Postgraduate Diploma
Advanced Web Hacking

tech global university

Postgraduate Diploma
Advanced Web Hacking

- » Modality: **online**
- » Duration: **6 months**
- » Certificate: **TECH Global University**
- » Credits: **18 ECTS**
- » Schedule: **at your own pace**
- » Exams: **online**
- » Target Group: **University Graduates, Graduates and Undergraduates who have previously completed any of the degrees in the fields of Social and Legal Sciences, Administrative and Business Sciences**

Website: **www.techtitute.com/us/school-of-business/postgraduate-diploma/postgraduate-diploma-advanced-web-hacking**

Index

01
Welcome

Nowadays, companies have been forced to expand their capacity in digital areas, managing to shield confidential information. But because of this, hacking appears, being a lethal threat to companies in which websites are exposed to the mercy of any kind of fraud or theft. Due to the importance of this discipline in the business world, this program has been developed with technological tools and innovative techniques related to identifying potential vulnerabilities and strengthening the security of programming interfaces. All this, through the Relearning method and a complete 100% online platform that offers the greatest flexibility and time convenience.

Postgraduate Diploma in Advanced Web Hacking
TECH Global University

"

Register and access to a 100% online program that will allow you to address the main concepts in network architecture and security"

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class center for intensive managerial skills education.

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Global University

Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"Microsoft Europe Success Story", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

+100000
executives prepared each year

+200
different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

+500 | collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (postgraduate learning methodology with the best international valuation) with the Case Study. Tradition and vanguard in a difficult balance, and in the context of the most demanding educational itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a ground-breaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

03
Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level"

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

01

A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of students achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of the company

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional fields.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

You will take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects.

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different fields in companies.

20% of our students develop their own business idea.

07

Improve *soft skills* and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Global University community.

We give you the opportunity to study with a team of world-renowned teachers.

04
Objectives

This university program will provide students with recent updates on DOM vulnerabilities and more advanced attacks in the area of Web Hacking. Thus, the graduate will achieve his or her objectives through unique knowledge, which will add value to his or her professional career. In this way, TECH will provide didactic tools guided to the optimal development of the program, enhancing skills related to static and dynamic routing and its key concepts. Therefore, at the end of this Postgraduate Diploma, the professional will have broadened his or her competencies regarding cookies with sensitive information in only 6 months of online learning.

" *Achieve your professional goals with the Relearning methodology pioneered by TECH. Enroll and you will stand out"*

TECH makes the goals of their students their own goals too Working together to achieve them

The **Postgraduate Postgraduate Diploma in Advanced Web Hacking** qualifies student to:

01 Study and understand the tactics, techniques and procedures used by malicious actors, enabling the identification and simulation of threats

02 Apply theoretical knowledge in practical scenarios and simulations, facing real challenges to strengthen Pentesting skills

**03** Learn how to efficiently allocate resources within a cybersecurity team, considering individual skills and maximizing productivity on projects

04 Improve communication skills specific to technical environments, facilitating understanding and coordination among team members

05 Learn project monitoring and control techniques, identifying deviations and taking corrective actions as necessary

06 Develop competencies to evaluate and improve security configurations in Windows systems, ensuring the implementation of effective measures
07 Promote ethical and legal practices in the execution of attacks and tests on Windows systems, considering the ethical principles of cybersecurity

08 Familiarize the graduate with the evaluation of security in APIs and web services, identifying possible points of vulnerability and strengthening security in programming interfaces

09 Foster effective collaboration with security teams, integrating strategies and efforts to protect network infrastructure

10 Promote ethical and legal practices in malware analysis and development, ensuring integrity and accountability in all activities

11 Apply theoretical knowledge in simulated environments, participate in hands-on exercises to understand and counter malicious attacks

12 Acquire a solid understanding of the fundamental principles of digital forensic investigation (DFIR) and their application in the resolution of cyber incidents

13 Learn to prepare detailed reports documenting findings, methodologies used and recommendations derived from advanced Red Team exercises

14 Develop skills to formulate actionable and practical recommendations aimed at mitigating vulnerabilities and improving security posture

15 Familiarize the learner with best practices for executive reporting, adapting technical information for non-technical audiences

Structure and Content

The Postgraduate Diploma in Advanced Web Hacking is a degree that is primarily focused on specific skills related to session hijacking attacks and database injections. Thus, this academic program emphasizes a theoretical-practical line accompanied by the knowledge and robust experience of a highly specialized teaching staff.

"

You will master computer networks and IGP protocols with this Postgraduate Diploma. Enroll now!"

Syllabus

This university program incorporates 450 hours of online learning, where TECH, through teaching of the highest standards, will guide the graduate towards a successful professional career. In this way, you will overcome the various obstacles imposed by the IT field. The program also provides a wide range of knowledge related to the tactics, techniques and procedures used by malicious actors, enabling the identification and simulation of threats.

Therefore, the teaching team has created a curriculum that contains 3 modules, in order for the student to acquire skills around the basic concepts of Routing and Switching reaching the top in the IT and business sector.

Thus, the students who take this Postgraduate Diploma will be introduced to competencies related to NoSQLi injections. In this sense, the graduate will become a great specialist in promoting ethical and legal practices in the execution of attacks and tests on Windows systems.

For this academic program, negotiators will use the exclusive Relearning methodology. Through it, they will be able to examine complex concepts and assimilate their daily application in an instantaneous way. At the same time, the program is taught from an innovative 100% online learning platform that is not subject to fixed schedules or continuous evaluation chronograms.

This Postgraduate Diploma takes place over 6 months and is divided into 3 modules.

Module 1	Advanced Web Hacking
Module 2	Network Architecture and Security
Module 3	Technical and Executive Report

Where, When and How is it Taught?

TECH offers the possibility of developing this Postgraduate Diploma in Advanced Web Hacking completely online. Throughout the 6 months of the educational program, you will be able to access all the contents of this program at any time, allowing you to self-manage your study time.

A unique, key, and decisive educational experience to boost your professional development and make the definitive leap.

Module 1. Advanced Web Hacking

1.1. Operation of a Website
1.1.1. The URL and Its Parts
1.1.2. HTTP Methods
1.1.3. The Headers
1.1.4. How to View Web Requests with Burp Suite

1.2. Session
1.2.1. Cookies
1.2.2. JWT Tokens
1.2.3. Session Hijacking Attacks
1.2.4. Attacks on JWT

1.3. Cross Site Scripting (XSS)
1.3.1. What is a XSS
1.3.2. Types of XSS
1.3.3. Exploiting an XSS
1.3.4. Introduction to XSLeaks

1.4. Database Injections
1.4.1. What Is a SQL Injection
1.4.2. Exfiltrating Information with SQLi
1.4.3. SQLi Blind, Time-Based and Error-Based
1.4.4. NoSQLi Injections

1.5. Path Traversal and Local File Inclusion
1.5.1. What They Are and Their Differences
1.5.2. Common Filters and How to Bypass Them
1.5.3. Log Poisoning
1.5.4. LFIs in PHP

1.6. Broken Authentication
1.6.1. User Enumeration
1.6.2. Password Bruteforce
1.6.3. 2FA Bypass
1.6.4. Cookies with Sensitive and Modifiable Information

1.7. Remote Command Execution
1.7.1. Command Injection
1.7.2. Blind Command Injection
1.7.3. Insecure Deserialization PHP
1.7.4. Insecure Deserialization Java

1.8. *File Uploads*
1.8.1. RCE through Webshells
1.8.2. XSS in File Uploads
1.8.3. XML External Entity (XXE) Injection
1.8.4. Path traversal in File Uploads

1.9. Broken *Access Control*
1.9.1. Unrestricted Access to Panels
1.9.2. Insecure Direct Object References (IDOR)
1.9.3. Filter Bypass
1.9.4. Insufficient Authorization Methods

1.10. DOM Vulnerabilities and More Advanced Attacks
1.10.1. Regex Denial of Service
1.10.2. DOM Clobbering
1.10.3. Prototype Pollution
1.10.4. HTTP Request Smuggling

Module 2. Network Architecture and Security

2.1. Computer Networks
2.1.1. Basic Concepts: LAN, WAN, CP, CC Protocols
2.1.2. OSI and TCP/IP Model
2.1.3. Switching: Basic Concepts
2.1.4. Routing: Basic Concepts

2.2. Switching
2.2.1. Introduction to VLAN's
2.2.2. STP
2.2.3. EtherChannel
2.2.4. Layer 2 Attacks

2.3. VLAN´s
2.3.1. Importance of VLAN's
2.3.2. Vulnerabilities in VLAN's
2.3.3. Common Attacks on VLAN's
2.3.4. Mitigations

2.4. Routing
2.4.1. IP Addressing - IPv4 and IPv6
2.4.2. Routing: Key Concepts
2.4.3. Static Routing
2.4.4. Dynamic Routing: Introduction

2.5. IGP Protocols
2.5.1. RIP
2.5.2. OSPF
2.5.3. RIP vs OSPF
2.5.4. Topology Needs Analysis

2.6. Perimeter Protection
2.6.1. DMZs
2.6.2. Firewalls
2.6.3. Common Architectures
2.6.4. Zero Trust Network Access

2.7. IDS and IPS
2.7.1. Features
2.7.2. Implementation
2.7.3. SIEM and SIEM CLOUDS
2.7.4. Detection based on HoneyPots

2.8. TLS and VPN´s
2.8.1. SSL/TLS
2.8.2. TLS: Common Attacks
2.8.3. VPNs with TLS
2.8.4. VPNs with IPSEC

2.9. Security in Wireless Networks
2.9.1. Introduction to Wireless Networks
2.9.2. Protocols
2.9.3. Key Elements
2.9.4. Common Attacks

2.10. Business Networks and How to Deal with Them
2.10.1. Logical Segmentation
2.10.2. Physical Segmentation
2.10.3. Access Control
2.10.4. Other Measures to Take into Account

Module 3. Technical and Executive Report

3.1. Report Process
3.1.1. Report Structure
3.1.2. Report Process
3.1.3. Key Concepts
3.1.4. Executive vs Technical

3.2. Guidelines
3.2.1. Introduction
3.2.2. Guide Types
3.2.3. National Guides
3.2.4. Case Uses

3.3. Methods
3.3.1. Assessment
3.3.2. *Pentesting*
3.3.3. Common Methodologies Review
3.3.4. Introduction to National Methodologies

3.4. Technical Approach to the Reporting Phase
3.4.1. Understanding the Limits of Pentester
3.4.2. Language Usage and Clues
3.4.3. Information Presentation
3.4.4. Common Errors

3.5. Executive Approach to the Reporting Phase
3.5.1. Adjusting the Report to the Context
3.5.2. Language Usage and Clues
3.5.3. Standardization
3.5.4. Common Errors

3.6. OSSTMM
3.6.1. Understanding the Methodology
3.6.2. Assessment
3.6.3. Documentation
3.6.4. Creating a Report

3.7. LINCE
3.7.1. Understanding the Methodology
3.7.2. Assessment
3.7.3. Documentation
3.7.4. Creating a Report

3.8. Reporting Vulnerabilities
3.8.1. Key Concepts
3.8.2. Scope Quantification
3.8.3. Vulnerabilities and Evidence
3.8.4. Common Errors

3.9. Focusing the Report on the Customer
3.9.1. Importance of Job Testing
3.9.2. Solutions and Mitigations
3.9.3. Sensitive and Relevant Data
3.9.4. Practical Examples and Cases

3.10. Reporting Retakes
3.10.1. Key Concepts
3.10.2. Understanding Legacy Information
3.10.3. Error Checking
3.10.4. Adding Information

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning.**

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

"At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

This program prepares you to face business challenges in uncertain environments and achieve business success.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments"

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

01 learning from evidence

02 relearning from evidence

03 testing

04 learning from an expert

05 neurocognitive context dependent learning

06 Von-Restorff effect

07 case based learning through storytelling

08 competencies testing (retesting)

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically. With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

Our Students' Profiles

The Postgraduate Diploma is aimed at University Graduates and Undergraduates who have previously completed any of the following degrees in the field of Social and Legal Sciences, Administrative and Economics.

The diversity of participants with different academic profiles and from multiple nationalities makes up the multidisciplinary approach of this program.

The Postgraduate Diploma can also be taken by professionals who, being university graduates in any area, have two years of work experience in the field of information technology.

If you have experience in Advanced Web Hacking, and you are looking for an interesting improvement in your career while continuing to work, this is the program for you"

Juana María Jiménez

IT Auditor

"Technology has advanced immensely that currently in the Business sector is required to be at the forefront in cybersecurity, so this program provided me with solid knowledge in identifying vulnerabilities in web applications, how to solve and update them, preventing all kinds of cyber threats"

Course Management

This Postgraduate Diploma integrates a team of specialists with extensive experience and essential knowledge in software and information society technologies, web hacking, Active Directory and malware development. Thus, educational excellence is reflected in a dynamic and innovative curriculum, including the latest trends in cybersecurity. In this way, simulated cases and the study of real situations are implemented so that students incorporate an elite praxis, providing them with the resources to take on professional challenges in the field of web operation.

Top TECH educators have compiled the most advanced concepts and tools in unrestricted panel access in this comprehensive program"

Management

Mr. Carlos Gómez Pintado

- Manager of Cybersecurity and Network Team Cipherbit in Oesía Group
- Manager *Advisor & Investor* at Wesson App
- Graduate in Software Engineering and Information Society Technologies, Universidad Politécnica de Madrid
- Collaboration with educational institutions for the development of Higher Level Training Cycles in cybersecurity

Professors

Mr. Marcelino Siles Rubia

- Cibersecurity Engineer
- Cybersecurity Engineering at the Rey Juan Carlos University
- Knowledge: Competitive Programming, Web Hacking, Active Directory, and Malware Development
- AdaByron Contest Winner

Mr. Pablo Redondo Castro

- Pentester in Oesia Group
- Cybersecurity Engineer from Rey Juan Carlos University
- Extensive experience as a Cybersecurity Evaluator Traineer
- He has accumulated teaching experience, giving programs related to Capture The Flag tournaments

Impact on Your Career

This academic itinerary has been developed with the objective of implementing in the professional the knowledge that will prepare them to deal with the necessary and most challenging situations in the IT field. Likewise, TECH focuses in detail on first level education, seeking efficiency in each of its programs. In this way, the graduate will have the certainty of acquiring specialized learning in IP-IPv4 and IPv6 addressing.

"

Join TECH in this academic itinerary and you will be able to incorporate the latest developments in Technical and Executive Reporting"

Are you ready to take the leap?
### Excellent professional development awaits you

TECH's Postgraduate Diploma in Advanced Web Hacking is an intensive program that prepares you to face business challenges and decisions in the IT field. The main objective is to promote your personal and professional growth. Helping you achieve success.

If you want to improve yourself, make a positive change at a professional level, and network with the best, then this is the place for you.

A program without predetermined schedules that will allow you to access, review or download its contents freely from any device connected to the Internet.

You will gain access to cybersecurity strategy with a cutting-edge IT approach thanks to this comprehensive, 100% online syllabus.

10
Benefits for Your Company

This program contributes to elevating the organization's talent to its maximum potential through the instruction of high-level leaders.

In addition, participating in this university option is a unique opportunity to access a powerful network of contacts in which to find future professional partners, customers or suppliers.

" *In the digital era, managers must integrate new processes and strategies that bring about significant changes and organizational development. This is only possible through university training and updating"*

Developing and retaining talent in companies is the best long-term investment.

01

Growth of talent and intellectual capital

The professional will introduce the company to new concepts, strategies, and perspectives that can bring about significant changes in the organization.

02

Retaining high-potential executives to avoid talent drain

This program strengthens the link between the company and the professional and opens new avenues for professional growth within the company.

03

Building agents of change

You will be able to make decisions in times of uncertainty and crisis, helping the organization overcome obstacles.

04

Increased international expansion possibilities

Thanks to this program, the company will come into contact with the main markets in the world economy.

tech

05 Project Development

The professional can work on a real project or develop new projects in the field of R & D or business development of your company.

06 Increased competitiveness

This program will equip students with the skills to take on new challenges and drive the organization forward.

11
Certificate

The Postgraduate Diploma in Web Hacking Advanced guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Diploma issued by TECH Global University.

" *Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork"*

This program will allow you to obtain your **Postgraduate Diploma in Advanced Web Hacking** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University is an official European University publicly recognized by the Government of Andorra (*official bulletin*). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.
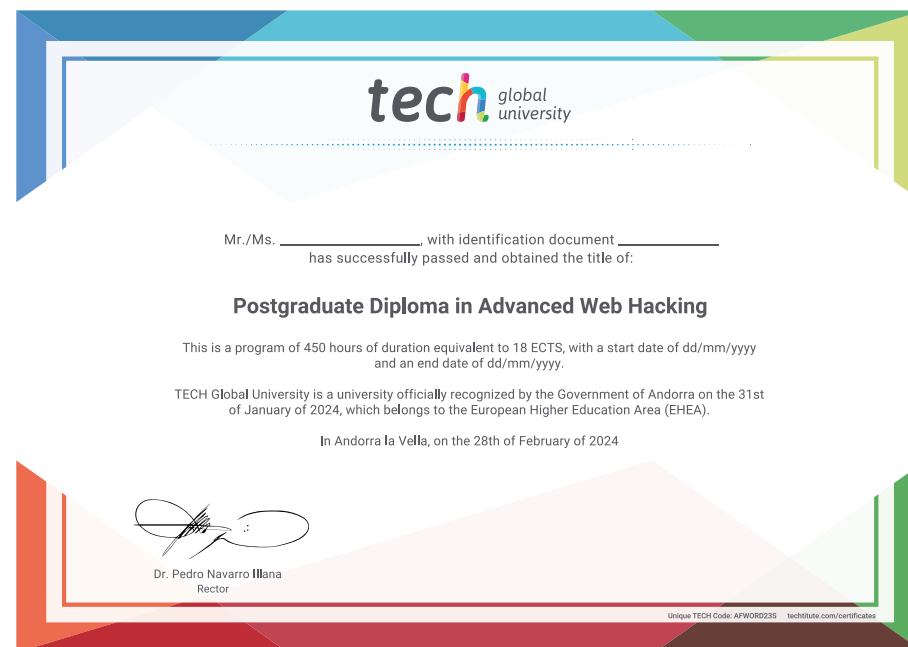

This **TECH Global University** title is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.
