Welcome

The foreign exchange market is constantly growing, driven not only by international stock market activity, but also by the development of new technologies and the rise of digital trading. Thus, the figure of the broker as a trading specialist has been transformed, having to adapt his profile to the strategies required for good Forex trading, as well as to the management of the platforms and tools currently offered. This program contains all the necessary information that the professional must master in order to successfully lead technical analysis and planning in foreign exchange. A unique opportunity to focus your career in a booming sector through a 100% online academic experience designed by experts in Economics and Finance.

Postgraduate Diploma in Forex Trading.
TECH Technological University

“

You are only 6 months away from mastering the main trading strategies applied to Forex, are you going to miss the opportunity to achieve it?"

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class center for intensive managerial skills education.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"*Microsoft Europe Success Story*", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

+100000

executives prepared each year

+200

different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

+500

collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (postgraduate learning methodology with the best international valuation) with the Case Study. Tradition and vanguard in a difficult balance, and in the context of the most demanding educational itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a ground-breaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level”

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

01

A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of students achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of the company

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional fields.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

You will take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects.

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different fields in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to study with a team of world-renowned teachers.

04 Objectives

TECH is committed to the professional growth of its graduates. That is why it designs complete and comprehensive degrees, in order to provide them with all the information and academic material they need to progress towards their own professional goals. An example of this is this Postgraduate Diploma in Forex Trading, which includes the most innovative content related to currency exchange, the most effective strategies in today's digital environment and the best guidelines for technical analysis applied to Forex.

“

Continue to grow professionally through a Postgraduate Diploma program designed with the objective of mastering Forex Trading 100% online"

TECH makes the goals of their students their own goals too.
Working together to achieve them.

The Postgraduate Diploma in Forex Trading will train students to:

01

Evaluate the different tools and features available on trading platforms, such as charting and technical analysis, and how they can assist in decision making

04

Develop skills in swing trading, including the use of longer time frames, chart pattern identification and long-term position management

02

Develop practical skills in the use of trading platforms, from account opening to trade execution and risk management

03

Develop practical skills in the use of trading platforms, from opening an account to trade execution and risk management

05

Analysing market environments

06

Identify confluence zones as entry points

08

Identify chart entries according to trigger and volume patterns

09

Develop skills to build and test trading systems based on technical indicators, to maximize efficiency and minimize risk

07

Making input assumptions on different graphs

10

Acquire knowledge of risk management in Forex trading and how to use technical indicators to set stop-loss and take-profit levels to protect your investments and maximize your profits

05

Structure and Content

With this Postgraduate Diploma in Forex TECH Trading you guarantee 600 hours of the best theoretical, practical and additional content 100% online. It has been designed according to the highest academic standards, as well as being based on the immediate current state of the foreign exchange market. In addition, you can access it from any device with an internet connection, whether it is a PC, tablet or mobile phone.

“

You will be able to download the content of this program and consult it on any device, even when you don't have an internet connection”

Syllabus

The syllabus of this Postgraduate Diploma in Forex Trading has been designed by the teaching team following the most demanding quality and exhaustive guidelines that define and differentiate TECH. As a result, graduates who choose to take this program will have access to diverse and innovative content, carefully selected and adapted to the latest academic technology.

The 600 hours of theoretical, practical and additional material include a detailed review of the figure of the broker, as well as the main platforms that currently exist for Forex trading. At the same time, the student will be able to delve into trading and technical analysis of currency exchange, knowing the best strategies to achieve it.

All of this is 100% online through a state-of-the-art platform which you can access from any device with an internet connection and with the possibility of downloading all the content for consultation, even when you do not have coverage. This is a unique opportunity to enhance the student's professional profile, motivating them to become a successful manager.

This Postgraduate Diploma takes place over 6 months and is divided into 4 modules:

Module 1 / The broker. Forex trading platforms

A unique, key, and decisive educational experience to boost your professional development and make the definitive leap.

Module 1. The Broker Forex trading platforms

1.1. Brokers

- 1.1.1. Forex Brokers
- 1.1.2. Stock Brokers
- 1.1.3. Futures Brokers

1.2. Brokers Types and classification

- 1.2.1. Brokers Market Maker
- 1.2.2. ECN Brokers
- 1.2.3. STP Brokers

1.3. Broker Selection

- 1.3.1. Selection of the correct Broker Importance
- 1.3.2. Products and markets
- 1.3.3. Customer Service
- 1.3.4. Commissions
- 1.3.5. Safety and security

1.4. Buy or sell. Order Types

- 1.4.1. Market orders
- 1.4.2. Limited orders
- 1.4.3. Stop orders
- 1.4.4. Stop limit orders

1.5. Regulation in Trading

- 1.5.1. Regulation in Trading. Importance
- 1.5.2. Regulatory bodies
- 1.5.3. Investor protection

1.6. Impact of commissions

- 1.6.1. Types of commissions: per trade, swaps or spreads
- 1.6.2. How to compare commissions between different brokers
- 1.6.3. Strategies to minimize the impact of fees and commissions

1.7. MetaTrader. Installation

- 1.7.1. MetaTrader. Why it is popular in trading
- 1.7.2. System requirements to install MetaTrader
- 1.7.3. Access to the MetaTrader trading account

1.8. MetaTrader. Use of the platform

- 1.8.1. Navigating the platform: user interface and customising the view
- 1.8.2. Account set-up: connection to a broker, creation of a trading account and deposit of funds
- 1.8.3. Charting and technical analysis: use of different types of charts, technical indicators, analysis tools and setting up alerts
- 1.8.4. Trade execution: opening, closing and modification of orders and management of open positions
- 1.8.5. Use of expert advisors

1.9. Ninjatrader. Installation

- 1.9.1. Download and installation of the platform
- 1.9.2. Download the platform
- 1.9.3. Connection to a broker
- 1.9.4. Platform configuration

1.10 Ninjatrader. Use of the platform

- 1.10.1. Navigating the platform
- 1.10.2. Charts and technical analysis
- 1.10.3. Execution of operations
- 1.10.4. Risk Management
- 1.10.5. Trading history and statistics

Module 2. Forex Trading
2.1. Trading fundamentals

- 2.1.1. Planning
- 2.1.2. Risk Management
- 2.1.3. Discipline: the key to success
- 2.1.4. Patience and continuous learning

2.2. Scalping

- 2.2.1. Scalping
- 2.2.2. Scalping strategies
- 2.2.3. Advantages and Disadvantages
- 2.2.4. Selection of entry and exit times

2.3. Daytrading

- 2.3.1. Daytrading
- 2.3.2. Strategies for daytrading
- 2.3.3. Daytrading. Advantages of disadvantages
- 2.3.4. Selection of entry and exit times

2.4. Swingtrading

- 2.4.1. Swingtrading
- 2.4.2. Swingtrading strategies
- 2.4.3. Advantages of disadvantages
- 2.4.4. Selection of entry and exit times

2.5. Bear markets. How to take advantage

- 2.5.1. How to trade short
- 2.5.2. The risk of volatility
- 2.5.3. Long-term vision
- 2.5.4. Advantages and disadvantages of this type of strategy

2.6. Impact of economic news on trading

- 2.6.1. Monetary Policy
- 2.6.2. Employment data
- 2.6.3. Economic growth reports
- 2.6.4. Inflation
- 2.6.5. Fiscal Policy

2.7. Capital management of a professional trader

- 2.7.1. Budgeting
 - 2.7.1.1. Limit your losses
 - 2.7.1.2. Diversify your risk
 - 2.7.1.3. Set a profit target
- 2.7.2. Adjusting the size of the position
- 2.7.3. Monitoring performance

2.8. Derivatives trading: CFDs and futures

- 2.8.1. Financial derivatives
- 2.8.2. Operation of derivatives
- 2.8.3. Uses of derivatives
- 2.8.4. How to trade financial derivatives
- 2.8.5. Risk

2.9. Fundamental Analysis in Trading

- 2.9.1. Fundamental analysis. Not everything is technical analysis
- 2.9.2. Key indicators to be analysed
- 2.9.3. Financial documents to be analysed
- 2.9.4. How to know if a company has the prospect of growth
- 2.9.5. Internal and External Analysis. Basis of analysis
- 2.9.6. Financial ratios

2.10. Fundamental Analysis in Forex Trading

- 2.10.1. Fundamental analysis for foreign exchange
- 2.10.2. How to apply fundamental analysis in the forex market
- 2.10.3. Calendar and economic news
- 2.10.4. Inflation, CPI, GDP and interest rates

Module 3. Technical analysis applied to Forex

3.1. Principles of technical analysis

- 3.1.1. Technical analysis
- 3.1.2. What is an indicator
- 3.1.3. Advantages and disadvantages of technical analysis

3.2. Selection of charts applied to Forex

- 3.2.1. Bar charts
- 3.2.2. Line graphs
- 3.2.3. Japanese candlestick charts

- 3.3.1. Confluence
- 3.3.2. Types of confluences
- 3.3.3. Layout of the confluence zones
- 3.3.4. Price behaviour on confluence

3.4. Market environments

- 3.4.1. Upward trending market environment
- 3.4.2. Bearish market environment
- 3.4.3. Sideways market environment

3.5. Price Dynamics Analysis: graphing

- 3.5.1. Reference chart above. Diary
- 3.5.2. Market environment chart. 4H
- 3.5.3. Analysis chart. 30 minutes
- 3.5.4. Trigger graph. 5 minutes

3.6. Chartism

- 3.6.1. Chartism Principle. The trend
- 3.6.2. Trend Continuation Charts
- 3.6.3. Trend Exhaustion Charts

3.7. Operating hours

- 3.7.1. European stock market hours
- 3.7.2. US stock market hours
- 3.7.3. Asian stock market hours

3.8. Asset selection

- 3.8.1. Asset selection. How it helps the trader
- 3.8.2. *Screeners*
- 3.8.3. Main search filters

3.9. Candlestick patterns

- 3.9.1. How to read a Japanese candle
- 3.9.2. Patterns of trend change
- 3.9.3. Patterns of continuation

3.10. Market volume. Importance

- 3.10.1. Trading volume
- 3.10.2. How volume accompanies the trend
- 3.10.3. Volume in the different assets

Module 4. Forex Trading Strategies**4.1. Technical indicators**

- 4.1.1. Technical indicators. Operation
- 4.1.2. Why traders use technical indicators
- 4.1.3. Types of technical indicators

4.2. Strategies according to time frame

- 4.2.1. Forex Scalping
- 4.2.2. Daytrading in Forex
- 4.2.3. Forex Swingtrading

4.3. Divergences and convergences

- 4.3.1. Divergence
- 4.3.2. Convergence
- 4.3.3. Types of divergences and convergences
- 4.3.4. How to exploit divergences
- 4.3.5. Advanced Strategies

4.4. Elliot Wave Dynamics

- 4.4.1. Elliot waves
- 4.4.2. Impulses
- 4.4.3. Corrections

4.5. Fibonacci Retracement. Projections

- 4.5.1. Fibonacci numbers
- 4.5.2. Fibonacci Relationships in Trading
- 4.5.3. Fibonacci Retracements and Extensions
- 4.5.4. How to plot Fibonacci levels on the chart
- 4.5.5. Tips when plotting Fibonacci retracements
- 4.5.6. How to trade Fibonacci retracements
- 4.5.7. Fibonacci extensions for calculating profit-taking targets

4.6. Market profile

- 4.6.1. The market profile
- 4.6.2. Market profile How it is used
- 4.6.3. Advantages and Disadvantages
- 4.6.4. Operation
- 4.6.5. Market profile study
- 4.6.6. Main patterns

4.7. Support and resistance

- 4.7.1. Support and resistance
- 4.7.2. Analysis of support and resistance
- 4.7.3. Main strategies

4.8. Channel or sideways trading

- 4.8.1. Breakout trading
- 4.8.2. The study of levels in Forex
- 4.8.3. The carry trade
- 4.8.4. Main strategies

4.9. Trending trading

- 4.9.1. Moving averages
- 4.9.2. Analysis of cross-over averages
- 4.9.3. Donchian
- 4.9.4. Trend strategies

4.10. Other technical indicators. Strategies

- 4.10.1. Stochastic oscillator
- 4.10.2. Bollinger bands
- 4.10.3. Relative Strength Index (RSI)
- 4.10.4. Ichimoku Cloud
- 4.10.5. Average Directional Movement Index (ADX)

Become a successful broker with a program designed to make you a guaranteed success"

06

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“

You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story"

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

Our Students' Profiles

The Postgraduate Diploma is aimed at university graduates, diploma holders and university graduates who have previously completed any of the following degrees in the field of Social and Legal Sciences, Administration and Economics.

This program uses a multidisciplinary approach as the students have a diverse set of academic profiles and represent multiple nationalities.

Benefits for Your Company

This program helps to elevate the organisation's talent to its full potential by coaching high-level leaders.

Moreover, participating in this university option is a unique opportunity to access a powerful network of contacts in which to find future professional partners, clients or suppliers.

“

In the digital age, managers must integrate new processes and strategies that bring about significant change and organizational development. This is only possible through university training and updating”

Developing and retaining talent in companies is the best long-term investment.

01

Growth of talent and intellectual capital

The professional will introduce the company to new concepts, strategies, and perspectives that can bring about significant changes in the organization.

02

Retaining high-potential executives to avoid talent drain

This program strengthens the link between the company and the professional and opens new avenues for professional growth within the company.

03

Building agents of change

You will be able to make decisions in times of uncertainty and crisis, helping the organization overcome obstacles.

04

Increased international expansion possibilities

Thanks to this program, the company will come into contact with the main markets in the world economy.

05

Project Development

The professional can work on a real project or develop new projects in the field of R & D or business development of your company.

06

Increased competitiveness

This program will equip students with the skills to take on new challenges and drive the organization forward.

11
