01 Welcome

It is essential for any company to have good procurement and sales logistics, since a failure in this part of the chain has a direct impact on the development of all subsequent business activity. In this way, managers with specific positions in purchasing and procurement management are of high value for any sector, since the correct flow of all business channels depends on them. For this reason, TECH Technological University has prepared the following program with specific instruction in leadership, logistics and procurement, so that the student has all the necessary knowledge for the correct management of this important business area.

Postgraduate Diploma in Purchasing and Procurement Function.
TECH Technological University

“

Be the strongest link in the chain with this comprehensive TECH program in purchasing and procurement”

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class centre for intensive managerial skills training.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that combines the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"Microsoft Europe Success Story", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

100,000+
executives trained each year

200+
different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

500+ | collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (a postgraduate learning methodology with the highest international rating) with the Case Study. A complex balance between tradition and state-of-the-art, within the context of the most demanding academic itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case studies in the academic community"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you training of the highest academic level"

This program will provide students with a multitude of professional and personal advantages, particularly the following:

01

A significant career boost

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of participants achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of companies

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional areas.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

Take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different areas in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

Be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified professors from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to train with a team of world renowned teachers.

04 Objectives

The program is developed to strengthen the student's logistical and leadership skills, in order to turn them into true University Experts in procurement and purchasing. Thanks to the innovative methodology of TECH Technological University, and the support of professionals in the logistics sector, the student has access to first class teaching material, with a compendium of knowledge that is unique in the market.

“

With the chaotic international logistics of recent years your role as purchasing and procurement manager will be crucial to the company you choose to work for"

TECH makes the goals of their students their own goals too..
Working together to achieve them.

The Postgraduate Diploma in Purchasing and Procurement Function qualifies students to:

01

Define the latest trends and developments in business management

04

Develop strategies to lead the purchasing strategy in times of change

02

Develop, lead and execute more effective purchasing strategies focused on the needs of the company, offering customized value propositions

05

Develop the essential competencies to strategically manage the organization's activity

03

Develop strategies to make decisions in a complex and unstable environment, evaluating their impact on the company

06

Choose the most appropriate channels and means of purchase, in accordance with the business positioning

07

Develop the ability to detect, analyze and solve problems

05

Structure and Content

The Postgraduate Diploma in Purchasing and Procurement Function is a program developed over 6 months and with a unique instruction of its kind, providing the best possible teaching for its students with the highest quality teaching material. In addition, the 100% online format of the program makes it a great option for students to manage their own study time.

“

*You are going to be indispensable
in every logistics operation of your
company, which will open doors to
better jobs in the near future"*

Syllabus

The Postgraduate Diploma in Purchasing and Procurement Function of TECH Technological University is an intensive program that prepares its students to make decisions in the logistics sector of purchasing and procurement, ensuring that the entire business production chain remains smooth and well supplied.

Its main objective is therefore to promote the personal and professional growth of its students, helping them to achieve professional success. The content of the Postgraduate Diploma in Purchasing and Procurement Function is designed to promote the development of managerial skills that enable more rigorous decision-making in uncertain environments.

Over the course of 450 hours, the student analyzes a plethora of practical cases through individual practice and teamwork. It is, therefore, an authentic immersion in real business situations.

This Postgraduate Diploma in Purchasing and Procurement Function deals in depth with the techniques and intricacies of purchasing and procurement management, with special emphasis on market research and logistics team leadership.

This Postgraduate Diploma takes place over 6 months and is divided into 4 modules:

- 2.6.1. Purchasing Logistics Management
- 2.6.2. Stocks Management
- 2.6.3. Warehouse Management

2.7. Supply Chain Management

- 2.7.1. Costs and Efficiency of the Operations Chain
- 2.7.2. Change in Demand Patterns
- 2.7.3. Change in Operations Strategy

2.8. Logistical Processes

- 2.8.1. Organization and Management by Processes
- 2.8.2. Procurement, Production, Distribution
- 2.8.3. Quality, Quality Costs, and Tools
- 2.8.4. After-Sales Service

2.9. Logistics and Customers

- 2.9.1. Demand Analysis and Forecasting
- 2.9.2. Sales Forecasting and Planning
- 2.9.3. Collaborative Planning, Forecasting, and Replacement

2.10. International Logistics

- 2.10.1. Customs, Export and Import processes
- 2.10.2. Methods and Means of International Payment
- 2.10.3. International Logistics Platforms

Module 3. Market Research**3.1. New Competitive Environment**

- 3.1.1. Technological Innovation and Economic Impact
- 3.1.2. Knowledge Society
- 3.1.3. The New Consumer Profile

3.2. Quantitative Research Methods and Techniques

- 3.2.1. Variables and Measurement Scales
- 3.2.2. Information Sources
- 3.2.3. Sampling Techniques
- 3.2.4. The Treatment and Analysis of Data

3.3. Qualitative Research Methods and Techniques

- 3.3.1. Direct Techniques: Focus Group
- 3.3.2. Anthropological Techniques
- 3.3.3. Indirect Techniques
- 3.3.4. The Two Face Mirror and The Delphi Method

3.4. Market Segmentation

- 3.4.1. Market Typologies
- 3.4.2. Concept and Analysis of the Demand
- 3.4.3. Segmentation and Criteria
- 3.4.4. Defining the Target Audience

3.5. Types of Buying Behavior

- 3.5.1. Complex Behavior
- 3.5.2. Dissonance Reducing Behavior
- 3.5.3. Variety Seeking Behavior
- 3.5.4. Habitual Purchasing Behavior

3.6. Marketing Information Systems

- 3.6.1. Conceptual Approaches to Marketing Information Systems
- 3.6.2. Data Warehouse and Datamining
- 3.6.3. Geographical Information Systems

3.7. Research Project Management

- 3.7.1. Information Analysis Tools
- 3.7.2. Developing an Expectation Management Plan
- 3.7.3. Assessing the Feasibility of Projects

3.8. Marketing Intelligence

- 3.8.1. Big Data
- 3.8.2. User Experience
- 3.8.3. Applying Techniques

Module 4. Purchasing and Procurement Function**4.1. Development of the Sales Process**

- 4.1.1. Mission, Objective and Structure of the Purchasing and Procurement Department
- 4.1.2. Main Components of the Purchasing Department

4.3. Price, Cost and Purchase Value Analysis

- 4.3.1. Category Management
- 4.3.2. RFP and RFQ Systems
- 4.3.3. International Pricing Index
- 4.3.4. Dynamic Pricing

4.4. Purchasing Risk Management

- 4.4.1. Nature of the Risk
- 4.4.2. Risks in the Supply Market
- 4.4.3. Insurance
- 4.4.4. Price Risks, Volatility

4.5. E-Procurement

- 4.5.1. E-Business and E-Sourcing
- 4.5.2. Auctions and Reverse Auctions
- 4.5.3. Application Costs and Most Commonly Used Systems
- 4.5.4. E-Purchasing

4.6. Purchasing in Different Industries and Sectors

- 4.6.1. Purchase of Services
- 4.6.2. Purchase of Equipment
- 4.6.3. Purchase of Merchandising, Marketing and Advertising
- 4.6.4. IT, Transportation and Other Sectors
- 4.6.5. Procurement in the Public Sector

06

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning.**

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

This program prepares you to face business challenges in uncertain environments and achieve business success.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“ *You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

Our Students' Profiles

The Postgraduate Diploma in Purchasing and Procurement Function is a program aimed at professionals who specialize in business management, and who want to update their knowledge in this field and progress in their professional career. Our teaching team, experts in Purchasing and Procurement Function, will help you achieve success in your profession"

Director Invitado Internacional

Manuel Arens is an experienced data management professional and leader of a highly qualified team. In fact, Arens holds the position of global procurement manager in Google's Technical Infrastructure and Data Center division, where he has spent most of his career. Based in Mountain View, California, he has provided solutions for the tech giant's operational challenges, such as master data integrity, vendor data updates and vendor prioritization. He has led data center supply chain planning and vendor risk assessment, generating process and workflow management improvements that have resulted in significant cost savings.

With more than a decade of work providing digital solutions and leadership for companies in diverse industries, he has extensive experience in all aspects of strategic solution delivery, including marketing, media analytics, measurement and attribution. In fact, he has received several awards for his work, including the BIM Leadership Award, the Search Leadership Award, Export Lead Generation Program Award and the EMEA Best Sales Model Award.

Arens also served as Sales Manager in Dublin, Ireland. In this role, he built a team of 4 to 14 members over three years and led the sales team to achieve results and collaborate well with each other and cross-functional teams. He also served as Senior Industry Analyst, Hamburg, Germany, creating storylines for over 150 clients using internal and third party tools to support analysis. Developed and wrote in-depth reports to demonstrate his mastery of the subject matter, including understanding the macroeconomic and political/regulatory factors affecting technology adoption and diffusion.

He has also led teams at companies such as Eaton, Airbus and Siemens, where he gained valuable account and supply chain management experience. He is particularly noted for continually exceeding expectations by building valuable customer relationships and working seamlessly with people at all levels of an organization, including stakeholders, management, team members and customers. His data-driven approach and ability to develop innovative and scalable solutions to industry challenges have made him a prominent leader in his field.
