01 Welcome

Following the guidelines established by the Common European Framework of Reference for Languages, TECH has created this program with the blocks of content necessary for the student to be able to function competently in most everyday social situations. Thus, the skills that the student acquires during these Conversation Classes are those appropriate to the rest of the most widespread international exams and certificates.

Presentation video

“

Access group Chinese classes and learn in an interactive way, preparing yourself with a native teacher to pass the CEFR Chinese Level A2 oral test”

Introduction

It is increasingly common to see names such as Xiaomi, Tiktok or Aliexpress, and Chinese companies have acquired capital importance in recent years, coming to rival the largest corporations worldwide. This is a great opportunity for anyone studying Chinese, as the pace of growth of these companies is great and, in all of them, candidates with good diction and oral communication in their native language will be highly valued.

More than 100 different activities of oral expression and interaction await you in this university program, which will prepare you to pass the CEFR Level A2 Chinese test.

The best way to learn a language is by using it. Don't wait any longer and come join TECH's conversation classes, in reduced group size and with native speakers.

It is proven that learning languages increases your Intelligence. Learning a foreign language strengthens the brain's neural networks"

José Antonio Marina.

02

Is it Important to Obtain a Language Certificate?

The certification of languages is essential these days. It is required in labor and administrative processes, for obtaining scholarships, for access to academic exchange programs and adds many points when applying for jobs and in competitive public service examinations. For that reason, the best path to success is to accredit your language level, and this university program prepares the student to pass the oral test of the CEFR Level A2 Chinese, a system of language recognition valid throughout the world.

“

All the most essential Chinese vocabulary and forms of expression will be at your fingertips with this language program"

TECH Global University

The Common European Framework of Reference for Languages is the only recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH we offer you the only intensive program of preparation for oral communicative competence to guarantee that you will obtain your level certificate based 100% on the CEFR, the only system recognized and accepted throughout Europe.

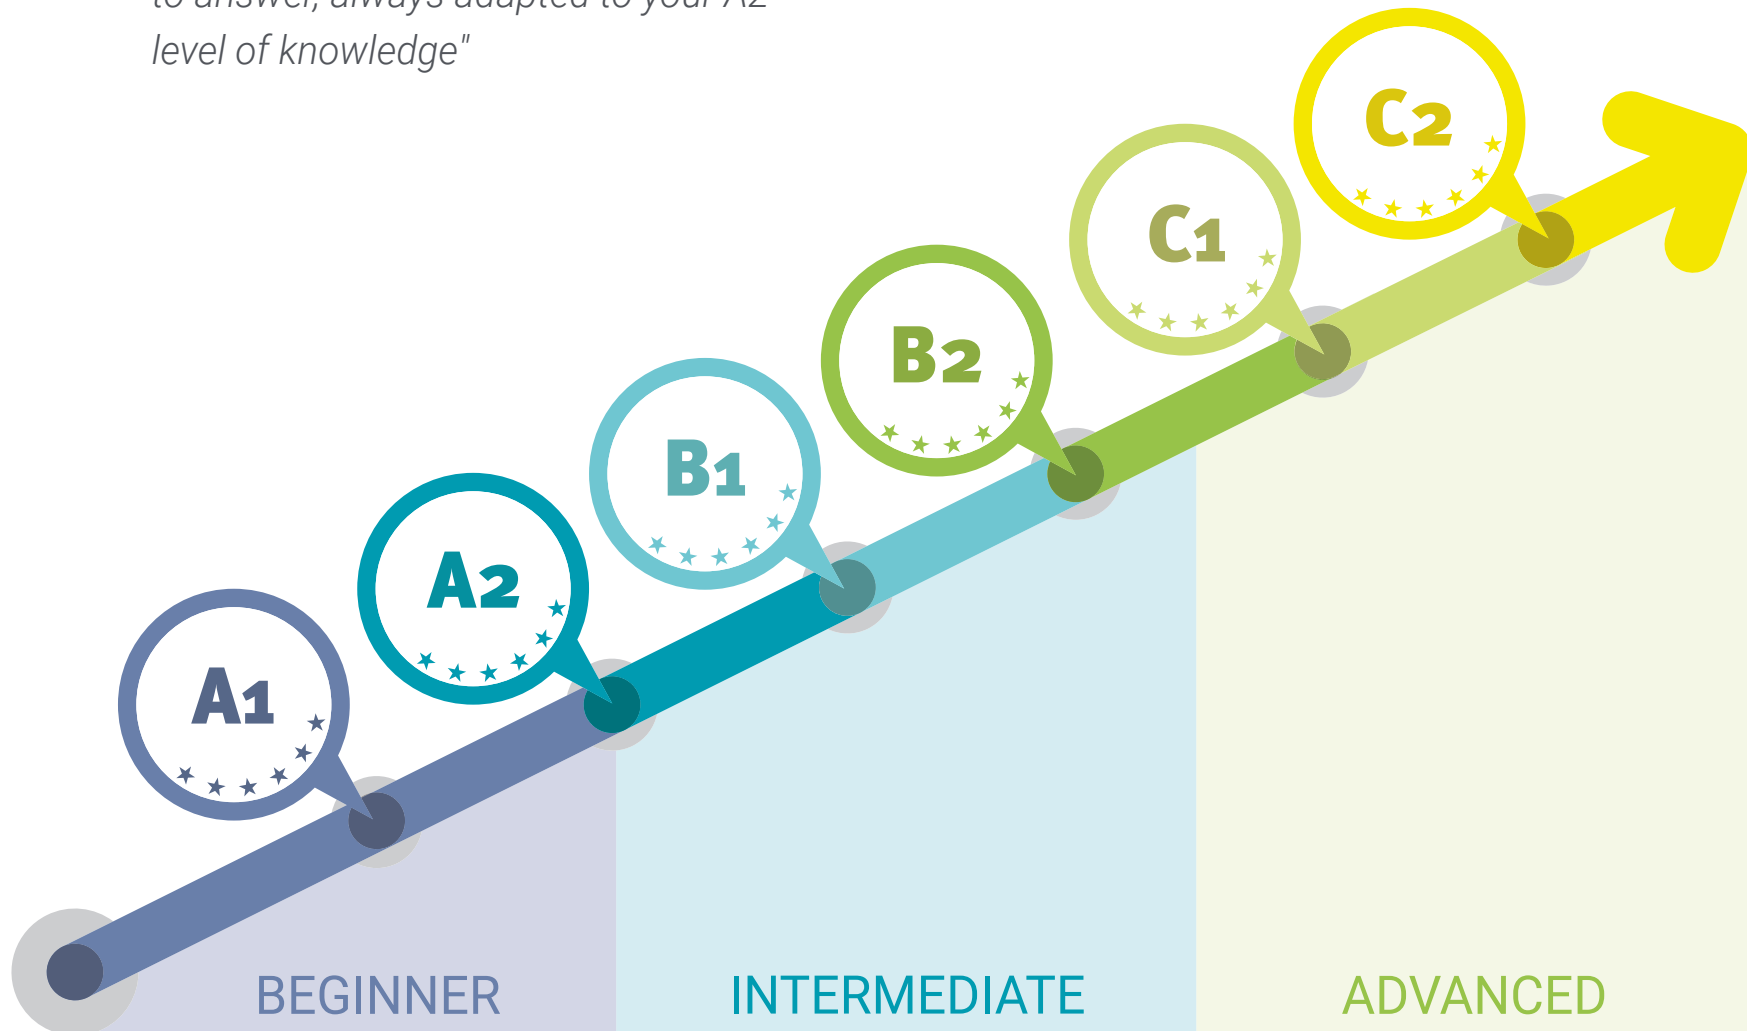

*The basis for the success of this program
is its practical impact: enroll and speak
Chinese fluently right away.*

*Learn with native teachers who know all the
nuances of Chinese.*

“

You will deepen your understanding of those areas you find most difficult to answer, always adapted to your A2 level of knowledge”

03

What Is Level A2?

Level A2 is part of basic User Level, which is divided into two sublevels: First and Second Basic User Level (A1 and A2).

This level includes most of the descriptors that expose social functions, such as: knowing how to use the usual forms of greeting and addressing others politely; greeting people, asking how they are and being able to react to news; getting along well in very brief social exchanges; knowing how to ask and answer questions about what they do at work and in their free time; knowing how to make an invitation and respond to it; discussing what to do, where to go and preparing for an appointment; being able to make an offer and accept it.

Here you will also find descriptors on how to function in social life: being able to carry out simple transactions in stores, post offices or banks; knowing how to get simple travel information; using public transport (buses, trains and cabs); asking for basic information, asking and explaining how to get to a place and buy tickets; ordering and providing everyday goods and services.

A person with long dark hair, wearing a colorful plaid shirt, is holding a white circular sign with the text 'A2' in large red letters. The background features a decorative graphic of many thin, light blue lines that curve across the top of the page.

A2

“

This university program will enable you to master all the competences of Level A2 in Chinese, according to the CEFR linguistic bases, and you will be able to pass the oral exam with ease at the end of this course"

What are the A2 Level Skills?

At this level, as defined by the Common European Framework of Reference for Languages, students progress in language skills to develop what are considered "Basic User" skills with the ability to:

Certify your Chinese Level A2 quickly and easily thanks to this program, which focuses on the oral aspects of the language"

Understand sentences and frequently used expressions related to areas of experience that are particularly relevant to them (basic information about themselves and their family, shopping, places of interest, occupations, etc.)

02

Communicate in simple, everyday tasks that require only simple and direct exchanges of information on familiar or routine matters.

03

Can describe in simple terms aspects of his/her background and environment, as well as issues related to his/her immediate needs

A2 level Self-Assessment Chart

What will I be able to do after completing the course?

Comprehension

Listening Comprehension

- Understand sentences and the most common vocabulary on topics of personal interest (very basic personal and family information, shopping, place of residence, employment).
- Capture the main idea of short, clear and simple messages and notices.

Speaking

Oral Interaction

- Communicate simple and routine tasks that require a simple and direct exchange of information about daily activities and issues.
- Very brief social exchanges, but usually unable to understand enough to carry on the conversation on their own.

Oral Expression

- Use a series of expressions and phrases to describe in simple terms your family and other people, your living conditions, your educational background, and your current or most recent job

Prepare yourself, in an intensive way, to pass the CEFR Chinese Level A2 accreditation exam and gain access to numerous professional and academic opportunities"

More than 100 different activities are waiting for you to improve your fluency in Chinese, as well as your speaking, listening and pronunciation skills.

Qualitative aspects of spoken language usage for Level A2

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- Use structures composed of basic sentences with expressions, groups of a few words and memorized formulas, in order to communicate limited information in simple, everyday situations.

Correction

- Use some simple structures correctly, although basic systematic mistakes are still made.

Fluency

- Make oneself understood with very brief expressions, although pauses, initial doubts and rephrasing very evident.

Interaction

- Answer questions and respond to simple statements
- Indicate when they understand a conversation, but barely understand enough to carry on a conversation on their own accord

Coherence

- Link groups of words with simple connectors such as "and", "but" and "because".

TECH provides you with more than 50 pages of lexical cards and glossaries to practice Chinese vocabulary appropriate to Level A2.

04

Why TECH?

Numerous educational institutions are behind the times in terms of learning methodologies. The present day demands flexibility, integration with the digital environment and adaptation to the learner's needs. And that is what TECH offers, by incorporating the best online teaching methodology, together with native teachers and experts in language teaching. Thus, the student will be able to learn in a practical and flexible way, since they will be able to decide when and where to study, preparing themselves to certify their CEFR Level A2 of Chinese.

Pass the CEFR Level A2 Chinese test easily and quickly, thanks to this university program.

“

Other language school certificates are only valid in the country of origin, they are neither valid in Europe nor in the rest of the world. That is why you need a CEFR qualification from TECH: It's valid worldwide!”

Testing & Retesting

We periodically evaluate and re-evaluate your knowledge throughout the entire Chinese A2 preparation course.

- We will work with more than 100 activities for different oral skills.
- We will subject you to real conversation situations with native speakers.
- We will work on mock exams so that you are 100% prepared.

Skills-based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program, we work according to skills, with more than 100 different activities in order to prepare students to obtain their Chinese A2 certificate.

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in storytelling to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Take the sessions with you on your cell phone and view them wherever you want!

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

An interactive chat to share queries, expressions, complex words, etc. in writing.

Specific Virtual Classes for CEFR A2

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

In addition:

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question.

These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Discussion forums for the development of written expression and interaction skills
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

Our Methodology

Practice is key. TECH's teaching methodology focuses on this important aspect, and allows the student to develop Chinese language skills in an interactive way, participating in online classes with small groups and enjoying the accompaniment of a native teacher. Thus, following this dynamic, the student will be able to learn all the keys to mastering CEFR level A2 Chinese *in an intensive way and through the Re-learning method*.

“

*Study whenever and wherever you decide,
enjoying the support from native teachers and
having access to all types of practical exercises”*

The TECH Global University method

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's Chinese Level A2 oral proficiency preparation program offers you a method based on interaction and synchronous and direct communication between teacher and student, to thoroughly prepare for the oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations, in simulated learning environments, and will face real mock exams, for the intensive preparation of the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses, with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Re-learning Methodology

We prevent your motivation from waning and offer you the best learning environment.

This intensive oral proficiency preparation program is based on real-time communication, as this type of interaction has been proven to reinforce personal participation, strengthen work interaction, socio-emotional relationships and personal interactions, all of which helps to increase motivation. (Krasinski, 2008).

...with a professional personalized and expert-led syllabus...

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, answer your questions or study recommendations.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone).”

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called *“Neurocognitive Context-Dependent Learning”*, the different elements of our intensive Chinese A2 language preparation course are connected with the context in which the participant will take their certification exam in order to guarantee success on the day of the test.

... and all this with teachers at the forefront of technology and education...

Study wherever and however you want: connect with your mobile device and learn with the best native teachers.

Immersion in real situations

We present you with real conversational situations with native speakers with different accents, in different contexts.

07

Course Objectives

The objective of this university program is to provide the student with all the necessary tools, on the one hand, to be able to use Chinese in a basic way and, on the other hand, to easily pass the oral test of the Level A2 accreditation exam in Chinese of the Common European Framework of Reference for Languages, the most important language recognition system in the world. TECH will provide you with native teachers, numerous didactic materials and a small conversation group to gradually improve your Chinese level.

“

Improve your fluency in Chinese and certify your Chinese Level A2 according to CEFR, thanks to the more than 100 different practical exercises that TECH offers"

General Objectives

01

Use the language learned as a means of communication and personal expression, both in class and in everyday situations, whether face-to-face or virtual

02

Understand, interact and express oneself in a simple but appropriate and effective way in these situations orally

03

Approach the most relevant social aspects of everyday life situations and use the most usual forms of social relations and treatment

04

Use the linguistic resources necessary to get by in these situations

05

Strengthen the learner's initial motivation, looking for opportunities to use the new language, including those offered by the new information and communication technologies

06

Acquire tools that enable the student to assess and improve their own learning and use of the language

Specific Objectives

Oral Comprehension

- Understand enough to be able to deal with specific needs as long as the speech is articulated clearly and at a slow pace
- Understand sentences and expressions related to areas of immediate priority (e.g., very basic personal and family information, shopping, place of residence, employment) provided speech is articulated clearly and slowly
- Generally identifies the topic being discussed, provided it is conducted slowly and clearly
- Capture the main idea of short, clear and simple messages and statements
- Understand simple instructions on how to get from one place to another, both on foot and by public transportation
- Understand and extract essential information from short recorded passages dealing with everyday, predictable matters and spoken slowly and clearly

The best way to learn is through practice: TECH offers you group conversation classes and high level native teachers to help you reach the level of Chinese you need.

Oral Expression

- Give a simple description or presentation of people, living or working conditions, daily activities, likes and dislikes in a short list of simple phrases and sentences
- Tell stories or describe something through a simple relationship of elements. Describe everyday aspects of their environment; for example, people, places, a work or study experience. Give brief and basic descriptions of events and activities. Describe plans and appointments, customs, usual or past activities and personal experiences
- Use simple, descriptive language to make brief statements about objects and possessions and to make comparisons. Explain what they like and dislike about something.
- Deliver rehearsed, very brief statements of predictable, learned content that are intelligible to listeners who are willing to concentrate
- Deliver, brief, rehearsed presentations, on topics that are of importance in everyday life and briefly offer reasons and explanations for expressing certain opinions, plans and actions
- Answer a limited number of questions with immediate and simple answers

Specific Objectives

Sociocultural and Sociolinguistic Competence

- Learn the sociocultural aspects and social conventions that have the greatest impact on daily life, as well as those related to one's own field, in order to translate them into behavior and communication
- Recognize and use the most common forms of greeting, courtesy, and treatment. Use, in general, a standard language register of basic but careful formality and informality. Recognize some very frequent colloquial expressions, as well as elementary cultural references, related to everyday life
- Understand the gestures, behaviors and values, different from one's own, that underlie the most everyday and obvious sociocultural aspects

Linguistic Competence

- Achieve a sufficient repertoire of linguistic exponents for the functions of the level and use correctly the "formulas" and structures learned
- In language construction, achieving limited control, with the possible systematic errors of the level
- Pronounce clearly and understandably, even if a foreign accent is evident
- Write with correct spelling the common language worked on

“

In order to consolidate all these competencies you will have 40 sessions, designed by expert teachers and based 100% on the CEFR"

Did you know?

Communicative competence is not merely limited to the knowledge and ability to use the linguistic code, but has other broader dimensions, which place it in direct relation with other competences such as information processing and digital competence, learning to learn, social and civic competence, or cultural and artistic competence.

This implies a cultural immersion that is only possible through direct and continuous interaction with native speakers and real conversational situations.

Enroll and see how TECH makes you improve your Chinese quickly and fluently.

08

Course Structure and Content

The key to success in improving oral language skills lies in the continuous practice of the language. In this university program, designed to be carried out in a group, the student will share lessons with students of similar interests and language level. Small teams provide multiple opportunities to intervene and also develop the listening comprehension skills necessary to pass A2 level without difficulty.

Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 60-minute live sessions taught by native-speaking teachers.

Each session is structured as follows:

- Practice of oral interaction skills
- Practice of oral expression skills
- Simulation of real situations
- Tips and tricks to prepare for the test
- Summary and closing
- Download printable sheets

“

You will be in a group with other students who share your objectives and interests, giving you the an advantagein mastering the A2 level”

A2 level Learning-Assessment Objectives

In each program, native teachers prepare a series of items that the student must overcome in order to satisfactorily achieve the course goals. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible, thanks to effective and efficient teaching.

- ♦ Begin to be more fluent in speech, with improved accuracy and better oral comprehension.
- ♦ Familiarize yourself with the grammatical rules of the Beginner and Elementary levels.
- ♦ Gain a better understanding of the different forms of the verbs in order to construct specific sentences.
- ♦ Describe the appearance and character of people, their surroundings and the hobbies that they have.
- ♦ Communicate in common situations such as a medical consultation or a trip to a shopping mall.
- ♦ Learn the typical vocabulary and oral expressions in local cuisine or during your travels.

“

You will improve rapidly thanks to common practice, error correction and continued learning, lesson by lesson”

"The truth is that I started studying Chinese almost out of obligation, since in my job I started to get a lot of clients from this country. I must admit that I ended up liking the language a lot, since it is different from everything I had learned so far. I have even signed up for these TECH Conversation Classes to improve my level of Chinese and maintain conversation with the tourists I deal with. I recommend it!"

Elizabeth Castaño

Tour Guide

"I consume a lot of technology information and most of it, truth be told, is in English. For some time now I have been interested in the news coming from China, mainly because of my work, but I found it difficult to understand spoken Chinese. Luckily, with these TECH Online Conversation Classes I now not only understand the Chinese in the videos I consume, but I can even speak it too!"

The Professional Benefits of Chinese

As Chinese is the most spoken language in the world at a native level, it is evident that studying this language will be a great boost for any person who wants to develop their career in Asia. In addition, the Chinese economy is one of the strongest in the world, which justifies and reinforces the decision to start studying this language.

Companies such as Tencent, TikTok or Xiaomi have already carved out a very important niche in the global technology markets, so a knowledge of the Chinese language is also an advantage to work in one of these economic giants.

In addition, the number of Chinese speakers is growing exponentially over the years. This makes this language a safe and differential option for the future in any curriculum.

“

Study the language of the future and present to stand out from your competitors”

11

Assessment and Certification

The main evaluation objective in TECH Global University is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

“

TECH's A2 level oral communication skills preparation program is the only one that also awards you with a university certificate”

Certification

Upon completion of the course, the student will receive a certificate of recognition that will guarantee their preparation to obtain, if the student wishes, the certification of that level.
