01 Welcome

This program for A1 Portuguese Online Conversation Classes offers its students intensive teaching, based on remote participation in classes. This qualification prepares students to pass the Common European Framework of Reference for Languages (CEFR) A1 Level Portuguese oral test. By completing this course, students will have obtained the oral skills necessary for basic dialogue in Brazilian Portuguese.

Presentation video

“

Acquire the basic communicative skills in Brazilian Portuguese, thanks to this program focused on the oral aspect of the language”

Introduction

Portuguese is one of the most important languages in the world today. Having the skills necessary to speak fluent Portuguese can open numerous professional and personal doors. The program is taught in Brazilian Portuguese. This American country continues to grow economically and culturally, offering more and more options for those who wish to try their luck there. For all these reasons, this course is essential for students who want to start speaking this language effectively.

It is proven that learning languages increases your Intelligence. Learning a foreign language strengthens the brain's neural networks"

José Antonio Marina.
Philosopher, writer, and teacher.

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. Nowadays, it is important to have an official qualification that accredits and recognizes proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

“

The ability to communicate effectively in another language and accredit it with an CEFR qualification is an essential requirement for academic and professional development. TECH helps you achieve it with intensive 100% CEFR program"

TECH Global University

The Common European Framework of Reference for Languages is the **only system that recognizes and accredits the student's level**. Although there are other certification systems, these come from private institutions and are, therefore, **not valid**. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH we offer you the only intensive program to prepare for oral communicative competences to guarantee that you will obtain your level certificate, based 100% on the CEFR, the only system recognized and accepted throughout Europe.

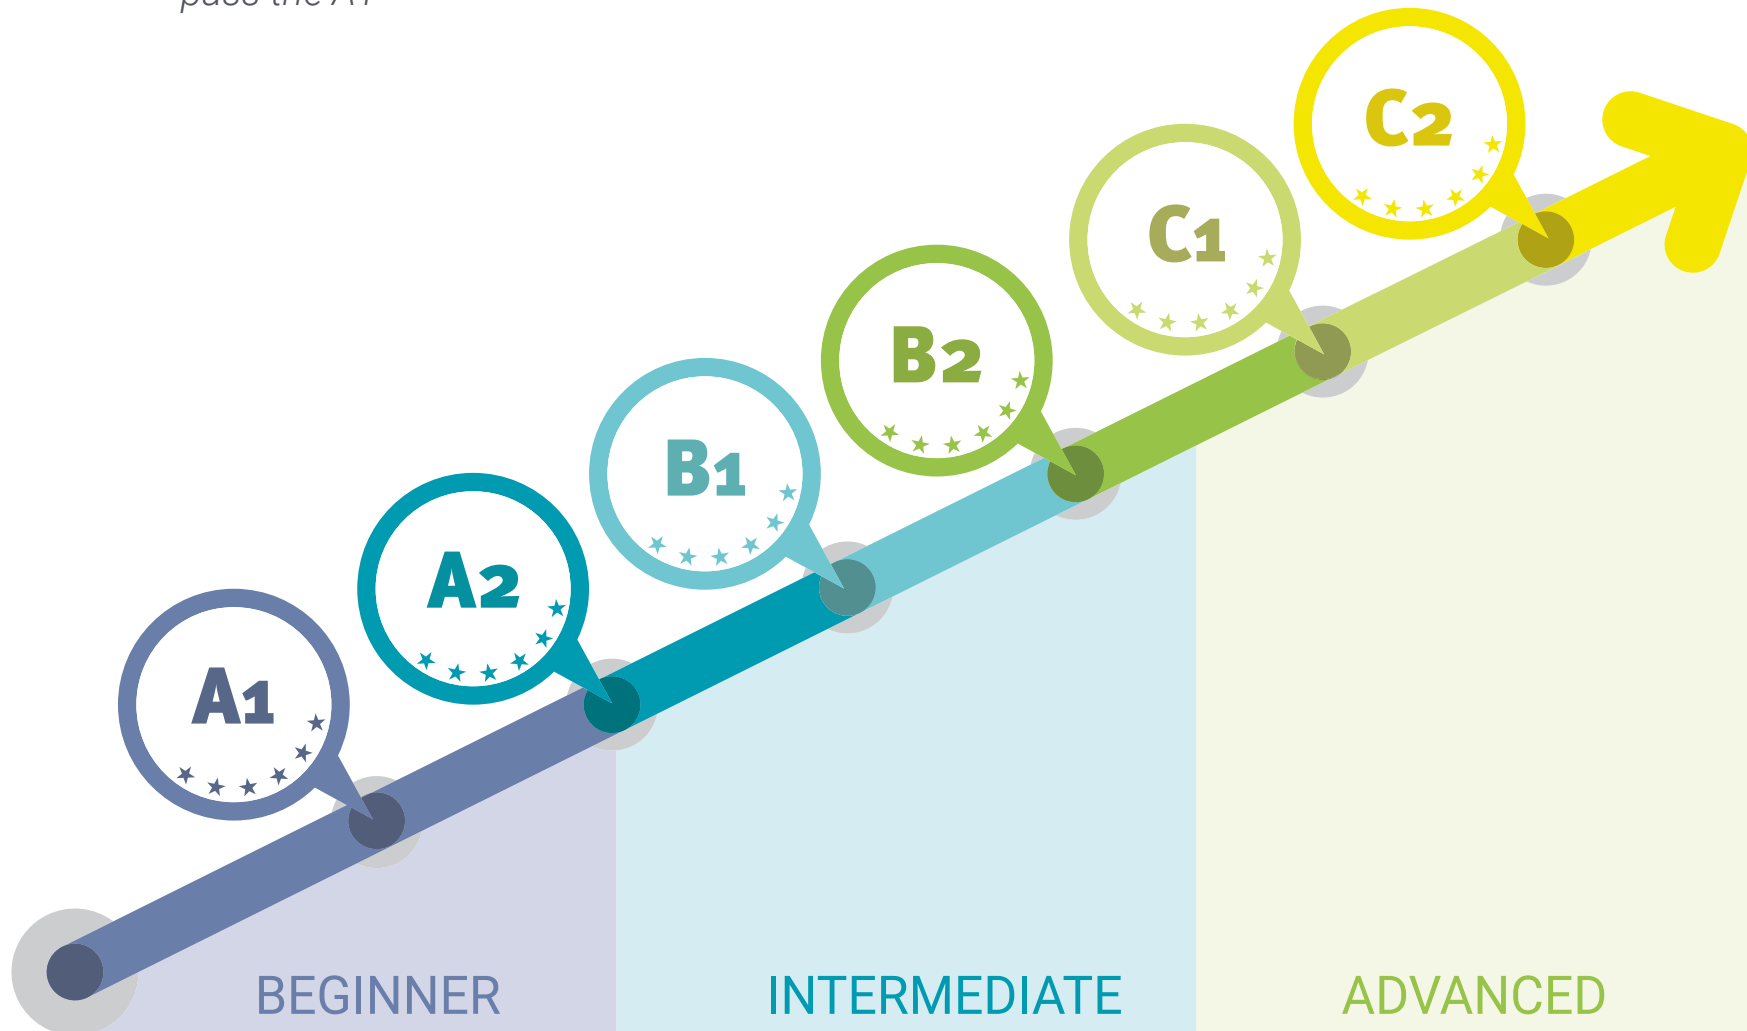

Finally learn to speak fluent Portuguese and make the most of it by accrediting it with an official qualification based on the CEFR

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life!

“

With this program you will have all the content and skills you need to pass the A1”

03

What Is Level A1?

The A1 Level is part of the Beginner Level, which is divided into two courses: First and Second Beginner Level (A1 and A2). The first course covers the requirements of the A1 level as established by the Common European Framework of Reference for Languages, the only system in the European Union for recognizing and accrediting language proficiency and the only certificate that has official validity and is requested by universities, companies, competitive examinations, etc.

A person with long dark hair, wearing a colorful plaid shirt, is holding a white circular sign with the text 'A1' in red. The sign is positioned in the lower-left quadrant of the page. In the background, there are several thin, light blue wavy lines that sweep across the top and right side of the page.

A1

“

In TECH's Online Conversation Classes program we prepare you thoroughly to obtain your A1 Portuguese certificate"

What are the A1 Level Skills?

At this level, as defined by the Common European Framework of Reference for Languages, students make progress in their language skills to develop what are considered "Basic User" skills, with the ability to:

“

Improve your skills in the language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH”

01

Understand and use common everyday expressions and simple sentences to satisfy immediate needs

02

Interact in an elementary way as long as the interlocutor speaks slowly, clearly and is willing to cooperate

03

Introduce themselves and others, ask for and give basic personal information about their address, their belongings, and people they know

Level A1 (Access) is considered to be the lowest level of general language use, the point at which the learner can interact in a simple way, can ask and answer questions about themselves, about where they live, about people they know and things they have, can make simple statements in areas of immediate need or on everyday topics and can respond to such questions when asked, rather than simply relying on a very limited, rehearsed and lexically organized repertoire of phrases used in concrete situations.

A1 Level Self-Assessment Chart

What is a person with this level able to do?

Comprehension

Listening Comprehension

- Recognize very basic, commonly-used words and expressions relating to themselves, their family and their immediate environment when spoken slowly clearly

Speaking

Oral Interaction

- Participate in a simple conversation, as long as the other person is willing to repeat what they have said or say it in other words and at a slower speed, and help them formulate what they are trying to say
- Ask and answer simple questions on topics of immediate need or very common issues

Oral Expression

- Use simple expressions and phrases to describe the place where they live and the people they know

TECH helps students to obtain their qualification with an intensive program that is based 100% on the CEFR"

Start speaking Brazilian Portuguese from scratch thanks to this program and then certify your A1 Level

Qualitative aspects of spoken language usage for Level A1

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- Possess a basic repertoire of simple words and phrases related to personal information and specific situations

Correction

- Showcase limited control of a few simple grammatical structures and sentence patterns within a memorized repertoire

Fluency

- Manage very brief, isolated and prepared expressions, using pauses to search for expressions, articulate less common words and correct communication

Interaction

- Ask and answer questions related to personal data
- Participate in a conversation in a simple way, but communication must be based entirely on repetition, rephrasing and correction of sentences

Coherence

- Linking words or groups of words with very basic and linear connectors such as "and" and "then"

Download and practice vocabulary: more than 50 pages of lexical cards and glossaries

04

Testing & Retesting

We periodically evaluate and re-evaluate your knowledge throughout the entire A1 Level Portuguese preparation course.

- We will work with more than 100 activities for different oral skills
- We will subject you to real conversation situations with native speakers
- We will work on mock exams so that you are 100% prepared

Skills-Based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? At TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects, through an innovative method that is 100% adapted to European guidelines. In this program we work by competencies with more than 100 different activities and prepare you to obtain your A1 Portuguese certificate.

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language, as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you, who will face a new language and have to overcome all different kinds of problems. In this program we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Carry the sessions on your phone and view them wherever you want!

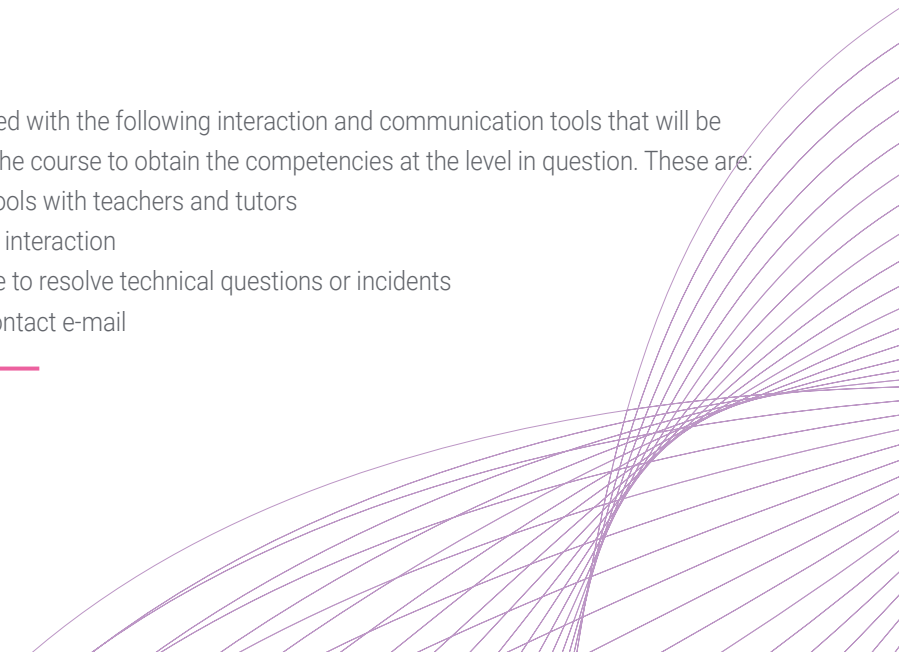

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

An interactive chat to share queries, expressions, complex words, etc. in writing.

In addition:

Students will be provided with the following interaction and communication tools that will be combined throughout the course to obtain the competencies at the level in question. These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

Our Methodology

The A1 Portuguese Online Conversation Classes program is an intensive course to prepare for the A1 Level Portuguese certificate based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method of oral proficiency practice in which students work intensively and repeatedly on all the contents required by the Framework, providing them with extensive preparation to pass the test.

“

In no other course will you work at your own pace, with native teachers and in small groups, based on practicing the specific CEFR skills in each session and practicing the specific CEFR skills in each unit"

Conventional methods of teaching a foreign language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's A1 Portuguese Online Conversation Classes offers you a method based on interaction and synchronous and direct communication between teacher and student to comprehensively prepare you for the official oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the exam using mock tests throughout the course.

Students will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments, will face real mock exams to prepare intensively for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Relearning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system, based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

Our A1 CEFR oral communication skills preparation program is the only one on the market licensed to use the Relearning methodology, which enhances learning by optimizing the effort/result ratio

This methodology, at the forefront of world teaching, is called *Relearning*. Our language school is the first one licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards

Relearning Methodology

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive conversation classes program is based on synchronous communication, in real time, as this type of interaction is proven to reinforce personal participation, work interaction, social-emotional relationships and personal interactions, increasing motivation (Hrastinski, 2008).

*...with a personalized and expert-led
educational itinerary...*

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an Internet connection (computer, tablet, smartphone)”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, and memories, but we also know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called “*Neurocognitive context-dependent learning*”, the different elements of our intensive A1 Portuguese preparation course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

... and all this with teachers at the forefront of technology and education...

07

Course Objectives

The A1 Portuguese Online Conversation Classes are designed for you to acquire the necessary oral skills to face the exam and to pass it through practice, repetition and personalized supervision, thanks to your effort and the educational excellence of the TECH method.

At the end of the program, students will be able to certify their A1 Level and continue to advance in the study of the language.

“

Gain the oral skills and competences required by the A1 CEFR through more than 100 different practice exercises”

General Objectives

01

Solve simple communicative tasks and perform the basic functions of these tasks, both in an educational environment and in everyday situations

02

Interact and express yourself in these situations in an elementary but adequate way, in a standard register of spoken language

03

Define the most relevant social aspects of everyday life situations and recognize the most common forms of social relationships

04

Use the linguistic resources necessary to get by in basic communication situations

05

Develop resources and tools that allow you to evaluate and improve your own learning and use of the language

Specific Objectives

Oral Comprehension

- ♦ Understand speech that is very slow, carefully articulated and with enough pauses to assimilate the meaning
- ♦ Understand instructions that are explained slowly and carefully, and be able to follow directions if they are simple and brief

In TECH's language course for the CEFR A1 level test, you will find more than 100 activities focused on developing your oral skills

Oral Expression

- ♦ Engage in conversations in a straightforward manner, but communication is totally dependent on slower-paced repetitions, rephrasing and rectifications
- ♦ Ask and answer simple questions, make simple statements, and respond to statements made to them in areas of immediate need or on very everyday topics
- ♦ Understand common expressions aimed at satisfying simple, everyday needs as long as the interlocutor collaborates by addressing them in clear, slow speech and repeats what they do not understand
- ♦ Introduce oneself, use basic greetings and farewell expressions. Ask how people are doing and express their reactions to the news
- ♦ Understand questions and instructions when spoken slowly and carefully. Understand short, simple directions on how to get somewhere. Be able to ask someone for something and vice versa
- ♦ Good command of numbers, quantities, prices and schedules
- ♦ Make time indications by means of sentences such as, for example, "next week, last Friday, in November, at three o'clock"
- ♦ Respond in an interview to simple and direct questions about personal data, if spoken very slowly and clearly without idioms or set phrases

Specific Objectives

Sociocultural and Sociolinguistic Competence

- Become familiar with the most relevant social aspects of everyday life situations, as well as with those related to their own field, which will result in the basic adaptation of their behavior to these situations and in the understanding or adequate use of the lexicon and functional exponents
- Recognize and use the most common forms of social relations and treatment, within a standard register In social situations, recognize and use the usual forms of address used to greet, say goodbye, address someone, give thanks, apologize, ask permission, take an interest in people and respond to an offer
- Understand behaviors and values other than one's own that underlie the most obvious, everyday socio-cultural aspects of life

Linguistic Competence

- Manage a basic repertoire of vocabulary and expressions related to the most common situations and functions foreseen in the syllabus
- Develop a very limited control of linguistic resources, with systematic errors that usually occur at this level

“

In order to consolidate all these competencies, you will have 50 sessions designed by expert teachers and based 100% on the CEFR”

Did you know?

Communicative competence is not merely limited to the knowledge and ability to use the linguistic code, but has other broader dimensions, which place it in direct relation with other competences such as information processing and digital competence, learning to learn, social competence, or cultural and artistic competence.

This implies a cultural immersion that is only possible through direct and continuous interaction with native speakers and real conversational situations.

Only TECH offers you everything you need to be fluent in Brazilian Portuguese

08

Course Structure and Content

The teaching team has devised this group conversation program to foster a joint learning environment. Students share interests, objectives and language level, which favors teaching at the same level, polishing mistakes and improving both oral comprehension and the vocabulary used in a multitude of situations. Since the groups are small, the opportunities to intervene increase, resulting in an active and effective dynamic.

Where, When and How is it Taught?

This course takes place over 4 months and consists of forty 50-minute live sessions taught by native-speaking teachers.

Each session is structured as follows:

- ♦ Oral interaction skills practice
- ♦ Oral expression skills practice
- ♦ Simulation of real situations
- ♦ Tips and tricks to prepare for the test
- ♦ Summary and closing
- ♦ Download printable sheets

You will surround yourself with people who share your goals and affinities, creating a common and collaborative learning environment"

A1 Level Learning Objectives

In each program, native teachers prepare a series of aspects that students must master in order to satisfactorily reach the course goals. The group size is small, allowing the student to intervene on multiple occasions to improve their language skills. Thanks to TECH's unique methodology, all the proposed objectives can be achieved in the shortest possible time, resulting in effective and efficient teaching.

- Help to learn the language from scratch, polishing common mistakes and offering methods to become more fluent in speech
- Master the use of new basic words to develop conversations in different contexts
- Assimilate grammatical rules and listening comprehension with a personalized approach to the needs of each student
- Focus on everyday issues, such as individual presentations, family, work, travel or daily routine
- Enable the student to initiate and maintain a simple conversation on their own, making use of the most common language

“

You will focus your practice to exceed by far the CEFR A1 Level”

"This course is the easiest and most fun way I found to learn to speak Portuguese from scratch. Since completing it, I have continued to progress through the levels with TECH's Portuguese programs. I believe I will soon be speaking Portuguese very fluently"

Isabel Sánchez

Chilean Student

"I was offered a scholarship at a Brazilian university but I needed to have a minimum level of proficiency in Portuguese. With this program, I was able to quickly advance in the language, and when I joined the university I had no problem communicating with classmates and professors"

Jorge Rodríguez

A student from Colombia

The Professional Benefits of Portuguese

With approximately 220 million speakers, Portuguese is the sixth most spoken native language and the third most spoken language in the world using the Latin alphabet, after Spanish and English.

Portuguese is the language of Portugal, where it is spoken by about 10 million people, and of Brazil (Brazilian). It is also the administrative language in Angola, Mozambique, Guinea-Bissau, Cape Verde and Sao Tome and Principe. Other Portuguese enclaves include Goa, East Timor and Macau. It is also spoken in areas of China and India that were colonies of Portugal, as well as in border areas of Argentina, Uruguay and Paraguay.

Portuguese is an emerging language, thanks to, among other reasons, the great economic development of Brazil, where the first language is Portuguese. Brazil is an emerging and very powerful economic power in Latin America, whose position in the world is likely to prosper even more in the coming years.

Starting an international expansion into Brazil may be a possible task for someone who does not know the language, but it is not going to be as fast or as effective compared to someone who is fluent in the language. Brazil represents a market of 190 million inhabitants. Its GDP is almost twice that of Mexico, five times that of Venezuela or Argentina, ten times that of Chile and twelve times that of Peru. The country is also part of the BRIC group (Brazil, Russia, India, China) and is considered the seventh largest economy in the world.

“ Learning the language is one of the keys to developing trust and long-term relationships, which can then materialize in the development of economic or other projects. Any company that aspires to do business in this South American giant will need to have a top executive fluent in Portuguese”

11

Assessment and Certification

The main evaluation objective at TECH is for students to consolidate what they have learned and to be aware of their progress. For this reason, after completing each block, students are shown a report of their results, which visually indicates the skills that they should strengthen.

“

TECH's A1 level oral communication skills preparation program is the only one that also awards you with a university certificate”

Certification

After completing the course, the student will receive a certificate of recognition that will confirm their readiness to obtain, if the student so desires, the certification of that level.
