Introduction

Having advanced knowledge of English writing is essential in today's workplace. A good command of the language will enable the professional to function naturally in complex environments, allowing them to advance in their careers and venture into the international world. This program, 100% online, will provide the students with the ease of being able to study it comfortably, wherever and whenever they want, they will only need a device with internet access to launch their career a step further. A modality in line with current times and with all the guarantees for improving communication skills of attending professionals. This is undoubtedly a unique opportunity for those who want or need an advanced command of English for their profession.

“

You will learn how to adapt written discourse to formal and informal contexts from professionals with years of experience in the sector"

This high-level training is designed for all professionals seeking to improve their writing skills in the English language in a professional environment. During these weeks of study, the student will learn how to elaborate several types of formal texts useful in a work context; will acquire a good command of the specific structures of the different types of texts; will learn how to initiate, develop and conclude a written and detailed contact with a client and will know how to react courteously in difficult situations to manage.

This specialization course perfectly combines autonomous work, classes with highly qualified native speakers and top quality didactic material, all adapted to 21st century work requirements. Starting from a B1 level of English of the Common European Framework of Reference for Languages (CEFR), throughout the Postgraduate Certificate the student will acquire the appropriate knowledge and skills of a B2/C1 level. Its main objective is to help students acquire the necessary communication skills to be able to successfully manage in the labor market.

The compendium of contents, designed by TECH, will be the professional's main weapon for applying the most innovative knowledge in the workplace. In this way, a thorough review will enable the students of this program to solve demanding communicative tasks and to fulfil the complex functions of these, both in a professional environment and in everyday situations. All through high quality materials, master classes and case studies taught by native teachers with extensive teaching experience.

This **Postgraduate Certificate in Advanced English Writing Techniques** contains the most complete and up-to-date program on the market. The most important features include:

- ♦ Practical case studies presented by experts
- ♦ The graphic, schematic, and practical contents with which they are created provide scientific and practical information on the disciplines that are essential for professional practice
- ♦ Practical exercises where the self-assessment process can be carried out to improve learning
- ♦ Special emphasis on innovative methodologies for teaching languages
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

Thanks to this intensive specialization you will be able to solve demanding communicative tasks and fulfill the complex functions of such tasks, both in a work environment and in everyday situations"

“

You will have the latest resources and tools that enable you to assess and improve your own learning and use of the language”

The program's teaching staff includes professionals who bring their work experience to this training, as well as renowned specialists from leading societies and prestigious universities.

Thanks to its multimedia content developed with the latest educational technology, it will allow the professional a situated and contextual learning, that is to say, a simulated environment that will provide an immersive learning programmed to train in real situations.

The design of this program is based on Problem-Based Learning, whereby the educators must try to solve the different professional practice situations that arise throughout the program. For this purpose, professionals will be assisted by an innovative interactive video system created by renowned and experienced experts.

A unique opportunity to specialize in advanced writing techniques with renowned professionals.

Reach your professional improvement goals with the quality of a Postgraduate Certificate designed to propel you to excellence.

02

Objectives

The design of the program will allow students to acquire the necessary communicative skills to update and improve their command of the English language while carrying out their daily work. TECH offers the most complete specialization course taught by leading experts in the field. To this end, TECH establishes a series of general and specific objectives to fulfill future graduates' expectations.

“

You will improve your communicative competence quickly and efficiently with native teachers who have years of experience in university teaching”

General Objectives

- ♦ Solve demanding communicative tasks and perform the complex functions of such tasks, both in the work environment and in everyday situations
- ♦ Interact and express yourself in these situations independently and appropriately, using standard spoken language
- ♦ Define the most relevant social aspects of everyday life situations and recognize the most common forms of social relationships
- ♦ Use the necessary linguistic resources to handle complex communication situations in the work environment
- ♦ Develop resources and tools that enable them to assess and improve their own learning and use of the language

Specific Objectives

- Elaborate various types of formal texts useful in a work context
- Have a good command of the specific structures of different types of texts
- Know how to adapt their written discourse to formal and informal contexts
- Know how to initiate, develop, and conclude a written and detailed contact with a client
- Know how to react courteously in difficult situations to manage

“

You will learn to function fluently in a multicultural work environment”

03

Structure and Content

TECH guarantees students quality content that meets their expectations, giving them the opportunity to excel in their field. Top-level professionals within the educational panorama, with extensive experience and recognized prestige in the profession, have designed the structure and content of this prestigious specialization. Native teachers with years of experience in the sector and a wide command of new technologies applied to teaching will form this intensive program's teaching team.

“

You will learn to interact with native speakers with an advanced level of fluency and naturalness”

Module 1. Writing Techniques in Formal Language

1. 1. Detailed and Complex Formal Mails
1. 2. Detailed Request for Quotations
1. 3. Preparation of Quotations
1. 4. Make, Change and cancel Appointments by Mail or by Phone
1. 5. Elaboration of a Detailed and Complex Description of a Product or Service
1. 6. Complex Procedures for Sending Information About a Product or Service
1. 7. Detailed and Complex Procedures for Delivery or Return in Writing
1. 8. Detailed Drafting of Letters of Complaint and Formal Complaints
1. 9. Responses to Formal Complaints
1. 10. Preparation of Detailed Reports

“

You will study using a methodology created for professionals in order to achieve the greatest impact in the shortest possible time”

04

Methodology

This training program offers a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

At TECH Education School we use the Case Method

In a given situation, what should a professional do? Throughout the program, students will be presented with multiple simulated cases based on real situations, where they will have to investigate, establish hypotheses and, finally, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method.

With TECH, educators can experience a learning methodology that is shaking the foundations of traditional universities around the world.

It is a technique that develops critical skills and prepares educators to make decisions, defend their arguments, and contrast opinions.

“

Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method.

The effectiveness of the method is justified by four fundamental achievements:

1. Educators who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. The learning process is solidly focused on practical skills that allow educators to better integrate the knowledge into daily practice.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life teaching.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

Relearning Methodology

At TECH, we enhance the Harvard case method with the best 100% online teaching methodology available: Relearning.

Our University is the first in the world to combine case studies with a 100% online learning system based on repetition, combining a minimum of 8 different elements in each lesson, which represent a real revolution with respect to simply studying and analyzing cases.

Educators will learn through real cases and by solving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 85,000 educators with unprecedented success in all specialties. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

“The overall score obtained by our learning system is 8.01, according to the highest international standards”

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialist educators who teach the course, specifically for the course, so that the teaching content is really specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Educational Techniques and Procedures on Video

TECH introduces students to the latest techniques, with the latest educational advances, and to the forefront of Education. All this, first-hand, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, you can watch them as many times as you want.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive multimedia content presentation training Exclusive system was awarded by Microsoft as a "European Success Story".

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Expert-Led Case Studies and Case Analysis

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises: so that they can see how they are achieving your goals.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Quick Action Guides

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

05

Certificate

The Postgraduate Certificate in Advanced English Writing Techniques guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This **Postgraduate Certificate in Advanced English Writing Techniques** contains the most complete and up-to-date program on the market.

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery*.

The diploma issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations and professional career evaluation committees.

Title: **Postgraduate Certificate in Advanced English Writing Techniques**

Official N° of Hours: **150 h.**

*Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH EDUCATION will make the necessary arrangements to obtain it, at an additional cost.
