01 Welcome

Spanish is the most widely spoken Romance language in the world, with more than 400 million Spanish speakers in 20 countries. Therefore, its pronunciation varies from region to region, making it necessary to constantly practice in order to identify and understand the Spanish lexicon used in different contexts. For that reason, this program will help students reinforce their knowledge of the language by answering a series of simple questions, using basic expressions and common cohesive elements to establish coherent relationships between words. Ultimately, they will be ready to pass the CEFR A1 Level oral test in Spanish.

02

Is it Important to Obtain a Language Certificate?

Certifying language proficiency is basic nowadays, since accreditation is required in all kinds of labor processes, scholarships, administrative procedures, academic exchange programs or job exchanges. Thus, having a A1 Level certificate in Spanish is basic to access all these opportunities, so preparing adequately for the oral test is essential, and this language program provides students with all the tools to overcome this difficult part of the exam.

“

Master all the A1 Level competences in Spanish according to the CEFR criteria and pass the oral Spanish accreditation test thanks to this language program”

TECH Global University

The Common European Framework of Reference for Languages is the only recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH Global University we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

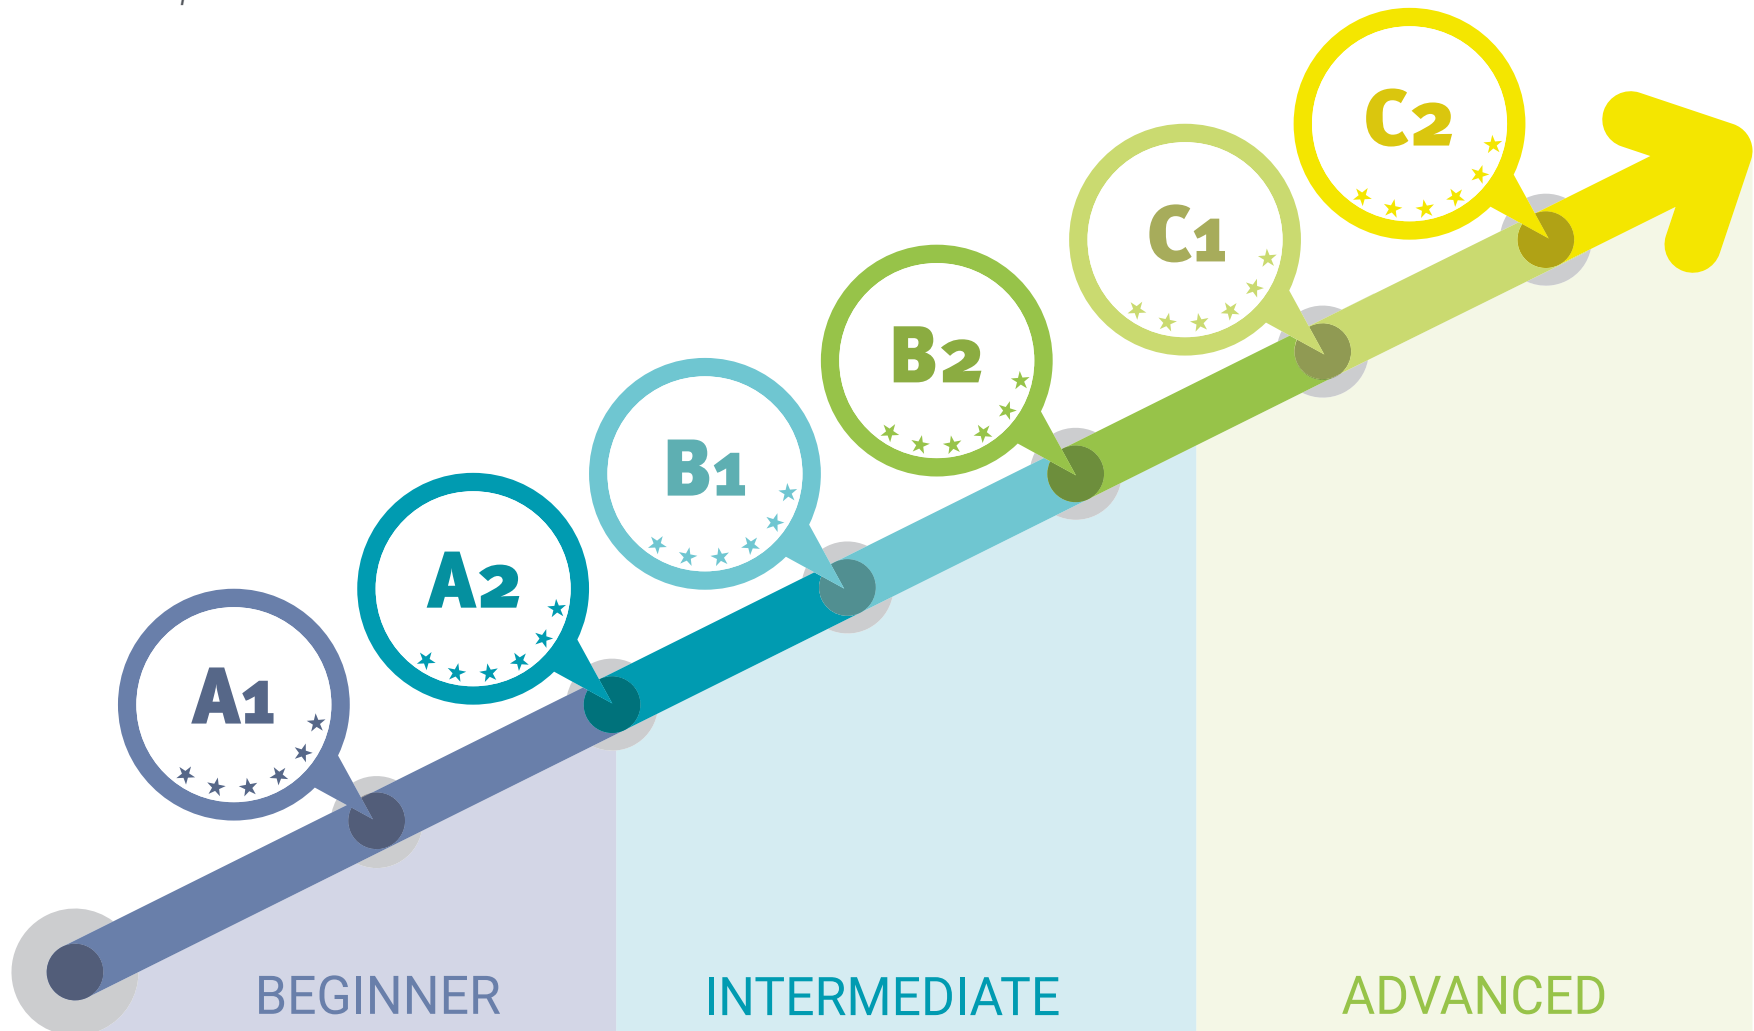

Start speaking fluent Spanish thanks to this language program focused on group practice.

The best way to learn a language is through practice. Don't wait any longer and enroll in this online group conversation classes program.

“

With this program you will have all the content and skills you need to pass the A1 Level”

03

What Is Level A1?

Level A1 is part of the Beginner Level, which is divided into two courses: First and Second Beginner Level (A1 and A2). The first course covers the requirements of the A1 Level as established by the Common European Framework of Reference for Languages, the only system in the European Union that recognizes and accredits language proficiency, and the only certificate that is officially valid and is requested by universities, companies or competitive examinations, among others.

A person with long dark hair, wearing a colorful plaid shirt, is holding a white circular sign with the text 'A1' in red. The sign is positioned in the lower-left quadrant of the image. The background features a series of light blue, wavy lines that sweep across the top and right side of the page.

A1

“

This Online Conversation Classes program prepares you thoroughly to obtain the A1 Spanish certificate”

What are the A1 Level Skills?

At this level, as defined by the Common European Framework of Reference for Languages, students progress in language skills to develop what are considered "Basic User" skills with the ability to:

“*Improve your skills in Spanish and quickly and easily certify your level thanks to everything you will learn in this excellent program offered by TECH*”

01

Understand and use common everyday expressions and simple sentences to satisfy immediate needs

02

Interact in an elementary way as long as the interlocutor speaks slowly and clearly and is willing to cooperate

03

Introduce yourself and others, ask for and give basic personal information about your address, your belongings, and people you know

Level A1 (Access) is considered to be the lowest level of general language use, the point at which learners can interact in a simple way, can ask and answer questions about themselves, about where they live, about the people they know and the things they have, can make simple statements in areas of immediate need or on very everyday topics and can respond to such questions when they are put to them, rather than simply relying on a very limited, rehearsed and lexically organized repertoire of phrases used in specific situations.

A1 level Self-Assessment Chart

What will I be able to do after completing the course?

Comprehension

Listening Comprehension

- Recognize very basic, commonly-used words and expressions relating to themselves, their family and their immediate environment when spoken slowly and clearly

Speaking

Oral Interaction

- Participate in a simple conversation, as long as the other person is willing to repeat what they have said or say it in other words and at a slower speed, and help them formulate what they are trying to say
- Ask and answer simple questions on topics of immediate need or very common issues

Oral Expression

- Use simple expressions and phrases to describe the place where they live and the people they know.

Online group classes are an excellent learning method that combines student interaction with language skills acquisition”

More than 100 different activities to improve your fluency, expression, comprehension and pronunciation.

Qualitative aspects of spoken language usage for Level A1

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- ♦ Possess a basic repertoire of simple words and phrases related to personal information and specific situations

Correction

- ♦ Showcase limited control of a few simple grammatical structures and sentence patterns within a memorized repertoire

Fluency

- ♦ Manage very brief, isolated and prepared expressions, using pauses to search for expressions, articulate less common words and correct communication

Interaction

- ♦ Ask and answer questions related to personal data
- ♦ Participate in a conversation in a simple way, but communication must be based entirely on repetition, rephrasing and correction of sentences

Coherence

- ♦ Linking words or groups of words with very basic and linear connectors such as "and" and "then"

You will be able to download more than 50 pages of lexical cards and glossaries to practice your Spanish vocabulary.

- We will work on mock exams so that you are 100% prepared

Skills-based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? At TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training we work by competencies with more than 100 different activities and prepare you to obtain your A1 English certificate.

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Carry the sessions on your phone and view them wherever you want!

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

An interactive chat to share queries, expressions, complex words, etc. in writing.

In addition:

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question.

These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

06

Our Methodology

The A1 Spanish Online Conversation Classes program is an intensive preparation course for the A1 Level certificate in Spanish based 100% on the Common European Framework of Reference for Languages (CEFR). Thus, an eminently practical method is used, focused on developing basic oral skills in Spanish with which students will work intensively and repeatedly on all the contents required by the Framework, thoroughly preparing themselves to pass the test.

“

In no other course will you work at your own pace, with native teachers, in small groups and based on specific practice of the CEFR skills in each lesson"

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's A1 Spanish Online Conversation Classes offers a method based on interaction and synchronous and direct communication between teacher and student to thoroughly prepare for the oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to and guarantee your success in passing the test. To this end, we emulate the exam using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments, and will face real mock exams to prepare intensively for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first in the world licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, Objective, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Re-learning Methodology

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive conversation classes program is based on synchronous communication, in real time, as this type of interaction is proven to reinforce personal participation, work interaction, social-emotional relationships and personal interactions, increasing motivation. (Hrastinski, 2008).

*...with a personalized updating itinerary
guided by experts...*

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an Internet connection (computer, tablet, smartphone)”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called “*Neurocognitive Context-Dependent Learning*”, the different elements of our intensive Spanish A1 language preparation course are connected with the context in which the participant will take their certification exam in order to guarantee success on the day of the test.

... and all this with teachers at the forefront of technology and education...

Course Objectives

The primary program objective is to ensure students acquire the necessary oral skills to face the A1 Level oral accreditation exam in Spanish of the Common European Framework of Reference for Languages, the most important language recognition system in the world. And to achieve this, TECH offers you the best teaching methodology, totally focused on practice, an innovative learning environment and the best teaching staff, composed of native teachers.

“

Practice the speaking skills and abilities required by the CEFR A1 Level: more than 100 different practice exercises”

General Objectives

01

Solve simple communicative tasks and perform the basic functions of these tasks, both in an educational environment and in everyday situations

02

Interact and express yourself in these situations in an elementary but adequate way, in a standard register of spoken language

03

Define the most relevant social aspects of everyday life situations and recognize the most common forms of social relationships

04

Use the linguistic resources necessary to get by in basic communication situations

05

Develop resources and tools that enable them to assess and improve their own learning and use of the language

Specific Objectives

Oral Comprehension

- ♦ Understand speech that is very slow, carefully articulated and with enough pauses to assimilate the meaning
- ♦ Understand instructions that are explained slowly and carefully, and able to follow directions if they are simple and brief

Learn in a practical environment, in a small group, with a native teacher who will make sure you reach A1 Level Spanish quickly.

Oral Expression

- ♦ Engage in conversations in a straightforward manner, but communication is totally dependent on slower-paced repetitions, rephrasing and rectifications
- ♦ Ask and answer simple questions, make simple statements, and respond to statements made to them in areas of immediate need or on very everyday topics
- ♦ Understand common expressions aimed at satisfying simple, everyday needs as long as the interlocutor collaborates by addressing them in clear, slow speech and repeats what they do not understand
- ♦ Understands questions and instructions addressed to them clearly and slowly, understanding simple and brief directions
- ♦ Introduce oneself and use basic greetings and farewell expressions. Ask how people are doing and express their reactions to the news
- ♦ Understand everyday expressions aimed at satisfying simple concrete needs provided that the speaker collaborates by addressing them in clear, slow speech and repeats what they do not understand
- ♦ Understand questions and instructions if spoken slowly and carefully, and understand short, simple directions on how to get to a place. Can ask someone for something and vice versa
- ♦ Good command of numbers, quantities, prices and schedules
- ♦ Make time indications by means of sentences such as, for example, "next week, last Friday, in November, at three o'clock"
- ♦ Responds in an interview to simple and direct questions about personal data, if spoken very slowly and clearly without idioms or set phrases

Specific Objectives

Sociocultural and Sociolinguistic Competence

- Become familiar with the most relevant social aspects of everyday life situations, as well as with those related to their own field, which will result in the basic adaptation of their behavior to these situations and in the understanding or adequate use of the lexicon and functional exponents
- Recognize and use the most common forms of social relations and treatment, within a standard register In regular social situations, recognize and use the usual forms of address used to greet, say goodbye, address someone, give thanks, apologize, ask permission, take an interest in people and respond to an offer
- Understand the behaviors and values that are different from one's own and that underlie the most evident and everyday socio-cultural aspects

Linguistic Competence

- Manage a basic repertoire of vocabulary and expressions related to the most common situations and functions foreseen in the curriculum
- Develop a very limited control of linguistic resources with systematic errors that usually occur at this level

“

In order to consolidate all these competencies you will have 40 sessions designed by expert teachers and based 100% on the CEFR"

Did you know?

Communicative competence is not merely limited to the knowledge and ability to use the linguistic code, but has other broader dimensions, which place it in direct relation with other competences such as information processing and digital competence, learning to learn, social and civic competence, or cultural and artistic competence.

This implies a cultural immersion that is only possible through direct and continuous interaction with native speakers and real conversational situations.

TECH is the best educational institution to learn languages. Enroll and see for yourself.

08

Course Structure and Content

The teaching team has created this language program to encourage students to improve their language skills in small groups. The opportunities to intervene are multiple throughout the lesson, perfecting not only individual speech, but also oral comprehension with the rest of the class. The daily situations proposed throughout the lessons will help students get by in the most common idiomatic contexts.

Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 60-minute live sessions taught by native-speaking teachers.

Each session is structured as follows:

- ♦ Practice of oral interaction skills
- ♦ Practice of oral expression skills
- ♦ Simulation of real situations
- ♦ Tips and tricks to prepare for the test
- ♦ Summary and closing
- ♦ Download printable sheets

“

You will surround yourself with people who share your goals and affinities, creating a common and collaborative learning environment”

A1 Level Learning Objectives

In each program, native teachers prepare a series of items that students must overcome in order to satisfactorily reach the course goals. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible, thanks to effective and efficient teaching

- Helping to learn the language from scratch, polishing common mistakes and offering methods to become more fluent in speech
- Master the use of new basic words to develop conversations in different contexts
- Assimilate grammatical rules and listening comprehension with a personalized approach to the needs of each student
- Practice listening and oral interaction skills with peers who share the same interests and language level
- Focus on everyday issues, such as individual presentations, family, work, travel or daily routine
- Enable the student to initiate and maintain a simple conversation on their own, making use of the most common language

“

You will focus your practice to exceed by far the CEFR Level A1”

"In order to access the Spanish market it is essential to communicate in their language. After completing this program I noticed how my company improved its results both in Spain and in Latin America. And I achieved this simply because I can now speak Spanish more fluently. What I liked most about TECH is that they make you feel comfortable, they make sure that everything is prepared so that you only have to worry about learning."

Amélie Bernard

French Businesswoman

"For people from Great Britain, Spain and the Spanish-speaking countries are a paradise. We love to visit them on holiday and whenever we have the opportunity we go there to study. But to be able to study in one of those nations you need to have a basic level of Spanish, and this program, based on group conversation classes, helped me to achieve that. Now, thanks to TECH, I study in Madrid".

The Professional Benefits of Spanish

Spanish is the second most widely spoken language in the world, behind Mandarin Chinese and ahead of English and Hindi/Urdu. The latest research and surveys show that English, Spanish and Chinese are inevitably the three languages of international communication for the 21st century.

It is spoken in Spain, in the Caribbean Islands (Cuba and Puerto Rico), in the Dominican Republic, in North America (Mexico), in Central America (Guatemala, Belize, El Salvador, Honduras, Nicaragua, Costa Rica and Panama) and in South America (Colombia, Venezuela, Uruguay, Paraguay, Argentina, Chile, Bolivia, Peru and Ecuador). Spanish is also the second most widely spoken language in the United States.

The Spanish-speaking population represents one of the fastest growing segments in the world, especially in the United States. The Spanish-speaking segment constitutes a huge community that shares products, services and culture; and offers businesses and institutions a truly unique opportunity for growth.

Furthermore, studying Spanish will open many doors at a professional level. Many countries have Spanish as an official language, so there are many jobs for which this can be a fundamental factor.

“

Spanish is one of the languages of the present and the future. This is the opportunity you were looking for”

11

Assessment and Certification

The main evaluation objective at TECH is for students to consolidate what they have learned and to be aware of their progress. For this reason, after completing each block, students are shown a report of their results, which visually indicates the skills that they should strengthen.

“

TECH's A1 level oral communication skills preparation program is the only one that also awards you with a university certificate”

Certification

Upon completion of the course, the student will receive a certificate of recognition that will guarantee their preparation to obtain, if the student wishes, the certification of that level.
