Welcome

TECH encourages its students' path towards mastery of the Italian language, enabling them to understand a very beautiful language. Thanks to this program, prepared by native university professors, experts in teaching Italian, the student will learn all the areas of use of the language according to their own evolution: grammar, vocabulary, formal and colloquial expression, writing and reading at an essential level of comprehension. This allows to pass the Common European Framework of Reference for Languages (CEFR) Level A2 Italian test.

It is a fact that, in order to master a new language, a solid foundation is essential. With these individualized conversation classes, TECH offers the possibility of perfecting the basic level of Italian, with quality online classes that are adapted to the student and focused on their learning. The main objective of this training is therefore to help them acquire the necessary skills to express themselves in Italian, through a certification that they will achieve thanks to an intensive program.

Presentation video

Get up and move forward! By certifying your A2 level of spoken Italian with TECH you take another step on your way to Rome"

Introduction

Most academies and schools that teach languages such as Italian, offer traditional teaching based on repeating simple linguistic structures with no connection to properly structured content or concrete skills. However, it has been proven that the best way to stimulate language learning is by encouraging imagination and learning through sensory exploration. In this way the student is able to understand and interpret the environment and the context.

By not subjecting the learner to formalized and linear learning such as through rote learning, the brain works and learns a second language in the most natural way, just as one learns to speak one's mother tongue. For this reason, TECH offers Italian Conversation Classes at Level A2 with university professors and native speakers, who will provide personalized and 100% Online Italian Conversation Lessons in common and specific communicative situations. The student will have a thorough understanding of the structure of the Italian language, as the sessions are tailored to their needs, and will be able to hold conversations at a complete basic level, knowing that they can count on the guarantee of the quality of a prestigious university.

Don't hesitate, personalized conversation classes are the best way to master a language. Acquire the communicative skills you need to obtain the CEFRL Level A2 Italian quickly and easily, thanks to TECH.

Our intensive classes prepare you to be able to communicate in Italian at A2 level in a short time, progress with TECH!

02
Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. **Nowadays, you must have an official qualification** that accredits and recognizes your proficiency in a given language. In fact, many schools, universities and companies **only** accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR).**

Being able to communicate effectively in another language and in addition accredit it with an official CEFR qualification is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

TECH - Technological University

The Common European Framework of Reference for Languages is the **only officially recognized and accredited system for assessing a student's level of proficiency.** Although there are other certification systems, these come from private institutions and are, therefore, **not officially valid.** The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

Learn to speak Italian and make the most of it by obtaining an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. The TECH CEFR certificate is valid for life.

With this preparation program you will have all the necessary contents and competences to pass the A2 level"
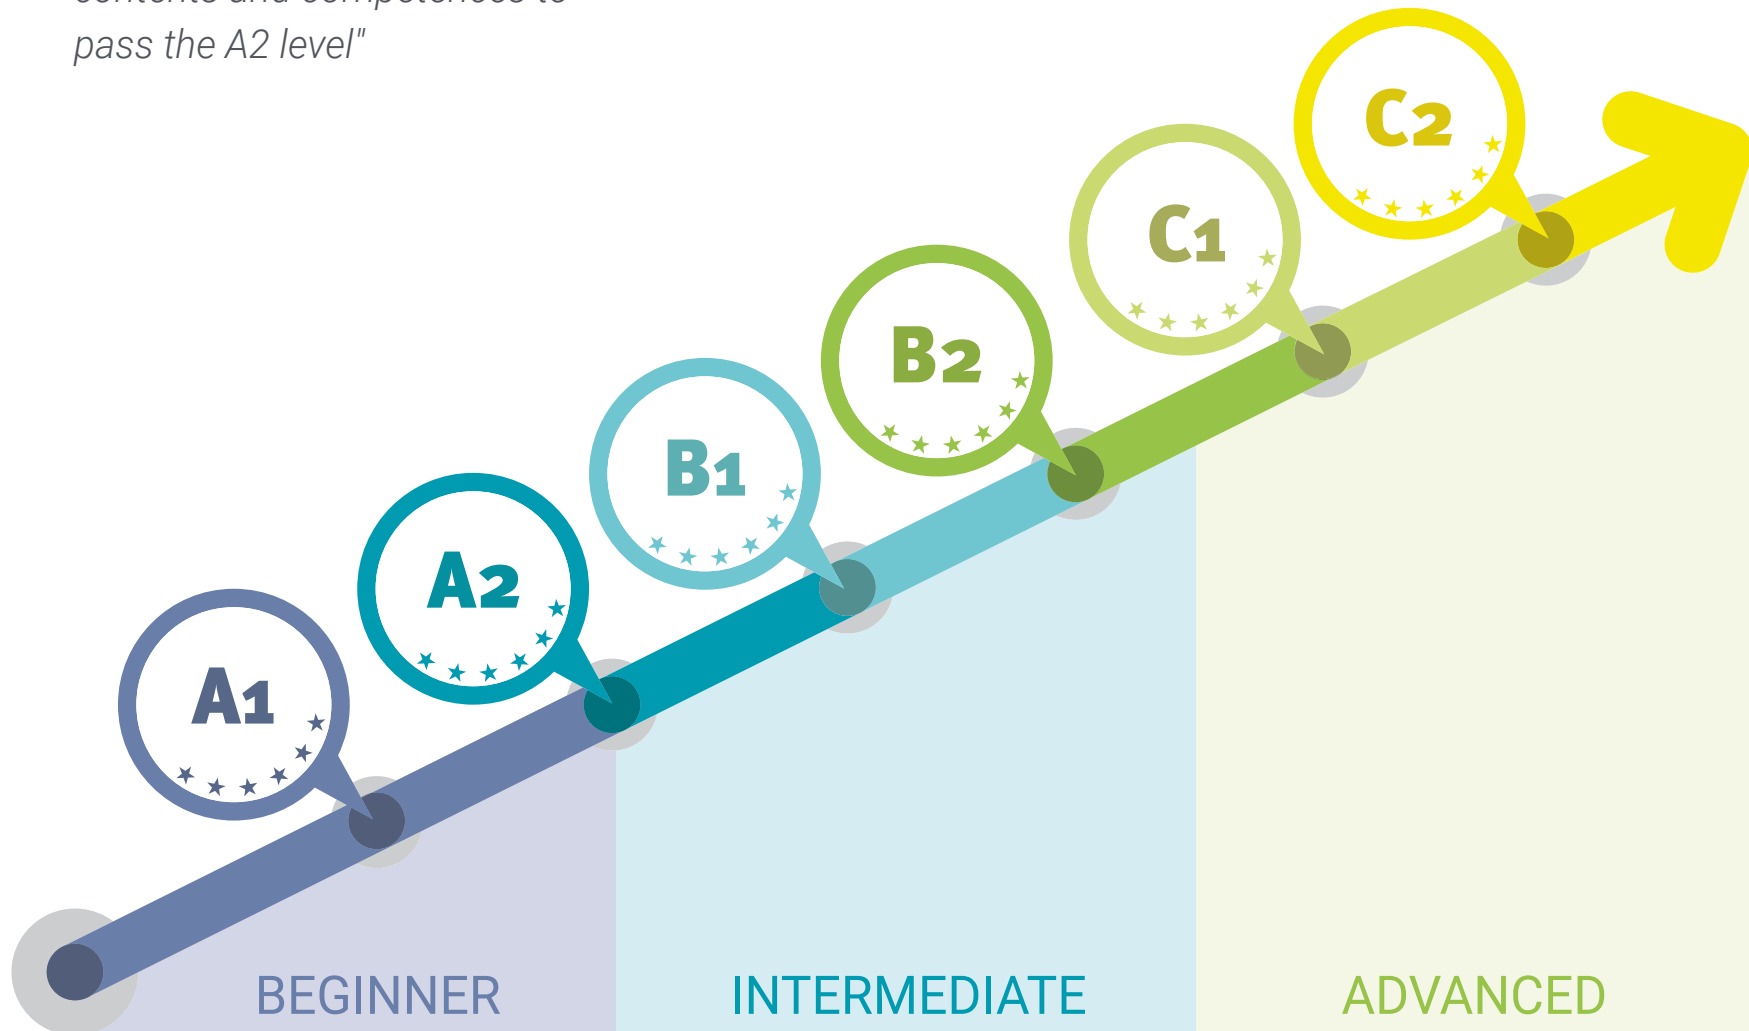

03
What Is Level A2?

Level A2 is part of basic User Level, which is divided into two sublevels: First and Second Basic User Level (A1y A2).

This level incudes most of the descriptors that expose social functions, such as: knowing how to use the usual forms of greeting and addressing others politely; greeting people, asking how they are and being able to react to news; getting along well in very brief social exchanges; knowing how to ask and answer questions about what they do at work and in their free time; knowing how to make an invitation and respond to it; discussing what to do, where to go and preparing for an appointment; being able to make an offer and accept it.

Here you will also find descriptors on how to function in social life: being able to carry out simple transactions in stores, post offices or banks; knowing how to get simple travel information; using public transport (buses, trains and cabs); asking for basic information, asking and explaining how to get to a place and buy tickets; ordering and providing everyday goods and services.

In TECH's A2 Italian Online Conversation Classes program we will thoroughly prepare you to obtain your official A2 Italian certificate"

What are the A2 Level Skills?

At this level, as defined by the Common European Framework of Reference for Languages, students progress in language skills to develop what are considered "Basic User" skills with the ability to:

01 Can understand sentences and frequently used expressions related to areas of experience that are particularly relevant to him/her (basic information about him/herself and his/her family, shopping, places of interest, occupations, etc.)

"Improve your skills in this language and certify your level quickly and easily, thanks to everything you will learn in this excellent program offered by TECH"

02 Can communicate in simple, everyday tasks that require only simple and direct exchanges of information on familiar or routine matters

03 Can describe in simple terms aspects of his/her background and environment, as well as issues related to his/her immediate needs

A2 level Self-Assessment Chart

What will I be able to do after completing the course?

Comprehension

Listening Comprehension

- Understand sentences and the most common vocabulary on topics of personal interest (very basic personal and family information, shopping, place of residence, employment)
- Capture the main idea of short, clear and simple messages and notices

Speaking

Oral Interaction

- Communicate simple and routine tasks that require a simple and direct exchange of information about daily activities and issues
- Realize very brief social exchanges, but usually unable to understand enough to carry on the conversation on their own

Oral Expression

- Use a series of expressions and phrases to describe in simple terms your family and other people, your living conditions, your educational background, and your current or most recent job

Check your level. Assess yourself. More than 100 different activities to improve your fluency, expression, comprehension and pronunciation.

TECH helps you to get your official qualification with intensive, 100% CEFR training"

Qualitative aspects of spoken language usage for Level A2
(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- Use structures composed of basic sentences with expressions, groups of a few words and memorized formulas, in order to communicate limited information in simple, everyday situations.

Correction

- Use some simple structures correctly, although basic systematic mistakes are still made.

Fluency

- Make oneself understood with very brief expressions, although pauses, initial doubts and rephrasing very evident.

Interaction

- Answer questions and respond to simple statements
- Indicate when they understand a conversation, but barely understand enough to carry on a conversation on their own accord

Coherence

- Link groups of words with simple connectors such as "and", "but" and "because".

Download and practice vocabulary: more than 50 pages of lexical cards and glossaries.

Skills-based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its tests official on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program we work according to skills, with more than 100 different activities in order to prepare you to obtain your official Italian A2 certificate.

Simulated Learning Scenarios

At TECH we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Testing & Retesting

We periodically evaluate and re-evaluate your knowledge throughout the Italian A2 preparation course.

- We will work with more than 100 activities for different oral skills.
- We will subject you to real conversation situations with native speakers.
- We will work on mock exams so that you are 100% prepared.

Specific Virtual Classes for CEFR A2

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

• Discussion forums for the development of written expression and interaction skills
• Telephone assistance to resolve technical questions or incidents
• Technical services contact e-mail

Our Methodology

The A2 Italian Online Conversation Classes program is an intensive and personalized course that enables the student to obtain the A2 Level certificate in Italian based 100% on the Common European Framework of Reference for Languages (CEFR). For this purpose, TECH employs a method of oral proficiency practice in which the student works intensively and repeatedly on all content required by the Framework, providing them with preparation to pass the test according to the standards of quality and rigor that define TECH, the largest online university in the world.

Certify your CEFR Level A2 and you will have successfully completed the basic level of Italian. Shall we move on to the next one together?"

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's A2 Italian Proficiency Preparation Program offers you a method based on interaction and synchronous and direct communication between teacher and student to prepare for the official oral level certification test in a comprehensive way. Our objective is to strengthen your skills in a changing, real and multicultural context, and guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments, and will face real mock exams to prepare intensively for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.
This methodology, at the forefront of world teaching, is called *Re-learning.* Our language school is the first licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called "*Neurocognitive context-dependent learning*", the different elements of our Italian A2 preparation course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

Course Objectives

The Intensive Language Conversation Class Program for Level A2 in Italian is entirely designed for the student to acquire the necessary oral skills to face the exam that certifies their level, which they will successfully pass thanks to these 100% personalized classes. Through practice, training, repetition, follow-up with a university professor and your own effort, you will be able to communicate in Italian at a basic level. Thus, after these 40 individual sessions you will be able to certify your Level A2, which will allow you to complete the first level and advance to the intermediate level, on your way to mastering the Italian language, taking a step further in your language skills thanks to TECH.

By taking these Italian conversation classes you will reach, in only 40 sessions of one hour each, the certification of A2 level you needed"

General Objectives

01 Use the language learned as a means of communication and personal expression, both in class and in everyday situations, whether face-to-face or virtual.

02 Understand, interact and express themselves in a simple orally but appropriate and effective way in these situations

03 Approach the most relevant social aspects of everyday life situations and use the most usual forms of social relations and treatment

04 Use the linguistic resources necessary to get by in these situations

05 Strengthen the learner's initial motivation, looking for opportunities to use the new language, including those offered by the new information and communication technologies

06 Acquire tools that enable the student to assess and improve their own learning and use of the language

Specific Objectives

Oral Comprehension

* Understand enough to be able to deal with specific needs as long as the speech is articulated clearly and at a slow pace

* Understand sentences and expressions related to areas of immediate priority (e.g., very basic personal and family information, shopping, place of residence, employment) provided speech is articulated clearly and slowly

* Generally identifies the topic being discussed, provided it is conducted slowly and clearly.

* Capture the main idea of short, clear and simple messages and statements

* Understand simple instructions on how to get from one place to another, both on foot and by public transportation.

* Understand and extract essential information from short recorded passages dealing with everyday, predictable matters and spoken slowly and clearly.

Make themselves understood in a clear and simple way, but their vocabulary will be enriched thanks to the situations proposed by the native teachers of this preparation.

Oral Expression

* Give a simple description or presentation of people, living or working conditions, daily activities, likes and dislikes in a short list of simple phrases and sentences.

* Tell stories or describe something through a simple relationship of elements. Describe everyday aspects of their environment; for example, people, places, a work or study experience. Give brief and basic descriptions of events and activities. Describe plans and appointments, customs, usual or past activities and personal experiences.

* Use simple, descriptive language to make brief statements about objects and possessions and to make comparisons. Explain what they like and dislike about something.

* Deliver rehearsed, very brief statements of predictable, learned content that are intelligible to listeners who are willing to concentrate

* Deliver brief, rehearsed presentations on topics that are of importance in everyday life and briefly offer reasons and explanations for expressing certain opinions, plans, and actions

* Answer a limited number of questions with immediate and simple answers

Specific Objectives

Sociocultural and Sociolinguistic Competence

- Learn the sociocultural aspects and social conventions that have the greatest impact on daily life, as well as those related to one's own field, in order to translate them into behavior and communication

- Recognize and use the most common forms of greeting, courtesy, and treatment. Use, in general, a standard language register of basic but careful formality and informality. Recognize some very frequent colloquial expressions, as well as elementary cultural references related to everyday life

- Understand gestures, behaviors and values that are different from one's own that underlie the most obvious, everyday socio-cultural aspects

Linguistic Competence

- Achieve a sufficient repertoire of linguistic exponents for the functions of the level and use correctly the "formulas" and structures learned

- In language construction, achieving limited control, with the possible systematic errors of the level

- Pronounce clearly and understandably, even if a foreign accent is evident

- Write with correct spelling the common language worked on

" *You will see how your pronunciation improves and your gestures correspond to your oral expression thanks to TECH's learning method"*

Course Structure and Content

Given the individual nature of this university program, the lessons students receive are completely personalized to their own interests. This allows for much more focused learning on personal objectives, while also meeting the basic requirements of Level A2. The lessons, prepared by native teachers, will cover everyday situations such as a visit to a doctor's appointment or a shopping trip to a mall.

Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 60-minute live sessions taught by native-speaking teachers.

Each session is structured as follows:

- Practice of oral interaction skills
- Practice of oral expression skills
- Simulation of real situations
- Tips and tricks to prepare for the test
- Summary and closing
- Download printable sheets

You will speak with basic fluency thanks to this intensive individual program, in which you will receive personalized attention to your objectives"

A2 Level Learning Objectives

In each program, native teachers prepare a series of items that the student must overcome in order to satisfactorily achieve the course goals. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible, thanks to effective and efficient teaching.

- Begin to be more fluent in speech, with more correctness and better oral comprehension.
- Familiarize yourself with the grammatical rules of the Beginner and Elementary levels.
- Gain a better understanding of the different forms of the verbs in order to construct specific sentences.
- Describe the appearance and character of people, their surroundings and the hobbies that they have.
- Communicate in common situations such as a medical consultation or a trip to a shopping mall.
- Learn the typical vocabulary and oral expressions in local cuisine or during your travels.

" *You will have a direct interaction with the teaching staff, having a flexible schedule according to your interests"*

"I needed to complete my A2 level of Italian in a short time and I only achieved it thanks to these TECH classes. They are intensive, individualized and very well prepared, and the design of the program seems to me to be a total success, not to mention the native teachers! The Professional Benefits of Italian

Italian is a beautiful and romantic language, the language of ancient medieval thinkers, historical writers, and possesses a unique musicality and conceptual richness in a wide variety of fields. It is the language of Dante, Petrarch and Boccaccio, three great Italian writers, but it is also the language of art, history, science, gastronomy and fashion.

As the birthplace of Latinity, Italy played a decisive role in the diffusion of Latin and the culture of the Roman Empire in the rest of Europe, both in Ancient times and in the ages that followed. Similarly, after the affirmation of the Neo-Latin languages and the constitution of modern linguistic Europe, Italian has had, at times, moments of great importance in the international linguistic context.

Approximately 70 million people worldwide speak Italian (60 million in Italy and around 10 million in the rest of the world). It is the official language in Italy, Switzerland, San Marino and Vatican City. It is spoken, at least in part, in eleven countries, to which must be added some twenty countries with a large Italian community, such as Argentina, Germany, Australia and the USA.

Italian is one of the official languages of the European Union, therefore speaking Italian will open the doors to many international organizations and also the possibility of working in many of the large Italian companies with international presence. The Italian economy is principally based in three sectors, tourism, the automotive industry and fashion.
For all these reasons, Italian is found amongst the ten most useful languages in the world and its considered necessary to succeed in the 21st Century."

Assessment and Certification

The main evaluation objective at TECH is for students to consolidate what they have learned and to be aware of their progress. For this reason, after completing each block, students are shown a report of their results, which visually indicates the skills that they should strengthen.

"

TECH's A2 level oral communication skills preparation program is the only one that also awards you with a university certificate"
Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
