01 Welcome

This thorough program, based on individual online conversation classes with native teachers with extensive teaching experience in prestigious universities, prepares students to to pass the oral test of English Level A1 of the Common European Framework of Reference for Languages (CEFR) in an effective and fully personalized way. Its main objective is to help you acquire the necessary oral skills to be able to certify your level of English and to help you achieve a higher level of oral expression and comprehension in the language.

Presentation video

“

This is the most complete preparation program for developing communication skills in order to pass the CEFR A1 level”

Introduction

Most English academies and schools offer traditional teaching based on repeating simple linguistic structures with no connection to properly structured content or concrete skills. However, teachers and psychologists believe the best way to stimulate language learning is not to subject the learner to formalized, linear learning - for example, rote learning - but rather, to encourage imagination and learning through sensory exploration in order to be able to understand and interpret the world around us.

This allows the brain to work and learn a second language in the most natural way possible, in the same way that we learned our mother tongue.

Put yourself in the hands of our university professors. They will prepare you with different activities of expression and interaction to pass the oral part of the English A1 certificate.

You will improve your communicative skills in order to obtain the CEFRL A1 level in English in a quick and fast way.

It is proven that learning languages increases your Intelligence. Learning a foreign language strengthens the brain's neural networks"

José Antonio Marina.
Philosopher, writer, and teacher.

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

Nowadays, however, simply knowing foreign languages is not enough. **Nowadays, you must have an official qualification** that accredits and recognizes your proficiency in a given language. In fact, many schools, universities and companies **only** accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR)**.

“

The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

TECH Global University

The Common European Framework of Reference for Languages is the **only officially recognized and accredited system for assessing a student's level of proficiency**. Although there are other certification systems, these come from private institutions and are, therefore, **not officially valid**. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH Global University we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system official recognized and accepted throughout Europe.

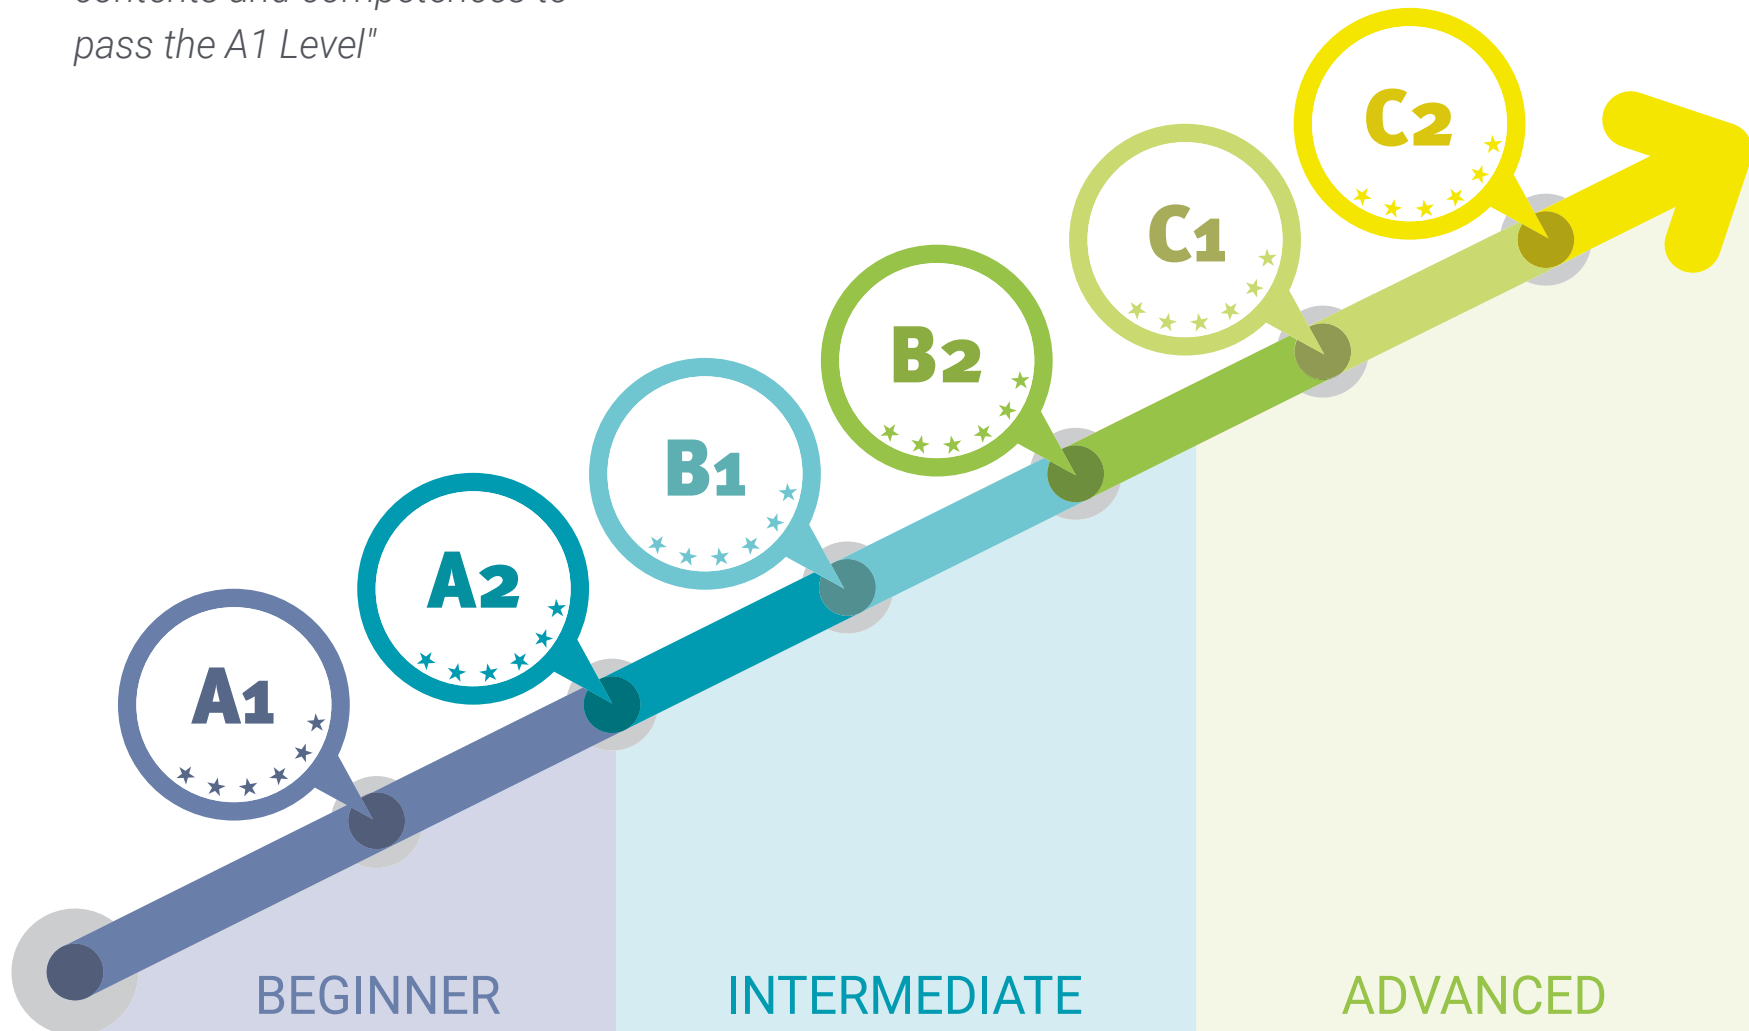

Finally learn to speak fluent English and make the most of it by accrediting it with an official qualification based on the CEFR.

*Other private Language Certificate systems require students to periodically recertify their level of proficiency.
TECH's CEFR certificate is valid for life*

“

With this preparation program you will have all the necessary contents and competences to pass the A1 Level”

03

What Is Level A1?

Level A1 is part of the Beginner Level, which is divided into two courses: First and Second Beginner Level (A1 and A2). The first course covers the requirements of the A1 proficiency level as established by the Common European Framework of Reference for Languages, the only official system in the European Union for recognizing and accrediting language proficiency and the only certificate that has official validity and is requested by universities, companies, competitive examinations, etc.

A person with long dark hair, wearing a colorful plaid shirt, is holding a white circular sign with the text 'A1' in red. The sign is positioned in the lower-left quadrant of the image. The background features a series of thin, light blue lines that curve across the top and right side of the page.

A1

“

In TECH's Individual Online Conversation Classes program, we thoroughly prepare you to obtain A1 English certificate"

What are the A1 Level Skills?

At this level, as defined by the Common European Framework of Reference for Languages, students progress in language skills to develop what are considered "Basic User" skills with the ability to:

“

*Improve your skills in this language
and certify your level quickly and easily
thanks to everything you will learn in
this excellent program offered by TECH”*

01

Understand and use common everyday expressions and simple sentences to satisfy immediate needs.

02

Interact in an elementary way as long as the interlocutor speaks slowly and clearly and is willing to cooperate.

03

Introduce yourself and others, ask for and give basic personal information about your address, your belongings, and people you know

Level A1 (Access) is considered to be the lowest level of general language use, the point at which learners can interact in a simple way, can ask and answer questions about themselves, about where they live, about the people they know and the things they have, can make simple statements in areas of immediate need or on very everyday topics and can respond to such questions when they are put to them, rather than simply relying on a very limited, rehearsed and lexically organized repertoire of phrases used in specific situations.

TECH helps you to get your official qualification with intensive, 100% CEFR training"

- We will work through mock exams so that you are 100% prepared.

Skills-Based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this program we work according to skills, with more than 100 different activities in order to prepare you to obtain your English A1 certificate.

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Specific Virtual Classes for CEFR A1

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc.

Take the sessions with you on your cell phone and view them wherever you want!

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

An interactive chat to share queries, expressions, complex words, etc. in writing.

In addition:

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question.

These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

06

Our Methodology

This intensive course of online conversation classes for the preparation of the English A1 level certificate is 100% based on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method of oral proficiency practice in which the student works intensively and repeatedly on all the contents required by the Framework, providing them with extensive preparation with the help of university teachers to pass the test.

“

In no other course will you work at your own pace, with native teachers, in small groups based on practicing the specific CEFR skills in each session and practicing the specific CEFR skills in each unit”

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's English A1 Individual Online Conversation Classes program offers you a method based on interaction and synchronous and direct communication between teacher and student to provide you with comprehensive preparation for the oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

... All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...,) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Re-learning Methodology

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive oral proficiency preparation program is based on synchronous communication, in real time, as this type of interaction has been proven to reinforce personal participation, strengthen work interaction, socio-emotional relationships and personal interactions, all of which helps to increase motivation(Hrastinski, 2008).

...with a personalized and expert-led training itinerary...

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

“ Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone).”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called *"Neurocognitive context-dependent learning"*, the different elements of our intensive English A1 Individual Online Conversation Classes are connected to the context in which the participant will take their certification exam in order to guarantee success on the day of the test.

... and all this with teachers at the forefront of technology and education...

Study wherever and however you want: connect with your mobile device and learn with the best native teachers.

Course Objectives

The A1 English Individual Online Conversation Classes program is designed for you to acquire the necessary oral skills to face the exam and to pass it through practice, training, repetition, personalized supervision, but especially thanks to your effort and the educational excellence of the TECH method.

“

Practice the speaking skills and abilities required by the A1 CEFR: more than 100 different practice exercises"

General Objectives

01

Solve simple communicative tasks and perform the basic functions of these tasks, both in an educational environment and in everyday situations.

02

Interact and express yourself in these situations in an elementary but adequate way, in a standard register of spoken language.

03

Define the most relevant social aspects of everyday life situations and recognize the most common forms of social relationships

04

Use the linguistic resources necessary to get by in basic communication situations.

05

Develop resources and tools that enable them to assess and improve their own learning and use of the language

Specific Objectives

Oral Comprehension

- Understand speech that is very slow, carefully articulated and with enough pauses to assimilate the meaning
- Understand instructions that are explained slowly and carefully, and able to follow directions if they are simple and brief

In TECH's A1 English Individual Online Conversation Classes you will find more than 100 activities focused on developing your oral skills.

Oral Expression

- Participate in conversations in a simple way, taking into account that communication depends entirely on slower-paced repetitions, rephrasing and rectifications
- Ask and answer simple questions, make simple statements, and respond to statements made to them in areas of immediate need or on very everyday topics
- Understand common expressions aimed at satisfying simple, everyday needs as long as the interlocutor collaborates by addressing them in clear and slow speech and repeats what they do not understand
- Understands questions and instructions addressed to them clearly and slowly, understanding simple and brief directions
- Introduce oneself and use basic greetings and farewell expressions. Ask how people are doing and express their reactions to the news
- Understand everyday expressions aimed at satisfying simple concrete needs provided that the speaker collaborates by addressing them in clear, slow speech and repeats what they do not understand
- Understand questions and instructions if spoken slowly and carefully, and understand short, simple directions on how to get to a place. Can ask someone for something, and vice versa
- Ask someone for something, and vice versa. Good command of numbers, quantities, prices and schedules
- Make time indications by means of sentences such as, for example, "next week, last Friday, in November, at three o'clock"
- Respond in an interview to simple and direct questions about personal data, if spoken very slowly and clearly without idioms or set phrases

Specific Objectives

Sociocultural and Sociolinguistic Competence

- Become familiar with the most relevant social aspects of everyday life situations, as well as with those related to their own field, which will result in the basic adaptation of their behavior to these situations and in the understanding or adequate use of the lexicon and functional exponents.
- Recognize and use the most common forms of social relations and treatment, within a standard register. In regular social situations, recognize and use the usual forms of address used to greet, say goodbye, address someone, give thanks, apologize, ask permission, take an interest in people and respond to an offer.
- Understand the behaviors and values that are different from one's own and that underlie the most evident and everyday socio-cultural aspects.

Linguistic Competence

- Manage a basic repertoire of vocabulary and expressions related to the most common situations and functions foreseen in the curriculum.
- Develop a very limited control of linguistic resources, with systematic errors that usually occur at this level.

“

In order to consolidate all these competencies you will have 50 sessions designed by expert teachers and based 100% on the CEFR”

08

Course Structure and Content

The student will receive personalized attention in each session, attending to their own needs as well as to the common objectives of the level. Thanks to this individual focus, language practice begins from day one, covering the most common situations and basic oral expression for more fluent conversations. Each session will reinforce, in turn, the specific areas of individual attention that the student needs to improve.

Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 60-minute live sessions taught by native-speaking teachers.

Each session is structured as follows:

- ◆ Practice of oral interaction skills
- ◆ Practice of oral expression skills
- ◆ Simulation of real situations
- ◆ Tips and tricks to prepare for the test
- ◆ Summary and closing
- ◆ Download printable sheets

“*You will analyze errors individually with your assigned teacher, further boosting your spoken language improvement*”

A1 Level Learning Objectives

In each program, native teachers prepare a series of assignments that the student must pass in order to satisfactorily achieve the goals of the course. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible to effective and efficient teaching.

- ♦ Helping to learn the language from scratch, polishing common mistakes and offering methods to become more fluent in speech
- ♦ Master the use of new basic words to develop conversations in different contexts
- ♦ Assimilate grammatical rules and listening comprehension , with a personalized approach to the needs of each student
- ♦ Focus on everyday issues, such as individual presentations, family, work, travel or daily routine
- ♦ Enable the student to initiate and maintain a simple conversation on their own, making use of the most common language

“

You will focus your practice to exceed by far the CEFR Level A1"

"Despite my best efforts I always struggled to learn English. Due to my profession I needed the classes to be online in order to be able to combine my personal and work life. However, the classes I used to attend were not intense enough and the teacher lacked the right level. With this training I have felt the opposite. The teachers are excellent, they solve all your doubts and their teaching method is innovative and effective. Now that I have my A1 level of English accredited, I plan to continue with them and continue advancing"

Laura Ruiz

A student from Spain

"I was offered a job that required a basic level of English. I hadn't studied for years and I had many doubts as to whether I would make it. Fortunately, with this method I quickly prepared myself and was able to accept the offer. I am currently taking the B1 Level and I am still delighted with the contents and teachers of this Online University"

10 The Professional Benefits of English

Today, English is the universal language, it is almost mandatory at the work level in all parts of the world, it is fundamental in any area of personal or professional life: it is the language used in the economic field, international trade, tourism, diplomacy, industry, etc. Everything is written, spoken and read in English nowadays; it has become the second preferred language in the world. In the globalized world in which we live, it is the tool that enables communication with people from all countries.

English is the language most widely used as a first or second language, the former by some 400 million people worldwide, while an estimated 2 billion people are learning it as a second language. With this, in less than a decade, English will be spoken by some 3 billion people, almost half of the Earth's total population. In this sense, there is no doubt that it will become (if it is not already) a fundamental requirement for accessing a large part of job offers, scholarships, university careers, business, etc.

English will give us access to a better education and, therefore, the possibility of a better job. Our job opportunities will multiply as soon as we master the language. Whether in governmental areas or in multinational companies, regardless of the field of work, English will always bring advantages when it comes to promotion or access to another job, helping to improve the current employment situation of the person who masters it.

Another important reason to learn English is that we will be able to access a better education, without limiting ourselves to universities or training centers in our own country. It will also give us access to more current and complete information, we will learn about the latest advances and we will be able to access most scientific, academic and technological texts written in English. According to a study, more than 56% of Internet sites are published in English.

“

Today, English is the universal language. It is almost obligatory at the work level in all parts of the world, it is fundamental in any area of personal or professional life"

11

Assessment and Certification

The main evaluation objective in TECH is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

“

TECH's A1 level conversation classes program is the only one that also awards you with a university certificate”

Certification

Upon completion of the course, the student will receive a certificate of recognition that will guarantee their preparation to obtain, if the student wishes, the certification of that level.
