01

Introduction

Despite presenting some challenges, public-private collaboration is beneficial to sport, allowing the experience, resources and knowledge of both areas to be tapped. However, since it constitutes a deep interrelation of different entities, it is relevant to know each of the actors of the sports organization, and this program is positioned as a great opportunity. In this way, the student will obtain an overview of the structure of sport, always with the latest developments and delving into its legal regime and conventional mechanisms. Because of this, you will be in a position to launch your professional career through a 100% online format.

“

A Postgraduate Certificate with which you will determine the key players in the organization of sport and their interrelationship”

Public-private collaboration makes the organization of sport more complex as conflicts of interest and tensions sometimes arise between the parties involved. For example, sports clubs may have commercial objectives that do not coincide with the regulatory objectives of the Superior Sports Council. In addition, the lack of clarity in the responsibility and authority of each agent can hinder decision making and the implementation of sports policies at the national level.

This implies, therefore, the need for a deep understanding of the functioning and competencies of each sport structure, for which this program becomes a fantastic tool. So, sports professionals will improve their knowledge of the role of each organization and how they affect their professional activity, deepening their understanding of the interrelationship between entities.

Therefore, students will undertake a tour of the range of institutions that regulate sport, determining their composition and organizational structure. It will also focus on the characteristics and competencies of professional leagues and the current approach to public-private partnerships in sports.

All of this will add great value to the student's curriculum, who will study this program without having to move to an on-site center. Being the master of your own learning, through the Online Campus you will be able to access all the resources you need to boost your professional career through the largest digital university in the world.

This **Postgraduate Certificate in Sports Organization** contains the most complete and up-to-date program on the market. The most important features include:

- ◆ The development of practical cases presented by experts in Sports Organization
- ◆ The graphic, schematic and eminently practical contents of the book provide legal and practical information on those disciplines that are essential for professional practice
- ◆ Practical exercises where self-assessment can be used to improve learning
- ◆ Its special emphasis on innovative methodologies
- ◆ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ◆ Content that is accessible from any fixed or portable device with an Internet connection

You will perfect your knowledge of how the Administrative Court of Sport or the Olympic Committee affects your professional activity"

“

A specialization in high demand by professionals in Sports Science with which you will deepen your knowledge of strategies to prevent violence in sporting events"

The program's teaching staff includes professionals from the sector who contribute their work experience to this educational program, as well as renowned specialists from leading societies and prestigious universities.

Its multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide an immersive education programmed to learn in real situations.

The design of this program focuses on Problem-Based Learning, by means of which the professional must try to solve the different professional practice situations that are presented throughout the academic course. For this purpose, the student will be assisted by an innovative interactive video system created by renowned experts.

Thanks to this program you will learn how public-private partnerships work in sport, determining their advantages and the challenges to be faced.

You will become an expert in the legal system of sport, analyzing the impact of the specific laws that regulate sport.

02 Objectives

Achieving the objectives of this Postgraduate Certificate will provide the student with a comprehensive and updated perspective based on the latest developments in sports organization. In this sense, the design of the program will prepare you to master the mechanisms of operation of sports entities and their distribution of competencies. To do so, the sports professional will be supported by the innovative educational technologies that TECH will make available through the Online Campus.

“

The objective of TECH is that you master the mechanisms of operation of sports entities, analyzing the limits of their competences and their evolution over time"

General Objectives

- ◆ Update legal knowledge on the commercial aspects of sports law
- ◆ Delve into in the main commercial contracts related to sports
- ◆ Consolidate knowledge on the employment relationship of the professional team athlete
- ◆ Identify the characteristics of taxation from the double perspective of the legal entity and the individual
- ◆ Analyze the application of criminal law in the field of sports
- ◆ Examine the concept of Sports Justice and its performance in the sports field
- ◆ Update legal knowledge on the management of the assets of professional athletes

Achieve your most ambitious goals and develop the legal regime of federations, professional leagues, sports clubs"

Specific Objectives

- ◆ Examine international sports law and the treatment of sports by international organizations
- ◆ Analyze the regulatory framework of sport and its organization
- ◆ Specify the public organization of sport (CSD, TAD, etc.)
- ◆ Develop the legal regime of sports entities and institutions: federations, professional leagues, sports clubs, club associations and other associative formulas
- ◆ Specify and identify the legal norms that have an impact on Sports. Sector legislation
- ◆ Determine the sporting model of autonomous communities and local administration and its competency distribution

03

Course Management

The teaching staff that TECH has incorporated to teach this program is another of the great strengths of the Postgraduate Certificate. In this sense, students will work alongside professors who have excelled in areas such as Financial and Tax Law or Administrative Law, who are familiar with the intricacies of the structure of sport. In addition, they have extensive research careers with numerous contributions to high impact journals.

“

You will have the theoretical and practical tools you need to excel in sports organization thanks to the lessons of expert professors in Administrative or Financial Law"

Management

Dr. Fraile Fernández, Rosa

- ♦ Expert researcher in financial and tax law
- ♦ Professor of Financial and Tax Law at the Rey Juan Carlos University
- ♦ Professor of Advanced Taxation of Legal Entities at UNIR
- ♦ President of the scientific committee of the Sport and Compliance Congress of the University of Malaga
- ♦ Dr. in Law from Rey Juan Carlos University
- ♦ Master's Degree in Business Law and International Litigation from Rey Juan Carlos University
- ♦ Law Degree from the Rey Juan Carlos University
- ♦ Degree in Business Administration and Management from the Rey Juan Carlos Universidad
- ♦ Chairman of the scientific committee of the Congress on Sport and Compliance at the University of Malaga and of the Congress on Taxation and Sport at the University of Alcalá
- ♦ Member of: Research and Sports Network of the Consejo Superior de Deportes and Research Team in Competitive Concurrence Research Projects

Professors

Dr. Daniel Ortiz Espejo

- ◆ Collaborating Lawyer with Ergalex Asesoría Integral de Empresas
- ◆ Collaborating Lawyer with DLC IURIS Abogados
- ◆ Member of the Professional Advisory Board of Cremades & Calvo-Sotelo Abogados.
- ◆ Legal advisor of AJE Suroeste de Madrid and AJE Móstoles
- ◆ Collaborator of the Department of Administrative Law of Afonso Asesores
- ◆ Dr. in Law from Rey Juan Carlos University
- ◆ Degree in Law from UNED
- ◆ Diploma in Advanced Studies in Public Law from the Rey Juan Carlos University
- ◆ Specialty in Public Contracts by UDIMA

“

A unique, key, and decisive educational experience to boost your professional development”

04

Structure and Content

Over the course of 6 weeks, students will benefit from the broad vision offered by this Diploma on the structure of sport and its legal system. In fact, the contents have been supervised by experts from the teaching staff and incorporate all the latest legal developments so that the student will be perfectly prepared for future scenarios. In addition, your learning experience will be enriched by case studies, interactive summaries, videos and master classes.

“

A curriculum to obtain a global vision of sport from the perspective of international law. You will boost your learning through interactive summaries, videos, case studies... And much more!"

Module 1. Organization of Sports and its Legal Regime

- 1.1. Sport in a global context
 - 1.1.1. Sport and International Law Approach
 - 1.1.2. Conventions and declarations in relation to sports
 - 1.1.3. International sports organizations
- 1.2. Legal system of sport I
 - 1.2.1. Constitutional framework for sport
 - 1.2.2. The Legal System of Sport
 - 1.2.3. Main developments of the new Sports Law
- 1.3. Legal system of sport II
 - 1.3.1. Sports federations
 - 1.3.2. Sports Corporations
 - 1.3.3. Health prevention in sports
 - 1.3.4. Prevention of violence in sporting events
 - 1.3.5. Sports discipline
- 1.4. Sports organization I
 - 1.4.1. The sports model
 - 1.4.2. Superior Sports Council (SSC)
 - 1.4.3. The Olympic Committee and the Paralympic Committee
 - 1.4.4. General Sports Assembly
- 1.5. Sports organization II
 - 1.5.1. International federations
 - 1.5.2. Sports federations
 - 1.5.3. Autonomous or territorial sports federations
- 1.6. Sports organization III
 - 1.6.1. Administrative Court of Sport
 - 1.6.2. State Commission against Violence, Racism, Xenophobia and Intolerance in Sports
 - 1.6.3. Other bodies
- 1.7. Professional leagues
 - 1.7.1. Characters
 - 1.7.2. Organization
 - 1.7.3. Skills

- 1.8. Public private collaboration in sports
 - 1.8.1. Approach
 - 1.8.2. OSA Program (Olympic Sports Association)
 - 1.8.3. APTA Plan (Aid to Paralympic Target Athletes)
- 1.9. Development of Sport in the Derived Competencies
 - 1.9.1. Skills
 - 1.9.2. Organization
 - 1.9.3. Successful initiatives and experiences
- 1.10. Municipal competences. Municipal sports
 - 1.10.1. Skills
 - 1.10.2. Organization
 - 1.10.3. Successful initiatives and experiences

“*Competencies of municipal sports, organization of competitions derived from... There is nothing that escapes the subject matter of this comprehensive syllabus*”

05 Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization"

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world"

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

“ *Our program prepares you to face new challenges in uncertain environments and achieve success in your career”*

The case method is the most widely used learning system in the best faculties in the world. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH, you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology, we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific competencies and skills in each thematic area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this situation. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

06 Certificate

The Postgraduate Certificate in Sports Organization guarantees students, in addition to the most rigorous and up-to-date education, access to a Postgraduate Certificate issued by TECH Technological University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This **Postgraduate Certificate in Sports Organization** contains the most complete and up-to-date scientific on the market.

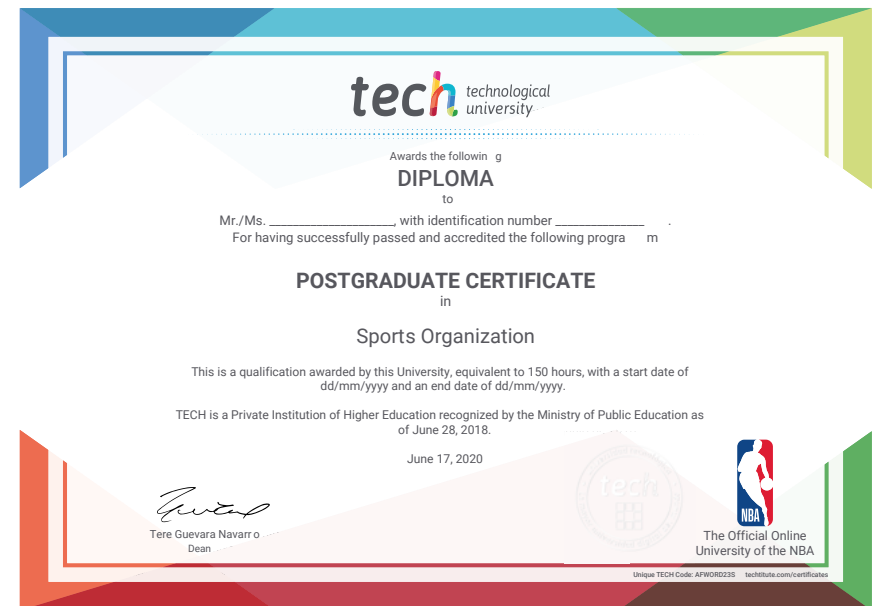

After the student has passed the assessments, they will receive their corresponding **Postgraduate Certificate** issued by **TECH Technological University** via tracked delivery.

The diploma issued by **TECH Technological University** will reflect the qualification obtained in the Postgraduate Certificate, and meets the requirements commonly demanded by labor exchanges, competitive examinations, and professional career evaluation committees.

Title: **Postgraduate Certificate in Sports Organization**

Official N° of Hours: **150 h.**

Endorsed by the NBA
