# Introduction

Any attempt at communication requires the speaker to have a complete command of his or her communicative abilities. Thus, this program is based on the knowledge of linguistic, sociolinguistic and pragmatic skills. In order to teach Spanish as a foreign language (SFL), it is essential to know all the skills that students must develop and their different learning stages, so as to develop different methodologies adapted to their educational needs. This program will provide teachers with the tools and knowledge they require to practice the profession with confidence and efficiency, enabling them to help their students to understand and analyze messages effectively, and to develop non-verbal communication.

“

*Our objective is to train highly qualified professionals who have mastered the theory of Teaching Spanish as a Foreign Language (SFL) and the necessary skills to teach it successfully in the real classroom”*

Spanish is the second most spoken language in the world. Among the data that has recently become available is that out of a total of 585 million people, 7.6% of the world's population currently speaks Spanish. This has turned its teaching into an area of work full of possibilities. It is, however, a highly complex language, which requires teachers to have a broad command of grammar, spelling and the different uses of the language.

This program, conceived as an intensive study of the Spanish language in the field of its teaching as a Foreign Language (SFL), will provide the student, in a short period of time, with the linguistic, sociolinguistic and pragmatic competencies required for teaching Spanish. The syllabus pays special attention to the critical analysis of the various factors involved in the teaching-learning process of SFL (teaching materials, teaching proposals, strategies, evaluation of processes and results, etc.).

This intensive program will allow students to develop and expand their knowledge and skills related to Spanish lexical competence in teaching. At the end of the Professional Master's Degree, the students will be able to detect frequent errors in the teaching of Spanish and will have acquired the necessary tools for the prevention and correction of these errors so that they will have the necessary skills to work as teachers of Spanish as a Foreign Language (SFL).

Additionally, this Professional Master's Degree will enable the teacher to explain and solve confusing questions regarding grammar or the evaluation process of their students, providing a complete methodology for teaching vocabulary and different techniques and teaching materials, taught by distinguished experts in the field with extensive experience in the education sector. A high-level program that also includes the study of the necessary didactic tools to materialize this knowledge in the teaching practice as a high level specialist.

This **Professional Master's Degree in Teaching Spanish as a Foreign Language (SFL)** contains the most complete and up-to-date program on the market. The most important features include:

  - 9.8.1. Strategies Focused on How to Communicate
  - 9.8.2. The School Environment as a Whole

- 9.9. Difference Between Translation and Mediation
  - 9.9.1. Literal Translation/Interpreted Translation
  - 9.9.2. Ways of Mediating to Understand the Content
  - 9.9.3. Translation as a Means of Content Reduction or Augmentation
- 9.10. Facilitation of Mediations in Different Educational Environments
  - 9.10.1. Tools for Facilitation
- 9.11. The Relationship Between the Language-Culture Binomial: Producing Material in Relation to Culture
  - 9.11.1. Valuation of Mediation by Members of Foreign Cultures
  - 9.11.2. Adapting Syllabus Material to the Cultural Environment
  - 9.11.3. Didactic Programming Around Cultural Diversity
  - 9.11.4. Curricular Richness in a Multicultural Class

### Module 10. Technological Innovation in Teaching

- 10.1. Advantages and Disadvantages of the Use of Technology in Education
  - 10.1.1. Technology as a Means of Education
  - 10.1.2. Advantages of Use
  - 10.1.3. Inconveniences and Addictions
- 10.2. Educational Neurotechnology
  - 10.2.1. Neuroscience
  - 10.2.2. Neurotechnology
- 10.3. Programming in Education
  - 10.3.1. Benefits of Programming in Education
  - 10.3.2. Scratch Platform
  - 10.3.3. Confection of the First Hello World
  - 10.3.4. Commands, Parameters and Events
  - 10.3.5. Export of Projects
- 10.4. Introduction to the Flipped Classroom
  - 10.4.1. On what is it Based?
  - 10.4.2. Examples of Use
  - 10.4.3. Video Recording
  - 10.4.4. YouTube

- 10.5. Introduction to Gamification
  - 10.5.1. What is Gamification?
  - 10.5.2. Success Stories
- 10.6. Introduction to Robotics
  - 10.6.1. The Importance of Robotics in Education
  - 10.6.2. Arduino (Hardware)
  - 10.6.3. Arduino (Programming Language)
- 10.7. Tips and Examples of Use in the Classroom
  - 10.7.1. Combining Innovation Tools in the Classroom
  - 10.7.2. Real Examples
- 10.8. Introduction to Augmented Reality
  - 10.8.1. What is Augmented Reality?
  - 10.8.2. What are the Benefits in Education?
- 10.9. How to Develop your own AR Applications?
  - 10.9.1. Vuforia
  - 10.9.2. Unity
  - 10.9.3. Examples of Use
- 10.10. Samsung Virtual School Suitcase
  - 10.10.1. Immersive Learning
  - 10.10.2. The Backpack of the Future

# Methodology

This training program offers a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

*Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"*

## At TECH, we use the Case Method

In a given situation, what should a professional do? Throughout the program, students will be presented with multiple simulated cases based on real situations, where they will have to investigate, establish hypotheses and, finally, resolve the situation. There is an abundance of scientific evidence on the effectiveness of the method.

*With TECH, the professional can experience a way of learning that is shaking the foundations of traditional universities around the world.*

*It is a technique that develops critical skills and prepares the nursing professional to make decisions, defend their arguments, and contrast opinions.*

“

*Did you know that this method was developed in 1912, at Harvard, for law students? The case method consisted of presenting students with real-life, complex situations for them to make decisions and justify their decisions on how to solve them. In 1924, Harvard adopted it as a standard teaching method”*

The effectiveness of the method is justified by four fundamental achievements:

1. Educators who follow this method not only grasp concepts, but also develop their mental capacity, by evaluating real situations and applying their knowledge.
2. The learning process is solidly focused on practical skills that allow educators to better integrate the knowledge into daily practice.
3. Ideas and concepts are understood more efficiently, given that the example situations are based on real-life teaching.
4. Students like to feel that the effort they put into their studies is worthwhile. This then translates into a greater interest in learning and more time dedicated to working on the course.

## Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

*Professionals will learn through real cases and by resolving complex situations in simulated learning environments. These simulations are developed using state-of-the-art software to facilitate immersive learning.*

At the forefront of world teaching, the Relearning method has managed to improve the overall satisfaction levels of professionals who complete their studies, with respect to the quality indicators of the best online university (Columbia University).

With this methodology we have trained more than 85,000 educators with unprecedented success in all specialties. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

*Relearning will allow you to learn with less effort and better performance, involving you more in your specialization, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation to success.*

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

The overall score obtained by our learning system is 8.01, according to the highest international standards.

This program offers the best educational material, prepared with professionals in mind:

#### Study Material

All teaching material is produced by the specialist educators who teach the course, specifically for the course, so that the teaching content is really specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

#### Educational Techniques and Procedures on Video

TECH introduces students to the latest techniques, with the latest educational advances, and to the forefront of Education. All this, first-hand, with the maximum rigor, explained and detailed for your assimilation and understanding. And best of all, you can watch them as many times as you want.

#### Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive multimedia content presentation training Exclusive system was awarded by Microsoft as a "European Success Story".

#### Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

**Expert-Led Case Studies and Case Analysis**

Effective learning ought to be contextual. Therefore, TECH presents real cases in which the expert will guide students, focusing on and solving the different situations: a clear and direct way to achieve the highest degree of understanding.

**Testing & Retesting**

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises: so that they can see how they are achieving your goals.

**Classes**

There is scientific evidence suggesting that observing third-party experts can be useful.  
Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

**Quick Action Guides**

TECH offers the most relevant contents of the course in the form of worksheets or quick action guides. A synthetic, practical, and effective way to help students progress in their learning.

# Certificate

The Professional Master's Degree in Teaching Spanish as a Foreign Language (SFL) guarantees students, in addition to the most rigorous and up-to-date education, access to a Professional Master's Degree diploma issued by TECH Global University.

“

*Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork"*

This private qualification will allow you to obtain a **Professional Master's Degree in Teaching Spanish as a Foreign Language (SFL)** endorsed by **TECH Global University**, the world's largest online university.

**TECH Global University** is an official European University publicly recognized by the Government of Andorra (*official bulletin*). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University** private qualification is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.

Title: **Professional Master's Degree in Teaching Spanish as a Foreign Language (SFL)**
