrate emerging technologies into multimedia content narratives in an avant-garde way have allowed her to be part of renowned institutions on a global scale. For example **Google, NBCUniversal or Frederator Networks** in New York. In this way, her work has focused on the creation of communication campaigns for various companies, generating highly creative **audiovisual content** that connects emotionally with audiences. Thanks to this, multiple companies have succeeded in building consumer loyalty over a long period of time; while the companies have also strengthened their market presence and ensured their long-term sustainability.

It is worth noting that her extensive work experience ranges from the **production of television programs** or the creation of sophisticated **marketing techniques** to the management of visual content on the main **social networks**. At the same time, she is considered a true **strategist** who identifies culturally relevant opportunities for clients. In doing so, she has developed tactics aligned with both audience expectations and needs; enabling entities to implement cost-effective solutions.

Firmly committed to the advancement of the audiovisual industry and excellence in her daily practice, she has combined these functions with her role as a **researcher**. As such, she has written multiple scientific articles specialized in emerging areas such as the dynamics of user behavior on the Internet, the impact of **eSports** in the field of entertainment and even the latest trends to enhance **creativity**.

Ms. Cissé, Amirah

- Director of Global Client Strategy, NBCUniversal, New York, United States
- Strategy Expert at Horizon Media, New York
- Engagement Manager at Google, California
- Cultural Strategist at Spaks & honey, New York
- Account Manager at Reelio, New York
- Account Coordinator at Jun Group, New York
- Content Strategy Specialist at Frederator Networks, New York
- Researcher at the Genealogical and Biographical Society of New York
- Academic Internship in Sociology and Anthropology at Kanda Gaigo University
- Bachelor of Fine Arts with a major in Sociology from Williams College
- Certification in: Leadership Training and Executive Coaching, Marketing Research

“

Thanks to TECH, you will be able to learn with the best professionals in the world”

09

Impact on Your Career
