Welcome

This Language Course in French B2 Level has been developed by native teachers of the highest level, brought together by TECH for their expert command of the French language. As a result, all the program contents and didactic material are thoroughly excellent, comprehensively developing French grammar, vocabulary and intonation at an advanced intermediate level.

Presentation video

“

You will successfully pass the French B2 level test thanks to this Language Course"

Introduction

France is known worldwide as one of the most influential countries in fashion. Brands such as Coco Chanel or Louis Vuitton have developed in this country, being world references in high fashion. Nor should we forget Renault, Peugeot or Bugatti, just some of the many automotive brands headquartered in France. Whether in the industrial or service field (France is the most visited country in the world), the French language opens endless opportunities to all those who handle it at a adequate level.

French will be your key to a world of better economic opportunities and greater international projection.

You will master French sooner than you think thanks to TECH's comprehensive methodology.

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society.

Nowadays, students must have a certificate that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR)**.

“

The ability to communicate effectively in another language, and accredit it with an CEFR qualification, is an essential requirement for academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

tech 10 | Is it Important to Obtain a Language Certification?

TECH Global University

The Common European Framework of Reference is the only officially recognized and accredited system for assessing a student's level of language proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH, we offer you the only intensive Language Course to obtain your certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

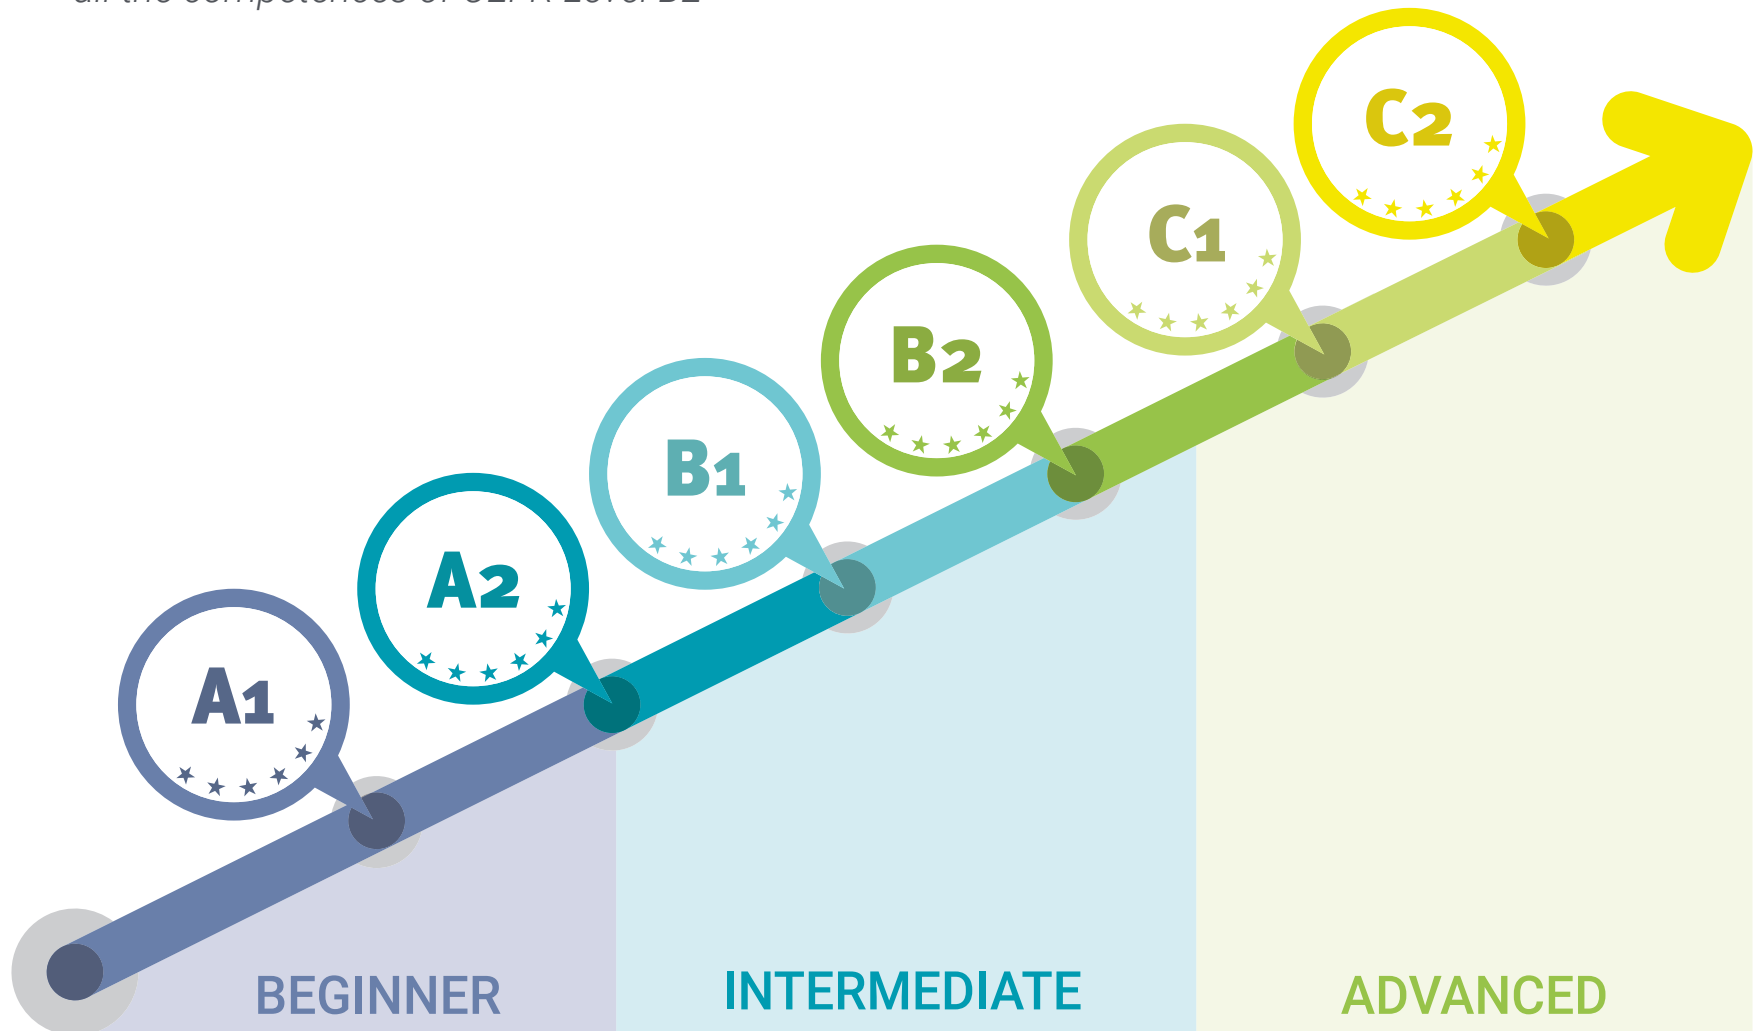

*Learn French and make the most of it
by accrediting it with a qualification
based on the CEFR.*

*Other private language certification systems
require students to periodically recertify their
level of proficiency. TECH's CEFR certificate
is valid for life.*

You will have a comprehensive and complete syllabus at your disposal in all the competences of CEFR Level B2

03

What Is Level B2?

One of the purposes of the CEFR is to help users describe the levels of language proficiency required by existing examinations and assessment programs in order to facilitate comparisons between different certification systems. Therefore, these levels are a universal scale used to unify and clarify the different language level evaluation systems.

C₁

“

This TECH B2 Level Language Course will thoroughly prepare you to obtain your B2 French language certificate.

What are the B2 Level Skills?

Level B2 is part of the Independent User Level, which is divided into two sub-levels: First and Second Independent User Level (B1 and B2). Level B2 is intended to reflect the Advanced level specification.

This level highlights the ability to argue effectively, i.e., the ability to explain and defend opinions in a debate, providing adequate explanations, arguments and comments, etc.

“

TECH helps students to obtain their qualification with an intensive training program that is based 100% on the CEFR”

01

It is the ability to understand the main ideas in complex texts which deal with both concrete and abstract topics, even if they are of a technical nature, as long as they are within their field of expertise.

02

You can interact with native speakers with a sufficient degree of fluency and naturalness, so that communication is effortless for the interlocutors.

03

You can produce clear and detailed texts on a range of diverse topics, as well as defend your point of view on general topics, indicating the pros and cons or different options.

Qualitative aspects of spoken language usage for Level B2

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- ◆ Offer clear descriptions
- ◆ Express points of view on general topics without obvious pauses to search for a word, using complex sentences to achieve it

Correction

- ◆ Demonstrate relatively high grammatical accuracy
- ◆ Doesn't make mistakes that lead to misunderstanding
- ◆ Correct almost all mistakes

Fluency

- ◆ Produce fragments of a speech with a fairly uniform rhythm, although there could be pauses while thinking of certain structures or expressions
- ◆ Make few long pauses during the speech

Interaction

- ◆ Start a conversation, take your turn to speak at the appropriate moment and finish a conversation when necessary, although it may not always be done with elegance
- ◆ Participate in debates on day to day topics, demonstrating understanding, inviting others to participate, etc.

Coherence

- ◆ Use a limited number of cohesion mechanisms to turn sentences into a clear and coherent speech, although there may be some "nervousness" if the speech is long

Download and practice vocabulary: more than 800 pages of lexical cards and glossaries.

- Pre-test activities: in order to consolidate the concepts developed throughout the syllabus by reiterating them.

Skills-based Practice

If the Common Framework European of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? At TECH, you will work on all the skills established by the Common Framework of Reference for Languages in each of the units through an innovative method that is 100% adapted to European guidelines. In this training program we work according to skills, with more than 400 different activities in order to prepare students to obtain their B2 French certificate.

Presentation Videos and Objectives

The only training program in which you will find detailed objectives and skills per unit in video format explained by a native teacher.

Summary Videos of Each Unit

At the end of each unit, you will find a video summary in which a native teacher will reiterate and emphasize the most important points.

Video Task

Test what you know in a different way, solve our video-task!

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training program you will find more than 250 everyday situations, stories and video dialogues recorded by experts and native speakers.

Specific Virtual Classes for CEFR B2

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

Our Methodology

This TECH Language Course is an intensive program designed to prepare students to obtain the B2 French certificate, based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method in which the student works intensively and repeatedly on all the contents required by the CEFR, thoroughly preparing them to pass the test.

“

In no other course will you find pre-test knowledge activation questions, lesson tests, grammar tests, a final test and specific practice of CEFR skills in each unit”

The TECH Global University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's B2 French Language Course offers students a revolutionary method to comprehensively prepare for the level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test. These simulations are developed using state-of-the-art software to facilitate immersive learning.

Our school is the first in the world to combine *storytelling* with an 100% online

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

learning system based on repetition, which integrates different elements that represent an evolution with respect to the simple study and performance of exercises.

Our B2 CEFR preparation course is the only one on the market licensed to use the Relearning method, which enhances learning by optimizing the effort/result ratio.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Re-learning Methodology

In this TECH B2 French Language Course, learning is not a linear process, but rather, it is a spiral (we learn–unlearn (forget) and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 35,000 university graduates with unprecedented success, in fields as diverse as Biochemistry, Genetics, Surgery, International Law, Management Skills or Financial Markets and Instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 42 years.

...with a personalized and expert-led training itinerary...

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, discussion forums on, e-mail contact with the technical secretary, chat and video conference).

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone).”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called *Neurocognitive context-dependent learning*, the different elements of our intensive French B2 level preparation course are connected to the context in which the participant will take his or her certification exam in order to guarantee success on the day of the test.

...and all this with the best learning materials at the forefront of teaching and technology..

Study wherever and however you want: more than 800 downloadable and printable grammar and lexical worksheets and glossaries.

Course Objectives

The main objective of this B2 French Language Course is for the student to achieve certification at this level. To this end, TECH offers a program that meets all the linguistic competencies required by the Common European Framework of Reference for Languages. Thus, they will be able to easily and quickly pass the exam, obtaining a certificate with international validity.

In TECH's CEFR B2 French Language Course, you will find more than 350 activities focused on pronunciation and the CEFR.

“

Practice the speaking skills and abilities required by the B2 CEFR: more than 400 different practice exercises”

General Objectives

01

Understand, interact and express yourself in a extensive range of situations, both orally and written, with good control of linguistic resources and with a degree of precision and ease that allows for natural communication with native speakers.

02

Acquire deeper knowledge of sociocultural aspects related to this situations and alter your register, attitudes and gestures appropriately in each situation.

03

Internalize new linguistic resources through functional and formal practice and to reinforce the use of those already known; to reflect on mistakes in order to be able to correct yourself.

04

Become aware of the communication and learning strategies that help you the most, so that you can use them intentionally.

05

Develop autonomy in the planning, carrying out, evaluation and improvement of your own learning.

Specific Objectives

Oral Comprehension

- Understand the main ideas of a linguistically complex speech, dealing with both concrete and abstract topics delivered at a standard language level, including technical discussions within their field of expertise
- Understand long speeches and complex lines of reasoning as long as the subject matter is reasonably familiar and the development of the speech is facilitated by explicit markers
- Understand any type of speech, both face-to-face conversations and broadcast speeches, on topics, usual or not, of personal, social, academic or professional life. Only excessive background noise, inadequate structuring of speech or idiomatic use of language affect their ability to understand
- Pick up with some effort much of what is being said around them, but may find it difficult to participate effectively in a discussion with several native speakers if they do not modify their speech in some way
- Follow lively conversations between native speakers
- Understand the main ideas of linguistically complex lectures, talks and reports, and other forms of academic and professional presentation
- Understand statements and messages on concrete and abstract topics, in standard language and at a normal pace
- Understand most radio documentaries and other recorded or rebroadcast material spoken in standard language, and identify the speaker's mood and tone
- Understand recordings in standard language that may be encountered in social, professional or academic life, and identify the speaker's points of view and attitudes, as well as the content of the information

Reading Comprehension

- Read with a high level of independence, adapting reading style and speed to different texts and purposes and use appropriate reference sources selectively. Have a large active reading vocabulary, but may have some difficulty with infrequent idioms
- Read information related to their field of expertise and easily grasp the essential meaning
- Quickly search through long and complex texts to locate relevant details. Quickly identify the content and significance of news items, articles and reports on a wide range of professional topics and decide whether further analysis is appropriate
- Understand articles and reports related to current problems in which the authors express specific viewpoints
- Obtain information, ideas and opinions from highly specialized sources within their field of interest. Understand specialized articles that are not in their field of expertise as long as they can use a dictionary from time to time to confirm their interpretation of the terminology
- Understand lengthy and complex instructions that are within their expertise, including details about conditions and warnings as long as they can re-read difficult sections
- Understand most television news and current affairs programs. Understand documentaries, live interviews, debates, plays and most standard-language films

Written Expression

- Express news and points of view effectively when writing and establish a relationship with other people's points of view
- Write letters that convey emotion and highlight the personal significance of events and experiences; comment on the news and views of the person they are writing to

Oral Expression

- Participate in conversations with a degree of fluency and spontaneity that enables regular interaction with native speakers without strain for either party. Emphasize the personal importance of certain facts and experiences, express and defend points of view with clarity, providing adequate explanations and arguments
- Speak fluently, accurately and effectively on a wide range of general, academic, professional or leisure topics, clearly marking the relationship between ideas. Communicates spontaneously and has good grammatical control without showing many signs of having to restrict what he/she says and adopting a level of formality appropriate to the circumstances
- Understand in detail what is said in standard language, even in an environment with background noise
- Approach extensive conversations on most general topics, even in a noisy environment, in a clearly participatory manner
- Have conversations with native speakers without unintentionally amusing or annoying them, and without demanding different behavior from them than they would have with a native speaker
- Convey a certain emotion and highlight the personal importance of facts and experiences
- Follow the rhythm of lively discussions between native speakers. Express ideas and opinions with precision, present complex lines of

argument convincingly and respond to them

- Take an active part in informal discussions that occur in everyday situations by making comments, clearly expressing their points of view, evaluating alternative proposals, making hypotheses and responding to them
- With some effort, pick up much of what is said in discussions going on around them, but may find it difficult to participate effectively in discussions with several native speakers if they do not modify their speech in some way
- Express and uphold their opinions in discussions by providing appropriate explanations, arguments, and comments
- Keep up with heated discussions and accurately identify the arguments of different points of view. Express ideas and opinions with precision, present complex lines and respond to them with conviction
- Understand, with complete certainty, detailed instructions. Contribute to the progress of the work by inviting others to participate, speak up, etc.
- Outline an issue or problem clearly, speculating on the causes or consequences and comparing the advantages and disadvantages of different approaches
- Negotiate the resolution of conflicts, such as claiming an unfair traffic fine, claiming financial responsibility for damages caused in an apartment or for culpability in an accident
- Express their opinions in the event of damages, using persuasive language to claim compensation, and clearly establish the limits of any concession they are willing to make
- Explain a problem that has arisen and make it clear that the service provider or customer must make concessions
- Understand and exchange complex information and advice on

- all matters related to their profession. Communicates detailed information with complete certainty
- Make clear and detailed descriptions of how to carry out a procedure. Summarizes and communicates information and arguments from a variety of sources
 - Conduct effective and fluent interviews, even spontaneously departing from prepared questions, following the thread and giving interesting answers
 - Take the initiative in an interview, and expand and develop their ideas, either with little help or getting it if needed from the interviewer

“ *In TECH's Preparation Course for the B2 Level CEFR Test, you will find more than 300 pronunciation and phonetics activities* ”

Specific Objectives

Sociocultural and Sociolinguistic Competence

- Broaden and diversify your knowledge of sociocultural aspects of communities where they speak the language, acquiring a natural and confident manner of speaking, which doesn't attract attention nor leads to special treatment, different to that given to native speakers. Furthermore, gain knowledge of how to adjust your behavior, reactions, attitude, message and wording to any changes in situation, style and emphasis.
- Identify the most important aspects of a variety of common formal and informal oral and written registers, and appropriately use the expressions, pronunciation and intonation of the most common registers that you are most in contact with.
- Perceive the differentiating characteristics of the Italian language pattern in relation to other widespread or nearby patterns.

Linguistic Competence

- Manage a wide and varied repertoire of linguistic resources, including complex syntax and textual grammar, in order to approach, with naturalness, precision, clarity and cohesion, texts on a wide range of situations and topics, almost without showing that he/she has to limit what he/she wants to say
- Flexibly adapt to changes in direction, register and emphasis, although hesitations and circumlocutions can still occur.
- Efficiently use a variety of connectors and discourse markers to clearly show the link between different ideas and successfully make the speech cohesive in a flexible and efficient way.
- Possess good command of linguistic resources with very few mistakes. When using complex structures, especially in discourse development, and even more so in oral communication or in less common situations, there are sometimes cohesion or inappropriate register mistakes, as well as sporadic slips or some "resistant" errors in less commonly controlled situations. In these cases the student will be capable of self-correcting.

“

To consolidate all these skills, you will have more than 500 lexical, vocabulary and sociocultural activities to help you increase your level of French”

Did you know?

Communicative competence is not merely limited to the knowledge and ability to use the linguistic code, but has other broader dimensions, which place it in direct relation with other competences such as information processing and digital competence, learning to learn, social and civic competence, or cultural and artistic competence.

This implies a cultural immersion that is only possible to recreate in the online format through simulated scenarios, *storytelling*, videos and real situations.

Only TECH offers videos with the 180 specific situations required to master the CEFR B2.

You will be able to express and explain yourself, speak and understand in French at an advanced intermediate level, with fluency in a multitude of situations”

"I studied French at an advanced intermediate level to be able to move to France to continue my studies in fashion and styling. Thanks to TECH's method, I was able to balance my job, university studies and my study of the language. It was difficult, but now I can proudly say that I know French at a B2 level."

Julia Trillo

A student from Spain

"As I work in industrial chemistry, I know that France is one of the world powers in the field. I studied French with TECH Language Courses to try my luck and, thanks to my B2 Level, I quickly got a job in the field I wanted to work in."

The Professional Benefits of French

French is both a working language and an official language of the UN, the European Union, UNESCO, NATO, the International Olympic Committee, the International Red Cross and various other international legal bodies. French is the language of the three cities where the European institutions are located: Strasbourg, Brussels and Luxembourg.

Together with English, it is the only language spoken across the 5 continents and the only language which can be learned in all countries worldwide. According to the Observatoire de la langue Française, a French language control organization, around 220 million people speak French which puts it in 8th place on the list of most spoken languages on the planet. The Francophonie groups together 68 states and governments. French is the most studied foreign language after English.

Speaking French opens up more possibilities for individuals in the international labor market. Knowledge of French opens doors to French companies in France and abroad, in all francophone countries (Canada, Switzerland, Belgium, Africa). France, the fifth largest trading power and the third largest destination country for foreign investors, is a major economic partner.

Furthermore, speaking French allows you to study in France, in prestigious universities or in higher education business and engineering schools, ranked among the best higher teaching centers in Europe and worldwide. Students who are proficient in French can receive scholarships from the French Government to study a third year of their degree in France in all disciplines, and earn an internationally recognized diploma.

“

French is an international language for food, fashion, theatre, visual arts, dance and architecture. Knowing French gives you access to the original versions of the most famous texts in French and Francophone literature, as well as cinema and music”

Assessment and Certification

The main evaluation objective of TECH'S assessment is that students consolidate what they have learned and are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

“

TECH'S B2 Language Course is the only one that also awards you with a university certificate”

“

Only TECH will award you, upon successful completion of the course, a university certificate”

French B2 training course evaluation tests

The assimilation of the contents is constantly and progressively evaluated. To do so, the student must pass an automatically corrected evaluation test at the end of each module and a final test that covers all the contents of the level.

Its main objective is for the student to consolidate what they have learned and to be aware of their progress, for this reason, after the evaluation test is completed, the student is shown a report of the results.

Training course evaluation criteria

- Communicative effectiveness: comprehensibility, fulfillment of expected functions, accuracy, sociolinguistic appropriateness
- Interactive and speaking skills: responsiveness and cooperation, coherence of ideas, organization, relevant and sufficient development.
- Use of language: linguistic resources, formal elements of cohesion and fluency
- Formal correction: grammar, discourse cohesion, vocabulary and pronunciation.

If you pass our course, you will obtain an B2 French language qualification from TECH.

The certificate, which indicates successful completion of the course, will state the language studied and the level passed, according to the Common European Framework of Reference for Languages (CEFR).

The certificate issued by **TECH Global University** only provides a "pass" or "fail" as grading options, and does not express a numerical grade. Before receiving the certificate, you will be emailed a form to verify your data.

The CEFR B2 French Language Course is an intensive course lasting a maximum of 4 months.

Certification

Upon completion of the course, the student will receive a certificate of recognition that will guarantee their preparation to obtain, if the student wishes, the certification of that level.
