01 Welcome

This academically rigorous program will allow students to continue improving their expressive and comprehension fluency in Chinese. Through individual and totally personalized classes, we will offer you the possibility to put into practice all the knowledge you have learned in the C2 level of Chinese.

In these high-level online conversation classes, common communicative situations at the highest idiomatic level of Chinese will be presented, fully personalized and 100% online. As such, the student will be able to hold conversations at an advanced level, acquiring the necessary communicative skills to pass the oral test of Chinese Level C2 of the Common European Framework of Reference for Languages (CEFR).

Presentation video

“

Chinese is one of the most widely spoken languages in the world and one of the most promising for the future. Learn it now and open the doors to new job possibilities"

Introduction

Teachers, psychologists and language experts believe that the best way to stimulate language learning is not to subject the learner to formalized, linear learning - for example, with rote learning - but rather, to encourage imagination and learning through sensory exploration in order to be able to understand and interpret what is around us.

This allows the brain to work and learn a second language in the most natural way possible, in the same way that we learned our mother tongue.

With this high-level training you will learn to communicate fluently in situations that require a superior knowledge of the language. You will have an effective and personalized learning program and with native teachers who are experts in online teaching.

You will benefit from numerous pronunciation and phonetics activities in a personalized program that stands out for the quality of the individual classes, taught by university professors.

Stand out professionally with this comprehensive program and take the level leap you need.

It is proven that learning languages increases your Intelligence. Learning a foreign language strengthens the brain's neural networks"

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. Nowadays, students must have a certificate that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

“

The ability to communicate effectively in another language, and accredit it with an CEFR qualification, is an essential requirement for academic and professional development. TECH helps you achieve it with intensive 100% CEFR training”

TECH Global University

The Common European Framework of Reference for Languages is the only officially recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and , are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards diplomas that are recognized throughout the European Union.

At TECH we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

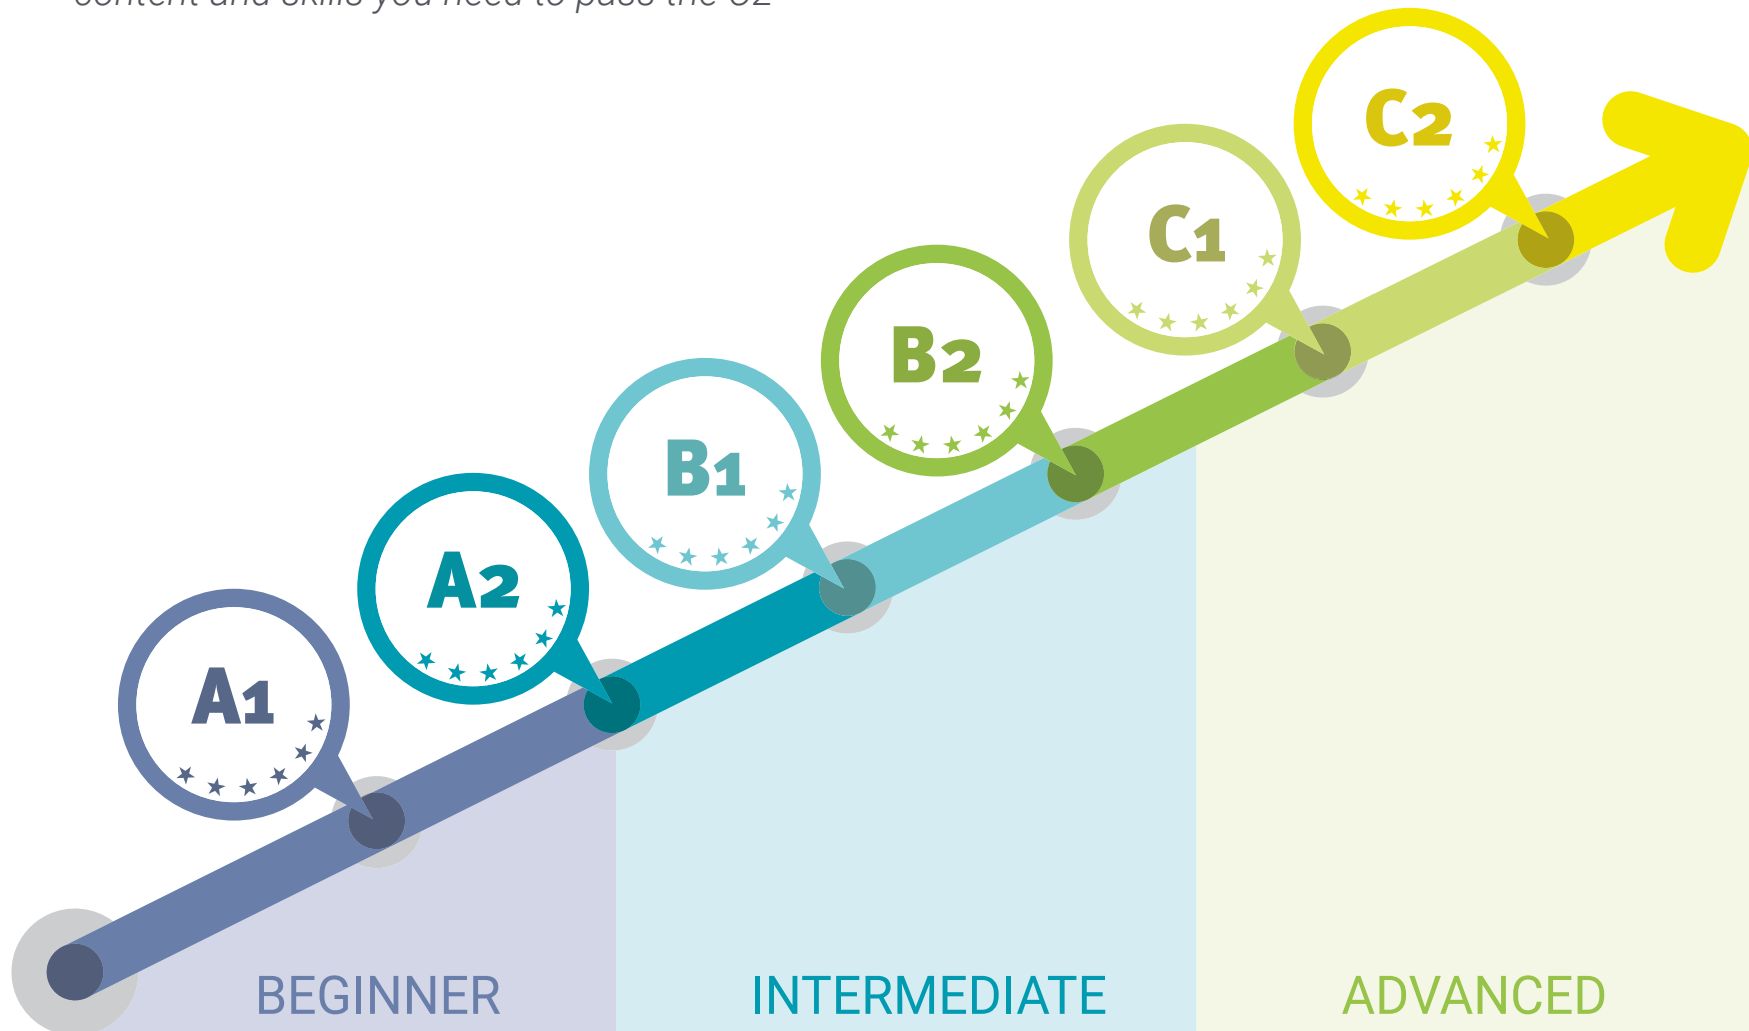

Learn to speak Chinese and make the most of it by obtaining an qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate gives you a diploma for life.

“

With this program you will have all the content and skills you need to pass the C2”

03

What Is Level C2?

Level C2 is part of the Proficient User Level, which is further divided into two sub-levels: First and Second Proficient User Levels (C1 and C2).

Although level C2 has been referred to as Mastery, it does not imply native or near-native proficiency. It is intended to characterize the degree of precision, appropriateness and ease of use in the language that typifies the speech of bright students. The descriptors graded here include: is able, by reasonably employing a wide range of modification mechanisms, to accurately convey subtle nuances of meaning; has a good command of idiomatic and colloquial expressions, and is aware of the connotative level of meaning; knows how to circumvent difficulties so discreetly that the interlocutor hardly notices.

“

In TECH's Individual Online Conversation Classes for C2 Chinese preparation program, we prepare you thoroughly to obtain your C2 Chinese certificate"

What are the C2 Level Skills?

01

Can easily understand virtually everything he/she hears or reads

02

Can reconstruct information and arguments from various sources, whether in spoken or written language, and present them in a coherent and summarized manner

“

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH”

03

Can express him/herself spontaneously, with great fluency and with a degree of precision that allows him/her to differentiate fine nuances in meaning even in more complex situations

C2 level Self-Assessment Chart

What will I be able to do after completing the course?

05 Features of the C2 Chinese Individual Online Conversation Classes

An Intensive Course

Individual Online Conversation Classes for C2 Chinese preparation is an intensive program that prepares you for the Common European Framework of Reference for Languages (CEFR) for Chinese Level C2. You will attend 40 60-minute sessions to improve your oral proficiency and practice under the best guidance and supervision.

The Most Comprehensive Syllabus

The syllabus throughout is based on the Common European Framework of Reference for Languages, so you are guaranteed to be prepared with the best content.

Accessible

Our system allows you to study from your tablet, PC or Smartphone.

Accredited

The only training on the market that, in addition to preparing you to pass your level test, provides you with a university certificate.

Dedicated

You will have a native teacher with expertise in teaching speaking skills to guide you in your learning process.

100+ native teachers

Study Material

After a complex production process, we transform the best content into high-quality educational and audiovisual multimedia. We select the best syllabus and make it available to you. Everything you need to acquire in-depth knowledge of a discipline, from A to Z. Lessons written and selected by expert native teachers. This is the only training program on the market that includes the complete course content in downloadable format:

- Grammar PDF: you will have access to more than 320 downloadable and printable grammar worksheets to study wherever and however you want
- Lexical cards and glossaries: 160 pages of lexical cards and glossaries to download and practice vocabulary.

Multimedia Elements

Forget about cumbersome registrations and problems connecting or following the class. One device and an internet connection is enough. Connect with a single click and work whenever and wherever you want.

Cancellation Policy

In order to cancel a previously scheduled or agreed upon class, at least 48 hours notice must be given. If 48 hours notice is not given, the class will be counted. The class will not be counted if the student has medical or any other proof issued by the competent authority.

Testing & Retesting

We periodically evaluate and re-evaluate your knowledge throughout the entire Chinese C2 preparation course.

- We will work through over 100 activities to obtain different oral skills
- We will subject you to real conversation situations with native speakers
- We will work through mock exams so that you are 100% prepared.

Skills-based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this program, we work according to skills with more than 100 different activities and prepare you to obtain your C2 Chinese certificate

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Take the sessions with you on your cell phone and view them wherever you want!

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

An interactive chat to share queries, expressions, complex words, etc. in writing.

Specific Virtual Classes for CEFR C2

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

In addition:

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question.

These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Discussion forums to develop written expression and interaction skills
- Telephone assistance service to resolve technical questions or incidents
- Technical services contact e-mail

Our Methodology

This Intensive C2 Chinese Online Conversation Classes course is based 100% on the Common European Framework of Reference for Languages (CEFR). To do this, we use a method of practising oral competence in which the student works intensively and repeatedly on all the content required by the Framework, preparing thoroughly, with the help of native teachers, to pass the test.

“

In no other course will you work at your own pace, with native teachers, in individual classes focused on specific practice of the CEFR competences”

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's Chinese C2 level oral proficiency preparation program offers you a method based on interaction and synchronous and direct communication between teacher and student to provide you with comprehensive preparation for the oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

... All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first in the world licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, Objective, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Re-learning Methodology

We prevent your motivation from waning and offer you the best learning environment.

This intensive oral proficiency preparation program is based on real-time communication, as this type of interaction has been proven to reinforce personal participation, strengthen work interaction, socio-emotional relationships and personal interactions, all of which helps to increase motivation. (Hrastinski, 2008).

...with a professional, personalized and expert-led syllabus...

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone).”

... and all this with teachers at the forefront of technology and education...

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called “*Neurocognitive context-dependent learning*”, the different elements of our intensive Chinese C2 level preparation course are connected to the context in which the participant will take his or her certification exam in order to guarantee success on the day of the test.

Study wherever and however you want: more than 320 downloadable and printable grammar and lexical worksheets and glossaries.

Immersion in real situations

We present you with real conversational situations with native speakers with different accents in different contexts.

Skills-based Practice

At TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages.

Pronunciation and Phonetics Practice

At TECH we focus our method on repetition as the best way to consolidate your learning.

Image

Audio

Vocabulary and Socioculture Practice

At TECH we offer you different ways to consolidate your vocabulary through practice and conversation, and by consulting downloadable worksheets.

Grammar and Spelling Practice

You will work on grammar without even realizing it, from a practical point of view through activities with native teachers.

Interactive chat

During the sessions you can practice your written skills by interacting in the chat.

Study Material

Material prepared by expert native teachers, such as downloadable worksheets and glossaries.

Text

At TECH you will find over twice as many multimedia elements as in the second most comprehensive course on the market: up to 5,200 elements.

TECH is the only institution with a commitment to answer your questions in less than 24 hours.

07

Course Objectives

This programme is entirely designed by university teachers so that you acquire the necessary oral skills to take the exam that accredits your level and pass it through practice, training, repetition, personalised monitoring, but, above all, thanks to your effort and the teaching excellence of the TECH method.

“

Improve your oral skills and competencies with hundreds of practical and customized exercises to pass the CEFR Chinese C2 level”

General Objectives

01

Carry out transactions of all kinds, even if they are delicate and complex

02

Participate and take the initiative in social interactions within the community or the social, academic or professional communities they belong to

03

Deal with oral or written texts of any kind, regardless of the situation and the subject matter

Specific Objectives

- ♦ Have no difficulty understanding any type of speech, even at the fast speed typical of native speakers, both in face-to-face conversations and in relayed speeches
- ♦ Understand specialized lectures and presentations, even if they contain a high degree of colloquialisms, regionalisms or unusual terminology
- ♦ Possess a good command of idiomatic and colloquial expressions, being aware of the connotative levels of meaning
- ♦ Accurately convey subtle shades of meaning using, with reasonable accuracy, a wide range of modification procedures. Know how to overcome difficulties so discreetly that the interlocutor hardly notices
- ♦ Understand any speaker, even if he/she is a native speaker, even when dealing with abstract and complex topics of a specialized nature and beyond his/her own field of expertise, provided he/she has the possibility to do so with a non-standard accent
- ♦ Converse comfortably and adequately, without any linguistic limitation, in all kinds of social and personal life situations

- ♦ Be able to engage in formal discussions of complex issues, with well-organized and persuasive arguments, without any disadvantage compared to native speakers
- ♦ Represent their part of the dialogue very well, structuring what they say and performing with authority and fluency as interviewer or interviewee, without being at a disadvantage compared to a native speaker

To consolidate all these skills, you will have more than 500 lexical, vocabulary and sociocultural activities.

08

Course Structure and Content

The highest level of language proficiency requires absolute mastery in all areas, especially in oral expression, where proper expression and pronunciation play a decisive role. Therefore, this university program pushes the student's spoken skills to the maximum, allowing them to get personalized lessons on those issues that are most urgent or require the most work. The teaching team will adapt each session to the student, giving them the possibility of obtaining optimal improvement in order to effectively pass Level C2.

Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 60-minute live sessions taught by native-speaking teachers.

Each session is structured as follows:

- Practice of oral interaction skills
- Practice of oral expression skills
- Simulation of real situations
- Tips and tricks to prepare for the test
- Summary and closing
- Download printable sheets

You will acquire the skills of a person with a great oral command of the language, assisted by a team of native teachers to improve your diction, pronunciation and expression"

C2 Level Learning Objectives

In each program, native teachers prepare a series of items that students must overcome in order to satisfactorily reach the course goals. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible, thanks to effective and efficient teaching.

- Test all basic and advanced language skills in comprehension and expression.
- Master good vocabulary and grammar, as well as maximize the ability to converse in the language.
- Addressing topics such as career growth or historical events, simulating job interviews and advanced discussions
- Find a common language with native speakers, acquiring the fluidity of a person who has mastered the language.
- Address advanced economic issues such as budgeting and personal time management

“

You will take your conversational and adaptive skills to all kinds of language contexts, elevating your skills to the maximum”

"I have always found it difficult to express myself fluently in Chinese. However, with TECH conversation classes I have gained confidence and fluency when communicating with someone. I have also improved my comprehension skills and thanks to this I can speak with native speakers without any problems. I still have some things to improve, so I will definitely continue my Chinese C2 training with this online university"

Diana Fernández

A student from Spain

"Having native teachers is one of the highlights of this intensive program. In just a few months, and thanks to the support of the teaching staff, I have managed to certify my C2 level of Chinese. An absolute success to have chosen TECH"

Rodrigo González

A student from Chile

The Professional Benefits of Chinese

The Chinese language, the highest expression of Chinese culture, based on symbols, is more than 5,000 years old and gives rise to more than 55 languages and 2,000 dialects as a result of its geographical, phonetic and dialectical variants. Mandarin Chinese is the official language of the People's Republic of China and is also spoken in countries such as Cambodia, Burma, Indonesia, Malaysia, the Philippines, Singapore, Thailand and Taiwan.

Mandarin Chinese is an original Beijing dialect and, according to official statistics, is the most widely spoken language in the world with more than 1.3 billion speakers. It is one of the six official languages of the United Nations (UN) along with Arabic, English, French, Russian, Spanish and French.

Nowadays, it seems essential in the multicultural and global society in which we live to broaden our knowledge and teaching of the Chinese language, to know its language, habits and customs, which will lead us to improve our international and commercial relations, to close economic agreements and to establish direct contact with Chinese citizens.

China is in fashion. Its spectacular growth is increasingly attracting Spanish entrepreneurs who are looking for an opportunity in the Asian colossus. But doing business in China can be a nightmare if you are not prepared. The cultural differences are so vast that they extend to all aspects of the business world: negotiation, contracts, legislation or a simple working dinner. For this reason, guanxi or social relations should also be studied.

“

Understanding the cultural context of communication is fundamental to successfully decoding a message"

11

Assessment and Certification

The main evaluation objective of TECH'S assessment is that students consolidate what they have learned and are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

“

TECH'S C2 level oral communication skills preparation program is the only one that also awards you with a university certificate”

Certification

Upon completion of the course, the student will receive a certificate of recognition that will guarantee their preparation to obtain, if the student wishes, the certification of that level.
