01 Welcome

Marketing in the luxury industry is focused on the commercialization of that which is not accessible to the whole of society, i.e., select and exclusive products. In the world of fashion, it is the identity of many brands and, nowadays, the concept goes further by integrating environmental and digital issues. In this sense, the luxury market has experienced consistent and steady growth with a 30% increase in market share over the last 4 years. It is crucial to understand the foundations and development of an industry that occupies a \$1.2 trillion dollar segment worldwide if we want to be at the forefront of global marketing. Faced with this new scenario TECH launches this MBA, aimed at understanding, evaluating and taking action in relation to the new world order of luxury based on sustainability, technology and art, understanding that the continuous transformation and preservation of the essence of the sector is the key to develop in the face of current paradigms.

MBA in Fashion and Luxury Marketing Management
TECH Technological University

“

The concept of luxury is evolving into a new way of marketing exclusivity. Master the strengths thanks to this TECH MBA and you will stand out in the competitive world of fashion"

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class center for intensive managerial skills education.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that balances the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"*Microsoft Europe Success Story*", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

+100000 executives prepared each year

“

Did you know that Marie Antoinette was the first influencer? This Professional Master's Degree explains the history and the keys to the impact of consumerism on fashion through trendsetters"

Syllabus

Today's highly globalized and competitive environment has forced companies to establish highly efficient work environments that allow them to achieve their objectives. To achieve this, companies must use the best tools to reach a competitive and efficient management level in order to be able to adapt at all times to the needs of the market. This Executive Master's Degree teaches the necessary tools and knowledge to achieve this adaptation and to be able to compete in the best conditions.

Due to the need to constantly adapt to the changes that occur in the environment which can be of all kinds, it is necessary for a company to act as an adaptable system. For this reason, it is essential that all professionals even if they are responsible for only one area of the company, are aware of the impact on other areas and, above all, on the end customer. In other words, they must have transversal knowledge.

The MBA in Fashion and Luxury Marketing Management at TECH Technology University is an intensive program that prepares you to master the marketing of select products focused on an exclusive consumer. The content of the program is designed to promote the development of the skills required for this service.

Thus, this MBA deals in depth with the fundamentals of marketing, the environment in which it is applied and the mastery of the digital universe, enhanced after the impact of covid-19. The best experts in the sector have designed a syllabus with which professionals will develop from a strategic, international and innovative perspective, with the objective that the student will achieve excellence in such a competitive field as fashion and luxury.

This MBA takes place over 12 months and is divided into 10 modules:

- 10.9.3 Strategies for Accessing International Markets

10.10. Global Growth Strategies

- 10.10.1 Brand Licenses
- 10.10.2 Concessions or Agents
- 10.10.3 Franchises

07

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“ *You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge. This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

08

Our Students' Profiles

This MBA is designed for professionals and students from various academic disciplines who wish to delve into the new scenario that arises in the world of luxury, those who are able to pose challenges and opportunities for growth and marketing. Therefore, there is no single profile, as the student body is diverse and coming from different sectors with a common interest: marketing, fashion and luxury.

This diversity of participants with different academic profiles and from multiple nationalities makes up the multidisciplinary approach of this program. The development of a deep knowledge of marketing in the luxury industry will enable them to find the balance between creative and analytical talent and to face economic and social changes with agility.

“

Give your career a boost by specializing in a thriving sector with a guaranteed future”

Average Age

Between **35** and **45** years old

Years of Experience

Training

Educational Profile

Geographical Distribution

Idoia Tabera

Fashion Designer

"Like so many others my business has suffered losses following the impact of the coronavirus, so I was forced to turn my personal brand around to position it digitally. As a fashion designer, I lacked the marketing tools to create a powerful brand strategy on the Internet to sell my product, 100% handmade limited edition, and this MBA has enabled me to achieve it. Definitely, the best decision I have ever made"

09

Course Management

The program includes in its teaching staff experts of reference in the field of BI, who contribute their years of work experience to this syllabus as well as the link they have maintained throughout their professional careers with this exclusive environment. Other experts of recognized prestige in related areas also participate in its design and elaboration, completing the syllabus of the Executive Master's Degree in an interdisciplinary way, making it a unique academic experience for the student.

“

*Learn from leading professionals
from different fields related to BI”*

International Guest Director

Andrea La Sala is an experienced Marketing executive whose projects have had a significant impact on the Fashion sector. Throughout his successful career he has developed different tasks related to Product, Merchandising and Communication. All this linked to prestigious brands such as Giorgio Armani, Dolce&Gabbana, Calvin Klein, among others.

The results of this high-profile international executive have been linked to his proven ability to synthesize information in clear frameworks and execute concrete actions aligned to specific business objectives. In addition, he is recognized for his proactivity and adaptation to fast-paced work rhythms. To all this, this expert adds a strong commercial awareness, market vision and a genuine passion for products.

As Global Brand and Merchandising Director at Giorgio Armani, he has overseen a variety of marketing strategies for apparel and accessories. His tactics have also focused on retail and consumer needs and behavior. In this role, La Sala has also been responsible for shaping the marketing of products in different markets, acting as team leader in the Design, Communication and Sales departments.

On the other hand, in companies such as Calvin Klein or Gruppo Coin, he has undertaken projects to boost the structure, development and marketing of different collections. In turn, he has been in charge of creating effective calendars for buying and selling campaigns. He has also been in charge of the terms, costs, processes and delivery times of different operations.

These experiences have made Andrea La Sala one of the main and most qualified corporate leaders in Fashion and Luxury. A high managerial capacity with which he has managed to effectively implement the positive positioning of different brands and redefine their key performance indicators (KPI).

D. La Sala, Andrea

- Global Brand and Merchandising Director at Giorgio Armani
- Merchandising Director at Calvin Klein
- Brand Manager at Gruppo Coin
- Brand Manager at Dolce & Gabbana
- Brand Manager at Sergio Tacchini S.p.A
- Market Analyst at Fastweb
- Graduate of Business and Economics at the Università degli Studi del Piemonte Orientale

Impact on Your Career

TECH is aware that taking a program of these characteristics is a great economic, professional and of course, personal investment. The ultimate goal of carrying out this great effort must be to achieve professional growth and now, more than ever, is the time.

“

TECH wants to see you grow, wants to enable part of your professional success. That's why we are fully committed to offering you the best educational programs on the market today"

Are you ready to take the leap? Excellent professional development awaits you

The MBA in Fashion and Luxury Marketing Management at TECH is an intensive program that prepares to face challenges and creative and strategic decisions to achieve their goals. Helping you achieve success is not only their goal, it is also TECH's goal: elite education for all.

If you want to improve yourself, make a positive change at a professional level and interact with the best, this is the program for you.

Do not miss the opportunity that TECH offers and invest in your future.

If you want to make a positive change in your profession, the MBA in Fashion and Luxury Marketing Management will help you achieve it.

Time of Change

Type of change

Salary increase

This program represents a salary increase of more than **25.22%** for our students.

11

Benefits for Your Company

The MBA in Fashion and Luxury Marketing Management contributes to increase the possibilities of potential employees, an assessment that companies must take into account in order to have a team of the highest level. The more qualified your professionals are, the more likely they are to succeed and the more motivated the group will be. In addition, it drives the achievement of objectives and the preparation of experts who will create the tools of the future, as the new generations do through the mastery of social networks. All this contributes to the professional growth of the staff of companies that, like TECH, are committed to excellence. Therefore, this program is a unique opportunity for companies to have the best in their team, becoming generators of excellent leaders.

“

After completing this MBA in Fashion and Luxury Marketing Management you will be able to bring a new business vision to your company"

Developing and retaining talent in companies is the best long-term investment.

01

Growth of talent and intellectual capital

The professional will introduce the company to new concepts, strategies, and perspectives that can bring about significant changes in the organization.

02

Retaining high-potential executives to avoid talent drain

This program strengthens the link between the company and the professional and opens new avenues for professional growth within the company.

03

Building agents of change

You will be able to make decisions in times of uncertainty and crisis, helping the organization overcome obstacles.

04

Increased international expansion possibilities

Thanks to this program, the company will come into contact with the main markets in the world economy.

05

Project Development

The professional can work on a real project or develop new projects in the field of R & D or business development of your company.

06

Increased competitiveness

This program will equip students with the skills to take on new challenges and drive the organization forward.

12 Certificate

The Executive Master's Degree MBA in Fashion and Luxury Marketing Management guarantees students, in addition to the most rigorous and up to date education, access to an Executive Master's Degree issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This **MBA in Fashion and Luxury Marketing Management** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Executive Master's Degree** issued by **TECH Technological University** by tracked delivery.

The diploma issued by **TECH Technological University** will express the qualification obtained in the Executive Master's Degree and meets the requirements commonly demanded by job exchanges, competitive examinations and professional career evaluation committees.
