01 Welcome

The fashion, beauty and luxury sector is constantly fluctuating and, consequently, its correct approach in the communicative field needs continuous updating by professionals in the sector. Therefore, this program will approach the concept of fashion and its relationship with communication, as well as the evolution of the industry and its main changes in the 21st century, taking into account the new trends in the sector. In the same way, the program will also study the management of appearance and communication at a global level within the fashion industry in order to understand the patterns that work best in this regard and provide the professional with the necessary skills to generate powerful and attractive communications for consumers. Likewise, the correct management of communication in these sectors will also be addressed in order to achieve optimal results for the company.

Postgraduate Diploma in Fashion, Beauty and Luxury Business Communication.
TECH Technological University

“

The Postgraduate Diploma program designed by TECH will provide you with the necessary tools to manage the communication of companies in the fashion and beauty sector in an excellent way"

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (a postgraduate learning methodology with the highest international rating) with the Case Study. A complex balance between tradition and state-of-the-art, within the context of the most demanding academic itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a ground-breaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case studies in the academic community"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you training of the highest academic level"

This program will provide students with a multitude of professional and personal advantages, particularly the following:

01

A significant career boost

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of participants achieve positive career development in less than 2 years.

02

05

Structure and Content

The Postgraduate Diploma in Fashion, Beauty and Luxury Business Communication at TECH is a customized program that is taught in a 100% online format so that you can choose the time and place that best suits your availability, schedule and interests. A program that takes place over 6 months and is intended to be a unique and stimulating experience that lays the foundation for your success in the management of business reputation.

“

TECH focuses on enhancing and developing management and leadership skills in the field of communication. Thus, you will be able to select, train and motivate effective and high-performance work teams"

Syllabus

The contents of this Postgraduate Diploma are led by professionals in the areas of communication, who work in companies in the fashion and beauty sector. This teaching team pours into this program their experience and, therefore, their realistic and close vision of the professional reality, in a conscious and proactive way.

Throughout the syllabus, all the aspects of communication management in companies in the fashion, beauty and luxury sector will be analyzed, with the aim of providing the student with an in-depth knowledge of how these departments work and how to manage them optimally.

A journey that will lead students to recognize the strategies that enhance the results of companies in these sectors and that will allow them to use the most effective means to implement successful action plans.

All of this development, under the guidance of professionals recognized and valued worldwide, in order to learn from the best, with the best learning system and a stimulating and attractive training process.

Another key to the success of this program is the possibility of being the student themselves who decides how to organize his learning: from the time, to the place and intensity of study. In this way, the institution ensures that this effort is fully compatible with personal and professional life. So that the student never loses motivation.

In this sense, the program is 100% online, although the student will be able to download the contents, to continue offline if desired. In addition, the student will have illustrative videos, review audios, an online library with complementary material and the help and support of a tutor throughout the process.

This Postgraduate Diploma takes place over 6 months and is divided into 3 modules:

- 3.10.2 Inspiration and Aspirations of the Fashion Industry
- 3.10.3 Reordering the Fashion Universe: Content for the Whole Community 4.10.4.

06

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“*At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world*”

This program prepares you to face business challenges in uncertain environments and achieve business success.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“ *You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

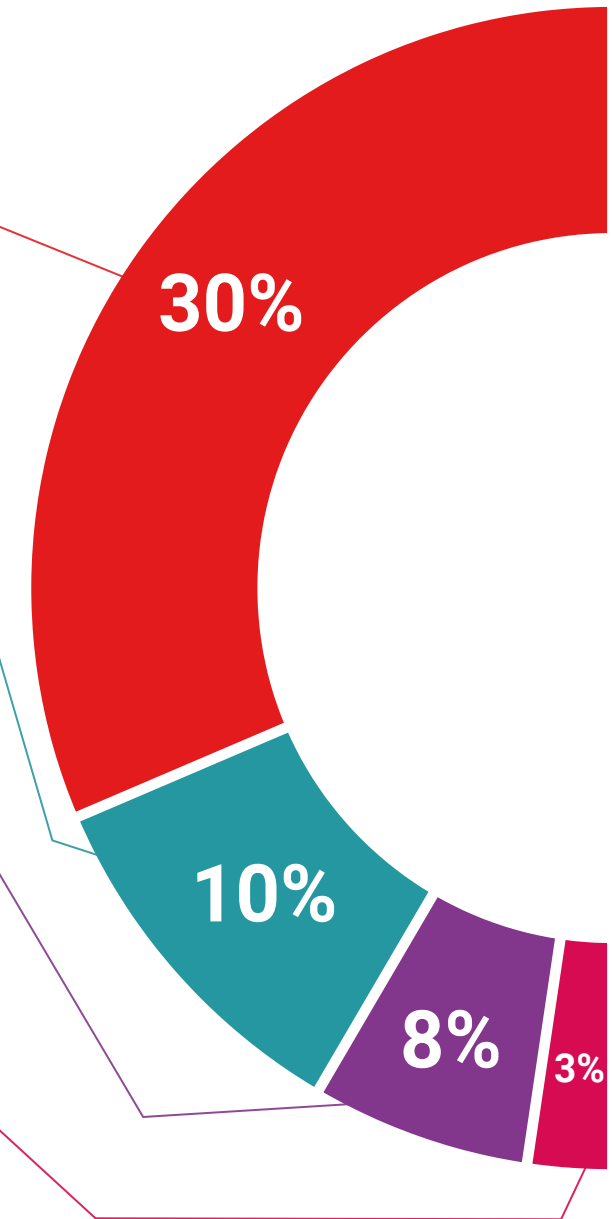

Management Skills Exercises

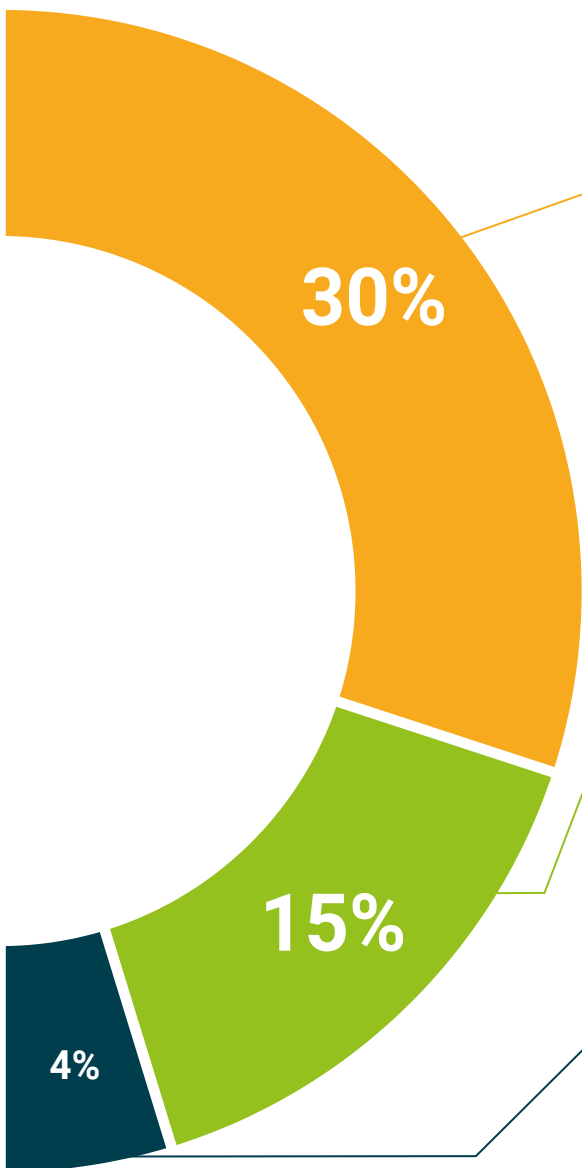

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

**Case Studies**

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

**Interactive Summaries**

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

**Testing & Retesting**

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

Our Students' Profiles

The Postgraduate Diploma in Fashion, Beauty and Luxury Business Communication is a program aimed at those professionals who are looking for an increase in their qualifications in this area and an improvement in their possibilities in the labor field.

International Guest Director

With an extensive career in the Fashion and Luxury sector, Dr. Eleonora Cattaneo stands out internationally for her contributions as a consultant to globally renowned brands. This renowned expert has been involved with some of the most powerful Fortune 500 companies such as Fiat, CNH Industrial, Renault and Nestlé, among others.

For years, the researcher has investigated the socio-cultural contexts linked to luxury and the ways in which the most prestigious companies in this field create meanings and enhance their products or services. Her most recent book, *Managing Luxury Brands*, also shows her interest in analyzing the environmental and social influence of this industry, as well as the opportunities that current technological innovations offer to this field.

At the same time, Dr. Cattaneo has collaborated as Internal Advisor to several Marketing Directors for various corporations. In this way, she has provided information and support in the deployment of new market entry strategies, brand repositioning and product launches. On the other hand, international communications is another of her most experienced fields of work.

Based on her extensive training, the specialist was selected to lead the Luxury and Guest Experience Management Program at the renowned Glion Institute in Switzerland. In this institution of reference for the entire European business network, the expert has supported the development of interpersonal and professional skills in corporate leaders from all over the world. Prior to this position, she was Director of Executive Programs for the Swiss Education Group and Regent's University of London.

As for her academic background, Cattaneo holds a Doctorate in Marketing from the University of Pavia, Italy, and an MBA from the SDA Bocconi School of Management.

Dr. Cattaneo, Eleonora

- Director of the Luxury and Guest Experience Management Program at the Glion Institute, Switzerland
 - Director of Executive Programs at the Swiss Education Group
 - Head of the Luxury Brand Management Program at Regent's University of London
 - Professor of International Marketing at the University Institute Carlo Cattaneo
 - Consultant to brands such as Fiat, CNH Industrial, Renault and Nestlé and other Fortune 500 brands
