Welcome

With TECH's one-to-one conversation classes, students will acquire fluency in Italian and will be able to communicate orally in all types of communicative contexts. To achieve this goal, this fully personalized program will provide students with intensive preparation, based on a proven online methodology and with native teachers who are experts in language teaching. This way, students will not only improve their Italian to a C1 level, but they will also be able to obtain a certificate by passing the C1 Italian oral test from the Common European Framework of Reference for Languages (CEFR).

Presentation video

TECH proposes something completely different, distancing itself from traditional education found in language academies and schools, which provide teaching based on the repetition of simple linguistic structures with no connection to adequately structured content or specific competencies. It has been proven that the best way to stimulate language learning is not to subject the learner to formalized, linear learning (for example, based on memory) but rather, to encourage imagination and learning through sensory exploration. This way, students are able to understand and interpret the environment and the context in an accurate way. This is the only way in which the brain can work and learn a second language in the most natural way, in the same way that one learns to speak one's mother tongue.

Step by step: certify your C1 Level Italian with TECH and boost your language skills towards your dream goal"

Introduction

Therefore, these fully personalized C1 Italian Conversation Classes with native university professors will address common and specific communicative situations, in a personalized and 100% online way. In this way, the student will master the structure of the Italian language with a high level of proficiency and will be able to hold conversations at an advanced level.

Acquire the communication skills you need to obtain the CEFR Italian Level C1 quickly and efficiently through telepresence classes focused on you.

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. **Nowadays, students must have an official qualification** that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the **Common European Framework of Reference for Languages (CEFR).**

The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive training based 100% on the CEFR"

TECH Global University

The Common European Framework of Reference for Languages is the only officially recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.
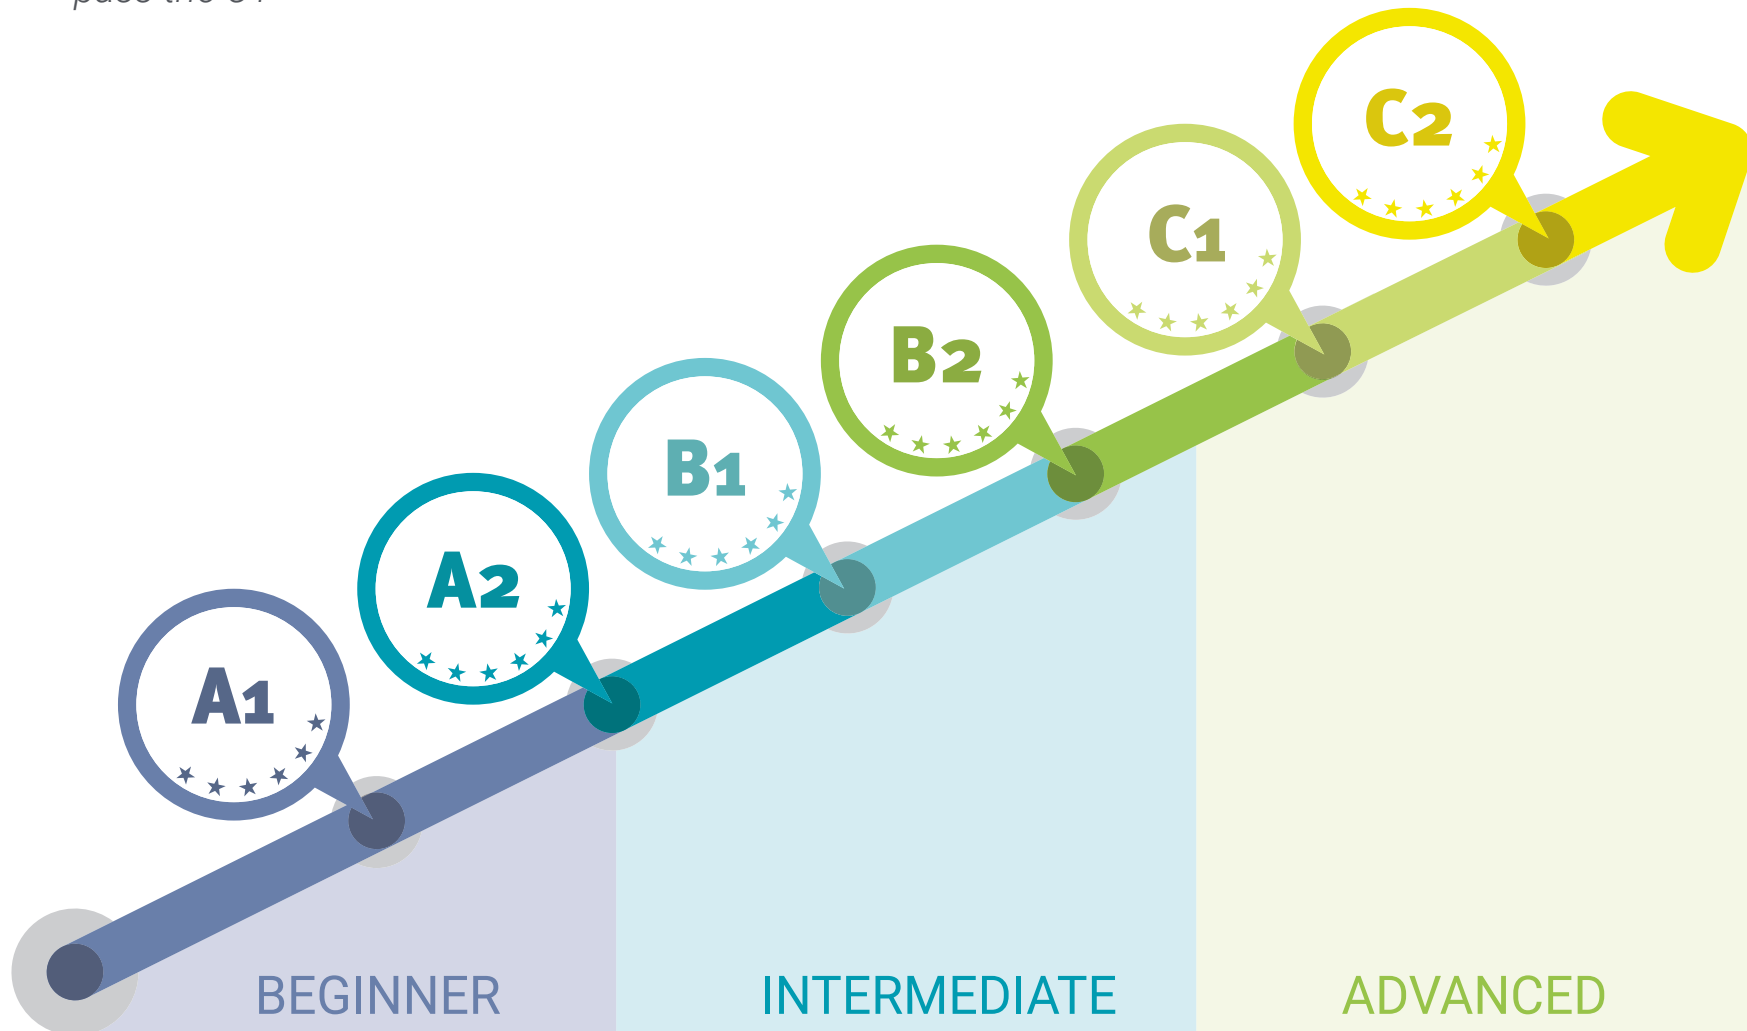

Finally learn to speak fluent Italian and make the most of it by accrediting it with an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate is valid for life.

With this program you will have all the content and skills you need to pass the C1"

What Is Level C1?

Level C1 is part of the Independent User Level, which is divided into two sub-levels: First and Second Independent User Level (C1 and C2).

C1 level has two main features: The first is the ability to maintain an interaction and make oneself understood in a variety of situations; for example: generally understanding the main ideas of extended discussions around him/her as long as the speech is clearly articulated at standard language level; offers and asks for personal opinions in an informal discussion with friends; expresses in an understandable way the main idea he/she wants to get across; flexibly uses broad, simple language to express much of what he/she wants; is able to carry on a conversation or discussion, but can sometimes be difficult to understand when trying to say exactly what he/she wants; expresses him/herself understandably, although pauses for some grammatical and lexical planning and some correctness are evident, especially in long periods of free production.

In TECH's C1 Italian Online Conversation Classes program we will thoroughly prepare you to obtain your official C1 Italian certificate"

What Is Level C1?

01 Can understand the main points of clear, standard-language texts on familiar matters, whether in work, study or leisure situations

02 Knows how to deal with most of the situations that may arise during a trip in areas where the language is used

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH"

03 Is able to produce simple and coherent texts on topics that they are familiar with or in which they have a personal interest

04 Can describe experiences, events, desires and aspirations, as well as briefly justify their opinions or explain their plans

The Professional Benefits of Italian

Italian is a beautiful and romantic language, the language of ancient medieval thinkers, historical writers, and possesses a unique musicality and conceptual richness in a wide variety of fields. It is the language of Dante, Petrarch and Boccaccio, three great Italian writers, but it is also the language of art, history, science, gastronomy and fashion.

As the birthplace of Latinity, Italy played a decisive role in the diffusion of Latin and the culture of the Roman Empire in the rest of Europe, both in Ancient times and in the ages that followed. Similarly, after the affirmation of the Neo-Latin languages and the constitution of modern linguistic Europe, Italian has had, at times, moments of great importance in the international linguistic context.

Approximately 70 million people worldwide speak Italian (60 million in Italy and around 10 million in the rest of the world). It is the official language in Italy, Switzerland, San Marino and Vatican City. It is spoken, at least in part, in eleven countries, to which must be added some twenty countries with a large Italian community, such as Argentina, Germany, Australia and the USA.

Italian is one of the official languages of the European Union, therefore, speaking Italian will open the doors to many international organizations and also the possibility of working in many of the large Italian companies with international presence. The Italian economy is principally based in three sectors, tourism, the automotive industry and fashion.

"For all these reasons, Italian is found amongst the ten most useful languages in the world and its considered necessary to succeed in the 21st Century"

Assessment and Certification

The main evaluation objective in TECH is that the student consolidates what they have learned and is aware of their progress. For this reason, after completing each block, the student is shown a report of the results, which visually indicates the skills that they should strengthen.

"

TECH'S C1 level oral communication skills preparation program is the only one that also awards you with a university certificate"

Certification

At the end of the course the student will receive a certificate of recognition that confirms that they are prepared to obtain official certification for this level.
