01 Welcome

The information product of a communication company defines what it is like, its values and commitments. In short: it is its image. That is why the professionals in charge of managing this area must know in detail not only the entity, but also the sector, with the objective of adapting to the requirements and the demand that will help them lead the company on the road to success. In this program, you will find, precisely, all the information that will allow you to achieve this objective, through a new and up-to-date syllabus. A program designed by experts in the communication sector and developed entirely online, so that graduates can organize their educational experience without having to give up their professional life.

Postgraduate Diploma in Media and Information Product Management.
TECH Global University

“

The best opportunity to become an expert in managing the information product of a communication company is in this qualification, are you going to let it pass you by?”

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class centre for intensive managerial skills training.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Global University

Innovation

The university offers an online learning model that combines the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"Microsoft Europe Success Story", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

100,000+
executives trained each year

200+
different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

500+ | collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (a postgraduate learning methodology with the highest international rating) with the Case Study. A complex balance between tradition and state-of-the-art, within the context of the most demanding academic itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case studies in the academic community"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you training of the highest academic level"

This program will provide students with a multitude of professional and personal advantages, particularly the following:

01

A significant career boost

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of participants achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of companies

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional areas.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

Take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different areas in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

Be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified professors from the most prestigious universities in the world: the TECH Global University community.

We give you the opportunity to train with a team of world renowned teachers.

04 Objectives

The development of this Postgraduate Diploma in Media and Information Product Management has been carried out with the aim that the graduates find, in a single qualification, the keys that allow them to improve professionally and acquire the skills and competencies of a director. Additionally, the purpose of all the qualifications presented by TECH is to help its students, through the best programs, to achieve their highest and most ambitious career aspirations.

“

An in-depth knowledge of the media, both traditional and digital, will help you develop business strategies adapted to the characteristics of each one”

**TECH makes the goals of their students their own goals too.
We work together in order to achieve them.**

The **Postgraduate Diploma in Media and Information Product Management** will enable students to:

01

Define the latest trends developments in business management

02

Build a plan for the development and improvement of personal and managerial skills

03

Develop strategies to carry out decision-making in a complex and unstable environment

04

Develop the ability to detect, analyze and solve and problem solving

05

Gain knowledge about all the techniques to manage a communication company

06

Successfully manage different types of information products

05

Orientation towards the Consumer 4.6.3. 1 to 1 Planning	4.7. Research Project Management 4.7.1. Information Analysis Tools 4.7.2. Developing an Expectation Management Plan 4.7.3. Assessing the Feasibility of Projects	4.8. Online Market Research 4.8.1. Quantitative Research Tools in Online Markets 4.8.2. Dynamic Qualitative Customer Research Tools
4.9. Study of Traditional Audiences 4.9.1. Audience Measurement Origin. Basic Concepts 4.9.2. How are Traditional Audiences Measured? 4.9.3. EGM and Kantar Media	4.10. Internet Audience Studies 4.10.1. The Social Audience 4.10.2. Measuring Social Impact: Tuitele 4.10.3. Barlovento and IAB Spain		

06

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“*At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world*”

This program prepares you to face business challenges in uncertain environments and achieve business success.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“

You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

Our Students' Profiles

This Postgraduate Diploma in Media and Information Product Management is a program aimed at university graduates who have previously studied Journalism or Communication, as well as in the field of Social Sciences or Business Administration and who want to make a qualitative leap in their professional careers. Either as active businessmen or as future entrepreneurs. This program uses a multidisciplinary approach as the students have a diverse set of academic profiles and represent multiple nationalities.

“

If your goal is to obtain a qualification that will open the doors to professional improvement in the short and long term, this Postgraduate Diploma will provide you with the knowledge and skills to achieve it"

Average Age

Between **35** and **45** years old

Regina Rodríguez

Manager of a Communication Company

"I had been unemployed for months and one day, looking for qualifications that would allow me to improve my CV, I discovered this one. I can only say that shortly after finishing the most incredible and enriching educational experience I have ever had, I had the opportunity to apply for a management position in a communications company. I got the job and the best part: I discovered that everything I had learned during this Postgraduate Diploma I was applying in my new position"

08

Course Management

This qualification is directed by communication experts with extensive experience in the management of different areas within the media business sector. Additionally, as they are active professionals, they will provide this Postgraduate Diploma with a critical and realistic vision that will serve as a guide for the graduate, not only to contextualize the information developed in the syllabus, but also to get a close look at the day-to-day workings of the industry.

“

The teaching staff will be at your disposal to guide you. You will be able to arrange personalized tutorials and resolve any questions that may arise during the course of your qualification”

International Guest Director

With a strong background in Communications and Marketing, Bianca Freedman has served as Chief Executive Officer (CEO) of Edelman's Canada division, where she has led strategy, operations and culture in the region. In fact, she has played a crucial role in the evolution, promotion and protection of brands and reputations in a dynamic media environment. In addition, she has been one of the Executive Positioning experts within Edelman's global network, a critical area where business leaders are increasingly in demand.

She has also held other prominent positions at Edelman, including Chief Operating Officer (COO) and General Manager. In these roles, she has led some of the organization's most important and complex projects in both the private and public sectors, working with some of the country's most prestigious companies to transform their presence with employees, customers and shareholders.

Bianca Freedman's career has also included positions at InfinityComm Inc. as Account and Public Relations Manager, as well as at Credit Valley Hospital, where she has served as Marketing and Communications Coordinator. She has also held Marketing, Public Relations and Social Media Manager roles at Walmart, where she has been instrumental in communications innovation, both in Canada and in the San Francisco Bay Area, alongside the company's global e-commerce group.

Notably, as an active member of the community, she has served on the Humber PR Advisory Board and volunteers with the Community Association for Riders with Disabilities (CARD). And she is fully committed to removing barriers to entering the job market, as well as supporting high-potential talent.

Ms. Freedman, Bianca

- Chief Executive Officer (CEO) at Edelman Canada, Toronto, Canada
- Manager of Marketing, Public Relations and Social Media at Walmart
- Marketing and Communications Coordinator, Credit Valley Hospital, Credit Valley, Canada
- Account and Public Relations Manager at InfinityComm Inc.
