01 Welcome

This program, based on individual conversation classes with native Chinese teachers, leads to oral proficiency in this language at Level A2 according to the Common European Framework of Reference for Languages (CEFR). With this high-level personalized program, you will learn to communicate correctly in everyday situations, in simple contexts. It also contains a personalized learning program and is taught by native teachers who are experts in online teaching.

Presentation video

“

Put your trust in our university professors. They will prepare you with different expression and interaction activities to pass the oral part of the Chinese A2 certificate”

Introduction

Teachers and psychologists, experts in languages, believe that the best way to stimulate language learning is not to subject the learner to formalized, linear learning - for example, with rote learning - but rather, to encourage imagination and learning through sensory exploration in order to be able to understand and interpret what is around us.

This allows the brain to work and learn a foreign language in the most natural way possible, in the same way that we learned our mother tongue.

With this high-level program you will learn to communicate in a simple way in everyday situations, in common contexts. You will access to a personalized and effective educational program and the support of native teachers who are experts in online teaching.

In TECH's preparation course for the CEFR A2 level test you will find more than 300 activities focused on pronunciation and phonetics

You will be able to understand and use simple, frequently-used expressions

It is proven that learning languages increases your Intelligence. Learning a foreign language strengthens the brain's neural networks"

José Antonio Marina.
Philosopher, writer and teacher.

A unique and stimulating experience

Flexible and Tailored

Take the best Chinese conversation program, at your pace and according to your availability and schedule.

Acquire Skills and Abilities

With our method you will practice and consolidate the oral communication skills required at this level.

Networking

Join a large community and exchange knowledge and experiences with students from all over the world.

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. Nowadays, you must have an official qualification that accredits and recognizes your proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

“

The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with an intensive 100% CEFR program"

TECH Global University

The Common European Framework of Reference for Languages is the only officially recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

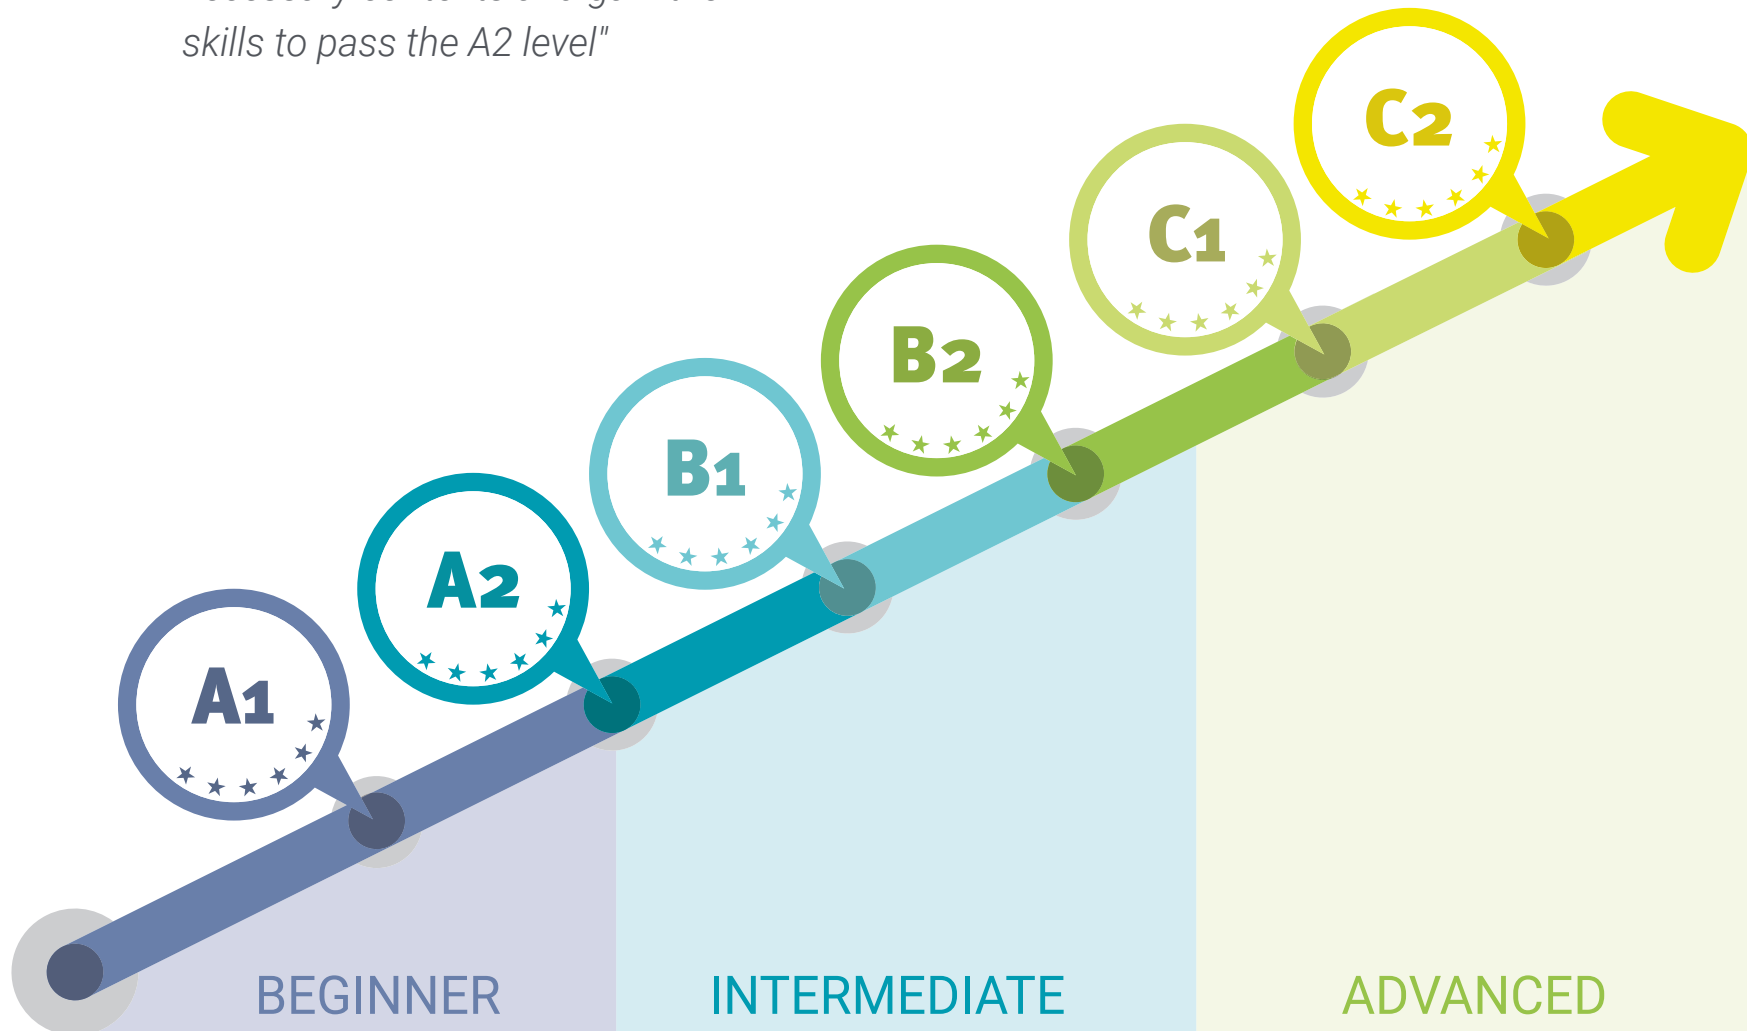

Learn to speak Chinese and make the most of it by obtaining an official qualification based on the CEFR

Other private language certification systems require students to periodically recertify their level of proficiency. The TECH CEFR certificate is valid for life

“

With this preparation program you will have access to all the necessary contents and gain the skills to pass the A2 level”

03

What Is Level A2?

Level A2 is part of the Basic User Level, which is further divided into two sub-levels: First and Second Basic User Levels (A1 and A2).

This level includes most of the descriptors that deal with social functions, such as: knowing how to use the usual forms of greeting and addressing others politely; greeting people, asking how they are and being able to react to news; coping well in very brief social exchanges; knowing how to ask and answer questions about what they do at work and in their free time; knowing how to make an invitation and respond to it; discussing what to do, where to go and preparing for an appointment; being able to make an offer and accept it.

Here you will also find descriptors on how to function in social life: being able to carry out simple transactions in stores, post offices or banks; knowing how to get simple travel information; using public transport (buses, trains and cabs); asking for basic information, asking and explaining how to get to a place and buy tickets; ordering and providing everyday goods and services.

A person with long dark hair, wearing a colorful plaid shirt, is holding a white circular sign with the text 'A2' written in large, bold, red letters. The background features a decorative graphic of many thin, light blue lines that curve and flow across the top of the page.

A2

“

In TECH's Individual Online Conversation Classes for A2 Chinese preparation program we will thoroughly prepare you to obtain your official A2 Chinese certificate”

What are the A2 Level Skills?

At this level, as defined by the Common European Framework of Reference for Languages, students make progress in their language skills to develop what are considered "Basic User" skills, with the ability to:

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH"

Understand sentences and frequently used expressions related to areas of experience that are particularly relevant to them (basic information about themselves and their family, shopping, places of interest, occupations, etc.)

02

Can communicate in simple, everyday tasks that require only simple and direct exchanges of information on familiar or routine matters

03

Can describe in simple terms aspects of their background and environment, as well as issues related to their immediate needs

A2 Level Self-Assessment Chart

What will I be able to do after completing the course?

Comprehension

Listening Comprehension

- ♦ Understand sentences and the most common vocabulary on topics of personal interest (very basic personal and family information, shopping, place of residence, employment)
- ♦ Capture the main idea of short, clear and simple messages and notices

Speaking

Oral Interaction

- ♦ Communicate simple and routine tasks that require a simple and direct exchange of information about daily activities and issues
- ♦ Very brief social exchanges, but usually unable to understand enough to carry on the conversation on your own

Oral Expression

- ♦ Use a series of expressions and phrases to describe in simple terms your family and other people, your living conditions, your educational background, and your current or most recent job

TECH helps you to get your official qualification with intensive, 100% CEFR learning"

Qualitative aspects of spoken language usage for Level A2

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- ♦ Use structures composed of basic sentences with expressions, groups of a few words and memorized formulas, in order to communicate limited information in simple, everyday situations

Correction

- ♦ Use some simple structures correctly, although basic systematic mistakes are still made

Fluency

- ♦ Make oneself understood with very brief expressions, although pauses, initial doubts and rephrasing very evident

Interaction

- ♦ Answer questions and respond to simple statements
- ♦ Indicate when they understand a conversation, but barely understand enough to carry on a conversation on their own accord

Coherence

- ♦ Link groups of words with simple connectors such as "and", "but" and "because"

Download and practice vocabulary: more than 50 pages of lexical cards and glossaries

- We will work through over 100 activities to obtain different oral skills
- We will subject you to real conversation situations with native speakers
- We will work through mock exams so that you are 100% prepared

Skills-Based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this program we work according to skills, with more than 100 different activities in order to prepare you to obtain your official Chinese A2 certificate.

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this program we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Take the sessions with you on your cell phone and view them wherever you want!

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

An interactive chat to share queries, expressions, complex words, etc. in writing.

Specific Virtual Classes for CEFR A2

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

In addition:

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question.

These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Discussion forums for the development of written expression and interaction skills
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

Our Methodology

This intensive course of Online Conversation Classes for the Preparation of the Chinese A2 Level Certificate is 100% based on the Common European Framework of Reference for Languages (CEFR). We use a method of practicing oral competence in which the student works intensively and repeatedly on all the content required by the Framework, preparing thoroughly, with the help of native teachers, to pass the test.

“

In no other course will you work at your own pace, with native teachers, in individual classes focused on specific practice of the CEFR competences”

Conventional methods of teaching a foreign language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's Chinese Level A2 oral proficiency preparation program offers you a method based on interaction and synchronous and direct communication between teacher and student to thoroughly prepare for the oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and, guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments, and will face real mock exams to prepare intensively for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Relearning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step

This methodology, at the forefront of world teaching, is called *Relearning*. Our language school is the first licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards

Relearning Methodology

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive conversation classes program is based on synchronous communication, in real time, as this type of interaction is proven to reinforce personal participation, work interaction, social-emotional relationships and personal interactions, increasing motivation (Hrastinski, 2008).

...with a professional, personalized and expert-led syllabus...

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, answer your questions or study recommendations.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called “*Neurocognitive context-dependent learning*”, the different elements of our intensive Chinese A2 preparation course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

... and all this with teachers at the forefront of technology and education...

Study wherever and however you want: connect with your mobile device and learn with the best native teachers

Immersion in Real Situations

We present you with real conversational situations with native speakers with different accents in different contexts.

Skills-Based Practice

At TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages.

07

Course Objectives

The Level A2 Chinese Individual Conversation Classes program is designed entirely by university teachers so that you acquire the necessary oral skills to take the exam and accredit your level through practice, repetition, personalized supervision, but above all, thanks to your efforts and the educational excellence of the TECH method.

“

Improve your oral skills and competences with hundreds of practical exercises and pass the CEFR Chinese A2 level”

General Objectives

01

Use the language learned as a means of communication and personal expression, both in class and in everyday situations, whether face-to-face or virtual

02

Understand, interact and express oneself in a simple but appropriate and effective way in these situations orally

03

Approach the most relevant social aspects of everyday life situations and use the most usual forms of social relations and treatment

04

Use the linguistic resources necessary to get by in these situations

05

Strengthen the learner's initial motivation, looking for opportunities to use the new language, including those offered by the new information and communication technologies

06

Acquire tools that enable the student to assess and improve their own learning and use of the language

Specific Objectives

Oral Comprehension

- ♦ Understand enough to be able to deal with specific needs as long as the speech is articulated clearly and at a slow pace
- ♦ Understand sentences and expressions related to areas of immediate priority (e.g., very basic personal and family information, shopping, place of residence, employment) provided speech is articulated clearly and slowly
- ♦ Generally identifies the topic being discussed, provided it is conducted slowly and clearly
- ♦ Capture the main idea of short, clear and simple messages and statements
- ♦ Understand simple instructions on how to get from one place to another, both on foot and by public transportation
- ♦ Understand and extract essential information from short recorded passages dealing with everyday, predictable matters and spoken slowly and clearly

In TECH's preparation course for the CEFR A2 level test you will find more than 100 activities focused on developing your oral skills

Oral Expression

- ♦ Give a simple description or presentation of people, living or working conditions, daily activities, likes and dislikes in a short list of simple phrases and sentences
- ♦ Tell stories or describe something through a simple relationship of elements. Describe everyday aspects of the environment; for example, people, places, a work or study experience. Give brief and basic descriptions of events and activities. Describe plans and appointments, customs, usual or past activities and personal experiences
- ♦ Use simple, descriptive language to make brief statements about objects and possessions and to make comparisons
- ♦ Explain what they like and dislike about something.
- ♦ Deliver rehearsed, very brief statements of predictable, learned content that are intelligible to listeners who are willing to concentrate
- ♦ Deliver brief, rehearsed presentations on topics that are of importance in everyday life and briefly offer reasons and explanations for expressing certain opinions, plans, and actions
- ♦ Answer a limited number of questions with immediate and simple answers

Specific Objectives

Sociocultural and Sociolinguistic Competence

- ♦ Learn the sociocultural aspects and social conventions that have the greatest impact on daily life, as well as those related to one's own field, in order to translate them into behavior and communication
- ♦ Recognize and use the most common forms of greeting, courtesy, and treatment
- ♦ Use, in general, a standard language register of basic but careful formality and informality. Recognize some very frequent colloquial expressions, as well as elementary cultural references related to everyday life
- ♦ Understand gestures, behaviors and values that are different from one's own that underlie the most obvious, everyday socio-cultural aspects

Linguistic Competence

- ♦ Achieve a sufficient repertoire of linguistic exponents for the functions of the level and use correctly the "formulas" and structures learned
- ♦ In language construction, achieving limited control, with the possible systematic errors of the level
- ♦ Pronounce clearly and understandably even if the foreign accent is evident
- ♦ When writing, correctly spell the common language studied

“

In order to consolidate all these competencies you will have 50 sessions designed by expert teachers and based 100% on the CEFR"

08

Course Structure and Content

The student will have a unique academic opportunity in this program. The teaching team will provide them with completely personalized classes, taking into account their own main interests and the most demanding oral skills of Level A2. The lessons will deal with different aspects of the language and the student will be able to deal with contexts such as a doctor's appointment, shopping at the mall or simple descriptions of their environment.

Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 live sessions of 60 minutes each, taught by native teachers.

Each session is structured as follows:

- ♦ Oral interaction skills practice
- ♦ Oral expression skills practice
- ♦ Simulation of real situations
- ♦ Tips and tricks to prepare for the test
- ♦ Summary and closing
- ♦ Download printable sheets

“ You will speak with basic fluency thanks to this intensive individual program, in which you will receive personalized attention to help you achieve your objectives”

A2 Level Learning Objectives

In each program, native teachers prepare a series of aspects that the student must master in order to satisfactorily achieve the course goals. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible, thanks to effective and efficient teaching.

- Start to be more fluent in speech, with better accuracy and better oral comprehension
- Familiarize yourself with the grammatical rules of the Beginner and Elementary levels
- Gain a better understanding of the different forms of the verbs in order to construct specific sentences
- Describe the appearance and character of people, their surroundings and the hobbies that they have
- Communicate in common situations such as a medical consultation or a trip to a shopping mall
- Learn the typical vocabulary and oral expressions in local cuisine or during your travels

“

You will have direct interaction with the teaching staff and a flexible schedule according to your interests”

"I had basic notions of Chinese and thought I would never be able to advance, but with this intensive program I have managed to improve my Chinese expression and oral comprehension considerably. The teachers are excellent, they solve all your doubts and their teaching method is very effective. Now that I have accredited my A2 level in Chinese I plan to continue with them and certify my B1 level"

Mireia Casanova

A student from Spain

"I am currently studying Chinese level A2 and I am delighted with the content and teachers at this online university. I feel that I am learning quickly and that my pronunciation has improved dramatically. Having native teachers is definitely one of the best things I would highlight about this program"

Ismael Gutiérrez

A student from Argentina

The Professional Benefits of Chinese

The Chinese language, the highest expression of Chinese culture, based on symbols, is more than 5,000 years old and gives rise to more than 55 languages and 2,000 dialects as a result of its geographical, phonetic and dialectical variants. Mandarin Chinese is the official language of the People's Republic of China and is also spoken in countries such as Cambodia, Burma, Indonesia, Malaysia, the Philippines, Singapore, Thailand and Taiwan.

Mandarin Chinese is an original Beijing dialect which, according to official statistics, is the most widely spoken language in the world with more than 1.3 billion speakers. It is one of the six official languages of the United Nations (UN) along with Arabic, English, Russian, Spanish and French.

Nowadays, it seems essential in the multicultural and global society in which we live to broaden our knowledge and teaching of the Chinese language, to know its language, habits and customs, which will lead us to improve our international and commercial relations, to close economic agreements and to establish direct contact with Chinese citizens.

China is in fashion. Its spectacular growth is increasingly attracting entrepreneurs who are looking for an opportunity in the Asian colossus. But doing business in China can become a nightmare. The cultural differences are so vast that they extend to all aspects of the business world: negotiation, contracts, legislation or a simple working dinner. For this reason, guanxi or social relations should also be studied.

“

*Understanding the cultural context
of communication is fundamental to
successfully decoding a message”*

11

Assessment and Certification

The main evaluation objective in TECH is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

“

TECH'S A2 level oral communication skills program is the only one that also awards you with a university certificate”

Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
