01 Welcome

This level, the fifth of the six levels of the Common European Framework of Reference for Languages, leads the student to acquire the necessary skills to work and study in Chinese with all the guarantees. Thus, this university program of individual conversation classes has the best online resources and the support of native teachers who are experts in online teaching.

In the personalized online conversation classes of this intensive training program, common communicative situations will be discussed, fully personalized and online. In this way the student will be able to hold conversations at an advanced level, acquiring the necessary communicative skills to pass the Common European Framework of Reference for Languages (CEFR) Chinese Level C1 test.

Presentation video

“

You will be able to understand complex conversations of native speakers and communicate fluently in different important areas of expertise”

Introduction

Teachers and psychologists, language experts, believe that the best way to stimulate language learning is not to subject the learner to formalized and linear learning (e.g., rote learning), but to encourage imagination and learning through sensory exploration in order to be able to understand and interpret what is around us.

This allows the brain to work and learn a second language in the most natural way possible, in the same way that we learned our mother tongue.

With this high-level personalized program you will learn to communicate fluently in situations that require a superior knowledge of the language. It has an effective learning programme and native teachers who are experts in online teaching.

Chinese is one of the most widely spoken languages in the world and one of the most promising for the future. Learn it now and open new job possibilities.

Stand out professionally with this comprehensive program and take the level leap you need.

You will have more than 300 pronunciation and phonetics activities in a personalized program that stands out for the quality of the individual classes, taught by university professors"

A unique and stimulating experience

Take the best Chinese conversation program, at your own pace based on your personal availability and schedule.

Acquire Skills and Abilities

With our method you will practice and consolidate the oral communication skills required at this level.

Networking

Join a large community and exchange knowledge and experiences with students from all over the world.

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society.

Nowadays, you must have an official qualification that accredits and recognizes your proficiency in a given language. In fact, many schools, universities and companies **only** accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR)**.

“

The ability to communicate effectively in another language, and accredit it with an CEFR qualification, is an essential requirement for academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

TECH Global University

The Common European Framework of Reference for Languages is the **only officially recognized and accredited system for assessing a student's level of proficiency**. Although there are other certification systems, these come from private institutions and , are, therefore, **not officially valid**. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

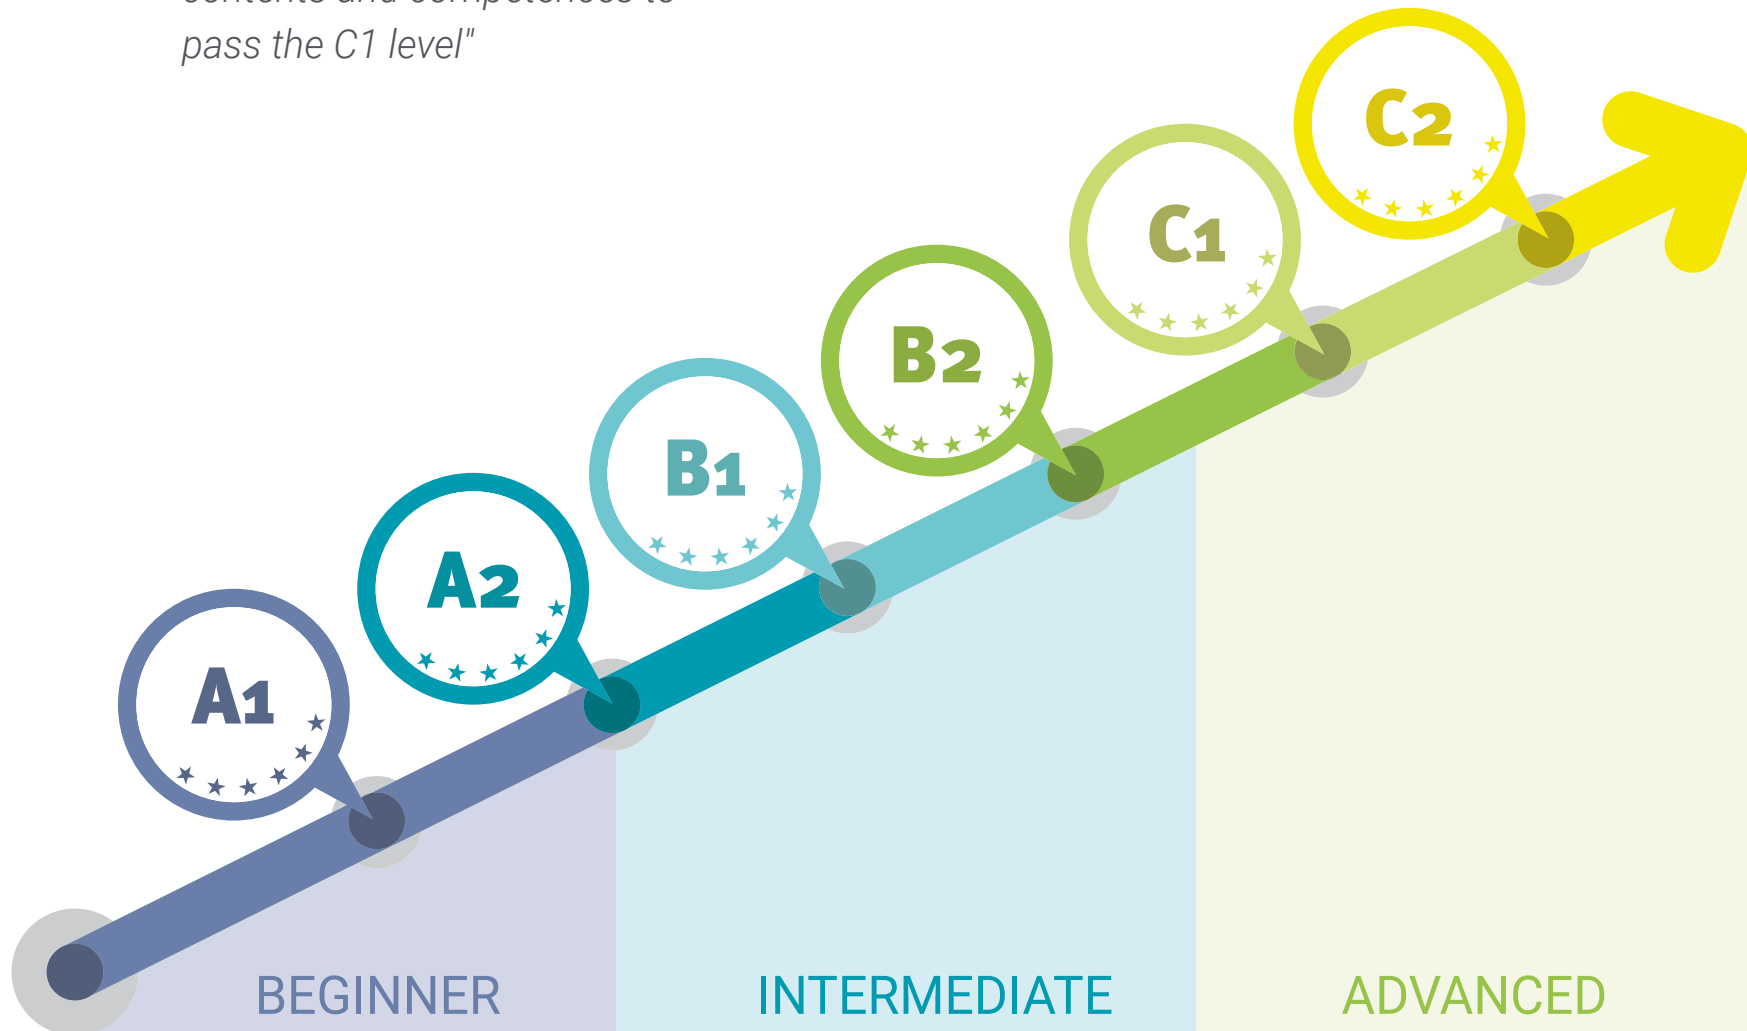

Finally learn to speak fluent Chinese and make the most of it by accrediting it with an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. The TECH CEFR certificate is valid for life.

“

With this preparation program you will have all the necessary contents and competences to pass the C1 level”

03

What Is Level C1?

Level C1 is part of the Independent User Level, which is divided into two sub-levels: First and Second Independent User Level (C1 and C2).

C1 level has two main features: The first is the ability to maintain an interaction and make oneself understood in a variety of situations; for example: generally understanding the main ideas of extended discussions around them as long as the speech is clearly articulated at standard language level; offers and asks for personal opinions in an informal discussion with friends; expresses in an understandable way the main idea they want to get across; flexibly uses broad, simple language to express much of what they want; is able to carry on a conversation or discussion, but can sometimes be difficult to understand when trying to say exactly what they want; expresses themselves understandably, although pauses for some grammatical and lexical planning and some correctness are evident, especially in long periods of free production.

A person with long dark hair, wearing a colorful plaid shirt, is holding a white circular sign with the text 'C1' in large red letters. The background features a decorative graphic of many thin, light blue lines that curve across the top of the page.

C₁

“

In TECH's Individual Online Conversation Classes for C1 Chinese preparation program, we prepare you thoroughly to obtain your C1 Chinese certificate"

What are the C1 Level Skills?

01

Can understand the main points of clear, standard-language texts on familiar matters, whether in work, study or leisure situations

02

Knows how to deal with most of the situations that may arise during a trip in areas where the language is used

“

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH”

03

Produce simple and coherent texts on topics that are familiar to him/her or in which he/she has a personal interest

04

Can describe experiences, events, desires and aspirations, as well as briefly justify their opinions or explain their plans

C1 level Self-Assessment Chart

What will I be able to do after completing the course?

Comprehension

Listening Comprehension

- ♦ Understand long speeches, even when they are not clearly structured and when relationships are only implied and not explicitly stated
- ♦ Understand TV shows and movies without much effort

Speaking

Oral Interaction

- ♦ Express oneself with fluency and spontaneity without having to search for the right expressions in a very obvious way
- ♦ Use language flexibly and effectively for social and professional purposes
- ♦ Formulate ideas and opinions with precision and skilfully connect interventions to those of other speakers

Oral Expression

- ♦ Present clear and detailed descriptions on complex topics that include other subjects, developing concrete ideas and ending with an appropriate conclusion

Qualitative aspects of spoken language usage for Level C1

(According to the Common European Framework of Reference for Languages)

What is expected to be achieved with this level?

Scope

- ♦ Have a good command of a wide range of linguistic aspects that allow you to choose a formulation to express yourself clearly and in an appropriate style on a variety of general, academic, professional or leisure topics without having to restrict what you want to say

Correction

- ♦ Consistently maintain a high degree of grammatical correction
- ♦ Errors are scarce, difficult to locate and in general are corrected whenever they occur

Fluency

- ♦ Express yourself fluently and spontaneously with little effort. Only a conceptually difficult subject can hinder the natural flow of expression

Interaction

- ♦ Choose appropriate phrases from an available range of discourse functions to introduce comments, in order to start speaking or continuing to speak
- ♦ Skilfully connect your own interventions to those of the other speakers

Coherence

- ♦ Produce clear, fluent and well-structured speech, demonstrating controlled use of organizational structures, connectors and cohesive mechanisms

Download and practice vocabulary: more than 50 pages of lexical cards and glossaries.

- We will work through over 100 activities to obtain different oral skills
- We will subject you to real conversation situations with native speakers
- We will work through mock exams so that you are 100% prepared

Skills-based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program, we work according to skills, with more than 100 different activities in order to prepare students to obtain their Chinese C1 certificate.

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Specific Virtual Classes for CEFR C1

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

Take the sessions with you on your cell phone and view them wherever you want

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

An interactive chat to share queries, expressions, complex words, etc. in writing.

In addition:

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question.

These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Discussion forums for the development of written expression and interaction skills
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

Our Methodology

This intensive course of Online Conversation Classes for the Preparation of the Chinese C1 Level Certificate is 100% based on the Common European Framework of Reference for Languages (CEFR). To do this, we use a method of practising oral competence in which the student works intensively and repeatedly on all the content required by the Framework, preparing thoroughly, with the help of native teachers, to pass the test.

“

In no other course will you work at your own pace, with native teachers, in individual classes focused on specific practice of the CEFR competences”

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's Chinese Level C1 oral proficiency preparation program offers you a method based on interaction and synchronous and direct communication between teacher and student to comprehensively prepare for the oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, objectives,) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

We prevent your motivation from waning and offer you the best learning environment.

TECH Global University's intensive oral proficiency preparation program is based on synchronous communication, in real time, as this type of interaction has been proven to reinforce personal participation, strengthen work interaction, socio-emotional relationships and personal interactions, all of which helps to increase motivation. (Hrastinski, 2008).

...with a professional, personalized and expert-led syllabus...

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, answer your questions or study recommendations.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called “*Neurocognitive Context-Dependent Learning*”, the different elements of our intensive Chinese C1 Language Course are connected with the context in which the participant will take their certification exam in order to guarantee success on the day of the test.

... and all this with teachers at the forefront of technology and education...

Study wherever and however you want: more than 400 downloadable and printable grammar and lexical worksheets and glossaries.

07

Course Objectives

This programme is entirely designed by university teachers so that you acquire the necessary oral skills to take the exam that accredits your level and pass it through practice, training, repetition, personalised monitoring, but, above all, thanks to your effort and the teaching excellence of the TECH method.

“

Improve your oral skills and competencies with hundreds of practical and customized exercises to pass the CEFR Chinese C1 level”

General Objectives

- 01 Carry out transactions of all kinds, even if they are delicate and complex
- 02 Participate and take the initiative in social interactions within the community or the social, academic or professional communities they belong to
- 03 Deal with oral or written texts of any kind, regardless of the situation and the subject matter

Specific Objectives

- ♦ Understand enough to follow a long speech on abstract and complex topics beyond their expertise, although they may have to confirm some details, especially if they are not accustomed to the accent
 - ♦ Recognize a wide range of idiomatic and colloquial expressions, and notice changes in register
 - ♦ Follow an extended speech even when it is not clearly structured, and when links are only assumed and not explicitly pointed out
 - ♦ Easily follow complex conversations between third parties in group discussions, even on abstract, complex, and unfamiliar topics
 - ♦ Understand with relative ease most lectures, discussions and debates
 - ♦ Extract specific information from public statements that have poor quality and distorted sound; e.g., at a station, in a stadium, etc.
 - ♦ Understand complex technical information, such as operating instructions, product specifications, and everyday services
 - ♦ Understand a wide range of recorded and broadcast material, including some unusual usage, and identify details and subtleties such as implied attitudes and relationships between speakers
- ♦ Deliver clear and detailed descriptions and presentations on complex topics, integrating other topics, developing concrete ideas and ending with an appropriate conclusion
 - ♦ Perform clear and detailed descriptions of complex topics
 - ♦ Make statements fluently, almost effortlessly, accurately using some intonation to convey subtle shades of meaning
 - ♦ Deliver clear and well-structured presentations on a complex topic, expanding at some length and defending your points of view with complementary ideas, reasons and appropriate examples. Make good use of interjections, responding spontaneously and with little effort

08

Course Structure and Content

To reach Level C1 in a language, it is no longer enough to express oneself correctly, but one must acquire advanced fluency. The fastest and most effective way to achieve this is to practice it, the more times the better, so this university program has been built under that pretext. Students will have a personalized teaching team at their disposal, who will attend to their particular needs and help them reach the level of fluency required for the C1 level.

Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 60-minute live sessions taught by native-speaking teachers.

Each session is structured as follows:

- ◆ Practice of oral interaction skills
- ◆ Practice of oral expression skills
- ◆ Simulation of real situations
- ◆ Tips and tricks to prepare for the test
- ◆ Summary and closing
- ◆ Download printable sheets

“ You will focus on the specific areas where you want, and need, to improve, adequately preparing you for the C1 exam”

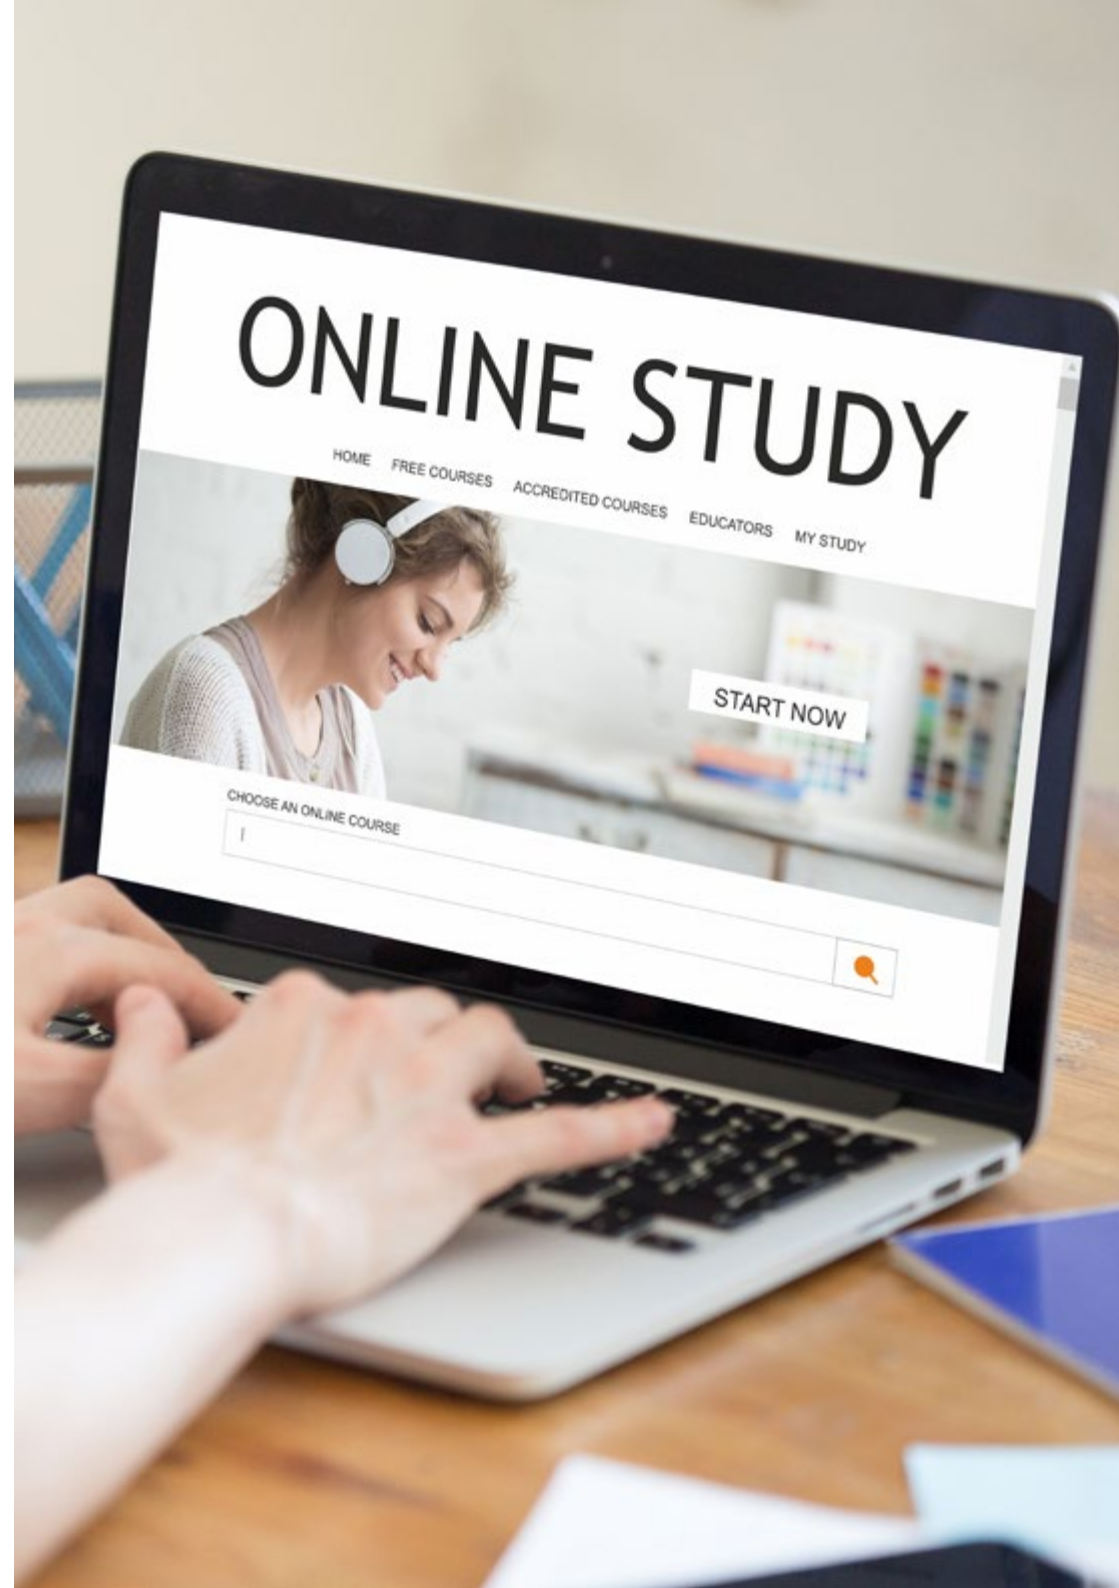

C1 Level Learning Objectives

In each program, native teachers prepare a series of items that students must overcome in order to satisfactorily reach the course goals. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible, thanks to effective and efficient teaching.

- Access to a high level of comprehension and oral expression
- Become familiar with the grammar and vocabulary of more specific environments commonly used by native speakers
- Argue and counter-argue in different situations, focusing on the keys to speak fluently in public
- Address topics such as the achievements of scientific medicine, talk shows or podcasts in the language and peculiarities of the digital era

“

You will reach a higher level of fluency, with a team of native teachers who will give you the keys to proper pronunciation and correction required to pass Level C1”

"I have always found it difficult to express myself fluently in Chinese. However, with TECH conversation classes I have gained confidence and fluency when communicating with someone. I have also improved my comprehension skills and thanks to this I can speak with native speakers without any problems. I still have some things to improve, so I will definitely continue my Chinese C2 training with this online university"

Diana Fernández

A student from Spain

"Having native teachers is one of the highlights of this intensive program. In just a few months, and thanks to the support of the teaching staff, I have managed to certify my C1 level of Chinese. An absolute success to have chosen TECH"

Rodrigo González

A student from Chile

The Professional Benefits of Chinese

The Chinese language, the highest expression of Chinese culture, based on symbols, is more than 5,000 years old and gives rise to more than 55 languages and 2,000 dialects as a result of its geographical, phonetic and dialectical variants. Mandarin Chinese is the official language of the People's Republic of China and is also spoken in countries such as Cambodia, Burma, Indonesia, Malaysia, the Philippines, Singapore, Thailand and Taiwan.

Mandarin Chinese is an original Beijing dialect which, according to official statistics, is the most widely spoken language in the world with more than 1.3 billion speakers. It is one of the six official languages of the United Nations (UN) along with Arabic, English, French, Russian, Spanish and French.

Nowadays, it seems essential in the multicultural and global society in which we live to broaden our knowledge and teaching of the Chinese language, to know its language, habits and customs, which will lead us to improve our international and commercial relations, to close economic agreements and to establish direct contact with Chinese citizens.

China is in fashion. Its spectacular growth is increasingly attracting Spanish entrepreneurs who are looking for an opportunity in the Asian colossus. But doing business in China can be a nightmare if you are not prepared. The cultural differences are so vast that they extend to all aspects of the business world: negotiation, contracts, legislation or a simple working dinner. For this reason *guanxi* or social relations should also be studied.

“

Understanding the cultural context of communication is fundamental to successfully decoding a message"

11

Assessment and Certification

The main evaluation objective in TECH is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

“

TECH'S C1 level oral communication skills preparation program is the only one that also awards you with a university certificate”

Certification

Upon completion of the course, the student will receive a certificate of recognition that will guarantee their preparation to obtain, if the student wishes, the certification of that level.
