# Welcome

This language course is an intensive program that prepares the student to pass the B1 Spanish exam. For this reason, they will have a series of activities that will help them to practice for the test and, later on, to face a conversation with native speakers with fluency and confidence. In addition, they will be accompanied by a select group of native teachers, who will be ready to answer any questions and accompany students throughout the process.

*Presentation video*

“

*Get certified now and improve your level of Spanish thanks to the content of this Language Course"*

## Introduction

Spanish has become a language of interest to many people around the world. With more than 400 million speakers, companies have turned their attention to the Hispanic community, which is why they positively value employees who possess a moderate level of proficiency in the language. For this reason, obtaining a B1 Spanish certificate is a great option for those looking to advance in their careers. This language course will help students to prepare for this certification, endorsed by the CEFR. They will be able to participate immersively in any conversation and understand more complex sentences.

*At the end of this 100% Online Language Course, you will have taken a big step towards fluency in Spanish. Don't hesitate and enrol now!*

*You will have access to numerous activities that have been prepared by TECH's teaching team to guarantee that you successfully complete the Spanish B1 exam*

“

*It is proven that learning languages increases your intelligence. Learning a foreign language strengthens the brain's neural networks”*

# Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, helping us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. Nowadays, students must have an official certificate that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

“

*The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR program"*

## tech 10 | Is it Important to Obtain a Language Certificate?

### TECH Global University

The Common European Framework of Reference for Languages is the **only officially recognized and accredited system for assessing a student's level of proficiency**. Although there are other certification systems, these come from private institutions and are, therefore, **not officially valid**. The CEFR establishes a single criterion to determine the difficulty of the courses and awards diplomas that are recognized throughout the European Union.

At TECH, we offer you the only intensive Language Course to obtain your **official certificate** based 100% on the CEFR, **the only official system recognized and accepted throughout Europe**.

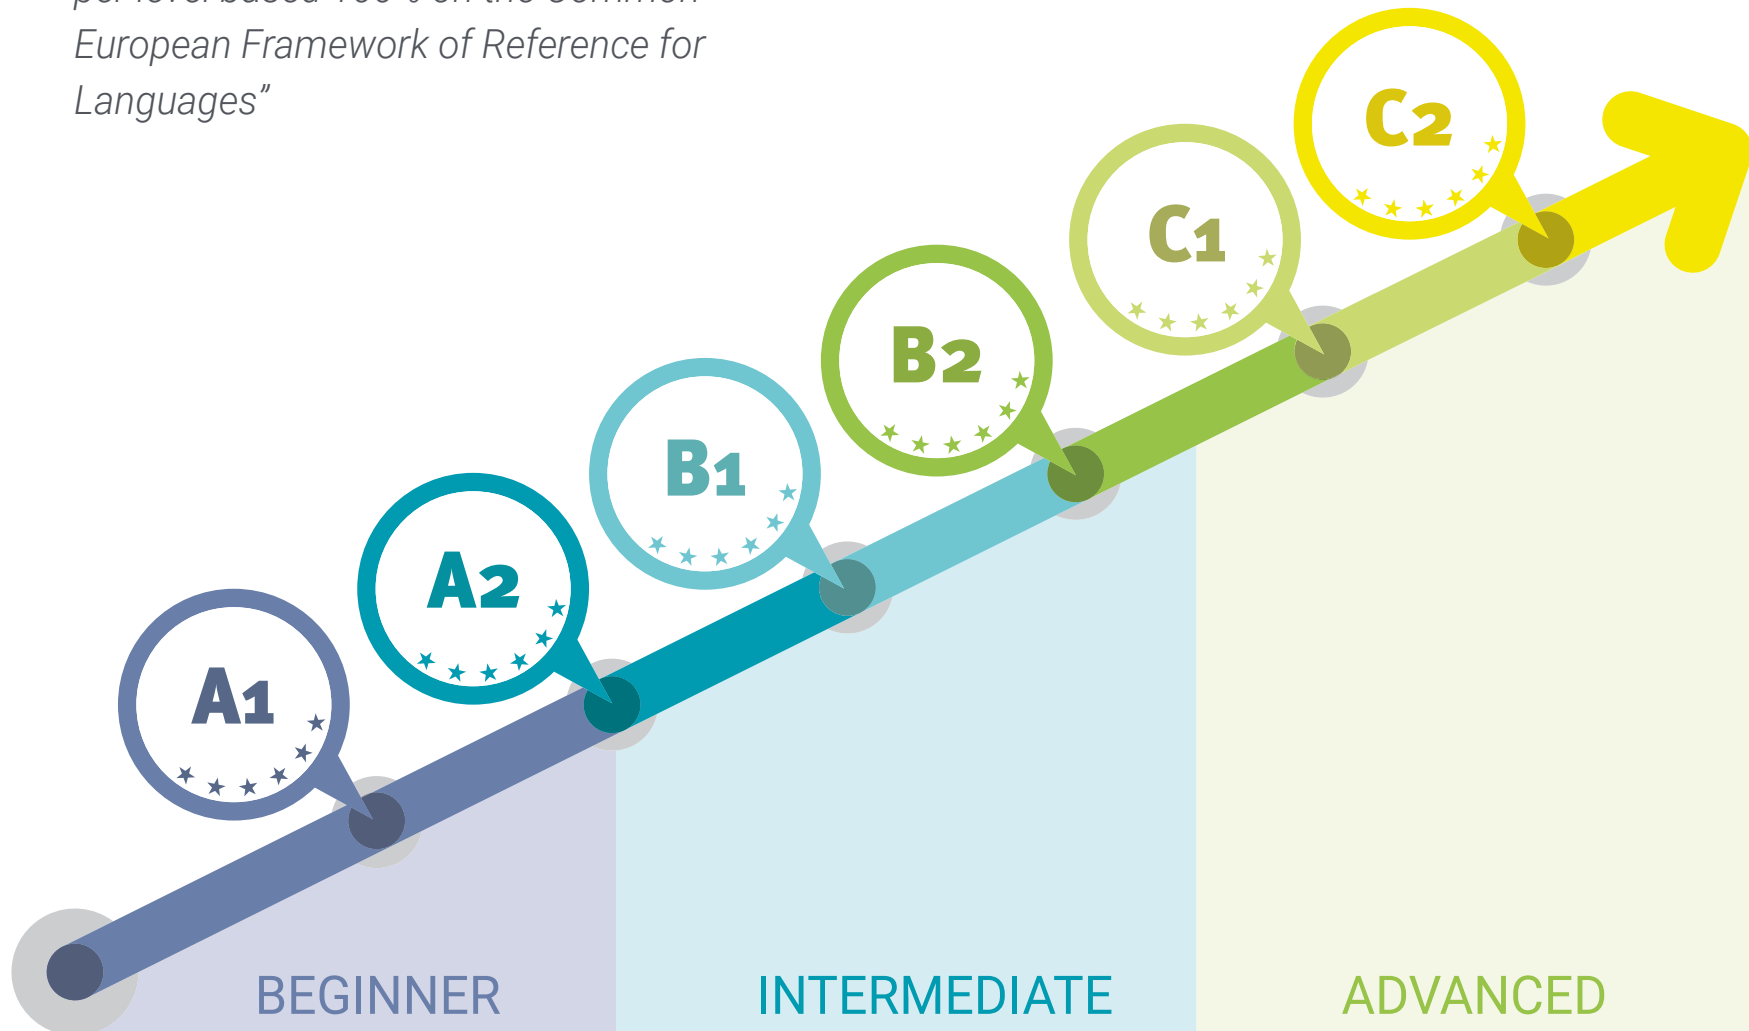

*Learn Spanish and make the most of it by accrediting it with an official qualification based on the CEFR*

*Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life*

“

*We work with the most comprehensive and complete syllabus, with 51 units per level based 100% on the Common European Framework of Reference for Languages”*

03

# What Is Level B1?

One of the purposes of the CEFR is to help users describe the levels of language proficiency required by existing examinations and assessment programs in order to facilitate comparisons between different certification systems. Therefore, these levels are a universal scale used to unify and clarify the different language level evaluation systems.

“

*In TECH's B1 Language Course, we thoroughly prepare you to obtain your Spanish B1 language certificate"*

## What are the B1 Level Skills?

Level B1 is part of the Independent User Level, which is divided into two sub-levels: First and Second Independent User Level (B1 and B2). Level B1 has two main features: the first is the ability to maintain interaction and to make oneself understood in a variety of situations.

The second characteristic is the ability to know how to flexibly deal with everyday problems. Most of the descriptors that are used in social functions are found at this level, for example:

01

Understand the main points of clear, standard-language texts on familiar matters, whether in work, study or leisure situations

02

Know how to deal with most of the situations that may arise during a trip in areas where the language is used

“

*Certifying Level B1 in Spanish brings with it numerous opportunities. Enroll now and progress personally and professionally thanks to TECH"*

03

Produce simple and coherent texts on topics that are familiar to him/her or in which he/she has a personal interest

04

Describe experiences, events, desires and aspirations, as well as briefly justify their opinions or explain their plans

Here you will also find descriptors on how to function in social life: being able to carry out simple transactions in stores, post offices or banks; knowing how to get simple travel information; using public transport (buses, trains and cabs); asking for basic information, asking and explaining how to get to a place and buy tickets; ordering and providing everyday goods and services.

“

*TECH helps students to obtain their qualification with an intensive program that is based 100% on the CEFR"*

## B1 Level Self-Assessment Chart

### What will I be able to do after completing the course?

Comprehension	Speaking	Writing
<p><b>Listening Comprehension</b></p> <ul style="list-style-type: none"><li>◆ Understand the main ideas when the speech is clear and normal and deals with everyday matters that take place at work, at school, during leisure time, etc.</li><li>◆ Understand the main idea of many radio or television programs dealing with current affairs or matters of personal or professional interest, when the articulation is relatively slow and clear</li></ul>	<p><b>Oral Interaction</b></p> <ul style="list-style-type: none"><li>◆ Get by in almost all situations that arise when traveling to places where the language is spoken</li><li>◆ Spontaneously engage in conversation on everyday topics of personal interest or that are relevant to daily life (e.g., family, hobbies, work, travel, and current events)</li></ul> <p><b>Oral Expression</b></p> <ul style="list-style-type: none"><li>◆ Know how to link sentences in a simple way in order to describe experiences and facts, dreams, hopes and ambitions</li><li>◆ Explain and briefly justify opinions and projects</li><li>◆ Narrate a story or tale, the plot of a book or movie, and describe their reactions</li></ul>	<p><b>Written Expression</b></p> <ul style="list-style-type: none"><li>◆ Write simple and well linked texts on topics that are familiar or of personal interest</li><li>◆ Write personal letters describing experiences and impressions</li></ul>

## Qualitative aspects of spoken language usage for Level B1

(According to the Common European Framework of Reference for Languages)

### What is expected to be achieved with this level?

#### Scope

- ◆ Possess a large enough linguistic repertoire to get by and an adequate vocabulary to express themselves, albeit hesitantly and with circumlocutions, on topics such as their family, hobbies and interests, work, travel and current affairs

#### Interaction

- ◆ Initiate, maintain and end simple face-to-face conversations on everyday topics of personal interest
- ◆ Repeat part of what someone has said to confirm mutual understanding

#### Correction

- ◆ Use with reasonable accuracy a repertoire of commonly used formulas and structures associated with predictable situations

#### Coherence

- ◆ Link a series of short, distinct and simple elements to enable a linear sequence of related ideas

#### Fluency

- ◆ Continue to speak in a comprehensible manner, although pauses for grammatical, lexical planning and correction are evident, especially during long periods of free speech

*Download and practice  
vocabulary: more than  
500 pages of lexical cards  
and glossaries*

- Final review test: you will work through more than 1,400 assessment questions to thoroughly prepare for your level certification
- Pre-test activities: in order to consolidate the concepts developed throughout the syllabus by reiterating them

## Skills-Based Practice

---

If the CEFR establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? At TECH, you will work on all the skills established by the Common European Framework of Reference for Languages in each of the units through an innovative method that is 100% adapted to European guidelines. In this program we work according to skills, with more than 500 different activities in order to prepare you to obtain your official Spanish B1 certificate.

## Presentation Videos and Objectives

---

The only program in which you will find detailed objectives and skills per unit in video format explained by a native teacher.

## Summary Videos of Each Unit

---

At the end of each unit, you will find a video summary in which a native teacher will reiterate and emphasize the most important points.

## Video Task

---

Test what you know in a different way, solve our video-task!

## Simulated Learning Scenarios

---

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this program you will find more than 250 everyday situations, stories and video dialogues recorded by experts and native speakers.

### Specific Virtual Classes for CEFR B1

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

# Our Methodology

This TECH program is a B1 Spanish Language Course based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method in which the student works intensively and repeatedly on all the contents required by the CEFR, thoroughly preparing them to pass the test.

“

*In no other course will you find pre-test knowledge activation questions, lesson tests, grammar tests, a final test and specific practice of CEFR skills in each unit"*

## The TECH Global University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's B1 Spanish Language Course offers students a revolutionary method to comprehensively prepare for the level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test. These simulations are developed using state-of-the-art software to facilitate immersive learning.

*... All of this is enhanced with the best 100% online teaching methodology: Relearning....*

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

*TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step*

This methodology, at the forefront of world teaching, is called *Relearning*. Our language school is the first one licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

*The overall score obtained by our learning system is 8.01, according to the highest international standards*

**Relearning Methodology**

In TECH's B1 Spanish Language Course, learning is not a linear process, but rather a spiral (we learn—unlearn (forget) and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 35,000 university graduates with unprecedented success, in fields as diverse as Biochemistry, Genetics, Surgery, International Law, Management Skills or Financial Markets and Instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 42 years.

*...with a personalized and an expert-led syllabus...*

In order to facilitate tutor-student contact as much as possible, students will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, discussion forums on, e-mail contact with the technical secretary, chat and video conference).

“

*Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)”*

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. This way, and in what is called *Neurocognitive Context-Dependent Learning*, the different elements of our Spanish B1 Language Course are connected with the context in which the participant will take their certification exam in order to guarantee success on the day of the test.

*...and all this with the best learning materials at the forefront of technology and pedagogy..*

*Study wherever and however you want with more than 150 downloadable and printable grammar and lexical worksheets and glossaries*

## Course Objectives

This language course was developed to help students prepare to take the B1 Spanish exam. To achieve this, they are offered a practical approach and personalized guidance which, combined with their effort and TECH's teaching excellence, will enable them to reach all their goals.

The program's primary objective is to prepare students to take the B1 level Spanish test with confidence. By following all the criteria included in the CEFR, the teaching staff has developed hundreds of practical exercises, work guides and downloadable PDFs that the student can use to help achieve their goals.

*In TECH's CEFR B1 Language Course,  
students will find more than 350  
pronunciation and phonetic activities.*

“

*After the program, you will be able to  
certify your B1 level and continue to  
advance in the Spanish language”*

General Objectives

01

Use the language being learned as a means of communication and personal expression, both in the classroom and in a wide range of face-to-face and virtual situations and on both concrete and abstract topics, including cultural ones

02

Understand, interact and express themselves in these situations, orally and in writing, in an appropriate, reasonably flexible, precise and correct manner

03

Describe the sociocultural aspects related to usual situations, as well as those related to one's own environment and use the appropriate social formulas, gestures, register and treatment in these situations

04

Internalize the appropriate and necessary linguistic resources for the planned communicative activities, through functional and formal practice

05

Encourage and diversify the use of strategies that streamline communication and facilitate learning

06

Manage tools to evaluate and improve one's own learning and use of the language

## Specific Objectives

### Oral Comprehension

- ◆ Understand concrete everyday or work-related information and identify both the general message and specific details as long as the speech is clearly articulated and with a normal accent
- ◆ Understand the main ideas of clear, standard speech on everyday topics related to work, school or leisure time, including short narratives
- ◆ Generally follow the main ideas of a long discussion going on around them, provided that the discourse is clearly articulated at a standard language level
- ◆ Understand, in general terms, simple and short speeches on everyday topics provided they are delivered with standard and clear pronunciation
- ◆ Understand a lecture or talk that deals with their area of expertise, provided that the subject matter is familiar and the presentation is simple and clearly structured
- ◆ Understand simple technical information, such as operating instructions for frequently used appliances, as well as follow detailed instructions
- ◆ Understand the main ideas of radio news and other simpler recorded material dealing with everyday topics delivered relatively slowly and clearly
- ◆ Understand the information content of most recorded or broadcast material related to topics of personal interest with clear standard pronunciation

### Reading Comprehension

- ◆ Read simple factual texts on topics related to their field of expertise with a satisfactory level of comprehension
- ◆ Understand the description of facts, feelings and wishes in personal letters well enough to correspond regularly with a foreign friend
- ◆ Find and understand relevant information in everyday written material, such as letters, catalogs, and short official documents
- ◆ Consult long texts in order to find the desired information, and to know how to gather information from different parts of a text or from different texts in order to perform a specific task
- ◆ Recognize significant ideas from simple newspaper articles that deal with everyday issues
- ◆ Identify the main conclusions in clearly argumentative texts. Recognize the line of argument in the treatment of the issue presented, though not necessarily in full detail
- ◆ Understand simple, clearly written instructions related to an appliance
- ◆ Understand many films where visuals and action drive much of the storyline and are articulated clearly and with a simple level of language
- ◆ Capture the main ideas of television programs dealing with everyday topics when they are articulated relatively slowly and clearly

## Written Expression

- ◆ Write simple, cohesive texts on a range of everyday topics within their field of interest, linking a series of different short items in a linear sequence
- ◆ Write simple and detailed descriptions of a range of everyday topics within their specialty
- ◆ Write accounts of experiences describing feelings and reactions in simple, structured texts
- ◆ Write a description of a specific event, a recent trip, real or imagined, and narrate a story
- ◆ Write very brief reports in conventional format with information about common events and the reasons for certain actions
- ◆ Write short and simple essays on topics of interest. Can summarize, communicate and offer their opinion with a certain degree of confidence on concrete facts related to everyday matters, whether usual or not, in their field of expertise

## Oral Expression

- ◆ Carry out, with a reasonable degree of fluency, a simple description of a variety of topics that are of interest to them, presenting them as a linear sequence of elements
- ◆ Give simple descriptions on a variety of common topics within your specialty
- ◆ Give simple narratives or descriptions with a reasonable degree of fluency following a linear sequence of elements

- ◆ Make detailed accounts of experiences describing feelings and reactions
- ◆ Report the details of unpredictable events, such as, for example, an accident
- ◆ Relate book or movie plots and describe your reactions to them
- ◆ Describe dreams, hopes and ambitions
- ◆ Describe real or imagined events. Tell stories
- ◆ Provide brief rationales and explanations for opinions, plans and actions
- ◆ Develop arguments well enough so that they can be understood without difficulty most of the time
- ◆ Make short rehearsed statements on a relevant topic within their specialty, which are clearly intelligible despite being accompanied by an unmistakably foreign accent and intonation
- ◆ Deliver a brief, prepared presentation on a topic within their specialty, with sufficient clarity to be followed without difficulty most of the time and whose main ideas are explained with reasonable accuracy. Can also answer supplemental questions, but may have to ask for repetition if spoken quickly

## Specific Objectives

### Sociocultural and Sociolinguistic Competence

- ◆ Broaden and diversify the knowledge of sociocultural aspects related to situations, even those that are less usual and those of one's own professional field; to successfully adapt their behavior, reactions and linguistic performance to different situations
- ◆ Use in a flexible way the language and formulas of the exchanges and texts that are handled, as well as the usual forms of treatment and expressions of courtesy, within a wide standard register of formality and informality, with degrees of distance or closeness
- ◆ Use expressions that nuance disagreement or negative evaluations if the situation so requires
- ◆ Understand behaviors and values different from one's own that underlie common sociocultural traits and recognize aspects and expressions that are offensive or taboo in the other culture

### Linguistic Competence

- ◆ Broaden and diversify the knowledge of sociocultural aspects related to situations, even those that are less usual and those of one's own professional field; to successfully adapt their behavior, reactions and linguistic performance to different situations
- ◆ Use in a flexible way the language and formulas of the exchanges and texts that are handled, as well as the usual forms of treatment and expressions of courtesy, within a wide standard register of formality and informality, with degrees of distance or closeness
- ◆ Use expressions that nuance disagreement or negative evaluations if the situation so requires
- ◆ Understand behaviors and values different from one's own that underlie common sociocultural traits and recognize aspects and expressions that are offensive or taboo in the other culture

### Did you know?

Communicative competence is not merely limited to the knowledge and ability to use the linguistic code, but has other broader dimensions, which place it in direct relation with other competences such as information processing and digital competence, learning to learn, social and civic competence, or cultural and artistic competence.

This implies a cultural immersion that is only possible to recreate in the online format through simulated scenarios, *storytelling*, videos and real situations.

*Only TECH offers their students videos with the 250 specific situations required to master the CEFR B1*

*To consolidate all these skills, you will have access to more than 500 lexical, vocabulary and sociocultural activities”*

# Course Structure and Content

This language course has been specifically designed to help students obtain the B1 Spanish certificate. For this reason, it has a highly practical approach and covers all the relevant aspects required to pass the CEFR test. In this way, students will be able to manage everyday conversations in common places such as supermarkets and restaurants, or even write texts for social media. Therefore, at the end of the program, they will have a great command of the vocabulary and grammar to be used on a daily basis.

### Where, When and How is it Taught?

This course takes place over 4 months and is divided into 15 content modules. You can do it completely online, even attending our sessions and tutorials.

*Obtain your B1 Spanish certificate through an intensive program based on the most demanding CEFR criteria"*

*"Latin culture was always interesting to me, so I began to learn Spanish early on, without even realizing it, by listening to music or talking to my friends. I wanted to go a step further and consolidate all my knowledge, so I found this TECH Language Course, which was essential to finally have a good level of Spanish"*

## **Nathaly Johnson**

A student from the United States

*"Having a B1 in Spanish is essential to do business in any Hispanic country. As a result, I have been able to expand my business and run social media campaigns in countries such as Mexico, Chile, Argentina and Spain. I also plan to continue progressing through the levels in order to improve my comprehension skills, with the aim of moving to Spain"*

# Our Students' Profiles

We know that learning a language isn't easy. Many of us have tried, and failed, for years to consolidate our knowledge and acquire the skills required to obtain qualifications that demonstrate what we have learned. Level exams are complex tests that must be prepared for thoroughly and with good expert guidance.

“

*Many of our students have previously tried other preparation methods that have made them lose motivation. At TECH, 9 out of 10 students recommend us”*

# The Professional Benefits of Spanish

Spanish is the second most widely spoken native language in the world, behind Mandarin Chinese and ahead of English and Hindi/Urdu. Recent forecasts show that English, Spanish and Chinese are inevitably the three languages of international communication for the 21st century.

It is spoken in Spain, in the Caribbean Islands (Cuba and Puerto Rico), in the Dominican Republic, in North America (Mexico), in Central America (Guatemala, Belize, El Salvador, Honduras, Nicaragua, Costa Rica and Panama) and in South America (Colombia, Venezuela, Uruguay, Paraguay, Argentina, Chile, Bolivia, Peru and Ecuador). Spanish is also the second most widely spoken language in the United States.

The Spanish-speaking population represents one of the fastest growing groups in the world, especially in the United States. The Spanish-speaking population constitutes a huge community that shares products, services and culture and offers businesses and institutions a truly unique opportunity for growth.

Furthermore, studying Spanish opens many doors at a professional level. Many countries have Spanish as an official language, so there are a lot of jobs in which this can be a fundamental factor.

“

*The power of Spanish is in its early days compared to what will happen in the future. Spanish will make Simón Bolívar's impossible dream of uniting all America a reality”*

*Eduardo Lago, Director of the Instituto Cervantes in New York*

# Assessment and Certification

The main evaluation objective of TECH's assessment is that students consolidate what they have learned and are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

“

*TECH'S B1 Language Course is the only one that also awards you with a university certificate”*

### B1 Spanish language course evaluation tests

The assimilation of the contents is constantly and progressively evaluated. To do so, the student must pass an automatically corrected evaluation test at the end of each module and a final test that covers all the contents of the level.

Its main objective is for the student to consolidate what they have learned and to be aware of their progress, for this reason, after the evaluation test is completed, the student is shown a report of the results.

“*Only TECH will award you a university certificate upon successfully completing the course*”

### Language course evaluation criteria

- Communicative effectiveness: comprehensibility, fulfillment of expected functions, accuracy, sociolinguistic appropriateness
- Interactive and speaking skills: responsiveness and cooperation, coherence of ideas, organization, relevant and sufficient development
- Use of language: linguistic resources, formal elements of cohesion and fluency
- Formal correction: grammar, discourse cohesion, vocabulary and pronunciation

*If you pass our course, you will obtain a B1 Spanish language qualification from TECH*

The certificate, which indicates successful completion of the course, will state the language studied and the level passed, according to the Common European Framework of Reference for Languages (CEFR).

The certificate issued by **TECH Global University** only provides "pass" or "fail" as grading options, and does not express a numerical grade. Before receiving the certificate, you will be emailed a form to verify your data.

*The CEFR B1 Spanish Language Course an intensive course lasting a maximum of 4 months*

## Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
