02
Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. Nowadays, students must have an official qualification that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

tech

"

The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

TECH Global University

The Common European Framework of Reference for Languages is the only officially recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH, we offer you the only intensive Language Course to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.
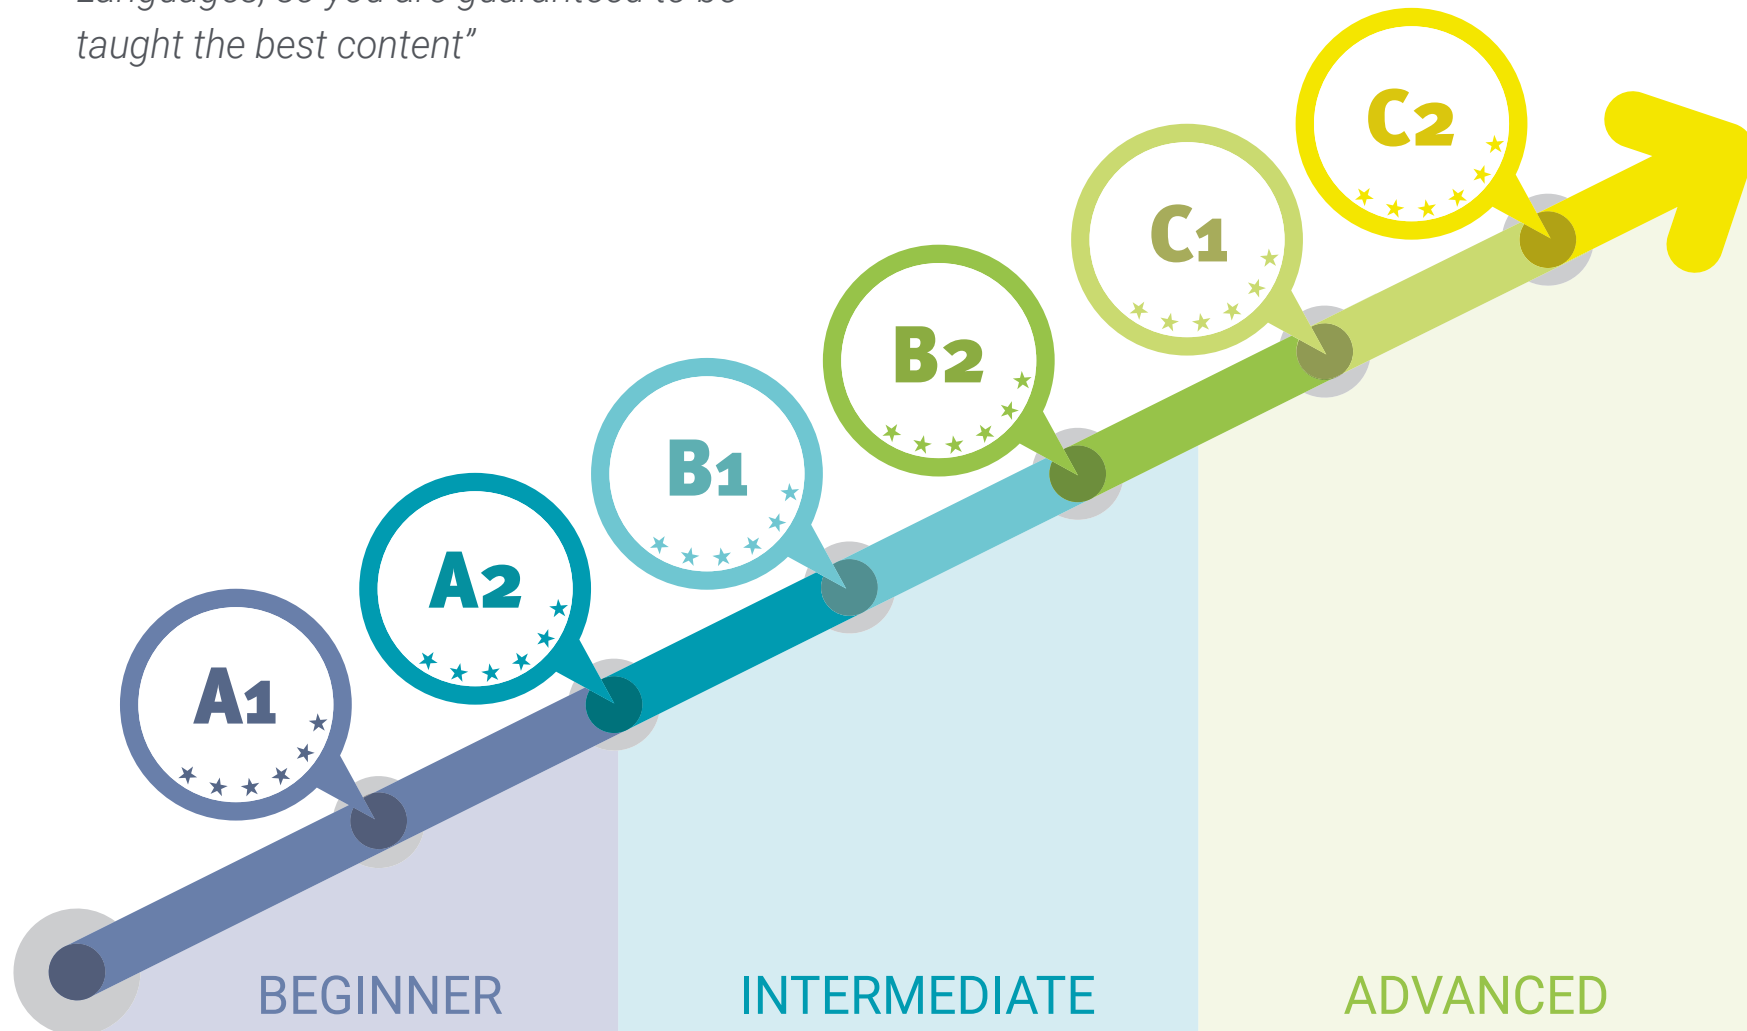

Learn Italian and make the most of it by accrediting it with an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life.

The entire syllabus is based on the Common European Framework of Reference for Languages, so you are guaranteed to be taught the best content"

What Is Level C1?

One of the purposes of the CEFR is to help users describe the levels of language proficiency required by existing examinations and assessment programs in order to facilitate comparisons between different certification systems. Therefore, these levels are a universal scale used to unify and clarify the different language level evaluation systems.

"

*In TECH's C1 Italian Language Course

Our Methodology

This TECH Language Course is an intensive program designed to prepare students to obtain the C1 Italian certificate, based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method in which the student works intensively and repeatedly on all the contents required by the CEFR, thoroughly preparing them to pass the test.

In no other course will you find pre-test knowledge activation questions, lesson tests, grammar tests, a final test and specific practice of CEFR skills in each unit"

The TECH Global University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's C1 Italian Language Course offers you a revolutionary method to comprehensively prepare for the level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the test official using mock tests throughout the course.

Through activities, stories and real contexts, students will learn how to deal with everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test. These simulations are developed using state-of-the-art software to facilitate immersive learning.

...All of this is enhanced with the best 100% online teaching methodology: Relearning...

Our school is the first in the world to combine storytelling with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

Our C1 CEFR preparation course is the only one on the market licensed to use the Relearning method, which enhances learning by optimizing the effort/result ratio.

This methodology, at the forefront of world teaching, is called Relearning. Our language school is the first licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

08 Competencies testing (retesting)

In TECH's C1 Italian Language Course, learning is not a linear process, but rather a spiral (we learn, unlearn (forget) and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 35,000 university graduates with unprecedented success, in fields as diverse as Biochemistry, Genetics, Surgery, International Law, Management Skills or Financial Markets and Instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 42 years.

...with a personalized and expert-led training itinerary...

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, discussion forums on, e-mail contact with the technical secretary, chat and video conference).

"

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)"

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called Neurocognitive context-dependent learning, the different elements of our intensive Italian C1 preparation course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

Course Objectives

The main objective of this program is to help the student acquire the C1 level certification in Italian, according to the Common European Framework of Reference for Languages. This will help them succeed, professionally and academically, in any country where this language is used as a native language. All this will be achieved thanks to TECH's online teaching methodology, and their faculty of excellent native teachers.

Practice the skills and abilities required by the C1 CEFR with guarantees: more than 500 different practice exercises.

"

In TECH's CEFR C1 Language Course course you will find more than 300 pronunciation and phonetics activities"

General objectives

01 Carry out transactions of all kinds, even if they are delicate and complex

02 Participate and take the initiative in social interactions within the community or the social, academic or professional communities they belong to

03 Deal with oral or written texts of any kind, regardless of the situation and the subject matter

To consolidate all these skills, you will have more than 500 lexical, vocabulary and sociocultural activities.

Specific objectives

- Recognize a wide range of idiomatic and colloquial expressions, and notice changes in register

- Follow an extended speech, even when it is not clearly structured when links are only assumed and not explicitly pointed out

- Easily follow complex conversations between third parties in group discussions, even on abstract, complex, and unfamiliar topics

- Understand with relative ease most lectures, discussions and debates

- Extract specific information from public statements that have poor quality and distorted sound; e.g., at a station, in a stadium, etc.

- Understand complex technical information, such as operating instructions, product specifications, and everyday services

- Understand a wide range of recorded and broadcast material, including some unusual usage, and identify details and subtleties such as implied attitudes and relationships between speakers

- Understand, in detail, long and complex texts, whether or not they relate to his or her specialty, provided he or she can reread difficult sections

- Understand any communication with sporadic use of the dictionary

- Understand, in detail, a wide range of lengthy and complex texts that you are likely to encounter in social, professional or academic life, and identify subtle details including both implicit and explicit attitudes and opinions

- Understand, in detail, lengthy and complex instructions on new machines or procedures, whether the instructions relate to your field of specialty or not, provided you can reread the difficult sections

- Understand films that use a considerable amount of slang or colloquial language and idiomatic expressions

- Deliver clear and detailed descriptions and presentations on complex topics, integrating other topics, developing concrete ideas and ending with an appropriate conclusion

- Perform clear and detailed descriptions of complex topics

- Make statements fluently, almost effortlessly, accurately using some intonation to convey subtle shades of meaning

- Deliver clear and well-structured presentations on a complex topic, expanding at some length and defending your points of view with complementary ideas, reasons and appropriate examples. Make good use of interjections, responding spontaneously and with little effort

- Write clear and well-structured texts on complex topics highlighting the main ideas, expanding at some length and defending their points of view with appropriate complementary ideas, reasons and examples, ending with an appropriate conclusion

- Write descriptions and imaginary texts in a clear, detailed and well-structured way, with a convincing, personal and natural style that is appropriate for the intended readers

- Write clear and well-structured presentations on complex topics, highlighting the main ideas. Expand at some length and defend points of view with complementary ideas, reasons and suitable examples
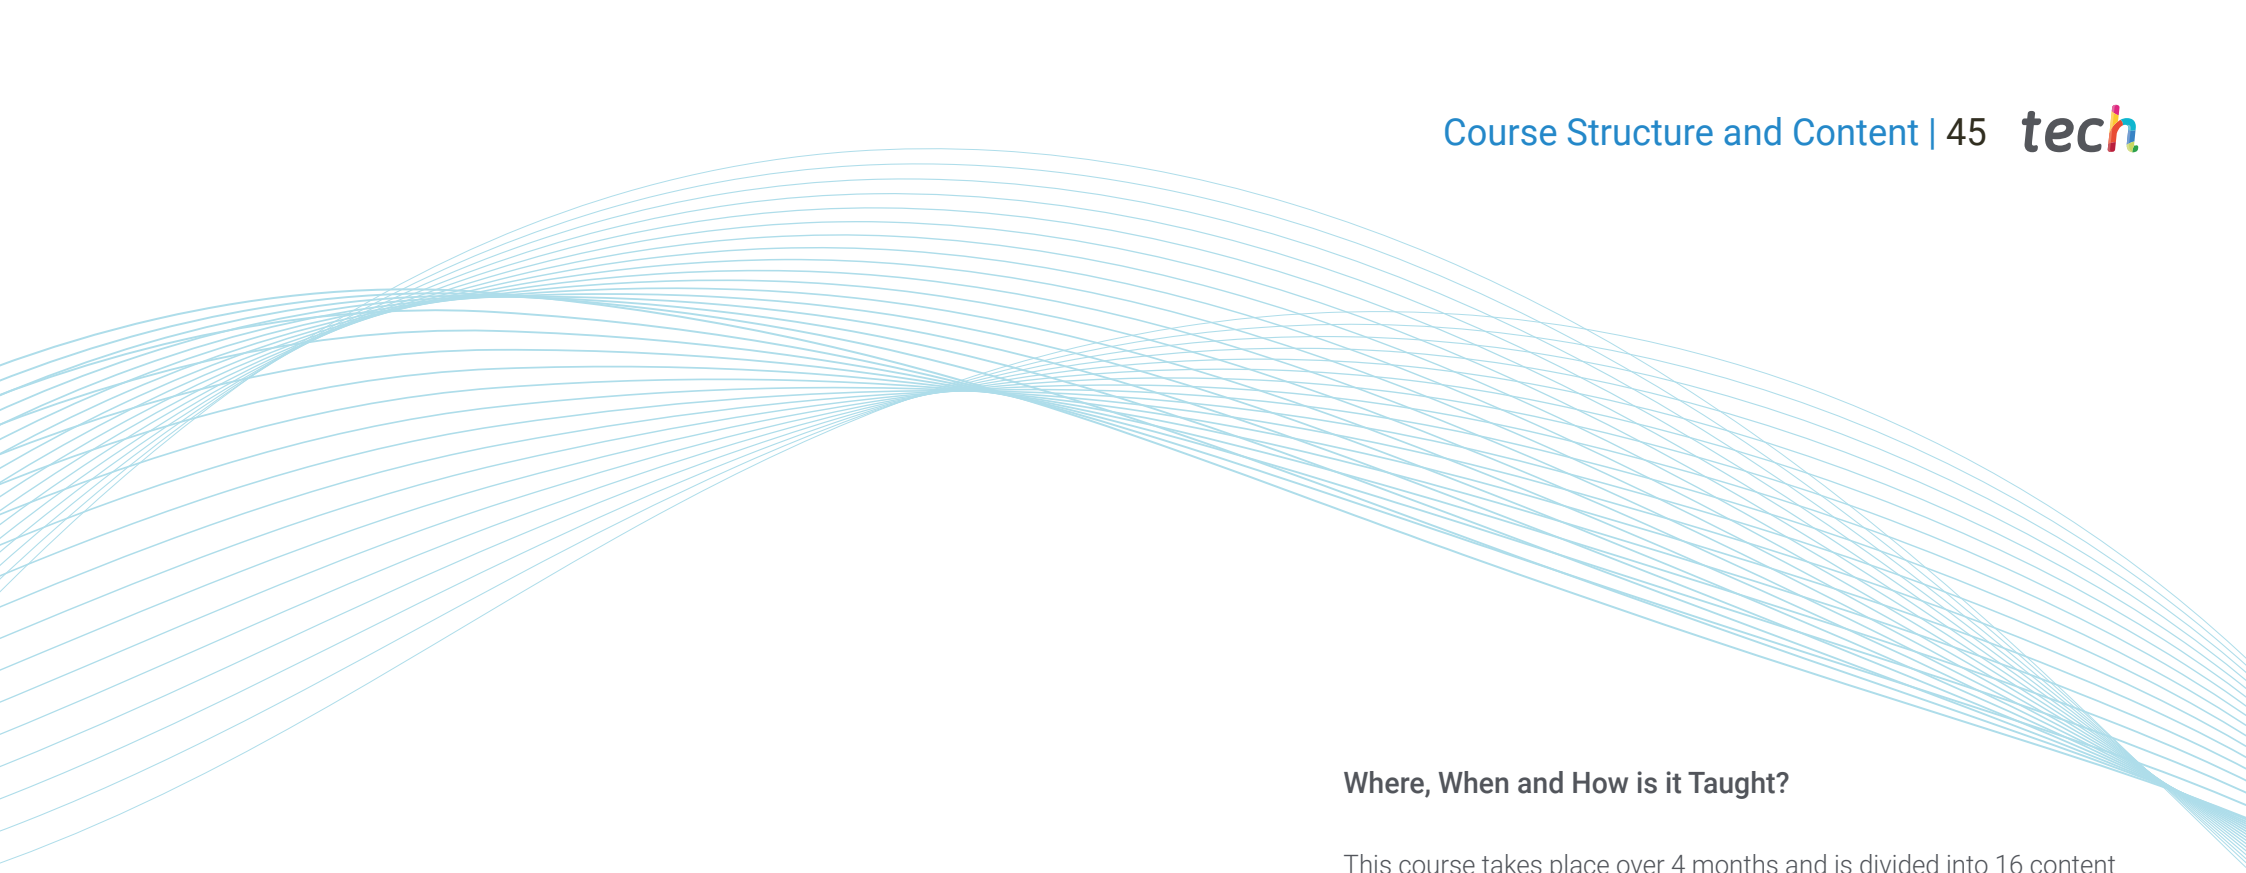

Course Structure and Content

The C1 Italian Language Course contains all the topics required by the CEFR to have a working command of the language. "I wanted to pursue a professional career in Italy, so I had to possess a high level of proficiency in the language. Therefore, I signed up for this TECH Language Course, which has allowed me to put into practice what I have learned in a very short space of time. Its 100% online format has allowed me to study at my own pace. I am getting closer and closer to obtaining my Italian Level C1 certificate"

Amelia Fernández

A fashion design student from Spain.

"After spending a 6-month stay in Florence, I still had difficulties learning the language, so I mostly used English. This was frustrating for me when I had to deliver a presentation at work or even speak the language in my daily life. So when I found this TECH Language Course, I decided to set myself the goal of improving my language skills. Today, almost a year later, I have reached Level C1 and have obtained a CEFR certificate"

The Professional Benefits of Italian

Italian is a beautiful and romantic language, the language of ancient medieval thinkers, historical writers, and possesses a unique musicality and conceptual richness in a wide variety of fields. It is the language of Dante, Petrarch and Boccaccio, three great Italian writers, but it is also the language of art, history, science, gastronomy and fashion.

As the birthplace of Latinity, Italy played a decisive role in the diffusion of Latin and the culture of the Roman Empire in the rest of Europe, both in ancient times and in the ages that followed. Similarly, after the affirmation of the Neo-Latin languages and the constitution of modern linguistic Europe, Italian has had, at times, moments of great importance in the international linguistic context.

Approximately 70 million people worldwide speak Italian (60 million in Italy and around 10 million in the rest of the world). It is the official language in Italy, Switzerland, San Marino and Vatican City. It is spoken, at least in part, in eleven countries, to which must be added some twenty countries with a large Italian community, such as Argentina, Germany, Australia and the USA.

Italian is one of the official languages of the European Union, therefore speaking Italian will open the doors to many international organizations and also the possibility of working in many of the large Italian companies with international presence. The Italian economy is principally based in three sectors; tourism, the automotive industry and fashion.

" *For all these reasons, Italian is found amongst the ten most useful languages in the world and its considered to be necessary in order to succeed in the 21st Century"*

Assessment
and Certification

The main evaluation objective of TECH'S assessment is that students consolidate what they have learned and are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

TECH's intensive C1 Language Course is the only one that also awards you with a university certificate"

" *Only TECH will award you a university certificate upon successful completion of the course"*

Italian C1 training course evaluation tests

The assimilation of the contents is constantly and progressively evaluated. To do so, the student must pass an automatically corrected evaluation test at the end of each module and a final test that covers all the contents of the level.

Its main objective is for the student to consolidate what they have learned and to be aware of their progress, for this reason, after the evaluation test is completed, the student is shown a report of the results.

Training course evaluation criteria

- Communicative effectiveness: comprehensibility, fulfillment of expected functions, accuracy, sociolinguistic appropriateness

- Interactive and speaking skills: responsiveness and cooperation, coherence of ideas, organization, relevant and sufficient development

- Use of language: linguistic resources, formal elements of cohesion and fluency

- Formal correction: grammar, discourse cohesion, vocabulary and pronunciation

- Discursive capacity: coherence of ideas, organization and development

- Use of language: linguistic expressions, formal resources of cohesion and flexibility

- Formal correction: grammar, discourse cohesion, vocabulary and spelling

If you pass our course, you will obtain an C1 Italian language qualification from TECH.

The certificate, which indicates successful completion of the course, will state the language studied and the level passed, according to the Common European Framework of Reference for Languages (CEFR).

The certificate issued by TECH Global University only provides "pass" or "fail" as grading options, and does not express a numerical grade. Before receiving the certificate, you will be emailed a form to verify your data.

The CEFR C1 Italian Language Course an intensive program lasting a maximum of 4 months.

Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
