Welcome

Housing, established as a basic good in society, offers excellent economic prospects in terms of investment and carrying out purchase, sale or lease operations. In this line, more and more companies are committed to carrying out this type of activity, requiring directors highly trained in their management. Due to this, TECH has created this program, with which the student will hone their leadership skills in Real Estate Operations to boost their chances of obtaining a long-awaited professional promotion. Throughout it, it will manage the current regulations in this matter to comply with the legality in investments or detect the different types of existing contracts. In addition, you will enjoy 100% online learning, compatible with your work and personal tasks.

Postgraduate Diploma in Real Estate Operations
TECH Technological University

“

The Postgraduate Diploma in Real Estate Operations will allow you to detect existing contracts in leasing or purchase-sale activities to select those that provide the best economic performance for your company”

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class center for intensive managerial skills education.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"*Microsoft Europe Success Story*", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

+100000

executives prepared each year

+200

different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

+500

collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the *Relearning* methodology (the most internationally recognized postgraduate learning methodology) with Harvard Business School case studies. A complex balance of traditional and state-of-the-art methods, within the most demanding academic framework.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level”

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

01

A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of students achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of the company

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional fields.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

You will take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different fields in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to study with a team of world-renowned teachers.

04 Objectives

The Postgraduate Diploma in Real Estate Operations has been designed with the intention of providing students with the most relevant and cutting-edge knowledge in this field. Thus, you will delve into the current regulations on International Real Estate Law or obtain the keys to efficiently manage the activities of leasing homes or premises. All this, preserved by the fulfillment of the following objectives that TECH has outlined for this program.

“

*Perfect, through this program, your skills
to solvently manage the most relevant
Real Estate Operations of a company”*

TECH makes the goals of their students their own goals too.
Working together to achieve them.

This Postgraduate Diploma in Real Estate Operations will enable students to:

01

Know the operation of the property registry and the registry procedure in its entirety

04

Identify the different types of sales contracts and their obligations and implications

02

Delve into the concept of VAT, its facts and tax bases, as well as its exemptions and deductions at a national and international level

03

Manage the rights and obligations of buyers and sellers

05

Delve into the regulatory standards of the different types of lease contracts

06

18

Handle the technology that is currently used in the real estate sector

19

Detect the main actors that make up the current PropTech

17

Know what coaching is and how it can be used in business development

20

Delve into the subjects and instruments involved in Urban Law

05

Structure and Content

The Postgraduate Diploma in Real Estate Operations program is developed through a 100% online methodology that will allow the student to manage their own time at will to obtain effective learning. Thus, in only 12 months, you will perfect your skills in this branch of finance to enjoy outstanding professional growth.

“

The Relearning system characteristic of this program will allow you to learn according to your needs without having to submit to teaching limitations”

Syllabus

The study plan of this Postgraduate Diploma is made up of 3 modules through which the Real Estate Operations expert will acquire a series of knowledge that will prepare him to cope with solvency in the face of the new challenges that his profession presents.

The contents of this program are designed with the idea of promoting the development of managerial skills that allow optimizing decision-making with greater rigor in uncertain environments.

Throughout 450 hours of intensive learning, the student will analyze a large number of practical cases through individual and team work.

It is, therefore, a true immersion in real business situations.

The Postgraduate Diploma in Real Estate Operations will delve into aspects such as International Real Estate Law and taxation in activities of this nature or in the management of both the sale and lease, offering the student a very complete vision of this field.

Through this program, completely adapted to the personal and academic needs of the students and providing cutting-edge teaching materials prepared by experts in the field, they will increase their skills to direct the highest caliber Real Estate Operations.

This Postgraduate Diploma takes place over 6 months and is divided into 3 modules:

Module 1.

International Real Estate Law and taxation in Real Estate Operations

Module 2.

Management of estate Operations: The sale

Module 3.

Management of Real Estate Operations: leasing

Where, When and How is it Taught?

TECH offers the possibility of developing this Postgraduate Diploma in Real Estate Operations completely online. Throughout the 6 months of the educational program, you will be able to access all the contents of this program at any time, allowing you to self-manage your study time.

Enjoy completely enjoyable and individualized learning through educational formats such as explanatory video or interactive summary.

- 2.6.1. Definition and General Aspects
- 2.6.2. Concept and Characteristics of Contract
- 2.6.3. Contract Perfectioning
- 2.6.4. Formalizing the Contract

2.7. Obligations of the Seller

- 2.7.1. Delivery of the property
- 2.7.2. Conservation and Custody
- 2.7.3. Sanitation.
- 2.7.4. Expenses and Taxes

2.8. Obligations of the Buyer

- 2.8.1. Price Payment
- 2.8.2. Payment Methods
- 2.8.3. Sale with Deferred Payment and Guarantees
- 2.8.4. Expenses and Taxes

2.9. Termination of Employment Contract

- 2.9.1. Definition and General Aspects
- 2.9.2. The Termination of the Contract and its Causes
- 2.9.3. Common Right of First Refusal and Retraction
- 2.9.4. Unilateral Withdrawal

2.10. Models of Sales Contracts

- 2.10.1. Letter of Intent
- 2.10.2. Promise of Sale
- 2.10.3. Earnest Money Contract
- 2.10.4. Purchase Option Contract

Module 3. Management of Real Estate Operations: Leasing

3.1. Introduction to Leasing

- 3.1.1. Lease Definition
- 3.1.2. Contract Characteristics
- 3.1.3. Scope of Application
- 3.1.4. Common Regulatory Standards

3.2. Leasing Contract

- 3.2.1. Concept and Characteristics
- 3.2.2. Elements of the Lease
- 3.2.3. Common Rights and Duties of the Leases
- 3.2.4. Common Rights and Duties of the Employer

3.3. Rental Lease Contract

- 3.3.1. Normative Nature
- 3.3.2. Subletting and Assignment of Lease
- 3.3.3. Duration and Object of the Contract
- 3.3.4. Rent

3.4. Leasing Contract for Use other than Housing

- 3.4.1. Normative Nature
- 3.4.2. Subletting and Assignment of Lease
- 3.4.3. Duration and Object of the Contract
- 3.4.4. Rent

3.5. Leasing Contract for Use Tourist

- 3.5.1. Definition and General Aspects
- 3.5.2. Scope of Application
- 3.5.3. Regulatory Regulations and Particular Characteristics
- 3.5.4. Change of Use of Premises for Rental for Tourist Use

3.6. Finances

- 3.6.1. Definition and General Aspects
- 3.6.2. Finance Update
- 3.6.3. Finance Restitution
- 3.6.4. Complementary Guarantees

3.7. Formalization of the Lease

- 3.7.1. Formalizing the Contract
- 3.7.2. Document Requirements
- 3.7.3. Purpose and Types of Contract
- 3.7.4. Contract Models

3.8. Resolution of the Lease

- 3.8.1. Definition and Causes: Suspension, Resolution and Extinction
- 3.8.2. House Habitability
- 3.8.3. Breach of Obligations
- 3.8.4. Termination of the Lease

3.9. Compulsory Termination of the Lease

- 3.9.1. Definition and General Aspects
- 3.9.2. Eviction Trial
- 3.9.3. Legal Procedure in Case of Non-payment
- 3.9.4. Other Causes of Forced Termination of the Lease

3.10. Leasing as an Investment Business Model

- 3.10.1. Rental Lease Contract
- 3.10.2. Definition and Concept of Rental for Tourist Use
- 3.10.3. Leasing Profitability Use Tourist
- 3.10.4. Leasing Taxation

06

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“

You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

Our Students' Profiles

The Postgraduate Diploma is aimed at Graduates, Diploma Graduates and University Graduates who have previously completed any of the following qualifications in the field of Social and Legal, Administrative and Economic Sciences.

This program uses a multidisciplinary approach as the students have a diverse set of academic profiles and represent multiple nationalities.

The Postgraduate Diploma can also be taken by professionals who, being university graduates in any field, have two years of work experience in the field.

“

Thanks to the study facilities offered by TECH, you will be able to combine your exquisite learning with your professional and personal tasks”

Average Age

Between **35** and **45** years old

Years of Experience

Training

Educational Profile

Geographical Distribution

Julian Exposito Yanes

Investor specialized in the purchase and sale of housing

"I was pleasantly surprised with this degree, especially with the oratorical capacity of the teachers, the applicability of the knowledge transmitted and with the possibility of adapting the study to my personal needs. An experience that, without a doubt, I would recommend to anyone interested in the real estate sector"

08

Course Management

In order to preserve intact the high educational level so characteristic of TECH degrees, this Postgraduate Diploma is directed and taught by the best specialists in the real estate field, who have developed tasks related to different areas within this sector. Since these professionals are in charge of preparing the didactic contents of the program, all the knowledge that the student will receive will have been previously applied by the teachers in their work experiences.

“

From the hand of the best experts in the real estate sector, you will acquire a series of knowledge in operations of this caliber that will improve your professional skills”

Management
