02
Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. Nowadays, students must have an official qualification that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

tech

" *The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"*

TECH Global University

The Common European Framework of Reference for Languages is the only officially recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards diplomas that are recognized throughout the European Union.

At TECH, we offer you the only intensive Language Course to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

Learn Portuguese and make the most of it by accrediting it with an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate gives you a diploma for life.

What Is Level C1?

Level C1 is part of the Proficient User Level, which is further divided into two sub-levels: First and Second Proficient User Levels (C1 and C2).

Level C1 is called Effective Operational Proficiency. What seems to characterize this level is good access to a broad linguistic repertoire. C1 level represents a more advanced understanding and fluency of the language. Therefore, the person at this linguistic level accumulates a series of developed idiomatic skills and competences; the search for expressions or avoidance strategies is hardly noticeable; only a conceptually difficult topic can hinder the natural fluency of their speech. The discourse skills that characterize the previous band are still evident at Level C1, with an emphasis on greater fluency; for example: is able to select, from a fluid repertoire of discourse functions, the most appropriate phrase with which to begin comments in order to take the floor or to gain time and hold it while thinking; produces clear, fluent and well-structured speech; and has control of organizational structures, connectors and cohesive mechanisms.

This TECH C1 Level Language Course will thoroughly prepare you to obtain your C1 Portuguese language certificate"

What are the C1 Level Skills?

01 Is able to understand a wide variety of long and demanding texts and recognize implicit meanings in them

02 Can express him/herself fluently and spontaneously without much obvious effort to find the right expression

"*With the C1 you will be able to communicate at a high level using Brazilian Portuguese*"

03 Can make flexible and effective use of the language for social, academic and professional purposes

04 Can produce clear, well-structured and detailed texts on topics of a certain complexity, showing a correct use of the mechanisms of text organization, articulation and cohesion

C1 level Self-Assessment Chart

What will I be able to do after completing the course?

Comprehension	Speaking	Writing
Listening	**Oral Interaction**	**Written Expression**
• Understand long speeches even when they are not clearly structured and when relationships are only implicit and not explicitly stated	• Express oneself with fluency and spontaneity without having to search for the right expressions in a very obvious way	• Express oneself in clear and well-structured texts, presenting points of view with a certain length
• Understand TV shows and movies without much effort	• Use language flexibly and effectively for social and professional purposes	• Write about complex topics in letters, essays, or reports, highlighting what you consider to be important issues
Reading Comprehension	• Formulate ideas and opinions with precision and skilfully connect interventions to those of other speakers	• Choose the appropriate style for your target readership
• Understand long and complex texts of a literary or factual nature, appreciating distinctions of style	**Oral Expression**	
• Understand specialized articles and long technical instructions, even if they are not related to their specialty	• Present clear and detailed descriptions on complex topics that include other subjects, developing concrete ideas and ending with an appropriate conclusion	

Check your level. Assess yourself. More than 1,500 multiple-choice questions for continuous evaluation.

Our Methodology

This TECH Language Course is an university program designed to prepare students to obtain the C1 Portuguese certificate, based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method in which the student works intensively and repeatedly on all the contents required by the CEFR, thoroughly preparing them to pass the test.

" *In no other course will you find pre-test knowledge activation questions, lesson tests, grammar tests, a final test and specific practice of CEFR skills in each unit"*

The TECH Global University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's C1 Portuguese Language Course offers you a revolutionary method to comprehensively prepare for the level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the test official using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test. These simulations are developed using state-of-the-art software to facilitate immersive learning.

...All of this is enhanced with the best 100% online teaching methodology: Relearning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

Our C1 CEFR preparation course is the only one on the market licensed to use the Relearning method, which enhances learning by optimizing the effort/result ratio.

This methodology, at the forefront of world teaching, is called Relearning. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

36 | Our Methodology

In TECH's C1 Portuguese Language Course, learning is not a linear process, but rather a spiral (we learn–unlearn (forget) and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology we have trained more than 35,000 university graduates with unprecedented success, in fields as diverse as Biochemistry, Genetics, Surgery, International Law, Management Skills or Financial Markets and Instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 42 years.

...with a personalized and expert-led training itinerary...

In order to facilitate tutor-student contact as much as possible, you will have a wide range of communication possibilities, both in real time and delayed (internal messaging, telephone answering service, discussion forums on, e-mail contact with the technical secretary, chat and video conference).

"

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)"

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called *Neurocognitive context-dependent learning*, the different elements of our university C1 Portuguese preparation course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

Our Students' Profiles

We know that learning a language isn't easy. Many of us have tried, and failed, for years to consolidate our knowledge and acquire the skills to required to obtain qualifications that demonstrate what we have learned. Level exams are complex tests that must be prepared thoroughly and with good expert guidance.
Many of our students have come from other preparation methods that have led to loss of motivation. At TECH 9 out of 10 students recommend us"

The Professional Benefits of Portuguese

With approximately 220 million speakers, Portuguese is the sixth most spoken native language and the third most spoken language in the world using the Latin alphabet.

Portuguese is the official language of Portugal, where it is spoken by about 10 million people, and of Brazil (Brazilian). It is also the language of administration in Angola, Mozambique, Guinea-Bissau, Cape Verde and Sao Tome and Principe. Other Portuguese enclaves include Goa, East Timor and Macau. It is also spoken in areas of China and India that were colonies of Portugal, as well as in border areas of Argentina, Uruguay and Paraguay.

Portuguese is an emerging language, thanks, among other reasons, to the great economic development of Brazil, where the first language is Portuguese. Brazil is an emerging and very powerful economic power in Latin America, whose position in the world is likely to prosper even more in the coming years.

Starting an international expansion into Brazil may be a possible task for someone who does not know the language, but it is not going to be as fast or as effective compared to someone who is fluent in the language. Brazil represents a market of 190 million inhabitants. Its GDP is almost twice that of Mexico, five times that of Venezuela or Argentina, ten times that of Chile and twelve times that of Peru. The country is also part of the BRIC group (Brazil, Russia, India, China) and is considered the seventh largest economy in the world.

"

Learning the language is one of the keys to developing trust and long-term relationships, which can then materialize in the development of economic or other projects. Any company that aspires to do business in the South American giant will need to have a top executive fluent in Portuguese"

Assessment and Certification

The main evaluation objective of TECH's assessment is that students consolidate what they have learned and are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

" *TECH's university C1 Language Course is the only one that also awards you with a university certificate"*

Portuguese C1 training course evaluation tests

The assimilation of the contents is constantly and progressively evaluated. To do so, the student must pass an automatically corrected evaluation test at the end of each module and a final test that covers all the contents of the level.

Its main objective is for the student to consolidate what they have learned and to be aware of their progress, for this reason, after the evaluation test is completed, the student is shown a report of the results.

Only TECH will award students, upon successful completion of the course, a university certificate"

Training course evaluation criteria

- Communicative effectiveness: comprehensibility, fulfillment of expected functions, accuracy, sociolinguistic appropriateness

- Interactive and speaking skills: responsiveness and cooperation, coherence of ideas, organization, relevant and sufficient development

- Use of language: linguistic resources, formal elements of cohesion and fluency

- Formal correction: grammar, discourse cohesion, vocabulary and pronunciation

- Discursive capacity: coherence of ideas, organization and development

- Use of language: linguistic expressions, formal resources of cohesion and flexibility

- Formal correction: grammar, discourse cohesion, vocabulary and spelling

If you pass our course, you will obtain a C1 Portuguese language qualification from TECH.

The certificate, which indicates successful completion of the course, will state the language studied and the level passed, according to the Common European Framework of Reference for Languages (CEFR).

The certificate issued by TECH Global University only provides "pass" or "fail" as grading options, and does not express a numerical grade. Before receiving the certificate, you will be emailed a form to verify your data.

The CEFR C1 Portuguese Language Course is an intensive course lasting a maximum of 4 months.

Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
