# 01 Welcome

This academic action is composed of 40 hours of online conversation classes that will allow the student to prepare the A1 level in German. All this, based on a highly effective methodology that prepares the student to pass the oral test of German Level A1 of the Common European Framework of Reference for Languages (CEFR).

The main objective of this programme is to help students acquire the necessary oral skills to be able to certify their level and to promote their personal and professional growth by helping them to achieve success in learning German. This will be achieved through individualised classes, in an online format and taught by native and language experts teachers.

A high-level programme, specially designed for the needs of 21st century students and based on academic excellence.

*Presentation video*

“

*This is the most complete preparation program for developing communication skills in order to pass the CEFR A1 level test. Study. Learn. BECOME CERTIFIED”*

## Introduction

Most German academies and schools offer traditional teaching, based on the repetition of simple linguistic structures, without connection, adequately structured content or concrete competencies. For this reason, at TECH we avoid this ineffective system and follow the recommendations of teachers and psychologists, who believe that the best way to stimulate language learning is not to subject the student to formalised and linear learning -for example, with rote learning- but to encourage imagination and learning through sensory exploration in order to be able to understand and interpret what surrounds them.

In this sense, TECH's system of individual language conversation classes results in the brain working and learning a second language in the most natural way possible, just as a mother tongue is learned.

*Learning a new language will allow you to grow professionally and personally and aim higher in your daily life.*

*You will work through more than 100 different activities of oral expression and interaction that will prepare you to pass the oral part of the German A1 Exam.*

*You will learn German from native university professors who will teach you the German language in a new and effective way"*

A unique and stimulating experience

# Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

Nowadays, however, simply knowing foreign languages is not enough. Nowadays, students must have an official certificate that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

“

*The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"*

## TECH Global University

The Common European Framework of Reference for Languages is the only officially recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

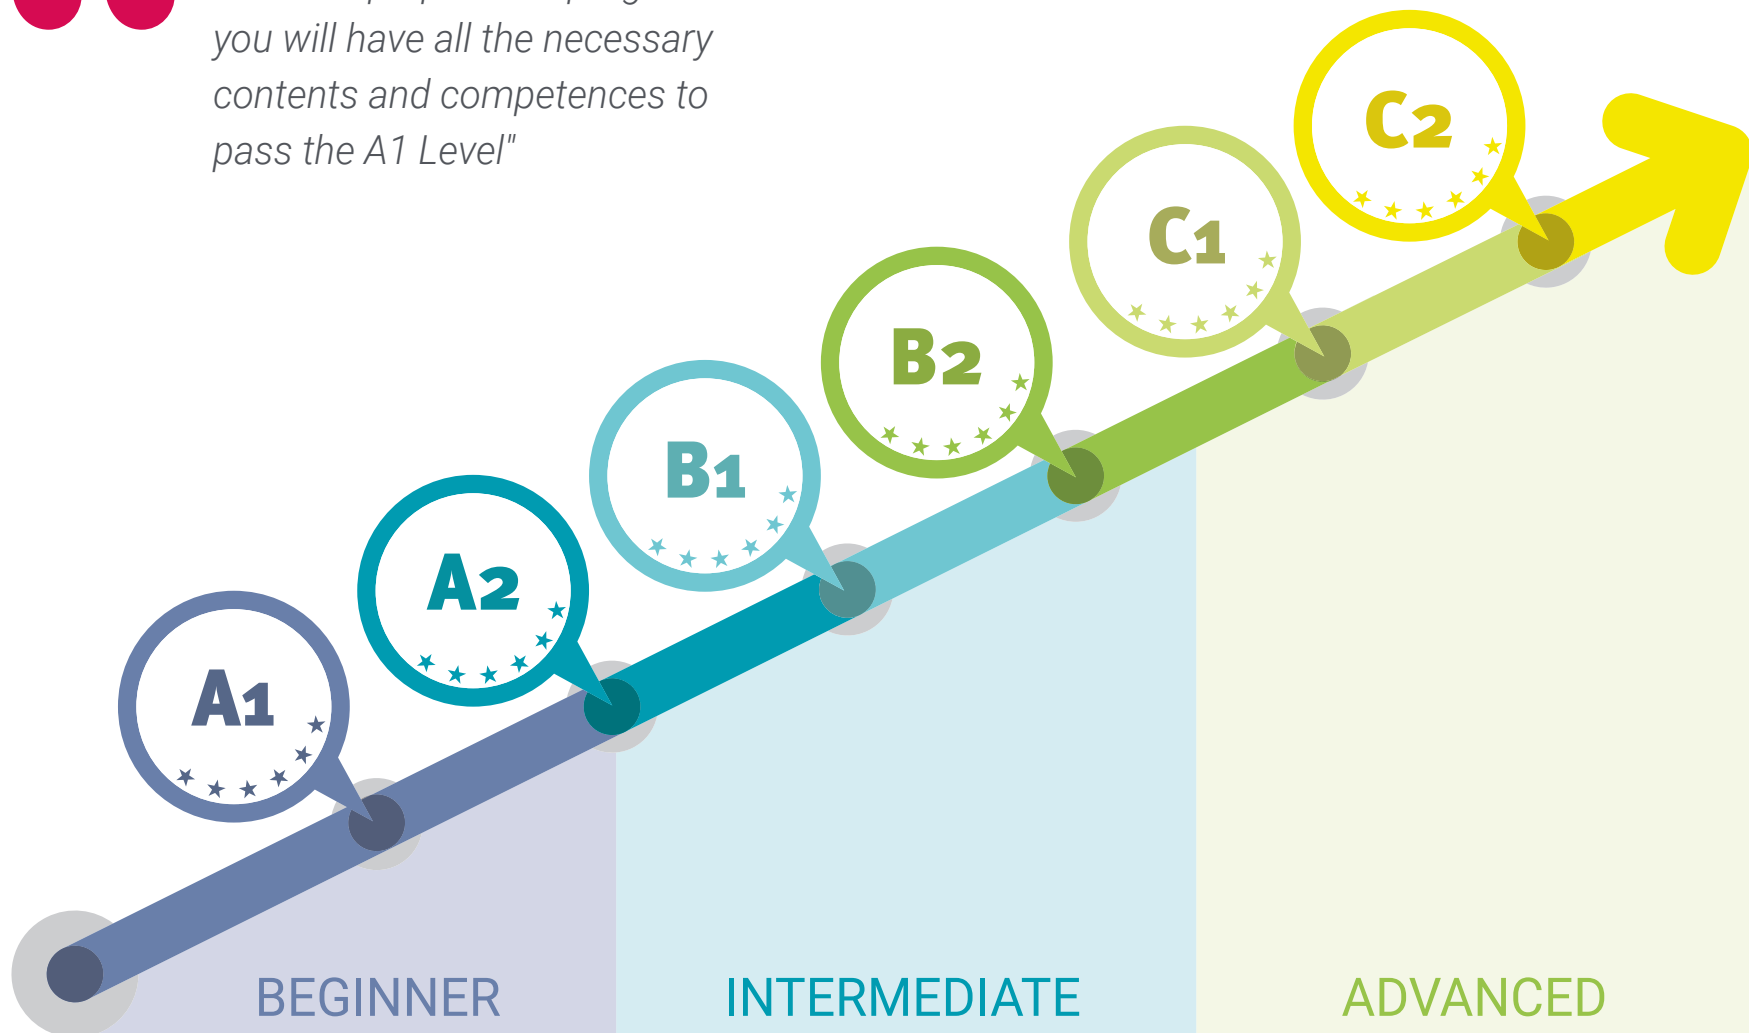

*Learn to speak fluent German and make the most of it by obtaining an official qualification based on the CEFR.*

*Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate gives you a diploma for life.*

“

*With this preparation program you will have all the necessary contents and competences to pass the A1 Level”*

03

# What Is Level A1?

Level A1 is part of the Beginner Level, which is divided into two levels: first and second Beginner Level (A1 and A2). The first course covers the requirements of the A1 proficiency level as established by the Common European Framework of Reference for Languages, the only official system in the European Union for recognizing and accrediting language proficiency and the only diploma that has official validity and is requested by universities, companies, competitive examinations, etc.

A person with long dark hair, wearing a colorful plaid shirt, is holding a white circular sign with the text 'A1' in red. The sign is positioned in the lower-left quadrant of the image. The background is white with a decorative graphic of many thin, light blue lines that curve and flow across the top and right side of the page.

**A1**

“

*In TECH's German Level A1 Online Individual Conversation Classes program we prepare you thoroughly to obtain your official German A1 certificate"*

## What are the A1 Level Skills?

At this level, as defined by the Common European Framework of Reference for Languages, students progress in language skills to develop what are considered "Basic User" skills with the ability to:

“

*Improve your skills in this language and certify your level simply and quickly, thanks to everything you will learn in this excellent program that TECH puts at your disposal"*

01

Understand and use common everyday expressions and simple sentences to satisfy immediate needs

02

Interact in an elementary way as long as the interlocutor speaks slowly and clearly and is willing to cooperate

03

Introduce yourself and others, ask for and give basic personal information about your address, your belongings, and people you know

Level A1 (Access) is considered to be the lowest level of general language use, the point at which learners can interact in a simple way, can ask and answer questions about themselves, about where they live, about the people they know and the things they have, can make simple statements in areas of immediate need or on everyday topics and can respond to such questions when they are put to them, rather than simply relying on a very limited, rehearsed and lexically organized repertoire of phrases used in specific situations.

## A1 level Self-Assessment Chart

### What will I be able to do after completing the course?

#### Comprehension

##### Listening Comprehension

- ◆ Recognize very basic, commonly-used words and expressions relating to themselves, their family and their immediate environment when spoken slowly and clearly

#### Speaking

##### Oral Interaction

- ◆ Participate in a simple conversation, as long as the other person is willing to repeat what they have said or say it in other words and at a slower speed, and help them formulate what they are trying to say
- ◆ Ask and answer simple questions on topics of immediate need or very common issues

##### Oral Expression

- ◆ Use simple expressions and phrases to describe the place where they live and the people they know

*TECH helps you to get your official qualification with intensive, 100% CEFR training"*

*Check your level.  
Assess yourself.  
More than 100  
different activities  
to improve your  
fluency, expression,  
comprehension and  
pronunciation.*

## Qualitative aspects of spoken language usage for Level A1

(According to the Common European Framework of Reference for Languages)

### What is expected to be achieved with this level?

#### Scope

---

- ◆ Possess a basic repertoire of simple words and phrases related to personal information and specific situations

#### Correction

---

- ◆ Showcase limited control of a few simple grammatical structures and sentence patterns within a memorized repertoire

#### Fluency

---

- ◆ Manage very brief, isolated and prepared expressions, using pauses to search for expressions, articulate less common words and correct communication

#### Interaction

---

- ◆ Ask and answer questions related to personal data
- ◆ Participate in a conversation in a simple way, but communication must be based entirely on repetition, rephrasing and correction of sentences

#### Coherence

---

- ◆ Linking words or groups of words with very basic and linear connectors such as "and" and "then"

*Download and practice vocabulary: More than 50 pages of word cards and glossaries.*

### Skills-based practice

---

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program we work according to skills, with more than 100 different activities in order to prepare you to obtain your official German A1 certificate.

### Simulated learning scenarios

---

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in storytelling to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

### Specific Virtual Classes for CEFR A1

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc.

*Take the sessions with you on your cell phone and view them wherever you want!*

*Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.*

*An interactive chat to share queries, expressions, complex words, etc. in writing.*

#### **In addition:**

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question. These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

# Our Methodology

During this program of Conversation Classes in German A1 Level Preparation, the student will develop intensive language sessions, based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method of oral proficiency practice in which the student works intensively and repeatedly on all the contents required by the Framework, providing them with extensive preparation to pass the test.

“

*We offer you the possibility of working at your own pace, with native university teachers, individually and adapted to the requirements of the Common European Framework of Reference for Languages (CEFR)”*

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's German A1 level oral proficiency preparation program offers you a method based on interaction and synchronous and direct communication between teacher and student to thoroughly prepare for the official oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and, guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

*...All of this is enhanced with the best 100% online teaching methodology: Relearning...*

Our school is the first in the world to combine storytelling with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

*TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.*

This methodology, at the forefront of world teaching, is called Relearning. Our language school is the first licensed to employ this successful method, having managed, in 2015, to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

*The overall score obtained by our learning system is 8.01, according to the highest international standards.*

## Relearning Methodology

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive oral proficiency preparation program is based on synchronous communication, in real time, as this type of interaction has been proven to reinforce personal participation, strengthen work interaction, socio-emotional relationships and personal interactions, all of which helps to increase motivation. (Hrastinski, 2008).

*...with a professional, personalized  
and expert-led syllabus...*

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

“

*Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)”*

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called “Neurocognitive context-dependent learning”, the different elements of our intensive German A1 preparation course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

*...and all this with teachers at the forefront of technology and education...*

*Study wherever and however you want: connect with your mobile device and learn with the best native teachers.*

### **Immersion in real situations**

We present you with real conversational situations with native speakers with different accents in different contexts.

### **Skills-based practice**

At TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages.

### **Pronunciation and phonetic practice**

At TECH we focus our method on repetition as the best way to consolidate your learning.

Audio

### Vocabulary and socioculture practice

At TECH we offer you different ways to consolidate your vocabulary through practice, conversation, and by consulting downloadable worksheets.

### Grammar and spelling practice

You will work on grammar without even realizing it, from a practical point of view through activities with native teachers.

### Interactive chat

During the sessions you can practice your written skills by interacting in the chat.

### Study Material

Material prepared by expert native teachers, such as downloadable worksheets and glossaries.

*At TECH you will find expert teaching staff equipped to prepare you with a high-quality syllabus based 100% on acquiring the oral skills required by the CEFR.*

03

Define the most relevant social aspects of everyday life situations and recognize the most common forms of social relationships

04

Use the linguistic resources necessary to get by in basic communication situations

05

Develop resources and tools that enable them to assess and improve their own learning and use of the language

## Specific Objectives

### Oral Comprehension

---

- Understand speech that is slow, carefully articulated and with enough pauses to assimilate the meaning
- Understand instructions that are explained slowly and carefully and able to follow directions if they are simple and brief

*Improve your oral skills with these classes specially designed by native university teachers.*

### Oral Expression

---

- Engage in conversations in a straightforward manner, taking into account communication is totally dependent on slower-paced repetitions, rephrasing and rectifications
- Ask and answer simple questions, make simple statements, respond to statements made to them in areas of immediate need or on very everyday topics
- Understand common expressions aimed at satisfying simple, everyday needs as long as the interlocutor collaborates by addressing them in clear, slow speech and repeats what they do not understand
- Understands questions and instructions addressed to them clearly and slowly, understanding simple and brief directions
- Introduce oneself and use basic greetings and farewell expressions. Ask how people are doing and express their reactions to the news
- Understand everyday expressions aimed at satisfying simple concrete needs provided that the speaker collaborates by addressing them in clear, slow speech and repeats what they do not understand

- Recognize and use the most common forms of social relations and treatment, within a standard register. In regular social situations, recognize and use the usual forms of address used to greet, say goodbye, address someone, give thanks, apologize, ask permission, take an interest in people and respond to an offer
- Understand the behaviors and values that are different from one's own and that underlie the most evident and everyday socio-cultural aspects

### Linguistic competence

- Manage a basic repertoire of vocabulary and expressions related to the most common situations and functions foreseen in the curriculum
- Develop a very limited control of linguistic resources, with systematic errors that usually occur at this level

“

*In order to consolidate all these skills you will have 40 sessions designed by expert teachers and based 100% on the CEFR”*

08

# Course Structure and Content

Throughout all the Conversation Classes, the most common contexts and questions of the language will be dealt with, practicing to obtain a competent fluency at Level A1. In addition, as these are individual lessons, the teacher can adapt the content to the student's personal requirements and interests, reinforcing those areas that are most important to them. Personalized attention allows you to start practicing from the first day, improving with each class the most common mistakes and oral expression.

### Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 60-minute live sessions taught by native-speaking teachers.

#### Each session is structured as follows:

- ◆ Practice of oral interaction skills
- ◆ Practice of oral expression skills
- ◆ Simulation of real situations
- ◆ Tips and tricks to prepare for the test
- ◆ Summary and closing
- ◆ Download printable sheets

*Analyze errors individually with your assigned teacher, further boosting your spoken language ability"*

## Level A1 Learning Objectives

In each program, native teachers prepare a series of items that the student must overcome in order to satisfactorily achieve the course goals. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest possible time, resulting in effective and efficient teaching.

- Helping to learn the language from scratch, polishing common mistakes and offering methods to become more fluent in speech
- Master the use of new basic words to develop conversations in different contexts.
- Assimilate grammatical rules and listening comprehension with a personalized approach to the needs of each student
- Focus on everyday issues, such as individual presentations, family, work, travel or daily routine
- Enable the student to initiate and maintain a simple conversation on their own, making use of the most common language

“

*You will focus your practice to exceed by far the CEFR Level A1”*

*"I had been trying to learn German for years, but always came up against impractical courses where it was almost impossible to stay motivated. That made me try a different format like the one TECH offers and I honestly couldn't be happier. The didactics of the teachers and the methodology have been great, and I have learned more German than in any other program"*

## **Adriana de Miguel**

# The Professional Benefits of German

German is the ninth most spoken language in the world. It is spoken in countries such as: Switzerland, Austria, Luxembourg and Belgium. And also in other parts of the world in small communities.

There is no doubt that the main reason to learn German is for work. Austria has the lowest unemployment rate of the Eurozone countries; Switzerland is one of the most affluent countries and offers excellent working conditions; the engine of Europe, Germany, offers great employment opportunities to anyone who is willing to work. However, a good level of German is a prerequisite for working in these countries. Many have tried their luck and emigrated from their home countries in search of work, but doing it without knowing German is not particularly easy.

Learning German may be just what you need to develop your career. Knowing German will also make it easier to create or maintain working relationships with German-speaking associates in your country. It will undoubtedly help to strengthen relationships and close business deals. It is also worth bearing in mind that German is the native language of one of the world's major exporting countries, and having a good command of this language allows you to perform better in business and instill greater confidence in working relationships.

Additionally, German is the second most important language for the sciences and Germany is the third most important country for its contribution to research and development. Germany awards a large number of research grants to foreign scientists and almost 20% of the world's books are written in German.

“

*German is the native language of one of the world's major exporting countries, and having a good command of this language allows you to perform better in business”*

11

# Assessment and Certification

The main evaluation objective in TECH is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

“

*TECH'S A1 level oral communication skills preparation program is the only one that also awards you with a university certificate”*

## Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
