01 Welcome

Gamma exposure is one of the most relevant risks that can occur in options trading. Negotiating this exposure can be a complicated task, but there are many techniques and methods that help traders reduce risks and increase the chances of success. Therefore, this educational program will provide the professional with a prestigious top-level content to enhance and develop specialized skills related to the risks that are inherent to strategies to exploit bullish volatility expectations versus bearish ones. All this, through a 100% online teaching method and with didactic material that will provide the most effective and dynamic educational experience.

Postgraduate Diploma in Optimized Gamma/Theta Ratio Management
TECH Technological University

“

This educational program offers you exclusive content on Equity Derivatives Trading in just 6 weeks"

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class center for intensive managerial skills education.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"Microsoft Europe Success Story", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

+100000

executives prepared each year

+200

different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

+500

collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (postgraduate learning methodology with the best international valuation) with the Case Study. Tradition and vanguard in a difficult balance, and in the context of the most demanding educational itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a ground-breaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level”

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

01

A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of students achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of the company

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional fields.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

You will take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different fields in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to study with a team of world-renowned teachers.

04 Objectives

This educational program will provide the professional with the most important novelties on complementary interpretations to the Delta concept within the Finance area. In this way, TECH will offer students the most advanced audiovisual resources and technical skills related to the risks that volatility causes to the options buyer. Therefore, at the end of this Postgraduate Diploma, the students will have strengthened their knowledge in probability of maturity of the intrinsic value option.

“

The goal of TECH is you: give your career the boost it needs and specialize in the Equity Derivatives Trading industry. Enroll now”

TECH makes the goals of their students their own goals too
Working together to achieve them

The **Postgraduate Diploma in Optimized Gamma/Theta Ratio Management** enable the students to:

01

Analyze the financial derivatives markets, from their origins in forward transactions to the present day, given that millions of transactions take place every day and involve large equivalent amounts of capital

04

Determine and compare the management of these expectations with combined option figures

02

Delve into the principles of equity investing, with special emphasis on the two key elements of return and risk

03

Delve deeper into the characteristics of trading platforms and derivative contracts in international markets

05

Differentiate the risks that are inherent in strategies to exploit bullish versus bearish volatility expectations

06

Examine the possibilities offered by calendar combinations between bought and sold options with different maturities

08

Examine the possibilities offered by combinations of put and call options with different maturities to improve portfolio performance

09

Detail the particularities of the most common exotic choices

07

Analyze and compare the different possibilities of option combinations to progressively improve portfolio performance

10

Compare the results of each exotic option to improve the return-risk ratio of the equity investment

05

Structure and Content

The Postgraduate Diploma in Optimized Gamma/Theta Ratio Management is a program that is primarily focused on specific competencies related to the magnitude of the gamma effect as a function of time to maturity. For this reason, this educational program emphasizes a theoretical-practical approach, together with the knowledge and robust experience of a highly qualified teaching staff.

“

Expertly crafted syllabus and quality content are the key to making your learning about Optimized Gamma/Theta Ratio Management successful"

Syllabus

This educational program incorporates 6 weeks of continuous learning, where TECH will guide the professionals to the top of their professional career through an education that focuses on excellence and efficiency. In this way, students will acquire the most important vacancies in the financial field, facing the various challenges they will encounter in the workplace. In this way, this program provides a number of skills concerning the optimization of volatility gamma strategies with calendar combinations.

Therefore, the teachers have developed a syllabus integrating 3 modules, with the purpose of reinforcing the professional's competencies related to the interpretations complementary to the Delta concept.

On the other hand, students of this Postgraduate Diploma will delve into specific areas related to Theta strategies with equity derivatives. In this way, graduates will gain unique knowledge regarding convexity and its benefit to the option buyer.

Therefore, TECH takes into account comfort and excellence, that is why this program offers a complete and quality learning, while providing flexibility to take it. Graduates only need a device with an Internet connection to easily access the virtual platform, 24 hours a day and from anywhere in the world.

This Postgraduate Diploma takes place over 6 months and is divided into 3 modules:

Module 1

Equity Options Premium Sensitivity

Module 2

Gamma Volatility Strategies with Equity Derivatives

Module 3

Theta Strategies with Equity Derivatives

Where, When and How is it Taught?

TECH offers the possibility of developing this Postgraduate Diploma in Optimized Game/Theta Ratio Management completely online. Throughout the 6 months of the educational program, you will be able to access all the contents of this program at any time, allowing you to self-manage your study time.

A unique, key, and decisive educational experience to boost your professional development and make the definitive leap.

Module 1. Equity Options Premium Sensitivity

1.1. Intrinsic Value of an Option

- 1.1.1. In-The-Money Options or Options with Positive Intrinsic Value
- 1.1.2. At-The-Money Options
- 1.1.3. Out-The-Money Options

1.2. Temporal Value of an Option

- 1.2.1. Incidence of Volatility
- 1.2.2. Incidence of Time to Maturity
- 1.2.3. Joint Impact of Both Elements

1.3. The Delta of a Call Option

- 1.3.1. Change in Call Option Premium as a Function of Underlying Price
- 1.3.2. Importance of the Chosen Strike
- 1.3.3. Option Seller's Perspective

1.4. Delta of a Put Option

- 1.4.1. Change in Put Option Premium as a Function of Underlying Price
- 1.4.2. Importance of the Chosen Strike
- 1.4.3. Option Seller's Perspective

1.5. Complementary Interpretations of the Delta Concept

- 1.5.1. Equivalent Underlying Asset Amount
- 1.5.2. Probability of Maturity of the Option with Intrinsic Value
- 1.5.3. Calculation of the Delta of a Basic Combination of Options

1.6. Option Gamma from the Option Buyer's Perspective

- 1.6.1. Convexity and Its Benefit to the Option Buyer
- 1.6.2. Magnitude of the Gamma Effect as a Function of Option Type
- 1.6.3. Magnitude of the Gamma Effect as a Function of Time to Maturity

1.7. Option Gamma from the Option Seller's Perspective

- 1.7.1. Risks that Convexity Causes to the Buyer of an Option
- 1.7.2. Risks Caused by Convexity in Near-Money Options
- 1.7.3. Risks Caused by Convexity in Options Close to Maturity

1.8. The Vega of Options

- 1.8.1. Impact of Volatility on the Options Premium
- 1.8.2. Volatility Risks for Option Buyers
- 1.8.3. Volatility Risks for Option Sellers

1.9. The Theta of Options

- 1.9.1. Beneficial Effect on the Seller as Opposed to Gamma
- 1.9.2. The Magnitude of the Gamma Effect as a Function of Option Type
- 1.9.3. Theta Management for the Options Buyer

1.10. Other Effects on the Options Premium

- 1.10.1. Dividend Effect on Stock Options
- 1.10.2. Effect of Interest Rates
- 1.10.3. Effect of Time to Maturity on Gamma and Theta

Module 2. Gamma Volatility Strategies with Equity Derivatives**2.1. Volatility as a Financial Product and Its Influence on Option Premiums**

- 2.1.1. Most Important Volatility Indexes in International Financial Markets
- 2.1.2. Derivative Products Whose Underlying in a Volatility Index
- 2.1.3. Influence of Volatility on the Option Premium

2.2. Option Positions and Volatility Expectations. Optimization

- 2.2.1. Optimization in the Context of Bullish Volatility Expectations
- 2.2.2. Optimization in the Context of Low Volatility Expectations
- 2.2.3. Difficulties in Optimizing Neutral Volatility Expectations

2.3. Management of Bullish Volatility Expectations with Cones

- 2.3.1. Cone: How It Is Formed
- 2.3.2. Advantages of Managing Bullish Volatility Expectations with Cones
- 2.3.3. Derivative Risks

2.4. Management of Bullish Volatility Expectations with Cradles

- 2.4.1. Cradle: How It Is Formed
- 2.4.2. Comparison of the Use of Cradles versus the Use of Cones
- 2.4.3. Optimization of the Results through the Use of Cradles

2.5. Management of Bullish Volatility Expectations with Ratios

- 2.5.1. Preference for Bearish Ratios (with Puts)
- 2.5.2. Comparison of the Use of Bearish Ratios versus the Use of Purchased Puts
- 2.5.3. Optimization of Results through the Use of Bearish Ratios

2.6. Bullish Volatility Expectation Management with Butterflies and Condors

- 2.6.1. Butterfly and Condor; How They Are Formed
- 2.6.2. Comparison of Butterflies and Condors with Respect to Cones and Cradles, Respectively
- 2.6.3. Optimization of Results through the Use of Butterflies and Condors

2.7. Use of Cones and Cradles with Bearish Volatility Expectations

- 2.7.1. Training of Cones and Cradles Sold
- 2.7.2. Advantages of These Combinations Compared to Option Selling Strategies
- 2.7.3. Risk Management of These Combined Strategies

2.8. Use of Ratios with Bearish Volatility Expectations

- 2.8.1. Training of Ratios with Dominance of Sold Items
- 2.8.2. Advantage of Sold Ratios over Basic Option Selling Strategies
- 2.8.3. Risk Management Derived from Sold Ratios

2.9. Use of Butterflies and Condors with Bearish Volatility Expectations

- 2.9.1. Training of Butterflies and Condors Purchased
- 2.9.2. Advantages of These Positions over the Use of Sold Cones and Cradles
- 2.9.3. Optimization of Bearish Expectations of Volatility

2.10. Optimization of Volatility Gamma Strategies with Calendar Combinations

- 2.10.1. Ratios Sold Calendar
- 2.10.2. Butterflies Purchased Calendar
- 2.10.3. Condors Purchased Calendar

Module 3. Theta Strategies with Equity Derivatives

3.1. Risk Management when Selling an Option as a Basic Theta Strategy

- 3.1.1. Risk Management when Selling Puts
- 3.1.2. Risk Management when Selling Call
- 3.1.3. Effect of Volatility Variation on These Basic Theta Strategies

3.2. Management of the Put Risk of an Option Close to Maturity

- 3.2.1. Position Management and Closing when the Position Offers Benefits
- 3.2.2. Position Management and Closing when the Position Offers Losses
- 3.2.3. Maintenance to Maturity of the Position

3.3. Risk Management when Using Cradles Sold as Theta Strategy

- 3.3.1. Use of Cradles Sold vs. Cones Sold and vs. Individual Items Sold
- 3.3.2. Cradle to Cradle Management when Options Are Close to Expiration
- 3.3.3. Cradle Management when One of the Two Strikes Goes into the Money

3.4. Spreads as a Theta Strategy

- 3.4.1. Use of Spread vs. Individual Sold Position
- 3.4.2. Spread Management when Close to Maturity and when the Underlying Evolves against the Spread
- 3.4.3. Spread Optimization

3.5. Butterflies and Condors Purchased as Theta Strategy

- 3.5.1. Use of Condor vs. Spread as a Theta Strategy
- 3.5.2. Use of the Butterfly vs. the Condor as a Theta Strategy
- 3.5.3. Optimization of the Theta Strategy

3.6. Ratios as a Theta Strategy

- 3.6.1. Management of the Sold Ratio with Call Options
- 3.6.2. Management of the Sold Ratio with Put Options
- 3.6.3. Strategy Sum of Ratios Sold vs. Cradle Sold

3.7. Optimization of the Relationship between Gamma and Theta

- 3.7.1. Influence of Strike on This Relationship
- 3.7.2. Influence of Time to Maturity on This Relationship
- 3.7.3. Influence of Volatility on This Relationship

3.8. Spreads Calendar as a Theta Strategy

- 3.8.1. Management of Bullish Calendar Spreads
- 3.8.2. Management of Bearish Calendar Spreads
- 3.8.3. Spread Calendar Optimization

3.9. Calendar Butterflies as a Theta strategy

- 3.9.1. Management of the Double Calendar Spread
- 3.9.2. Strategy Optimization Using Different Strikes
- 3.9.3. Optimization of the Strategy Using Different Number of Bought and Sold Options

3.10. Calendar Ratios as a Theta Strategy

- 3.10.1. Calendar Ratio Management with Call Options
- 3.10.2. Calendar Ratio Management with Put Options
- 3.10.3. Optimization of the Use of Calendar Ratio as a Theta Strategy

“

This university program provides you with a theoretical and practical perspective on the management of the so-called Double Calendar Spread”

06

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“

You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

Our Students' Profiles

The Postgraduate Diploma is aimed at Graduates who have previously completed any of the following degrees in the field of Social and Legal Sciences, Administration and Economics.

This program uses a multidisciplinary approach as the students have a diverse set of academic profiles and represent multiple nationalities.

The Postgraduate Diploma can also be taken by professionals who, being university graduates in any area, have two years of work experience in the field of Finance.

“
