Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. Nowadays, students must have an official certificate that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

The ability to communicate effectively in another language, and accredit it with an CEFR qualification, is an essential requirement for academic and professional development. TECH helps you achieve it with intensive training based 100% on the CEFR"

TECH Global University

The Common European Framework of Reference for Languages is the only recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH Global University we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

Finally learn to speak fluent Portuguese and make the most of it by accrediting it with an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is for life.

What Is Level B2?

Level B2 is part of the Independent User Level, which is divided into two sub-levels: First and Second Independent User Level (B1 and B2). The main characteristic of Level B2 is the ability to maintain interaction and make oneself understood in a variety of situations such as, for example, understanding the main ideas of extended discussions around you, offering and asking for personal opinions in an informal debate with friends or expressing oneself in an understandable way, highlighting the main idea you want to get across.

In TECH's Online Conversation Classes program we prepare you thoroughly to obtain your B2 Portuguese certificate"

What are the B2 Level Skills?

The second feature is the ability to know how to deal flexibly with everyday problems, such as, for example: coping with less common situations in public transport, the typical situations that often arise when making travel reservations through an agency or when traveling; participating in conversations on usual matters without having anticipated it; being able to raise complaints; taking the initiative in an interview or consultation (e.g., knows how to initiate a new topic), although still being noticeably dependent on the interviewer during the interaction; knowing how to ask someone to clarify or develop what he or she has just said.

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH"

Our Methodology

The B2 Portuguese Online Conversation Classes program is an intensive course to prepare for the B2 Level Portuguese certificate based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method of oral proficiency practice in which the student works intensively and repeatedly on all the contents required by the Framework, providing them with extensive preparation to pass the test.

In no other course will you work at your own pace, with native teachers, in small groups based on practicing the specific CEFR skills in each session and practicing the specific CEFR skills in each unit"

The TECH GLOBAL UNIVERSITY method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's B2 Portuguese Proficiency Preparation Program offers you a method based on interaction and synchronous and direct communication between teacher and student to prepare for the official oral level certification test in a comprehensive way. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the exam using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

... All of this is enhanced with the best 100% online teaching methodology: Re-learning....

- Understand statements and messages on concrete and abstract topics, in standard language and at a normal pace

- Understand most radio documentaries and other recorded or rebroadcast material spoken in standard language, and identify the speaker's mood and tone

- Approach extensive conversations on most general topics, even in a noisy environment, in a clearly participatory manner

- Have conversations with native speakers without unintentionally amusing or annoying them, and without demanding different behavior from them than they would have with a native speaker

- Convey a certain emotion and highlight the personal importance of facts and experiences

- Follow the rhythm of lively discussions between native speakers. Express ideas and opinions with precision, present complex lines of argument convincingly and respond to them

- Take an active part in informal discussions that occur in everyday situations by making comments, clearly expressing their points of view, evaluating alternative proposals, making hypotheses and responding to them

- Keep up with heated discussions and accurately identify the arguments of different points of view. Express ideas and opinions with precision, present complex lines and respond to them with conviction

- Understand, with complete certainty, detailed instructions. Contribute to the progress of the work by inviting others to participate, speak up, etc.

- Negotiate the resolution of conflicts, such as claiming an unfair traffic fine, claiming financial responsibility for damages caused in an apartment or for culpability in an accident

- Explain a problem that has arisen and make it clear that the service provider or customer must make concessions

- Understand and exchange complex information and advice on all matters related to their profession. Convey detailed information with complete certainty

- Make clear and detailed descriptions of how to carry out a procedure. Synthesize and communicate information and arguments from a variety of sources

- Conduct effective and fluent interviews, even spontaneously departing from prepared questions, following the thread and giving interesting answers

- Take the initiative in an interview, and expand and develop their ideas, either with little help or getting it if needed from the interviewer

Specific Objectives

Sociocultural and Sociolinguistic Competence

- Broaden and diversify your knowledge of sociocultural aspects of communities where they speak the language, acquiring a natural and confident manner of speaking, which doesn't attract attention nor leads to special treatment, different to that given to native speakers. Furthermore, gain knowledge of how to adjust your behavior, reactions, attitude, message and wording to any changes in situation, style and emphasis.

- Identify the most important aspects of a variety of common formal and informal oral and written registers, and appropriately use the expressions, pronunciation and intonation of the most common registers that you are most in contact with.

- Perceive the differentiating characteristics of the Italian language pattern in relation to other widespread or nearby patterns.

Linguistic Competence

- Manage a wide and varied repertoire of linguistic resources, including complex syntax and textual grammar, to naturally approach with precision and clarity texts on a vast range of situations and topics, almost without showing you have limited knowledge of what you want to say.

- Flexibly adapt to changes in direction, register and emphasis, although hesitations and circumlocutions can still occur.

- Efficiently use a variety of connectors and discourse markers to clearly show the link between different ideas and successfully make the speech cohesive in a flexible and efficient way.

- Possess good command of linguistic resources with very few mistakes. When using complex structures, especially in discourse development, and even more so in oral communication or in less common situations, there are sometimes cohesion or inappropriate register mistakes, as well as sporadic slips or some "resistant" errors in less commonly controlled situations. In these cases the student will be capable of self-correcting.

"
In order to consolidate all these competencies you will have 40 sessions designed by expert teachers and based 100% on the CEFR"

Did you know?

Communicative competence is not merely limited to the knowledge and ability to use the linguistic code, but has other broader dimensions, which place it in direct relation with other competences such as information processing and digital competence, learning to learn, social and civic competence, or cultural and artistic competence.

This implies a cultural immersion that is only possible to recreate in the online format through simulated scenarios, *storytelling*, videos and real situations.

TECH will give you all the skills you need to speak Portuguese fluently and confidently.

08

The Professional Benefits of Portuguese

With approximately 220 million speakers, Portuguese is the sixth most spoken native language and the third most spoken language in the world using the Latin alphabet, after Spanish and English.

Portuguese is the language of Portugal, where it is spoken by about 10 million people, and of Brazil (Brazilian). It is also the language of administration in Angola, Mozambique, Guinea-Bissau, Cape Verde and Sao Tome and Principe. Other Portuguese enclaves include Goa, East Timor and Macau. It is also spoken in areas of China and India that were colonies of Portugal, as well as in border areas of Argentina, Uruguay and Paraguay.

Portuguese is an emerging language, thanks, among other reasons, to the great economic development of Brazil, where the first language is Portuguese. Brazil is an emerging and very powerful economic power in Latin America, whose position in the world is likely to prosper even more in the coming years.

Starting an international expansion into Brazil may be a possible task for someone who does not know the language, but it is not going to be as fast or as effective compared to someone who is fluent in the language. Brazil represents a market of 190 million inhabitants. Its GDP is almost twice that of Mexico, five times that of Venezuela or Argentina, ten times that of Chile and twelve times that of Peru. The country is also part of the BRIC group (Brazil, Russia, India, China) and is considered the seventh largest economy in the world.
Learning the language is one of the keys to developing trust and long-term relationships, which can then materialize in the development of economic or other projects. Any company that aspires to do business in the South American giant will need to have a top executive fluent in Portuguese"
