Welcome

The German Level A2 online conversation classes program is an intensive program that is delivered through online classes that prepares the student to pass the oral test of German Level A2 of the Common European Framework of Reference for Languages (CEFR). All with the support of native university professors who will prepare the student and accompany him/her throughout the learning process.

The main objective of this academic action is to help the student to acquire the necessary oral skills to be able to certify his level and to favor his personal and professional growth by helping him/her to achieve success in acquiring the German language.

A unique program, taught in telematic and intensive format that will become a turning point in the student's academic skills.

Presentation video

Prepare the A2 level of the CEFR in German and start opening new doors in your professional career and personal life"

Introduction

Today, almost all academies and language schools that teach German offer a traditional teaching method, based on the repetition of simple linguistic structures with no connection to adequately structured content or concrete skills. TECH wants to break down barriers and avoid this ineffective system. For this reason, a personalized method has been implemented in these language conversation classes to stimulate learning by encouraging imagination and learning through sensory exploration, in order to be able to understand and interpret the environment.

This system allows the brain to work and learn a second language in the most natural way possible, in the same way that a native language is learned. A unique learning methodology, based on the knowledge of native university professors.

An intensive work methodology that, in only 40 hours, will allow you to orally certify your A2 German language level with the CEFR.

The best professionals in language learning have joined forces to bring to the student the most effective study methodology on the market.

"You will learn German from native university professionals who will teach you the Bavarian language in a new and effective way"

A unique and stimulating experience

Flexible and Tailored

Take the best German conversation program, at your own pace based on your personal availability and schedule.

Acquire Skills and Abilities

With our method you will practice and consolidate the oral communication skills required at this level.

Networking

Join a large community and exchange knowledge and experiences with students from all over the world.

02
Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

Nowadays, however, simply knowing foreign languages is not enough. Nowadays, students must have an official certificate that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

" *The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"*

TECH Global University

The Common European Framework of Reference for Languages is the **only officially recognized and accredited system for assessing a student's level of proficiency.** Although there are other certification systems, these come from private institutions and are, therefore, **not officially valid.** The CEFR establishes a single criterion to determine the difficulty of the courses and awards diplomas that are recognized throughout the European Union.

At TECH we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.
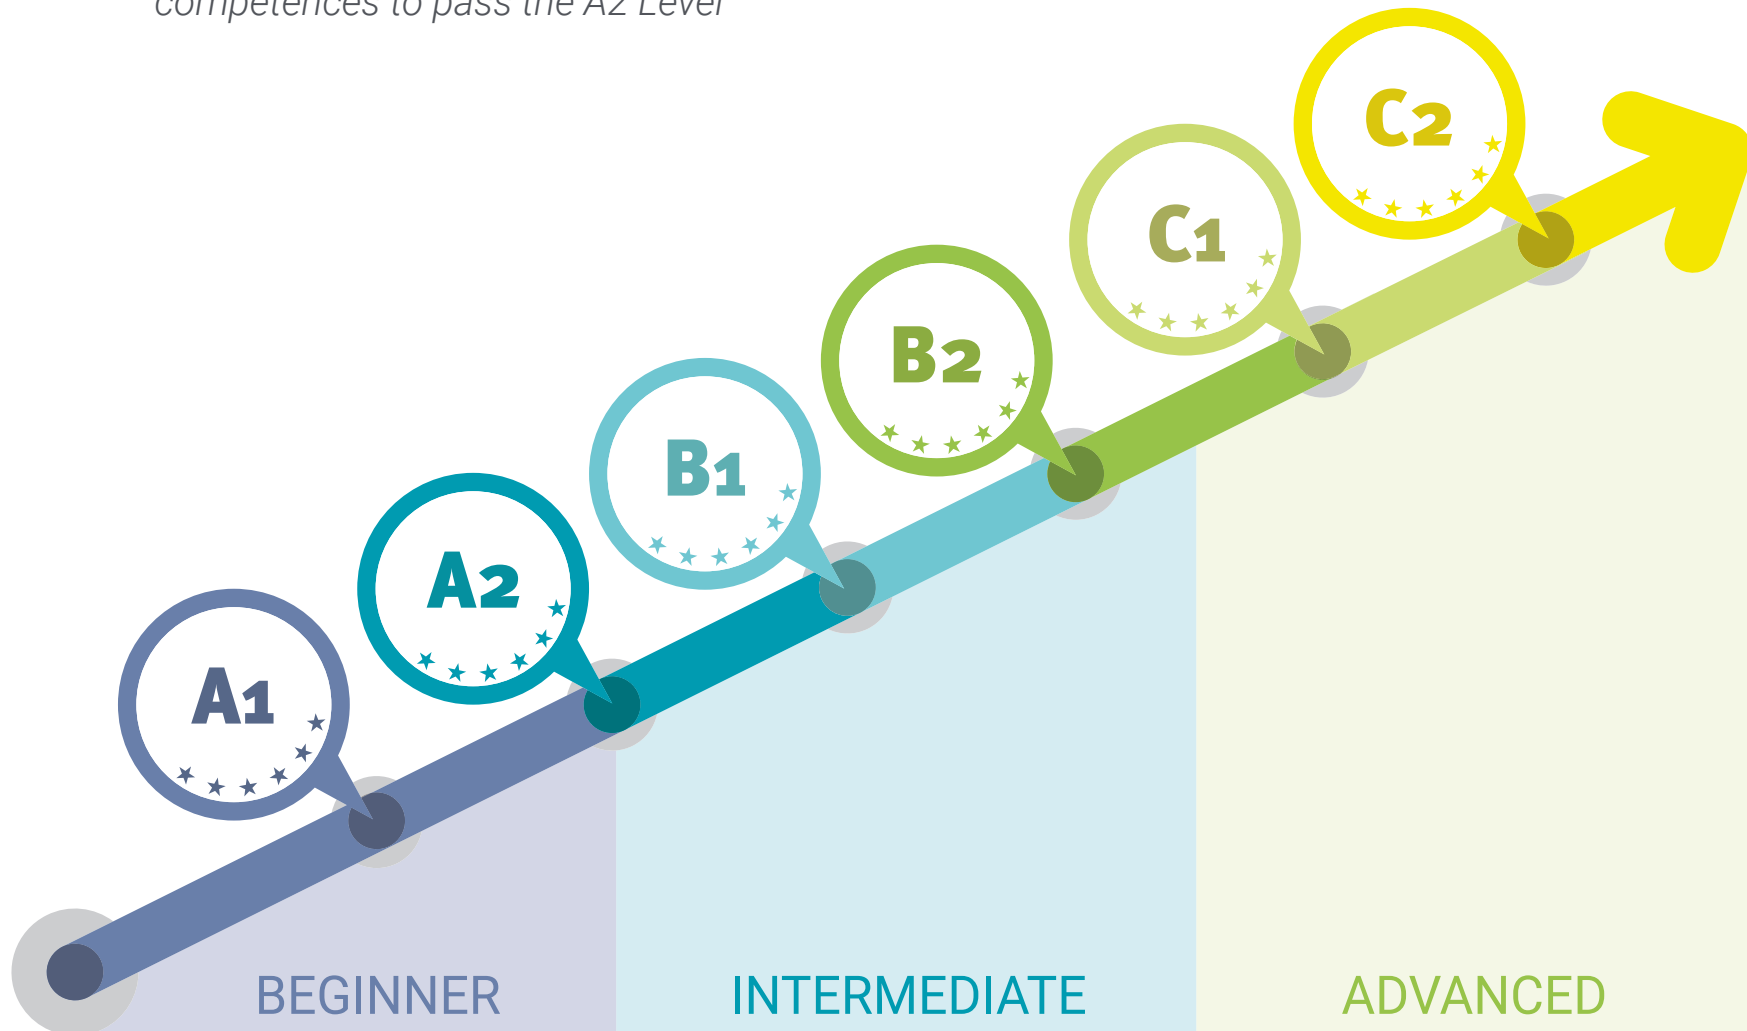

Learn to speak fluent German and make the most of it by obtaining an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate gives you a diploma for life.

" *With this preparation program you will have all the necessary contents and competences to pass the A2 Level"*

03
What Is Level A2?

Level A2 is part of basic User Level, which is divided into two sublevels: First and Second Basic User Level (A2 and A2).

This level incudes most of the descriptors that expose social functions, such as: knowing how to use the usual forms of greeting and addressing others politely; greeting people, asking how they are and being able to react to news; getting along well in very brief social exchanges; knowing how to ask and answer questions about what they do at work and in their free time; knowing how to make an invitation and respond to it; discussing what to do, where to go and preparing for an appointment; being able to make an offer and accept it.

Here you will also find descriptors on how to function in social life: being able to carry out simple transactions in stores, post offices or banks; knowing how to get simple travel information; using public transport (buses, trains and cabs); asking for basic information, asking and explaining how to get to a place and buys tickets; ordering and providing everyday goods and services.

In TECH's Individual Online Conversation Classes program we will thoroughly prepare you to obtain your A2 German certificate"

What are the A2 Level Skills?

At this level, as defined by the Common European Framework of Reference for Languages, students progress in language skills to develop what are considered "Basic User" skills with the ability to:

01 Can understand sentences and frequently used expressions related to areas of experience that are particularly relevant to him/her (basic information about him/herself and his/her family, shopping, places of interest, occupations, etc.)

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH"

02 Can communicate in simple, everyday tasks that require only simple and direct exchanges of information on familiar or routine matters

03 Can describe in simple terms aspects of his/her background and environment, as well as issues related to his/her immediate needs

A2 level Self-Assessment Chart

What is a person with this level able to do?

Comprehension	Speaking
Listening Comprehension	**Oral Interaction**
◆ Understand sentences and the most common vocabulary on topics of personal interest (very basic personal and family information, shopping, place of residence, employment)	◆ Communicate simple and routine tasks that require a simple and direct exchange of information about daily activities and issues
◆ Capture the main idea of short, clear and simple messages and notices	◆ Realize very brief social exchanges, but usually unable to understand enough to carry on the conversation on their own
	Oral Expression
	◆ Use a series of expressions and phrases to describe in simple terms your family and other people, your living conditions, your educational background, and your current or most recent job

TECH helps you to get your official qualification with intensive, 100% CEFR training"

Check your level. Assess yourself. More than 100 different activities to improve your fluency, expression, comprehension and pronunciation.

Qualitative aspects of spoken language usage for Level A2
(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- Use structures composed of basic sentences with expressions, groups of a few words and memorized formulas, in order to communicate limited information in simple, everyday situations

Correction

- Use some simple structures correctly, although basic systematic mistakes are still made

Fluency

- Make oneself understood with very brief expressions, although pauses, initial doubts and rephrasing very evident

Interaction

- Answer questions and respond to simple statements
- Indicate when they understand a conversation, but barely understand enough to carry on a conversation on their own accord

Coherence

- Linking groups of words with simple connectors such as "and", "but" and "because"

Download and practice vocabulary: more than 50 pages of lexical cards and glossaries.

Skills-based practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program we work according to skills, with more than 100 different activities in order to prepare you to obtain your official German A2 certificate.

Simulated learning scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Testing & Retesting

We periodically evaluate and re-evaluate your knowledge throughout the entire German A2 preparation course.

- We will work with more than 100 activities for different oral skills
- We will subject you to real conversation situations with native speakers
- We will work on mock exams so that you are 100% prepared

Specific virtual classes A2 CEFR

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

Take the sessions with you on your cell phone and view them wherever you want!

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

An interactive chat to share queries, expressions, complex words, etc. in writing.

In addition:

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question. These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Discussion forums for the development of written expression and interaction skills
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

Our Methodology

During this Individual Online Conversation Classes for German A2 Level Preparation Program you students will be able to enjoy intensive work sessions that will prepare them to certify for the A2 level of German based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method of oral proficiency practice in which the student works intensively and repeatedly on all the contents required by the Framework, providing them with extensive preparation to pass the test.

" *TECH will put at your disposal the knowledge of native university professors, who will prepare you to take the A2 level exam of the Common European Framework of Reference for Languages (CEFR)"*

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.
TECH's German A2 level oral proficiency preparation program offers you a method based on interaction and synchronous and direct communication between teacher and student to thoroughly prepare for the official oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

We prevent your motivation from waning and offer you the best learning environment.

TECH's intensive oral proficiency preparation program is based on synchronous communication, in real time, as this type of interaction has been proven to reinforce personal participation, strengthen work interaction, socio-emotional relationships and personal interactions, all of which helps to increase motivation. (Hrastinski, 2008).

...with a personalized and expert-led training itinerary...

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

"*Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone).*"

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called *"Neurocognitive context-dependent learning"*, the different elements of our German A2 Level preparation course are connected to the context in which the participant will take his or her official certification exam in order to guarantee success on the day of the test.

Study wherever and however you want: connect with your mobile device and learn with the best native teachers.

Immersion in real situations

We present you with real conversational situations with native speakers with different accents in different contexts.

Course Objectives

The German A2 Level Conversation Class program is entirely designed for the student to acquire the necessary oral skills to face the exam that accredits their level and to pass it through practice, training, repetition, personalized follow-up, intensity and thanks to their effort and the pedagogical excellence of the TECH method. After the program, students will be able to certify their A2 level and continue to advance in the study of the language.

If your goal is to successfully certify Level A2 in German, then these classes are for you"

General Objectives

01 Use the language learned as a means of communication and personal expression, both in class and in everyday situations, whether face-to-face or virtual

02 Understand, interact and express oneself in a simple but appropriate and effective way in these situations orally

03 Approach the most relevant social aspects of everyday life situations and use the most usual forms of social relations and treatment

04 Use the linguistic resources necessary to get by in these situations

05 Strengthen the learner's initial motivation, looking for opportunities to use the new language, including those offered by the new information and communication technologies

06 Acquire tools that enable the student to assess and improve their own learning and use of the language

Specific Objectives

Oral Comprehension

- Understand enough to be able to deal with specific needs as long as the speech is articulated clearly and at a slow pace
- Understand sentences and expressions related to areas of immediate priority (e.g., very basic personal and family information, shopping, place of residence, employment) provided speech is articulated clearly and slowly
- Generally identify the topic being discussed, provided it is conducted slowly and clearly
- Capture the main idea of short, clear and simple messages and statements
- Understand simple instructions on how to get from one place to another, both on foot and by public transportation
- Understand and extract essential information from short recorded passages dealing with everyday, predictable matters and spoken slowly and clearly

Study with an intensive program led by native university professors. This will give you the necessary skills to communicate fluently in German.

Oral Expression

- Give a simple description or presentation of people, living or working conditions, daily activities, likes and dislikes in a short list of simple phrases and sentences.
- Tell stories or describe something through a simple relationship of elements.
- Describe everyday aspects of their environment; for example, people, places, a work or study
- Give brief and basic descriptions of events and activities.
- Describe plans and appointments, customs, usual or past activities and personal experiences.
- Use simple, descriptive language to make brief statements about objects and possessions and to make comparisons
- Explain what they like and dislike about something.
- Deliver rehearsed, very brief statements of predictable, learned content that are intelligible to listeners who are willing to concentrate
- Deliver brief, rehearsed presentations on topics that are of importance in everyday life and briefly offer reasons and explanations for expressing certain opinions, plans, and actions
- Answer a limited number of questions with immediate and simple answers

Specific Objectives

Sociocultural and Sociolinguistic Competence

- Learn the sociocultural aspects and social conventions that have the greatest impact on daily life, as well as those related to one's own field, in order to translate them into behavior and communication
- Recognize and use the most common forms of greeting, courtesy, and treatment
- Use, in general, a standard language register of basic but careful formality and informality. Recognize some very frequent colloquial expressions, as well as elementary cultural references related to everyday life
- Understand gestures, behaviors and values that are different from one's own that underlie the most obvious, everyday socio-cultural aspects

Linguistic Competence

- Achieve a sufficient repertoire of linguistic exponents for the functions of the level and use correctly the "formulas" and structures learned
- In language construction, achieving limited control, with the possible systematic errors of the level
- Pronounce clearly and understandably even if the foreign accent is evident
- Write with correct spelling the common language worked on

> *In order to consolidate all these skills you will have more than 40 sessions designed by expert teachers and based 100% on the CEFR"*

Course Structure and Content

Thanks to TECH's personalized teaching methodology, adapted to the individual needs of the student, this university program provides a significant improvement in oral language skills. The teaching team has prepared a series of lessons that cover the necessary skills for Level A2, adapting the content to the student's own personal interests.

Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 60-minute live sessions taught by native-speaking teachers.

Each session is structured as follows:

- Practice of oral interaction skills
- Practice of oral expression skills
- Simulation of real situations
- Tips and tricks to prepare for the test
- Summary and closing
- Download printable sheets

You will speak with basic fluency thanks to this intensive individual program, in which you will receive personalized attention to your objectives"
Level A2 Learning Objectives

In each program, native teachers prepare a series of items that the student must overcome in order to satisfactorily achieve the course goals. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest possible time, resulting in effective and efficient teaching.

- Begin to be more fluent in speech, with more correctness and better oral comprehension
- Become familiar with the grammar rules of the Beginner and Elementary levels
- Better understand the different forms of verbs to construct specific sentences
- Describe the appearance and character of people, the environment or hobbies practiced
- Get by in common situations such as doctors and shopping malls
- Learn vocabulary and typical oral expressions used in local cuisine or travels

You will have a direct interaction with the teaching staff, obtaining a flexible schedule according to your interests"

"Although I already had some knowledge of German, I lacked the tools and skills to be able to certify it. That led me to take these TECH conversation classes and finally achieve my goal. Today I am A2 certified in German and I have become more fluent in communication"

The Professional Benefits of German

German is the ninth most spoken language in the world. It is spoken in countries such as: Switzerland, Austria, Luxembourg and Belgium. And also in other parts of the world in small communities.

There is no doubt that the main reason to learn German is for work. Austria has the lowest unemployment rate of the Eurozone countries; Switzerland is one of the most affluent countries and offers excellent working conditions; the engine of Europe, Germany, offers great employment opportunities to anyone who is willing to work. However, a good level of German is a prerequisite for working in these countries. Many have tried their luck and emigrated from their home countries in search of work, but doing it without knowing German is not particularly easy.

Learning German may be just what you need to develop your career. Knowing German will also make it easier to create or maintain working relationships with German-speaking associates in your country. It will undoubtedly help to strengthen relationships and close business deals. It is also worth bearing in mind that German is the native language of one of the world's major exporting countries, and having a good command of this language allows you to perform better in business and instill greater confidence in working relationships.

Additionally, German is the second most important language for the sciences and Germany is the third most important country for its contribution to research and development. Germany awards a large number of research grants to foreign scientists and almost 20% of the world's books are written in German.

German is the native language of one of the world's major exporting countries, and having a good command of this language allows you to perform better in business"

Assessment and Certification

The main evaluation objective in TECH is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

> " *TECH'S A2 level oral communication skills preparation program is the only one that also awards you with a university certificate"*

Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
