01 Welcome

This university course takes place through individual classes with native Russian teachers who help students to achieve the C2 level in this language according to the Common European Framework of Reference for Languages (CEFR). This last level of CEFR will allow the student to ensure proficiency at all levels, with the ability to grasp even the smallest nuances of the language. The student will have native university professors, completely personalized content and the most efficient online system on the teaching market.

Presentation video

“

You will practice more than 100 different oral expression and interaction activities with native teachers that will prepare you to pass the oral part of the Russian C2 Certificate"

Introduction

Teachers and psychologists believe that the best way to stimulate language learning is not to subject the learner to formalized, linear learning, learning by rote, for example, but by encouraging the imagination and learning through sensory exploration in order to be able to understand and interpret what is around us.

This allows the brain to work and learn a second language in the most natural way possible, in the same way that we learned our mother tongue.

With this high-level program you will learn Russian from native teachers who have extensive teaching experience in prestigious universities. A unique opportunity to improve your speaking skills and pass the C2 Russian oral test.

In TECH's CEFR Level C2 Language Course, you will find more than 300 pronunciation and phonetics activities.

The only intensive program 100% specifically designed to obtain the CEFR Russian Level C2.

It is proven that learning languages increases your Intelligence. Learning a foreign language strengthens the brain's neural networks"

02

Is it Important to Obtain a Language Certificate?

In today's competitive world, speaking other languages is a key part of our modern culture, helping us to expand our knowledge and interact with people from other parts of the world, which helps us to learn about the traditions of other countries, establish friendships or conduct business.

However, simply knowing foreign languages is not enough in modern society. Nowadays, students must have an official certificate that accredits and recognizes their proficiency in a given language. In fact, many schools, universities and companies only accept candidates who have an official qualification based on the Common European Framework of Reference for Languages (CEFR).

“

The ability to communicate effectively in another language, and accredit it with an official CEFR qualification, is an essential requirement for your academic and professional development. TECH helps you achieve it with intensive 100% CEFR training"

TECH Global University

The Common European Framework of Reference for Languages is the only officially recognized and accredited system for assessing a student's level of proficiency. Although there are other certification systems, these come from private institutions and are, therefore, not officially valid. The CEFR establishes a single criterion to determine the difficulty of the courses and awards certificates that are recognized throughout the European Union.

At TECH we offer you the only intensive program designed to prepare you to obtain your official certificate based 100% on the CEFR, the only official system recognized and accepted throughout Europe.

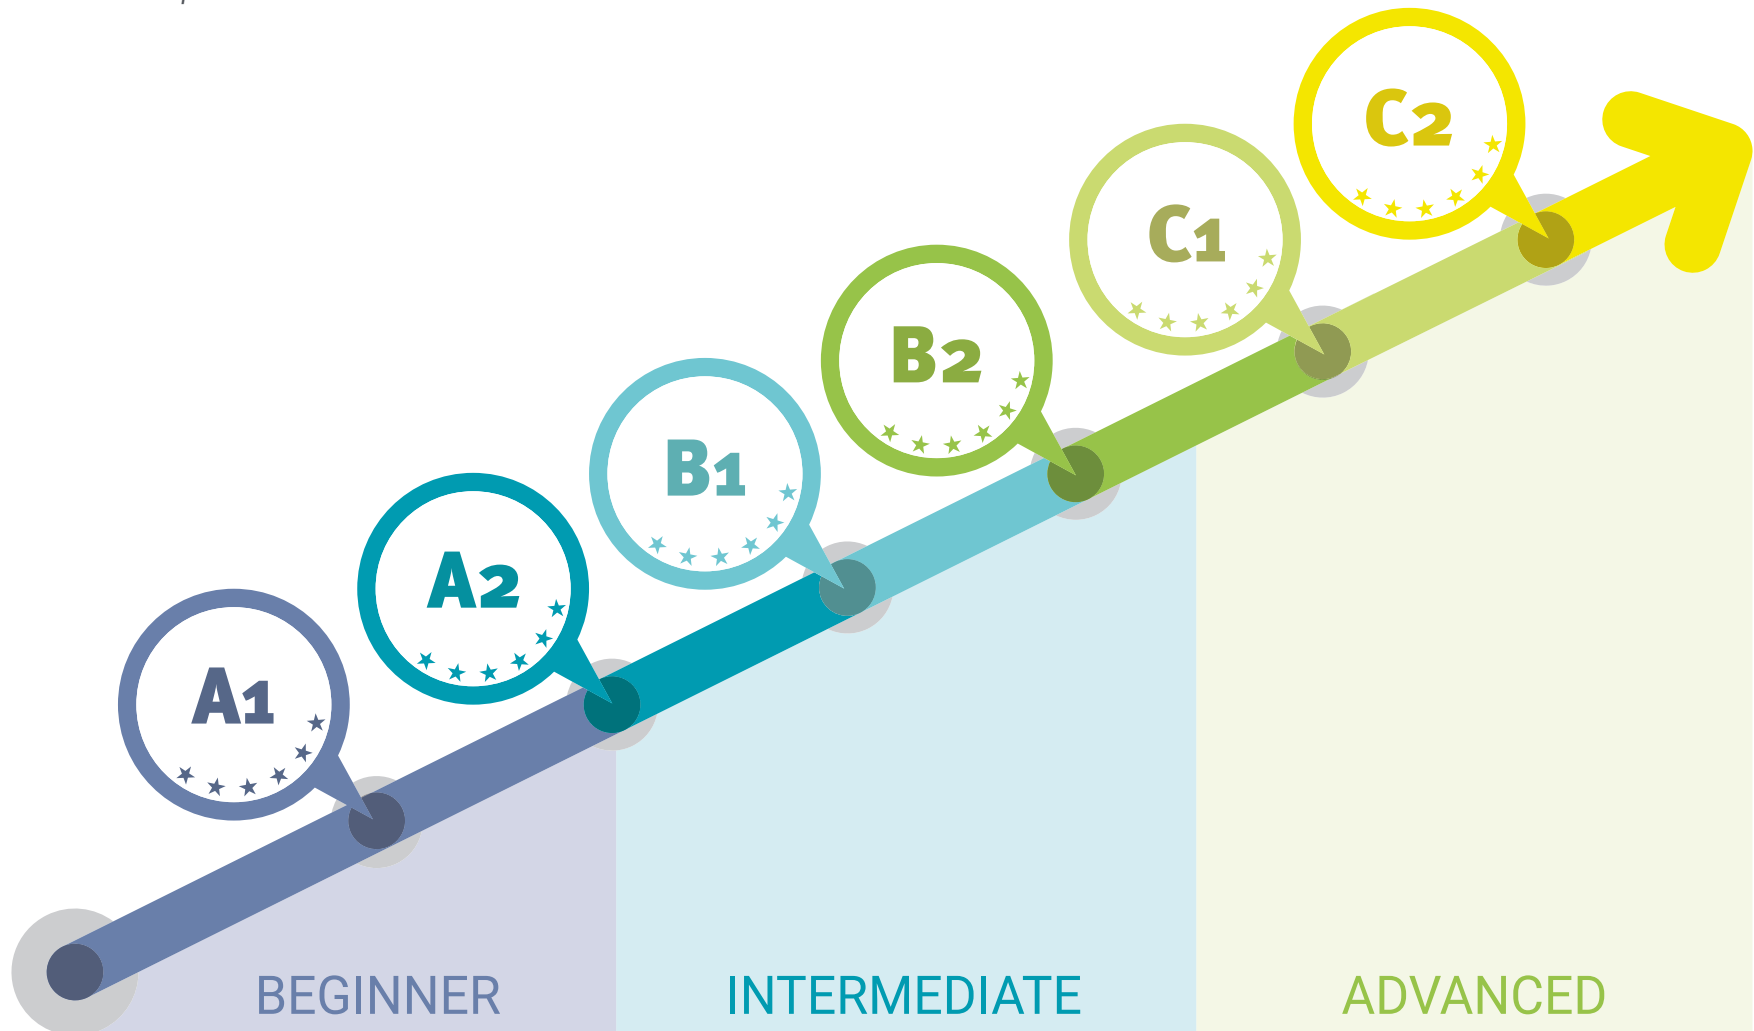

Learn to speak Russian and make the most of it by obtaining an official qualification based on the CEFR.

Other private language certification systems require students to periodically recertify their level of proficiency. TECH's CEFR certificate gives you a certificate for life.

“

With this program you will have all the content and skills you need to pass the C2”

03

What Is Level C2?

Level C2 is part of the Proficient User Level, which is further divided into two sub-levels: First and Second Proficient User Levels (C1 and C2).

Although level C2 has been referred to as Mastery, it does not imply native or near-native proficiency. It is intended to characterize the degree of precision, appropriateness and ease of use in the language that typifies the speech of bright students. The descriptors graded here include: is able, by reasonably employing a wide range of modification mechanisms, to accurately convey subtle nuances of meaning; has a good command of idiomatic and colloquial expressions, and is aware of the connotative level of meaning; knows how to circumvent difficulties so discreetly that the interlocutor hardly notices.

“

In TECH's C2 Russian Individual Online Conversation Classes Program, we prepare you thoroughly to obtain your official C2 Russian certificate"

What are the C2 Level Skills?

01

Can easily understand virtually everything he/she hears or reads

02

Can reconstruct information and arguments from various sources, whether in spoken or written language, and present them in a coherent and summarized manner.

“

Improve your skills in this language and certify your level quickly and easily thanks to everything you will learn in this excellent program offered by TECH"

03

Can express him/herself spontaneously, with great fluency and with a degree of precision that allows him/her to differentiate fine nuances in meaning even in more complex situations

C2 level Self-Assessment Chart

Cancellation Policy

In order to cancel a previously scheduled class or one you agreed to, at least 48 hours notice must be given. If 48 hours notice is not given, the class will be counted. The class will not be counted if the student has medical or any other proof issued by the competent authority.

Testing & Retesting

We periodically evaluate and re-evaluate your knowledge throughout the entire C2 Russian Language Course.

- We will work through over 100 activities to obtain different oral skills
- We will subject you to real conversation situations with native speakers
- We will work through mock exams so that you are 100% prepared.

Skills-Based Practice

If the Common European Framework of Reference for Languages establishes the consolidation of a language through the acquisition of skills and bases its official tests on these skills, why don't most of the online preparation courses for the level certificate work according to skills? In TECH you will work on all the oral skills established by the Common European Framework of Reference for Languages in each of the subjects through an innovative method that is 100% adapted to European guidelines. In this training program, we work according to skills, with more than 100 different activities in order to prepare students to obtain their Russian C2 certificate.

Simulated Learning Scenarios

At TECH, we believe in the importance of linguistic immersion to lay the foundations of a language as well as in *storytelling* to favor identification and first-person learning. Therefore, we present you with real and everyday situations with people like you who will face a new language and have to overcome all different kinds of problems. In this training we will expose you to real dialogues and conversation exercises designed and presented by experts and native speakers.

Specific Virtual Classes for CEFR C2

Are you ready for the exam? Our native teachers will explain to you all the tips and tricks you can use to pass the course with total guarantee of success, as well as the subjects you need to prepare better, the exercises that appear most frequently, mistakes to avoid, resources that can help you in certain situations, etc. All this prepared on video for you to consult when and as you wish.

Take the sessions with you on your cell phone and view them wherever you want!

Do you want to revisit the class afterwards and review where you made mistakes or how a word was pronounced? Download the recorded session and watch it again.

An interactive chat to share queries, expressions, complex words, etc. in writing.

In addition:

The student will be provided with the following interaction and communication tools, which will be combined throughout the course to obtain the desired level of skills at the level in question.

These are:

- Internal messaging tools with teachers and tutors
- Chat tools for written interaction
- Discussion forums for the development of written expression and interaction skills
- Telephone assistance to resolve technical questions or incidents
- Technical services contact e-mail

Our Methodology

This intensive course of online conversation classes for the preparation of the Russian C2 level certificate is 100% based on the Common European Framework of Reference for Languages (CEFR). For this purpose, we use a method of oral proficiency practice in which the student works intensively and repeatedly on all the contents required by the Framework, providing them with extensive preparation to pass the test.

“

You will work at your own pace, with native teachers, basing your studies on specific practice of the CEFR competencies”

Conventional methods of teaching a second language, such as demonstrative classes or mechanical exercises, slow down learning and seriously affect student motivation, as confirmed by statistical data reflecting the failure of the traditional system and methodology.

TECH's C2 Russian oral proficiency preparation program offers you a method based on interaction and synchronous and direct communication between teacher and student to comprehensively prepare for the official oral level certification test. Our objective is to strengthen your skills in a changing, real and multicultural context and to guarantee your success in passing the test. To this end, we emulate the official test using mock tests throughout the course.

The student will learn through activities, stories and real contexts, the resolution of everyday and basic communication situations in simulated learning environments and will face real mock exams to prepare intensively for the level certification test.

...All of this is enhanced with the best 100% online teaching methodology: Re-learning...

Our school is the first in the world to combine *storytelling* with a 100% online learning system based on repetition, which combines different elements that represent an evolution with respect to the simple study and performance of exercises.

TECH offers you the highest quality and quantity in the academic landscape, with hundreds of exercises and resources for you to keep improving your level step by step.

This methodology, at the forefront of world teaching, is called *Re-learning*. Our language school is the first in the world licensed to employ this successful method, having managed in 2015 to improve the overall satisfaction levels (teaching quality, quality of materials, course structure, Objective, etc.) of the students who complete the courses with respect to the indicators of the best language courses on the market.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

Re-learning Methodology

We prevent your motivation from waning and offer you the best learning environment.

This intensive oral proficiency preparation program is based on real-time communication, as this type of interaction has been proven to reinforce personal participation, strengthen work interaction, socio-emotional relationships and personal interactions, all of which helps to increase motivation. (Krasinski, 2008).

...with a professional, personalized and expert led syllabus...

In order to promote maximum contact with the Language School, we provide you with a tutor so that you can write essays, receive answers to your questions or get advice on how to study.

“

Our system will allow you to organize your time and learning pace, adapting it to your schedule, and will also allow you to access the contents from any device with an internet connection (computer, tablet, smartphone)”

According to the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images, memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus and retain it in our long-term memory. In this way, and in what is called “*Neurocognitive context-dependent learning*”, the different elements of our intensive Russian C2 level preparation course are connected to the context in which the participant will take their official certification exam in order to guarantee success on the day of the test.

...and all this with teachers at the forefront of technology and education...

Study wherever and however you want: more than 320 downloadable and printable grammar and lexical worksheets and glossaries.

08

Course Structure and Content

The highest level of language proficiency requires absolute mastery in all areas, especially in oral expression, where proper expression and pronunciation play a decisive role. Therefore, this university program pushes the student's spoken skills to the maximum, allowing them to get personalized lessons on those issues that are most urgent or require the most work. The teaching team will adapt each session to the student, giving them the possibility of obtaining optimal improvement in order to effectively pass Level C2.

Where, When and How is it Taught?

This course takes place over 4 months and consists of 40 live sessions of 60 minutes each, taught by native teachers.

Each session is structured as follows:

- ◆ Practice of oral interaction skills
- ◆ Practice of oral expression skills
- ◆ Simulation of real situations
- ◆ Tips and tricks to prepare for the test
- ◆ Summary and closing
- ◆ Download printable sheets

“

You will acquire the skills of a person with a great oral command of the language, assisted by a team of native teachers to improve your diction, pronunciation and expression”

C2 Level Learning Objectives

In each program, native teachers prepare a series of assignments that the student must pass in order to satisfactorily achieve the goals of the course. Thanks to personalized tutoring, all the proposed objectives can be achieved in the shortest time possible, thanks to effective and efficient teaching.

- Test all basic and advanced language skills in comprehension and expression
- Master good vocabulary and grammar, as well as maximize the ability to converse in the language
- Address topics such as career growth or historical events, simulating job interviews and advanced discussions
- Find a common language with native speakers, acquiring the fluidity of a person who has mastered the language
- Address advanced economic issues such as budgeting or personal time management

“

You will take your conversational and adaptive skills to all kinds of language contexts, elevating your skills to the maximum”

The Professional Benefits of Russian

Russian is becoming increasingly international. More and more people are communicating in the language of Tolstoy and Dostoevsky, and it is not surprising that Russian has a place among the world's most widely spoken languages. In fact, the language of the Czars is taught in about a hundred countries. This boost stems not only from cultural reasons, but also from economic interests that in recent years have led to an increase in the number of people learning the Cyrillic alphabet.

It has official status in Russia, Belarus, Kyrgyzstan and Kazakhstan, while in the other republics of the former USSR it is used as a second language. Between native speakers and those who speak it as a second language, it is spoken daily by 260 million people.

Russian is one of the most widely used languages on the Internet. According to some statistics (and depending on when the data is taken) it is the second most used language on the Internet only behind English. 6% of all web pages in the world are in Russian. For example, only 3.3% of the Internet is in Chinese and its population is 9 times that of Russia. Russia is the sixth largest Internet user in the world. Another interesting fact about Russian is that 25% of the world's scientific literature is published in this language.

Russian has become one of the few official languages used in major world institutions. It is an official language of the UN, the OSCE (Organization for Security and Cooperation in Europe) and the SCO (Shanghai Cooperation Organization).

Russia is one of the world's largest exporters of natural gas, oil and diamonds. It is also a world leader in space, aeronautics and weapons technology. Russia is the world's largest country, which makes it a world leader in various natural resources. It is also a source of intellectual, cultural and economic knowledge. All this makes Russian an important language in different sectors.

“

Did you know that Russian is the seventh most spoken language in the world? And that it is an official language in 8 countries and has a strong presence in 10 others? And also the most widely spoken language in Europe?”

11

Assessment and Certification

The main evaluation objective of TECH'S assessment is that students consolidate what they have learned and are aware of their progress. That is why, after completing each block, the student is shown a results report that visually indicates the skills that they should reinforce in the online classes.

“

TECH'S C2 level oral communication skills preparation program is the only one that also awards you with a university certificate”

Certification

Upon completion of the course, the student will receive a certificate of recognition that will guarantee their preparation to obtain, if the student wishes, the certification of that level.
