01 Welcome

The dental sector is increasingly competitive thanks to the appearance of numerous dental clinics in recent years. In addition to excellence at the health level, a dental clinic also needs to achieve excellence at the business level in order to succeed and, therefore, the specialization of business professionals in this field is essential to provide the necessary nudge to elevate these companies to their sector's elite. In this way, it is essential that professionals acquire the necessary skills in financial, logistics, marketing, communication, and human resources management, for example. And you will find all this in this very complete TECH program.

Executive Master's Degree in Management of Dental Clinics.
TECH Technological University

“

Present-day executives must stand out for their technological know-how, practice active listening with their workers, and be self-critical of their work”

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class center for intensive managerial skills education.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"*Microsoft Europe Success Story*", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

+100000

executives prepared each year

+200

different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

+500

collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the *Relearning* methodology (the most internationally recognized postgraduate learning methodology) with Harvard Business School case studies. A complex balance of traditional and state-of-the-art methods, within the most demanding academic framework.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case analyses in academia"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you education of the highest academic level”

This program will provide you with a multitude of professional and personal advantages, among which we highlight the following:

01

A Strong Boost to Your Career

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of students achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of the company

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional fields.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

You will take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different fields in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

You will be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified teachers from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to study with a team of world-renowned teachers.

04

Objectives

This program is designed to strengthen the managerial and leadership skills of professionals in the field of dental clinics, in addition to developing new skills and abilities that will be essential in their professional development. After concluding the program, graduates will be able to make global decisions with an innovative perspective and an international vision.

“

*At TECH ,we will teach you how
to strategically run a dental clinic”*

TECH makes the goals of their students their own goals too.
Working together to achieve them.

The Executive Master's Degree in Management of Dental Clinics qualifies students to:

01

Use theoretical, methodological and analytical tools to optimally manage and direct their own clinical-dental businesses, effectively differentiating themselves in a highly competitive environment

04

Describe the current situation and future trends of dental clinic management and administration to be able to define objectives and differentiating successful strategies

02

Promote the acquisition of personal and professional skills that will encourage students to undertake their own business projects with greater confidence and determination, both in the case of starting with the creation of their clinical-dental business, as well as innovating in the management and direction model of the clinical-dental business they already have

03

Professionalize the clinical-dental sector, through continuous and specific specialization in the field of business management and direction

05

Become familiar with the terminology and concepts specific to business management and administration to effectively apply them to dental clinics

06

Discover and analyze key points of successful business models of leading dental clinics in order to increase the motivation, inspiration and strategic mindset of future managers

08

Learn the most widely used validation method for the creation and innovation of business models in all business sectors, with practical and specific application in the clinical-dental sector

09

Describe the language, concepts, tools and logic of marketing as a key business activity for the growth and positioning of the clinical-dental business

07

Learn to effectively identify and describe the value proposition of the dental practice business, as a solid basis for establishing a subsequent marketing and sales strategy

10

Delve into the digital communication tools that are essential to master in this 2.0 era, in order to convey the value proposition of the dental clinic to the target patients through the most appropriate channels

11

Acquire management skills based on leadership that facilitate effective communication with the team, favoring the creation of a healthy work environment focused on common objectives and the achieving results

14

Reflect on the characteristics of the leader in organizations and enhance managerial skills for successful leadership by applying the latest techniques of coaching and emotional intelligence

12

Learn the fundamental concepts of human resources management to lead recruitment processes and protect the talent of the team that works at the dental clinic

13

Develop an effective method for team management, decision making and conflict resolution based on the emotional intelligence model and organizational coaching techniques

15

Design work procedures focused on a productivity and quality model for the dental clinic, based on the philosophy of continuous improvement

16

Use digital tools that facilitate the effective planning and management of dental practice tasks, resulting in significant cost savings in the short term

18

Master the main financial tools to facilitate key decisions based on objective data

19

Acquire important knowledge about cost analysis to understand the current state of your company in terms of profitability and being able to define future scenarios

17

Apply tools and work procedures that are essential for an optimal purchasing and resource warehouse management, avoiding unproductive expenditure flow

20

Explain the main duties and moral obligations related to the development of dental professionals in the business environment, focusing especially on patient treatment

05 Skills

After passing the assesment of the Executive Master's Degree in Management of Dental Clinics professionals will have acquired the necessary skills for a quality and up-to-date practice based on the most innovative teaching methodology.

“

*Successfully run a dental clinic
after acquiring the knowledge
that this very complete Executive
Master's Degree offers you”*

01

Hierarchize the role of each member of the team within the dental clinic

03

Effectively apply the hiring modalities to manage payroll and therefore achieve a correct formalization of the remuneration of the members of the team of our dental clinic

02

Adequately manage existing strategies for the incorporation, remuneration and attraction of human talent

04

Define action protocols that allow a correct performance of the tasks in the dental clinic, incorporating monitoring tools for the control and evaluation of applying these protocols

05

Conduct satisfaction surveys to develop and implement improvements that meet the needs of patients in the dental clinic

07

Detect and anticipate new management trends in the clinical-dental sector

06

Identify the types of costs that occur in a dental clinic in order to calculate the cost/hour of the clinic and establish appropriate pricing

08

- 10.3.2. Underage Patient
- 10.3.3. The Practitioner's Freedom of Choice
- 10.3.4. The Freedom to Accept or Reject Patients

10.4. Medical History

- 10.4.1. The Patient's Right to Clinical Information
- 10.4.2. Informed Consent
- 10.4.3. Clinical Reports

10.5. Professional Secrecy

- 10.5.1. Concept and Content
- 10.5.2. Extension of the Obligation
- 10.5.3. Exceptions to Professional Secrecy
- 10.5.4. Computer Files

10.6. Advertising

- 10.6.1. Basic Requirements of Professional Advertising
- 10.6.2. Mentioning Titles
- 10.6.3. Professional Advertising
- 10.6.4. Actions with a Possible Advertising Effect

We offer you the resources you need to develop the skills that will enable you to work successfully in this sector"

07

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“

You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

08

Our Students' Profiles

This Executive Master's Degree in Management of Dental Clinics is aimed at professionals from the entrepreneurial area specialized in working at dental clinics, who want to update their knowledge and advance in their professional career. This program uses a multidisciplinary approach as the students have a diverse set of academic profiles and represent multiple nationalities.
