01 Welcome

Chinese is an increasingly requested exotic language, which will undoubtedly stand out on any job resume. If this level is also C2, the maximum level in the Common European Framework of Reference for Languages, the chances of getting a good job are multiplied. TECH has had the help of native teachers to elaborate all the contents of this university program, in which the student practices the most complex language issues such as technological advances, political institutions or justice.

Presentation video

“

At the end of this university program, you will be fluent in Chinese at the same level as a native speaker, understanding even the smallest nuances of the language"

Introduction

TECH has employed in this program the most effective pedagogical methodology and the most advanced educational technology. This, together with the knowledge of the teaching staff, who are native Chinese speakers, makes this the best possible academic option to practice and orally master the Chinese language. This is usually one of the most difficult sections for the student, so emphasis is placed on perfect diction and pronunciation.

In the C2 Chinese Online Conversation Classes program, you will work according to skills with more than 100 different oral expression and interaction activities, preparing you to pass the oral part of Chinese C2 certificate.

The only intensive program 100% specifically designed to develop your speaking skills in order to obtain the Chinese Level C2.

It is proven that learning languages increases your Intelligence. Learning a foreign language strengthens the brain's neural networks"

José Antonio Marina.
Philosopher, writer and teacher.

02

Is it Important to Obtain a Language Certificate?

Speaking languages is fundamental these days. On the one hand, tourism is one of the most important forms of leisure, and mastering the language of the country you are visiting can greatly enhance your travel experience. On the other hand, having a language certificate can open doors to job opportunities, scholarships, academic positions, competitive examinations, employment opportunities or simply facilitate various administrative processes. Thus, this qualification is essential for anyone who wishes to have all those opportunities thanks to their oral performance with Chinese, since this university program prepares for passing the oral test of Chinese Level C2 according to the Common European Framework of Reference for Languages (CEFR).

“

The ability to communicate effectively in another language, and accredit it with an CEFR qualification, is an essential requirement for academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

TECH Global University

The Common European Framework of Reference for Languages is the **only system that recognizes and accredits the student's level**. Although there are other certification systems, these come from private institutions and are, therefore, **not valid**. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH we offer you the only intensive program of preparation for oral communicative competence to guarantee that you will obtain your level certificate based 100% on the CEFR, the only system recognized and accepted throughout Europe.

*Master Chinese at the highest level,
get accredited and improve your
future prospects immediately.*

*Other private language certification
systems require students to periodically
recertify their level of proficiency.
TECH's CEFR certificate is valid for life.*

“

With this preparation program you will have all the necessary contents and competences to pass the C2 level”

03

What Is Level C2?

Level C2 is part of the Proficient User Level, which is further divided into two sub-levels: First and Second Proficient User Levels (C1 and C2).

Although level C2 has been referred to as Mastery, it does not imply native or near-native proficiency. It is intended to characterize the degree of precision, appropriateness and ease of use in the language that typifies the speech of bright students. The descriptors graded here include: is able, by reasonably employing a wide range of modification mechanisms, to accurately convey subtle nuances of meaning; has a good command of idiomatic and colloquial expressions, and is aware of the connotative level of meaning; knows how to circumvent difficulties so discreetly that the interlocutor hardly notices.

“

In TECH's C2 Chinese Online Conversation Classes preparation program we will thoroughly prepare you to obtain your C2 Chinese certificate”

What are the C2 Level Skills?

01

Can easily understand virtually everything they hear or read.

02

Can reconstruct information and arguments from various sources, whether in spoken or written language and present them in a coherent and summarized manner.

“

The C2 level of Chinese will allow you to manage in all types of communicative contexts in this language, both professional and academic”

03

Can express themselves spontaneously, with great fluency and with a degree of precision that allows them to differentiate fine nuances in meaning even in more complex situations.

C2 level Self-Assessment Chart

- We will work with more than 100 activities for different oral skills.
- We will subject you to real conversation situations with native speakers.
- We will work on mock exams so that you are 100% prepared.

Skills-based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program, we work according to skills, with more than 100 different activities in order to prepare students to obtain their Chinese C2 certificate.

Simulated Learning Scenarios

At TECH we believe in the importance of linguistic immersion to lay the foundations of a language as well as in storytelling to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Specific Virtual Classes for CEFR C2

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

Take the sessions with you on your cell phone and view them wherever you want!

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

An interactive chat to share queries, expressions, complex words, etc. in writing.

In addition:

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question.

These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Discussion forums for the development of written expression and interaction skills
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

Our Methodology

The Online Conversation Classes program for Chinese Level C2 is an intensive preparation course for the Chinese Level C2 certificate based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method of oral proficiency practice in which the student works intensively and repeatedly on all the contents required by the Framework, providing them with extensive preparation to pass the test.

“

In no other course will you work at your own pace, with native teachers, in small groups based on specific practice of the CEFR skills in each session"

The TECH Global University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's C2 Chinese proficiency preparation program offers you a method based on interaction and synchronous and direct communication between teacher and student, in order to comprehensively prepare for the oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Re-learning Methodology

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive conversation classes program is based on synchronous communication, in real time, as this type of interaction is proven to reinforce personal participation, work interaction, social-emotional relationships and personal interactions, increasing motivation. (Hrastinski, 2008).

...with a personalized and expert-led training itinerary...

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, answer your questions or study recommendations.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)”

Based on the latest evidence in neuroscience, not only do we know how to organize information, ideas, images, memories, but we also know that the place and context where we have learned something is crucial for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called *Neurocognitive Context-Dependent Learning* the different elements of our intensive Chinese C2 Language Course are connected with the context in which the participant will take their certification exam in order to guarantee success on the day of the test.

... and all this with teachers at the forefront of technology and education...

Study wherever and however you want: more than 320 downloadable and printable grammar and lexical worksheets and glossaries.

08

Course Structure and Content

This university program combines the advantage of practicing a language in a group, surrounded by people of the same level, with the native, professional experience of the entire teaching staff. Lessons are prepared according to the group's own interests and objectives, also covering the most advanced social and professional areas, simulating job interviews or discussions on complex topics. In this way, the student's speaking and conversation skills are maximized in order to effectively and confidently pass the C2 level.

Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 live sessions of 60 minutes each, taught by native teachers.

Each session is structured as follows:

- ◆ Practice of oral interaction skills
- ◆ Practice of oral expression skills
- ◆ Simulation of real situations
- ◆ Tips and tricks to prepare for the test
- ◆ Summary and closing
- ◆ Download printable sheets

“

You will be surrounded by people with whom you share goals and ambitions, making the academic experience even more enriching and rewarding”

C2 Level Learning Objectives

In each program, native teachers prepare a series of items that the student must overcome in order to satisfactorily achieve the course goals. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest possible time, resulting in effective and efficient teaching.

- Test all basic and advanced language skills in comprehension and expression.
- Master good vocabulary and grammar, as well as maximize the ability to converse in the language.
- Addressing topics such as career growth or historical events, simulating job interviews and advanced discussions
- Find a common language with native speakers, acquiring the fluidity of a person who has mastered the language.
- Address advanced economic issues such as budgeting and personal time management

“

Class sizes are kept small in order to give opportunity to speak several times and to encourage both listening comprehension and self-expression”

"Thanks to my job, I have been able to learn many languages and get to know cultures that I wouldn't have been able to study before. One of them has been Chinese, which fascinated me from the beginning. So much so that I decided to learn a high level of Chinese, since it would also be highly valued in my company. With TECH's online courses I was able to study it even with how changing my responsibilities are, so what I highlight the most without a doubt is the flexibility"

María Esther Julián

Flight Attendant

"I moved with my partner to China as a very important job opportunity came up for her that she could not refuse. Adapting to the country was difficult I won't deny it, but I found TECH's online courses, which helped me a lot to understand my neighbors better and to relate much better with my new coworkers"

The Professional Benefits of Chinese

As Chinese is the most spoken language in the world at a native level, it is evident that studying this language will be a great boost for any person who wants to develop their career in Asia. In addition, the Chinese economy is one of the strongest in the world, which justifies and reinforces the decision to start studying this language.

Companies such as Tencent, TikTok or Xiaomi have already carved out a very important niche in the global technology markets, so a knowledge of the Chinese language is also an advantage to work in one of these economic giants.

In addition, the number of Chinese speakers is growing exponentially over the years. This makes this language a safe and differential option for the future in any curriculum.

“

*Study the language of the future
and present to stand out from
your competitors”*

11

Assessment and Certification

The main evaluation objective of TECH'S assessment is that students consolidate what they have learned and are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

“

TECH'S C2 level oral communication skills preparation program is the only one that also awards you with a university certificate”

Certification

Upon completion of the course, the student will receive a certificate of recognition that will guarantee their preparation to obtain, if the student wishes, the certification of that level.
