01

Introduction

Sports Justice has evolved as more and more sports practices have become professionalized, to be organized around a regulatory framework that addresses the resolution of conflicts. These can occur between managers of entities, athletes, coaches... and are settled with disciplinary authority. Given that this can sometimes be combined with other sanctions, it is essential to be continuously up to date on the subject, something that this program offers. Therefore, sports professionals have the opportunity to be up to date in the delimitation and mechanisms of operation of Sports Justice, addressing its position within the sanctioning law in general and the existing models. Undoubtedly, a high value specialization and 100% online.

“

*The Postgraduate Certificate you
needed to delve into the delimitation
and mechanisms of Sports Justice”*

Sport has always been characterized by regulatory autonomy. In this regard, under different federations, the practice of sports has had as a differential element the self-organizing power of its institutions and entities. This implies an unique regulation based on specific rules and its own conflict resolution mechanisms, something that sometimes collides head-on with the competences of general sanctioning law.

Therefore, those professionals who are able to operate with guarantees in this complex regulatory-legal framework are highly valued, and this TECH program is an unique opportunity to update their knowledge. Through it, students will make a complete tour of the subjects that are subject to the exercise of Sports Justice, analyzing its principles and guarantees and the bodies that impart it.

In the same way, they will analyze in detail the regime of infractions and sanctions that has been developed under the umbrella of the sports federations, as well as the action in cases as sensitive as Doping, according to the World Anti-Doping Code.

This and more will be at the student's fingertips thanks to the technological innovations that TECH puts at their disposal. You will only need a device with Internet connection, which will open the doors of the largest virtual catalog of resources on Sports Justice.

This **Postgraduate Certificate in Sports Justice and Conflict Resolution** contains the most complete and up-to-date scientific program on the market. The most important features include:

- ♦ The development of case studies presented by experts in Sports Justice
- ♦ The graphic, schematic and practical contents of the book provide Legal and practical information on those disciplines that are essential for professional practice
- ♦ Practical exercises where the self-assessment process can be carried out to improve learning
- ♦ Its special emphasis on innovative methodologies
- ♦ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ♦ Content that is accessible from any fixed or portable device with an Internet connection

You will compare in detail the normative regime of the Sports Justice and the ordinary one to address any scenario of conflict of competence between the two"

“

You will be able to become a reference in the application of Sports Justice in the global fight against Doping”

The program’s teaching staff includes professionals from the sector who contribute their work experience to this training program, as well as renowned specialists from leading societies and prestigious universities.

The multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide immersive education programmed to learn in real situations.

This program is designed around Problem-Based Learning, whereby students must try to solve the different professional practice situations that arise throughout the program. For this purpose, the students will be assisted by an innovative interactive video system created by renowned and experienced experts.

Looking to examine sports arbitration? With this qualification you will analyze at length its legal regime and the main arbitration bodies.

You will hone your skills in sports mediation, focusing on prevention and positive conflict management.

02 Objectives

This program was created with the main objective of providing the sports sphere with professionals with the highest possible level of specialization in Sports Justice. Therefore, they will make great contributions in this area thanks to a degree that will provide them with the latest tools to master the mechanisms of action and competences of the organs of this justice. And always, of course, taking into account the current situation of this sector so that the knowledge base in which it is delved will make a difference in the student's professional career.

“

The objectives of the Postgraduate Certificate will allow you to establish the fundamentals that differentiate sports conflicts from conflicts in sport"

General Objectives

- Update legal knowledge on the commercial aspects of Sports Law
- Delve into the main commercial contracts related to sports
- Consolidate knowledge on the employment relationship of professional sportsmen and women
- Identify the characteristics of taxation from the double perspective of the legal entity and the natural person
- Analyze the application of Criminal Law in the field of sports
- Examine the concept of Sports Justice and its performance in the sports field
- Update legal knowledge on the management of the assets of professional sportsmen and women

The most ambitious goals will be within your reach after only 180 hours of specialization. Enroll now!"

Specific Objectives

- ◆ Develop the concept of Sports Justice
- ◆ Analyze the nature and typology of conflicts in sports
- ◆ Contextualize and analyze sports discipline within sanctioning law, its principles and specificities
- ◆ Examine the competent bodies in the field of sports discipline, the system of sports infractions and sanctions, the procedures and mechanisms for challenging decisions
- ◆ Develop specialized knowledge on sports justice in doping matters: legal regime, competent bodies, infractions and sanctions, procedures and mechanisms for challenging decisions
- ◆ Establish alternative dispute resolution mechanisms in sport, with special attention to arbitration and sports mediation

03

Course Management

When TECH proceeds to establish the teaching staff of a program, it is mainly based on two factors: the professional background of the experts and their commitment to the students. For this Postgraduate certificate, the university has opted for renowned professors with extensive teaching and research experience, who have developed as specialists in Sports Law. In this way, they will provide students with all the keys they require, and will be closely involved in their educational cycle.

“

TECH has opted for professors with extensive teaching and research experience to provide you with all the keys to the intricacies of Sports Justice”

Management

Dr. Fraile Fernández, Rosa

- ♦ Researcher and expert in Financial and Tax Law
- ♦ Professor of Financial and Tax Law at Rey Juan Carlos University
- ♦ Professor of Advanced Taxation of Legal Entities at UNIR
- ♦ President of the Scientific Committee of the Sports and Compliance Congress of the University of Malaga
- ♦ Doctor in Law by the Rey Juan Carlos University
- ♦ Master's Degree in Business Law and International Litigation from the Rey Juan Carlos University
- ♦ Degree in Law from Rey Juan Carlos University
- ♦ Degree in Business Administration and Management from Rey Juan Carlos University
- ♦ President of the scientific committee of the Sports and Compliance Congress at the University of Malaga and of the Taxation and Sports Congress at the University of Alcalá
- ♦ Member of: Research and Sport Network of the Consejo Superior de Deportes and Research Team in Competitive Concurrence Research Projects

Professors

Dr. Rubio Sánchez, Francisco

- ♦ Academic Director of the International Sports Management Program of the FIFA CIES in Spain
- ♦ President of the Competition Committee of the Royal Spanish Football Federation
- ♦ FIFA and CAS/CAS Mediator
- ♦ Co-founder, Head of Training and Mediator of the Spanish Institute of Sports Mediation and Pacification
- ♦ Arbitrator in the Committee of Experts in the Sports and Entertainment Industry of the European Association of Arbitration
- ♦ Consultant at Vessel Legal
- ♦ Lawyer and Magistrate in the Provincial Court of Badajoz
- ♦ PhD in Law from the University of Extremadura
- ♦ Degree in Law from the University of Extremadura
- ♦ Master's Degree in Sports Law from the University of Lleida
- ♦ Member of: AEDD, ADDEExtremadura and AGEDEX

04

Structure and Content

Always with a focus on student employability, TECH has designed the most innovative and recent educational materials on Sports Justice, a factor that positions this program apart from other similar programs. In fact, the teaching team has actively participated in its development, so that the contents incorporate all the essentials and more to ensure the student's momentum in this area at the end of the program. In addition, they will consolidate their skills by delving further into the concepts through such dynamic resources as interactive diagrams, videos, case studies or lectures.

“

A syllabus by and for your needs: access it with your PC or tablet and examine the objective and subjective scope of the sports discipline"

Module 1. Sports Justice and Conflict Resolution

- 1.1 Sports Justice
 - 1.1.1. Sports Justice vs. Ordinary justice: Delimitation
 - 1.1.2. Models of sports justice
 - 1.1.3. The lex sportiva and sports justice vs. effective judicial protection
- 1.2 Sports discipline
 - 1.2.1. Legal regime of sports discipline
 - 1.2.2. Principles and guarantees of sports discipline
 - 1.2.3. Objective and subjective scope of sports discipline
- 1.3 Sports disciplinary bodies
 - 1.3.1. International sports disciplinary bodies
 - 1.3.2. State sports disciplinary bodies
 - 1.3.3. Ad hoc sports disciplinary bodies
- 1.4 System of sports infractions and Penalties
 - 1.4.1. Sport infractions and Penalties
 - 1.4.2. Sports liability vs. administrative and criminal liability
 - 1.4.3. Internal associative sports discipline of clubs, SADs and other sports entities
- 1.5 Procedures in matters of sports discipline
 - 1.5.1. International procedural system of sports justice
 - 1.5.2. State procedural system of sports justice
 - 1.5.3. Regime for challenging sporting sanctions
- 1.6 Sports justice in matters of doping
 - 1.6.1. World Anti-Doping Code
 - 1.6.2. Offences and penalties in the field of doping
 - 1.6.3. Procedure and challenges to doping sanctions
- 1.7 Conflicts in sport
 - 1.7.1. Conflicts in sport vs. conflicts in sport
 - 1.7.2. Competent bodies for the resolution of conflicts in sport
 - 1.7.3. Dispute resolution mechanisms in sport

- 1.8 Conflict resolution in the federative sphere and in other sports institutions and entities
 - 1.8.1. Conflict resolution at the international federative level
 - 1.8.2. Conflict resolution at the national federative level
 - 1.8.3. Conflict resolution in leagues, clubs, PLCs and other sports entities
- 1.9 Sports arbitration
 - 1.9.1. Concept and legal regime of sports arbitration
 - 1.9.2. Arbitration bodies in sport
 - 1.9.3. Arbitration proceedings
- 1.10 Sports mediation
 - 1.10.1. Concept and legal regime of mediation in sport
 - 1.10.2. Preventive mediation: positive conflict management
 - 1.10.3. The mediation procedure

“

The syllabus incorporates all the aspects related to the internal associative discipline of sport entities so that your handling of Sport Justice is absolutely integral”

05 Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

“*Our program prepares you to face new challenges in uncertain environments and achieve success in your career”*

The case method is the most widely used learning system in the best faculties in the world. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH, you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology, we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific competencies and skills in each thematic area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this situation. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

06 Certificate

The Postgraduate Certificate in Sports Justice and Conflict Resolution guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Global University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious" paperwork"

This program will allow you to obtain your **Postgraduate Certificate in Sports Justice and Conflict Resolution** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University is an official European University publicly recognized by the Government of Andorra ([official bulletin](#)). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University** title is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.

Title: **Postgraduate Certificate in Sports Justice and Conflict Resolution**

Modality: **online**

Duration: **6 weeks**

Accreditation: **6 ECTS**

*Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH Global University will make the necessary arrangements to obtain it, at an additional cost.
