01 Welcome

In a world where work environments are diverse and embody different types of risks that compromise the health of workers, it is vital for there to be a figure that guarantees the well-being of these people, whether physical or psychological. The management of this important function also requires an innovative approach, with practical solutions to problems that can become complex without proper guidance. Thus, this TECH degree gives the option of training to all professionals with an interest in the management of occupational risk prevention, with the possibility of opting, thanks to this knowledge, for relevant management positions in the human resources sector.

Postgraduate Diploma in Occupational Hazard Prevention Management.
TECH Technological University

“

This Postgraduate Diploma is the ideal tool for the manager or professional, as it will allow him/her to understand the occupational risks inherent to each position and how to prevent them"

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class centre for intensive managerial skills training.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that combines the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"*Microsoft Europe Success Story*", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

100,000+
executives trained each year

200+
different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

500+ | collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the *Re-learning* methodology (the most internationally recognized postgraduate learning methodology) with Harvard Business School *case studies*. A complex balance of traditional and state-of-the-art methods, within the most demanding academic framework.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a ground-breaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH you will have access to Harvard Business School case studies."

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you training of the highest academic level"

This program will provide students with a multitude of professional and personal advantages, particularly the following:

01

A significant career boost

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of participants achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of companies.

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional areas.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

Take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects.

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different areas in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

Be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified professors from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to train with a team of world renowned teachers.

04 Objectives

This comprehensive program is specially designed to train professionals in the techniques to manage successful occupational hazard planning for companies of various sizes and sectors. In this way, the professional will acquire specific work and planning management skills that will enable him/her to become an expert in the field. All this, accompanied by the best teaching material and the best teachers in the sector.

1.2. Normative Framework of Labor Law

- 1.2.1. The Labor Law
- 1.2.2. Application of the Labor Law
- 1.2.3. Enforcement Bodies

1.3. International and EU Standards

- 1.3.1. International Labor Standards
- 1.3.2. Principles of International Labor Law
- 1.3.3. The International Labor Organization (ILO)
- 1.3.3. ILO Recommendations

1.3. Labor Relations System

- 1.3.1. Basic Labor Relations
- 1.3.2. Workers' Representation in the company
- 1.3.3. Social Security Relations

1.5. General Social Security System

- 1.5.1. Identity of the Social Security System
- 1.5.2. The Spanish Social Security System
- 1.5.3. Duties and Responsibilities in Terms of Benefits

1.6. The Protective Action of Social Security

- 1.6.1. Occupational and Common Contingencies: Occupational Accidents and Occupational Diseases
- 1.6.2. Benefits: Legal Framework
- 1.6.3. Healthcare
- 1.6.3. Temporary Incapacity and Permanent Incapacity

1.7. Changing Circumstances of the Employment Relationship

- 1.7.1. Introduction
- 1.7.2. Geographical Mobility
- 1.7.3. Functional Mobility
- 1.7.3. Leaves of Absence, Substitutions and Suspension of the Employment Contract

1.8. Termination of the Employment Relationship

- 1.8.1. Introduction
- 1.8.2. Types of Termination of the Employment Relationship
- 1.8.3. Effects of the Termination of the employment relationship

1.3. Special Employment Relationships

- 1.3.1. Introduction
- 1.3.2. Special Employment Relationships
- 1.3.3. Types of Special Employment Relationships

1.10. Conflicting Employment Relationships

- 1.10.1. Introduction
- 1.10.2. Labor Disputes
- 1.10.3. Out-of-court Dispute Settlement Procedures
- 1.10.3. Judicial Dispute Settlement Procedures

Module 2. Legal, Technical and Management Fundamentals of Occupational Risk Prevention
2.1. Health and Work. Terminology

- 2.1.1. Health and Work
- 2.1.2. Occupational Risk Factors
- 2.1.3. Occupational Health and Safety in Spanish legislation
 - 2.1.3.1. The Technician and Occupational Safety and Hygiene

2.2. Legislation on Occupational Risk Prevention. Responsibilities and Sanctions

- 2.2.1. Legislation on Occupational Risk Prevention and Penalties
- 2.2.2. Responsibilities of the Employer
 - 2.2.2.1. Responsibilities of the Employee.

2.3. The Prevention of Occupational Risks in the Company: the Employer Liable for Safety

- 2.3.1. The Employer's Obligations in Preventive Matters
- 2.3.2. The Safety Obligation: Fundamentals
- 2.3.3. The Legal Nature of the Obligation
 - 2.3.3.1. Essential Features of the Safety Obligation

2.3. Specific Obligations of the Employer

- 2.3.1. The Integration of Prevention within the Company: The Prevention Plan
- 2.3.2. Risk Assessment
- 2.3.3. Planning of Preventive Activity
- 2.3.3. Documentation, Information, Prevention Training
- 2.3.5. Health Surveillance

2.5. Use of Work Equipment and Personal Protective Equipment. Obligations of Manufacturers, Importers, Suppliers and Workers

- 2.5.1. Obligations of the Employer with regard to Work Equipment
- 2.5.2. Obligations of the Employer Regarding Personal Protective Equipment
- 2.5.3. Obligations of Manufacturers, Importers and Suppliers
- 2.5.3. The Worker as the Holder of Rights and Duties in Preventive Matters

2.6. The Organization of the Preventive Activity in the Company: the Prevention Services

- 3.7.1. Introduction
- 3.7.2. Environmental Level
- 3.7.3. Social Level
- 3.7.4. Environmental Rights

3.8. Sustainability Reporting and Measurement: Audits and their Certification

- 3.8.1. Introduction
- 3.8.2. Measuring Sustainability
- 3.8.3. Sustainability Reporting
- 3.8.4. Sustainability Certification

3.9. Corporate Road Safety Responsibility

- 3.9.1. Introduction
- 3.9.2. Good Governance
- 3.9.3. Employee Training

3.10. Social Responsibility and Coordination of Business Activities

- 3.10.1. Introduction
- 3.10.2. Control of Contracts and Subcontracts
- 3.10.3. International Standard SA8000 on Social Responsibility

Module 4. Occupational Risk Prevention Techniques

4.1. Occupational Safety and Accidentability in the Workplace

- 4.1.1. Definition of the Techniques in ORP
- 4.1.2. Introduction to Workplace Accidentability
- 4.1.3. Introduction to Occupational Diseases

4.2. Occupational Accidentability: Analysis and Assessment of Risks. Introduction to Health and Safety Inspections

- 4.2.1. Definition from the Safety and Medical Point of View
- 4.2.2. Causes of Accidents
- 4.2.3. The Human Factor

4.3. Occupational Medicine

- 4.3.1. Preventive Techniques
- 4.3.2. Introduction to Occupational Diseases

4.4. Industrial Hygiene. Concept, Functions and Terminology

- 4.4.1. Introduction to Occupational Hygiene
- 4.4.2. Introduction to Environmental Factors
- 4.4.3. Terminology used in Occupational Hygiene

4.5. Ergonomics

- 4.5.1. Introduction to Ergonomics
- 4.5.2. Fundamental Principles of Ergonomics
- 4.5.3. Approach to the Types of Ergonomics

4.6. Psychosociology Applied to Prevention. Introduction

- 4.6.1. Introduction to Applied Psychosociology
- 4.6.2. Psychosocial Factors
- 4.6.3. Classification of Psychosocial Factors
- 4.6.4. Consequences of Psychosocial Factors

4.7. Prevention Organization and Management

- 4.7.1. Introduction to Prevention Organization and Management
- 4.7.2. Planning
- 4.7.3. Organization and Monitoring
- 4.7.4. Business Associations in Health and Safety Matters

4.8. Other Actions in the Area of ORP

- 4.8.1. Introduction
- 4.8.2. Other Techniques in the Area of ORP
- 4.8.3. Training and Information for Workers
- 4.8.4. Negotiation: Conflict Resolution

4.4. Prevention Delegates

- 4.4.1. Introduction
- 4.4.2. Competences of the Prevention Delegates
- 4.4.3. Powers of the Prevention Delegates

4.10. Works Council

- 4.10.1. Introduction
- 4.10.2. Concept, Composition and Constitution
- 4.10.3. Operating Framework
- 4.10.4. Competences and Powers

06

Methodology

This training provides you with a different way of learning. Our methodology follows a cyclical learning process: ***Re-learning.***

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the ***New England Journal of Medicine*** have considered it to be one of the most effective.

“

Discover Re-learning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH Business School we use the Harvard case method.

Our program offers you a revolutionary approach to developing your skills and knowledge. Our goal is to strengthen your skills in a changing, competitive, and highly demanding environment.

“

At TECH you will experience a way of learning that is shaking the foundations of traditional universities around the world"

We are the first online university to combine Harvard Business School case studies with a 100% online learning system based on repetition.

A learning method that is different and innovative.

This TECH Business School program is an intensive training program that prepares you to face any challenge in this field, both on a national and international level. We are committed to promoting your personal and professional growth, the best way to strive for success, that is why at TECH Technological University you will use Harvard case studies, with which we have a strategic agreement that allows us to offer you material from the best university in the world.

“*You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments*”

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

In a given situation, what would you do? This is the question that you are presented with in the case method, an action-oriented learning method.

Throughout the program, you will be presented with multiple real cases. You will have to combine all your knowledge, and research, argue, and defend your ideas and decisions.

Re-learning Methodology

Our University is the first in the world to combine Harvard University case studies with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance Harvard case studies with the best 100% online teaching method: Re-learning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Re-learning.

Our business school is the only one in Spanish-speaking countries licensed to incorporate this successful method. In 2019 we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best Spanish online university indicators.

In our program, learning is not a linear process, but rather a spiral (we learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success. In fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Re-learning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

Based on the latest evidence in neuroscience, not only do we know how to organize information, ideas, images, memories, but we also know that the place and context where we have learned something is crucial for us to be able to remember it and store it in the hippocampus, and retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

In this program you will have access to the best educational material, prepared with you in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is really specific and precise.

This content is then adapted in an audiovisual format that will create our way of working online, with the latest techniques that allow us to offer you high quality in all of the material that we provide you with.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an expert strengthens knowledge and memory, and generates confidence in our difficult future decisions.

Management Skills Exercises

You will carry out activities to develop specific managerial skills in each subject area. Exercises and activities to acquire and develop the skills and abilities that a senior manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents, international guides... in our virtual library you will have access to everything you need to complete your training.

Case Studies

You will complete a selection of the best business cases used at Harvard Business School. Cases that are presented, analyzed, and supervised by the best senior management specialists in Latin America.

Interactive Summaries

We present the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This unique multimedia content presentation training system was awarded by Microsoft as a "European Success Story".

Testing & Re-Testing

We periodically evaluate and re-evaluate your knowledge throughout the program. We do this on 3 of the 4 levels of Miller's Pyramid.

07
