Presentation video

“

You're one step away from developing yourself personally and professionally with a B2 Spanish level with this intensive preparation at TECH”

Introduction

TECH offers an achievable challenge, using the best methodology: personalized classes. As you know, most Spanish language schools and academies offer traditional teaching, based on the repetition of simple linguistic structures with no connection to properly structured content or specific skills. However, teachers and psychologists believe that the best way to stimulate language learning is not to subject the learner to formalized, linear learning - for example, with rote learning - but rather, to encourage imagination and learning through sensory exploration in order to be able to understand and interpret what is around us.

This allows the brain to work and learn a second language in the most natural way possible, in the same way that we learned our mother tongue. For this reason, TECH offers you fully personalised Spanish Conversation Classes at B2 level, with university and native teachers who will provide you with specific and common communicative situations, individually and 100% online. In this way you will understand the structure of the Spanish language at an advanced level and will be able to hold complex conversations, knowing that you have the quality guarantee of a prestigious university.

Learning Spanish has never been so easy. Over 40 sessions our native professors will prepare you to be able to maintain conversations in a different language to your mother tongue in an effective and intensive way.

Acquire the communicative skills you need to obtain the CEFR Level B2 Spanish quickly and easily, thanks to TECH.

You will actively participate in formal and informal conversations, including in places where there is some background noise”

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society.

Nowadays, students must have an official qualification that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies **only** accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR)**.

“

The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

TECH Global University

The Common European Framework of Reference for Languages is the **only officially recognized and accredited system for assessing a student's level of proficiency**. Although there are other certification systems, these come from private institutions and , are, therefore, **not officially valid**. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

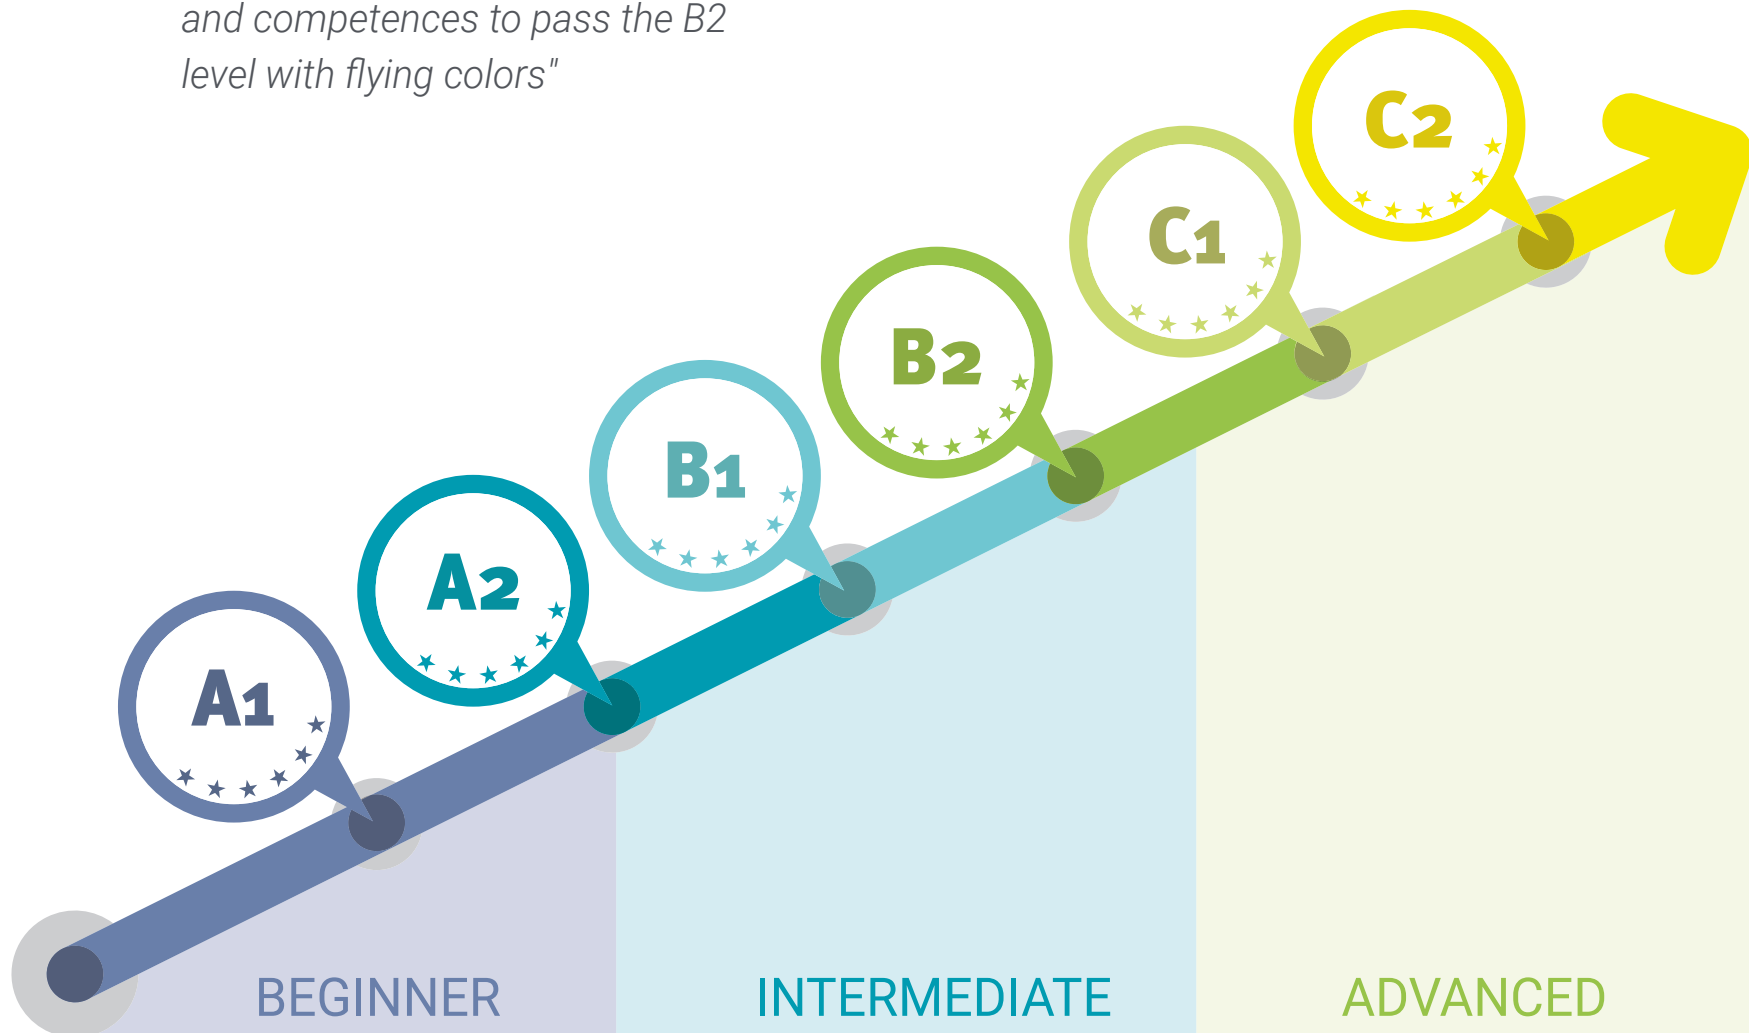

Learn to speak Spanish and make the most of it by obtaining an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. The CEFR certificate from TECH provides you with a certificate for life.

“

With this preparation program you will have all the necessary contents and competences to pass the B2 level with flying colors”

03

What Is Level B2?

Level B2 is part of the Independent User Level, which is divided into two sub-levels: First and Second Independent User Level (B1 and B2).

The B2 Level has two main features: the first is the ability to maintain interaction and make oneself understood in a variety of situations, for example: learners generally understand the main ideas of extended discussions around them, provided the speech is clearly articulated at a standard language level; offer and ask for opinions in an informal discussion with friends; clearly express the main idea they want to get across; flexibly use broad, simple language to express much of what they want; are able to carry on a conversation or discussion, but can sometimes be difficult to understand when trying to say exactly what they mean; express themselves understandably, although they pause for some grammatical and lexical planning, and some mistake-correcting is evident, especially in long periods language flow.

B₂

The second feature is the ability to know how to deal flexibly with everyday problems, such as, for example: coping with less common situations in public transport, the typical situations that often arise when making travel reservations through an agency or when traveling; participates in conversations on usual matters without having anticipated it; being able to raise complaints; taking the initiative in an interview or consultation (e.g., knows how to initiate a new topic), although still being noticeably dependent on the interviewer during the interaction; knowing how to ask someone to clarify or develop what he or she has just said.

“

In TECH's B2 Spanish Individual Online Conversation Classes Program, we prepare you thoroughly to obtain your official B2 Spanish certificate"

What are the B2 Level Skills?

01

It is the ability to understand the main ideas in complex texts which deal with both concrete and abstract topics, even if they are of a technical nature, as long as they are within their field of expertise

02

You can interact with native speakers with a sufficient degree of fluency and naturalness, so that communication is effortless for the interlocutors

“

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH"

03

You can produce clear and detailed texts on a range of diverse topics, as well as defend your point of view on general topics, indicating the pros and cons or different options

Furthermore, gain knowledge of how to adjust your behavior, reactions, attitude, message and wording to any changes in situation, style and emphasis
- ♦ Identify the most important aspects of a variety of common formal and informal oral and written registers, and appropriately use the expressions, pronunciation and intonation of the most common registers that you are most in contact with

The Professional Benefits of Spanish

Spanish is the second most widely spoken language in the world, behind Mandarin Chinese and ahead of English and Hindi/Urdu. Recent forecasts show that English, Spanish and Chinese are inevitably the three languages of international communication for the 21st century.

It is spoken in Spain, in the Caribbean Islands (Cuba and Puerto Rico), in the Dominican Republic, in North America (Mexico), in Central America (Guatemala, Belize, El Salvador, Honduras, Nicaragua, Costa Rica and Panama) and in South America (Colombia, Venezuela, Uruguay, Paraguay, Argentina, Chile, Bolivia, Peru and Ecuador). Spanish is also the second most widely spoken language in the United States.

The Spanish-speaking population represents one of the fastest growing segments in the world, especially in the United States. The Spanish-speaking segment constitutes a huge community that shares products, services and culture; and offers businesses and institutions a truly unique opportunity for growth.

Furthermore, studying Spanish will open many doors at a professional level. Many countries have Spanish as an official language, so there are many jobs in which this can be a fundamental factor.

The Spanish powerhouse is in its infancy as to what will happen in the future. Spanish will make Simón Bolívar's impossible dream of uniting all America a reality"
