01 Welcome

Personnel selection processes must be carried out in an exhaustive manner in order to choose the workers who are best suited to each job position and who have a profile appropriate to the company's policies and objectives. In this sense, having an international and inclusive vision will make the organization more committed and competitive, by having, among the most valuable asset, the human resources department, with professionals with different visions and cultures that can contribute all their knowledge to the company to achieve a common goal. To this end, it is essential that recruitment professionals have advanced specialization in the field of diversity in the workplace in order to understand the opportunity of having a diverse and multicultural team.

Executive Master's Degree in Personnel Recruitment Management
TECH Technological University

“

The most outstanding advances in the approach to diversity in the workplace are condensed in this very complete Executive Master's Degree, specially designed to catapult the professional career of HR specialists”

02

Why Study at TECH?

TECH is the world's largest 100% online business school. It is an elite business school, with a model based on the highest academic standards. A world-class centre for intensive managerial skills training.

“

TECH is a university at the forefront of technology, and puts all its resources at the student's disposal to help them achieve entrepreneurial success"

At TECH Technological University

Innovation

The university offers an online learning model that combines the latest educational technology with the most rigorous teaching methods. A unique method with the highest international recognition that will provide students with the keys to develop in a rapidly-evolving world, where innovation must be every entrepreneur's focus.

"Microsoft Europe Success Story", for integrating the innovative, interactive multi-video system.

The Highest Standards

Admissions criteria at TECH are not economic. Students don't need to make a large investment to study at this university. However, in order to obtain a qualification from TECH, the student's intelligence and ability will be tested to their limits. The institution's academic standards are exceptionally high...

95% | of TECH students successfully complete their studies

Networking

Professionals from countries all over the world attend TECH, allowing students to establish a large network of contacts that may prove useful to them in the future.

100,000+
executives trained each year

200+
different nationalities

Empowerment

Students will grow hand in hand with the best companies and highly regarded and influential professionals. TECH has developed strategic partnerships and a valuable network of contacts with major economic players in 7 continents.

500+ | collaborative agreements with leading companies

Talent

This program is a unique initiative to allow students to showcase their talent in the business world. An opportunity that will allow them to voice their concerns and share their business vision.

After completing this program, TECH helps students show the world their talent.

Multicultural Context

While studying at TECH, students will enjoy a unique experience. Study in a multicultural context. In a program with a global vision, through which students can learn about the operating methods in different parts of the world, and gather the latest information that best adapts to their business idea.

TECH students represent more than 200 different nationalities.

TECH strives for excellence and, to this end, boasts a series of characteristics that make this university unique:

Analysis

TECH explores the student's critical side, their ability to question things, their problem-solving skills, as well as their interpersonal skills.

Academic Excellence

TECH offers students the best online learning methodology. The university combines the Relearning method (a postgraduate learning methodology with the highest international rating) with the Case Study. A complex balance between tradition and state-of-the-art, within the context of the most demanding academic itinerary.

Economy of Scale

TECH is the world's largest online university. It currently boasts a portfolio of more than 10,000 university postgraduate programs. And in today's new economy, **volume + technology = a groundbreaking price**. This way, TECH ensures that studying is not as expensive for students as it would be at another university.

Learn with the best

In the classroom, TECH's teaching staff discuss how they have achieved success in their companies, working in a real, lively, and dynamic context. Teachers who are fully committed to offering a quality specialization that will allow students to advance in their career and stand out in the business world.

Teachers representing 20 different nationalities.

At TECH, you will have access to the most rigorous and up-to-date case studies in the academic community"

03

Why Our Program?

Studying this TECH program means increasing the chances of achieving professional success in senior business management.

It is a challenge that demands effort and dedication, but it opens the door to a promising future. Students will learn from the best teaching staff and with the most flexible and innovative educational methodology.

“

We have highly qualified teachers and the most complete syllabus on the market, which allows us to offer you training of the highest academic level"

This program will provide students with a multitude of professional and personal advantages, particularly the following:

01

A significant career boost

By studying at TECH, students will be able to take control of their future and develop their full potential. By completing this program, students will acquire the skills required to make a positive change in their career in a short period of time.

70% of participants achieve positive career development in less than 2 years.

02

Develop a strategic and global vision of companies

TECH offers an in-depth overview of general management to understand how each decision affects each of the company's different functional areas.

Our global vision of companies will improve your strategic vision.

03

Consolidate the student's senior management skills

Studying at TECH means opening the doors to a wide range of professional opportunities for students to position themselves as senior executives, with a broad vision of the international environment.

You will work on more than 100 real senior management cases.

04

Take on new responsibilities

The program will cover the latest trends, advances and strategies, so that students can carry out their professional work in a changing environment.

45% of graduates are promoted internally.

05

Access to a powerful network of contacts

TECH connects its students to maximize opportunities. Students with the same concerns and desire to grow. Therefore, partnerships, customers or suppliers can be shared.

You will find a network of contacts that will be instrumental for professional development.

06

Thoroughly develop business projects

Students will acquire a deep strategic vision that will help them develop their own project, taking into account the different areas in companies.

20% of our students develop their own business idea.

07

Improve soft skills and management skills

TECH helps students apply and develop the knowledge they have acquired, while improving their interpersonal skills in order to become leaders who make a difference.

Improve your communication and leadership skills and enhance your career.

08

Be part of an exclusive community

Students will be part of a community of elite executives, large companies, renowned institutions, and qualified professors from the most prestigious universities in the world: the TECH Technological University community.

We give you the opportunity to train with a team of world renowned teachers.

04 Objectives

The objectives of this program are based on meeting the specialization needs of Human Resources professionals in this field. In this sense, a complete and optimal program has been realistically established to lead the student to academic excellence and encourage them to achieve an efficient progression in their professional career. For all these reasons, this specialization will be a journey of personal and professional growth for the student that will lead them to the highest quality in their intervention in this field.

“

If your goal is to expand your professional career as an HR specialist, with qualifications that will enable you to compete among the best, look no further. This program will give you the boost your career needs”

Your goals are our goals.

We work together to help you achieve them.

Module 9. Management of Employment Intermediation Policies
9.1. Employment Intermediation in the Common Portfolio of the National Employment System Services

- 9.1.1. Employment Intermediation
- 9.1.2. The New Role of Public Employment Services
- 9.1.3. Discrimination in Access to Employment

9.2. Employment Intermediation

- 9.2.1. Conceptualization of Intermediation: Basic Principles
- 9.2.2. Employment Intermediation and Professional Orientation
- 9.2.3. Employment Intermediation Within Active Employment Policies in Public Services
- 9.2.4. Collaborating Agents in the Outsourcing of Intermediation: Recruitment Agencies and Temporary Employment Agencies

9.3. Job Prospecting I

- 9.3.1. Statistical Data on the Business Fabric
- 9.3.2. Sources of Employment Market Information
- 9.3.3. Current Employment Market Indicators
- 9.3.4. Employment Opportunities

9.4. Job Prospecting II

- 9.4.1. Diagnosis and Analysis of the Labor Market
- 9.4.2. Prospecting and its Phases: Approaching the Company and Recruiting Plan
- 9.4.3. Loyalty and Assessment of the Relationship with Companies
- 9.4.4. Management of the Employment Demand and Accompaniment to the Company

9.5. Recruitment Activities

- 9.5.1. Conceptualization of Recruitment: Typologies
- 9.5.2. Recruitment Procedures in the Digital Era: E-Recruitment
- 9.5.3. Recruitment in the Collaborating Placement Agencies

9.6. Personalized Itineraries of Orientation and Labor Market Insertion

- 9.6.1. Basic Aspects and Elements that Include it
- 9.6.2. Elaboration of Personalized Itineraries of Orientation and Labor Market Insertion
- 9.6.3. Special Considerations for Groups with Labor Market Insertion Difficulties

9.7. The Sanctioning Regime for Brokerage Activities

- 9.7.1. Lack of Penalties for the Recruitment of Irregular Labor Orientation and Placement
- 9.7.2. The Sanctioning Regime for Training

9.8. Illegal Assignment of Workers: Regulatory Framework

- 9.8.1. Successive Reforms of the Concept and the Current Identification of Illegal Assignment
- 9.8.2. Illegal Intercompany Transfers
- 9.8.3. Consequences of Unlawful Assignment

9.9. Public-Private Collaboration in Labor Intermediation

- 9.9.1. European Public-Private Partnership Models
- 9.9.2. The Public-Private Partnership Framework Agreement after the Labor Reform
- 9.9.3. The Convergence of Educational Obligations with the Public Employment Services

9.10. Challenges of Labor Intermediation Policies in the Digital Era

- 9.10.1. Labor Intermediation in Telematic Employment Agencies
- 9.10.2. Labor Mobility and Globalization in Employment Policies
- 9.10.3. Job Prospecting in the Digital Era

Module 10. Personal Productivity and Project Management

10.1. Time Management

- 10.1.1. Use of Time
- 10.1.2. Time Planning: Time Thieves
- 10.1.3. Development of Operational Plans and Management Control
- 10.1.4. New Technologies at the Disposal of Time: Outlook, Microsoft Project

10.2. Personal Energy Management

- 10.2.1. Personal Skills and Management Skills
- 10.2.2. Interpersonal Skills
- 10.2.3. Conflict Resolution

10.3. Personal Stress Management Strategies

- 10.3.1. Stress: Basic Concepts and Its Role in Survival
- 10.3.2. Eustress and Distress
- 10.3.3. Stress Management Strategies: Cognitive, Behavioral and Emotional

10.4. Project Planning and Control

- 10.4.1. Scope Management
- 10.4.2. Project Schedule Management
- 10.4.3. Project Cost Management

10.5. Project Quality Management

- 10.5.1. Planning, Quality Assurance and Quality Control: Applicable Regulations
- 10.5.2. Project Risk Management and Technical Tools for Project Risk Management

10.6. People Management

- 10.6.1. Leadership Management and Team Management in Human Resources
- 10.6.2. Corporate Responsibility and Ethics of the Project Manager

10.7. Legal Aspects of Project Management

- 10.7.1. Recruitment Management
- 10.7.2. Procurement Planning (The Purchasing Cycle)
- 10.7.3. Contract Administration and Procurement

10.8. Project Financing

- 10.8.1. Economic-Financial and Risk Analysis
- 10.8.2. Financing Mechanisms
- 10.8.3. Program Financial Management (Budget, Program Control, Program Closing)

10.9. Communication and Project Sales

- 10.9.1. Communication and Stakeholders) Management
- 10.9.2. Project Sale Management
- 10.9.3. Quality Assessment in Knowledge Management and Project Management Trends
- 10.9.4. Information Management
- 10.9.5. ISO 10006
 - 10.9.5.1. UNE 412001: Practical Guide to Knowledge Management
 - 10.9.5.2. Tiwana Methodology

07

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

TECH Business School uses the Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

This program prepares you to face business challenges in uncertain environments and achieve business success.

Our program prepares you to face new challenges in uncertain environments and achieve success in your career.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch to present executives with challenges and business decisions at the highest level, whether at the national or international level. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and business reality is taken into account.

“ *You will learn, through collaborative activities and real cases, how to solve complex situations in real business environments”*

The case method has been the most widely used learning system among the world's leading business schools for as long as they have existed. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They must integrate all their knowledge, research, argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

Our online system will allow you to organize your time and learning pace, adapting it to your schedule. You will be able to access the contents from any device with an internet connection.

At TECH you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our online business school is the only one in the world licensed to incorporate this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Management Skills Exercises

They will carry out activities to develop specific executive competencies in each thematic area. Practices and dynamics to acquire and develop the skills and abilities that a high-level manager needs to develop in the context of the globalization we live in.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this program. Cases that are presented, analyzed, and supervised by the best senior management specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

08

Our Students' Profiles

The Executive Master's Degree in Personnel Recruitment Management is a program aimed at professionals who want to update their knowledge in the field of Personnel Recruitment and advance in their professional career towards a promising future in this field. The compendium of knowledge that they will acquire after completing this complete qualification will enable them to work in this field with guaranteed success and will allow them to position themselves as experts in this area of human resources.

“

If you want to achieve an interesting improvement in your professional career while continuing to work, this is the program for you"

This program represents a salary increase of more than **25.22%** for our students

10

Benefits for Your Company

The Executive Master's Degree in Personnel Recruitment Management contributes to raising the organization's talent to its maximum potential through the specialization of high-level leaders. Therefore, participating in this academic program will not only improve you on a personal level, but, above all, on a professional level, increasing your training and improving your managerial skills. Additionally, joining TECH's educational community is a unique opportunity to access a powerful network of contacts in which to find future professional partners, clients, or suppliers.

“

You will obtain a more complete and global vision of the company that will allow you to contribute new ideas”

Developing and retaining talent in companies is the best long-term investment.

01

Intellectual Capital and Talent Growth

Bring new concepts, strategies and perspectives to the company that can bring about relevant changes in the organization.

02

Retaining high-potential executives to avoid talent drain

This program strengthens the link between the company and the executive and opens new avenues for professional growth within the company.

03

Building agents of change

You will be able to make decisions in times of uncertainty and crisis, helping the organization overcome obstacles.

04

Increased international expansion possibilities

Thanks to this program, the Organisation will come into contact with the main markets in the world economy.

05

Project Development

The manager will be able to work on a real project or develop new projects.

06

Increased competitiveness

This program will equip students with the skills to take on new challenges and drive the organization forward.

11

Certificate

The Executive Master's Degree in Personnel Recruitment Management guarantees students, in addition to the most rigorous and up-to-date education, access to an Executive Master's Degree issued by TECH Global University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork"

This program will allow you to obtain your **Executive Master's Degree diploma in Personnel Recruitment Management** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

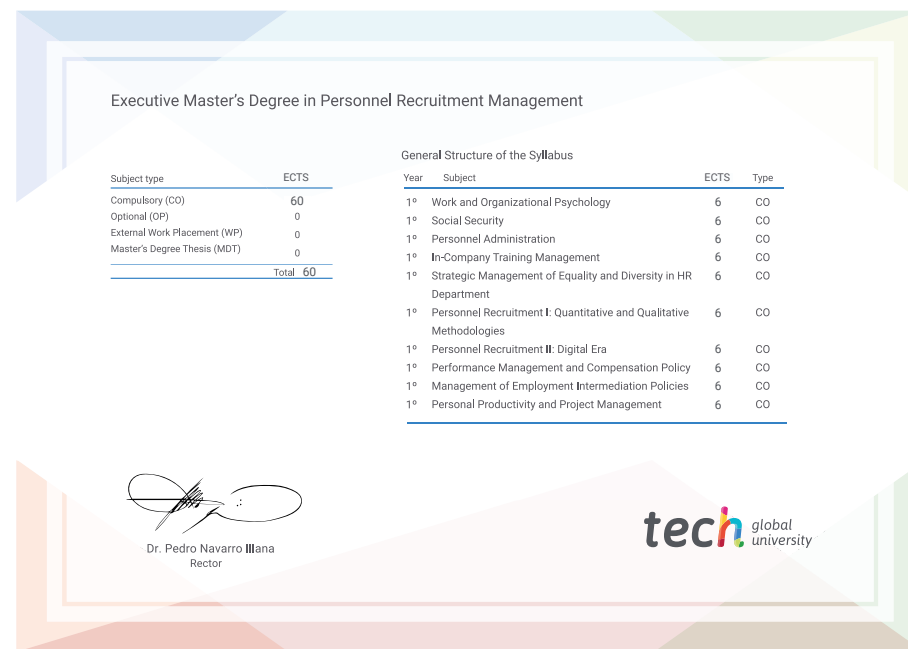

This **TECH Global University** title is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.
