Introduction

The enormous growth of sports structures over time has made sports law a field of growing interest. In an increasingly professionalized environment, new legal conflicts arise every day that require in-depth knowledge of the functioning of the corresponding bodies. It is because of this, that this degree will provide the sports professional with the specialization they were looking for to confidently face any aspect that may occur during their professional practice. Therefore, the degree will take a tour through the institutional legal-labor regime and the relationship of the athlete in this framework, analyzing possible criminal proceedings and particular elements. This is, without a doubt, a must-have degree in an attractive online format.

“

Thanks to this program, you will specialize in Sports Law to delve into the legal and labor regime of the institutions and examine the range of rights and duties of the sports professional”

Legal issues related to sports are becoming more and more widely covered by the media. Signings that remain in legal limbo, non-payments to players, allegations of match-fixing, famous cases of doping, among other situations that transcend far beyond the sporting sphere and become increasingly complex as new legal loopholes are detected or new aspects are regulated. It is important, therefore, that those involved in the practice of sports have an in-depth understanding of why these scenarios arise and adapt to a constantly changing landscape.

Therefore, this program acquires a greater value in these times, providing students with the comprehensive perspective they need to master the constitutional framework and the legal system of sports, as well as the issues that affect their own professional development in sports. In this way, they will embark on an academic journey that will lead them to analyze sport in all its dimensions. As such, it will examine the conventional mechanisms that regulate it and the different institutions that are decisive in its operation.

In this sense, the sports professional will deepen in the application of Commercial Law, determining the legal profile of the contractual relations of sports entities and the legal regime of the figures affected by Competition Law. It will also examine at length the criminal proceedings in which sport and the bodies that make up the sporting justice system may be involved, going on to investigate the management of the elite athlete's assets.

With this comprehensive overview of sports law, the sports professional will be brought up to date with guarantees by the world's largest online university. For this purpose, TECH Global University provides you with an extraordinary teaching team that has excelled in this subject. This and an online format in which you are in control of your own learning are powerful incentives to boost your career with great flexibility.

This **Professional Master's Degree in Sports Law** contains the most complete and up-to-date scientific program on the market. The most important features include:

- ◆ The development of practical cases presented by experts in Sports Law
- ◆ The graphic, schematic and practical contents of the program provide legal and practical information on those disciplines that are essential for professional practice
- ◆ Practical exercises where self-assessment can be used to improve learning
- ◆ Its special emphasis on innovative methodologies
- ◆ Theoretical lessons, questions to the expert, debate forums on controversial topics, and individual reflection assignments
- ◆ Content that is accessible from any fixed or portable device with an Internet connection

*Determine with this program
the legal figures that are
affected by Competition Law”*

“

Everything you need to analyze the labor-legal regime of the sportsperson is here; from its sources of regulation to the differences with the figure of the non-professional athlete”

The boost you were looking for in your career is in this comprehensive program. Sign up and master the incidence of the commercial regulations in sports!

Examine the legal problems that occur when professional sports are played by women in order to contribute to a solution from your field.

The program's teaching staff includes professionals from sector who contribute their work experience to this educational program, as well as renowned specialists from leading societies and prestigious universities.

Its multimedia content, developed with the latest educational technology, will provide the professional with situated and contextual learning, i.e., a simulated environment that will provide an immersive education programmed to learn in real situations.

The design of this program focuses on Problem-Based Learning, by means of which the professional must try to solve the different professional practice situations that are presented throughout the academic course. For this purpose, the student will be assisted by an innovative interactive video system created by renowned experts.

02 Objectives

When designing a Professional Master's Degree TECH carries out a thorough study of the area to determine the most current knowledge and include it in the program. Of course, this premise has been transferred to this degree, so that students will enjoy a comprehensive approach to the program that will significantly broaden the vision they had of the sports field. To do so, they will make use of the educational innovations that TECH makes available on the Virtual Campus.

“

Are you interested in learning more about Sports Law? With this program you will examine in detail the organs that comprise it and their competencies”

General Objectives

- ◆ Update legal knowledge on the commercial aspects of Sports Law
- ◆ Go deeper in the main commercial contracts related to sports
- ◆ Consolidate knowledge on the employment relationship of the professional team athlete

 - 5.5.3. The crime of sports fraud: penalties and scope of application
 - 5.5.4. The protected legal right in sports manipulation
 - 5.5.5. The criminal liability of legal entities in sports rigging
 - 5.5.6. Circumstances pertaining to the crime of sports fixing
 - 5.6. The imputation of SADs and clubs
 - 5.6.1. The crime of public disorder
 - 5.6.1.1. Protected legal asset
 - 5.6.1.2. The active subject
 - 5.6.1.3. Elements of the type
 - 5.6.2. The Disciplinary Regime of Law 19/2007, of July 11, 2007, against Violence, Racism, Xenophobia and Intolerance in Sports
 - 5.6.2.1. Duties and obligations
 - 5.6.2.2. Infringement regime
 - 5.6.2.3. Penalty regime
 - 5.6.3. Accusation
 - 5.6.3.1. Theories of accusation
 - 5.6.3.2. Objective accusation

- 5.7. Exogenous violence in sports
 - 5.7.1. Scientific explanation for violence in sports
 - 5.7.2. Manifestations of sports violence
 - 5.7.3. Scientific explanation
 - 5.7.4. The system of measures against violence in sport
 - 5.7.5. Casuistry
 - 5.7.6. Current measures
 - 5.7.7. Quantitative analysis of violence in sports
- 5.8. Racism and xenophobia in sports
 - 5.8.1. Racism and xenophobia
 - 5.8.1.1. Concept of racism and xenophobia
 - 5.8.1.2. Highlighted assumptions in sports
 - 5.8.2. Legal framework applicable to sports as a response to increasing racist and xenophobic attacks
 - 5.8.2.1. European and international framework
 - 5.8.2.2. The jurisdictional response
- 5.9. Endogenous violence in sport
 - 5.9.1. Violence in sports
 - 5.9.1.1. The theory of assumed risk
 - 5.9.1.2. The fortuitous event theory
 - 5.9.1.3. Intentional violence
 - 5.9.2. Criminal or administrative infraction
 - 5.9.2.1. Jurisdiction of administrative law in the field of sports
 - 5.9.2.2. Jurisdiction of Sports Criminal Law in the field of sport
 - 5.9.2.3. The Non Bis Indem principle
 - 5.9.3. The jurisdictional response

Module 6. Sports Justice and Conflict Resolution

- 6.1. Sports justice
 - 6.1.1. Sports justice vs. ordinary justice: delimitation
 - 6.1.2. Sports justice models
 - 6.1.3. The Lex Sportiva and sports justice vs. effective judicial protection

- 6.2. Sports discipline
 - 6.2.1. Legal Regime of Sports Entities
 - 6.2.2. Principles and guarantees of sports discipline
 - 6.2.3. Objective and subjective scope of the sporting discipline
- 6.3. Sports disciplinary bodies
 - 6.3.1. International sports disciplinary bodies
 - 6.3.2. State sports disciplinary bodies
 - 6.3.3. Ad hoc sports disciplinary bodies
- 6.4. Sports infractions and penalties
 - 6.4.1. Sports infractions and sanctions
 - 6.4.2. Sports liability vs. Administrative and criminal liability
 - 6.4.3. Internal associative sports discipline of clubs, SAD and other sports entities
- 6.5. Proceedings in matters of sports discipline
 - 6.5.1. International procedural system of sports justice
 - 6.5.2. State procedural regime of the sports justice system
 - 6.5.3. System for contesting sporting sanctions
- 6.6. Sports justice in doping matters
 - 6.6.1. The World Anti-Doping Code
 - 6.6.2. Doping offenses and penalties
 - 6.6.3. Procedure and challenges to doping penalties
- 6.7. Conflicts in sports
 - 6.7.1. Sports conflicts vs. Conflict in sports
 - 6.7.2. Competent bodies for conflict resolution in sport
 - 6.7.3. Dispute resolution mechanisms in sport
- 6.8. Conflict resolution at the federative level and in other sports institutions and entities
 - 6.8.1. Dispute resolution at the international federative level
 - 6.8.2. Dispute resolution at the national federative level
 - 6.8.3. Dispute resolution in leagues, SAD clubs and other sports entities
- 6.9. Sports refereeing
 - 6.9.1. Concept and legal regime of sports refereeing
 - 6.9.2. Refereeing bodies in sports
 - 6.9.3. Refereeing procedures

- 6.10. Sports mediation
 - 6.10.1. Concept and legal regime of mediation in sports
 - 6.10.2. Preventive mediation: positive conflict management
 - 6.10.3. The mediation procedure

Module 7. Management of Professional Athlete's Assets

- 7.1. Wealth management
 - 7.1.1. Wealth management: preservation as a goal
 - 7.1.2. Specialty in sports: sports career, time and projection
 - 7.1.3. Team decisions: investment conditional on taxation
 - 7.1.4. Profitability and financial freedom before and after the sport
- 7.2. The athlete's life: economic and sporting stages and challenges
 - 7.2.1. The passage from the growing athlete to professionalization
 - 7.2.2. People and decisions that must accompany the athlete
 - 7.2.3. Economic and sporting challenges and their effects
 - 7.2.4. Athletes facing retirement: assets, taxation and the future
- 7.3. Identification of the athlete's legal problems from the beginning to the end of his or her sports career
 - 7.3.1. The athlete's personal relationships
 - 7.3.2. The athlete and his or her family environment: legal decisions
 - 7.3.3. The athlete and his agent: relevant issues
 - 7.3.4. The athlete and his club: contractual framework
 - 7.3.5. Sports decisions and their legal significance
 - 7.3.6. Legal mechanisms for its patrimonial preservation
 - 7.3.7. The abandonment of sports practice: problems encountered
- 7.4. Good governance in sport and its impact on the preservation of the athlete's assets
 - 7.4.1. The relationship between the athlete and the club
 - 7.4.2. The principles of good governance and their impact on the athlete
 - 7.4.3. Regulatory compliance and its impact on sports relationships
 - 7.4.4. Ethics in good governance and its consequences
 - 7.4.5. Good governance, the athlete and the new Sports Law

- 7.5. The athlete as an entrepreneur
 - 7.5.1. The athlete and the company: common objectives
 - 7.5.2. Sports entrepreneur's advisory team
 - 7.5.3. Preservation of the athlete's assets as an entrepreneur
 - 7.5.4. The generation of business and its professionalization away from sports
- 7.6. The principles of family business applicable to athletes
 - 7.6.1. The athlete's vision as a family entrepreneur
 - 7.6.2. Principles of the application of family business
 - 7.6.3. Economic intelligence as a principle
- 7.7. The family protocol as an instrument for the preservation of an athlete's wealth I
 - 7.7.1. The protocol as a wealth preservation contract
 - 7.7.2. The coexistence of the athlete in the family protocol
 - 7.7.3. The contingency problems of the entrepreneurial athlete in the protocol
- 7.8. The family protocol as an instrument for the preservation of an athlete's wealth II
 - 7.8.1. The succession of the athlete as a businessman in the family protocol
 - 7.8.2. The family council and its role in the case of an athlete-entrepreneur
 - 7.8.3. Good governance in an athlete's family protocol
- 7.9. Taxation and its impact on the preservation of an athlete's assets
 - 7.9.1. The athlete's contract and its initial tax consequences
 - 7.9.2. Wealth management from a tax perspective
 - 7.9.3. Income obtained by the athlete and its tax valuation
 - 7.9.4. Tax vehicles suitable for the athlete according to their life trajectory
 - 7.9.5. Tax decisions that contribute to the preservation of patrimony
 - 7.9.6. Case studies of the most common tax issues
- 7.10. The business life of the retired athlete
 - 7.10.1. The athlete and his retirement. Physical, psychological and economic problems
 - 7.10.2. The retired athlete's life: change of occupation
 - 7.10.3. The athlete as an entrepreneur
 - 7.10.4. The other sporting challenges of the retired athlete: case studies
 - 7.10.5. The cost-effectiveness of retirement preparation: the athlete's team
 - 7.10.6. Proposals for a better adaptation to retirement time

06

Methodology

This academic program offers students a different way of learning. Our methodology uses a cyclical learning approach: **Relearning**.

This teaching system is used, for example, in the most prestigious medical schools in the world, and major publications such as the **New England Journal of Medicine** have considered it to be one of the most effective.

“

Discover Relearning, a system that abandons conventional linear learning, to take you through cyclical teaching systems: a way of learning that has proven to be extremely effective, especially in subjects that require memorization”

Case Study to contextualize all content

Our program offers a revolutionary approach to developing skills and knowledge. Our goal is to strengthen skills in a changing, competitive, and highly demanding environment.

“

At TECH, you will experience a learning methodology that is shaking the foundations of traditional universities around the world”

You will have access to a learning system based on repetition, with natural and progressive teaching throughout the entire syllabus.

The student will learn to solve complex situations in real business environments through collaborative activities and real cases.

A learning method that is different and innovative

This TECH program is an intensive educational program, created from scratch, which presents the most demanding challenges and decisions in this field, both nationally and internationally. This methodology promotes personal and professional growth, representing a significant step towards success. The case method, a technique that lays the foundation for this content, ensures that the most current economic, social and professional reality is taken into account.

“*Our program prepares you to face new challenges in uncertain environments and achieve success in your career”*

The case method is the most widely used learning system in the best faculties in the world. The case method was developed in 1912 so that law students would not only learn the law based on theoretical content. It consisted of presenting students with real-life, complex situations for them to make informed decisions and value judgments on how to resolve them. In 1924, Harvard adopted it as a standard teaching method.

What should a professional do in a given situation? This is the question we face in the case method, an action-oriented learning method. Throughout the program, the studies will be presented with multiple real cases. They will have to combine all their knowledge and research, and argue and defend their ideas and decisions.

Relearning Methodology

TECH effectively combines the Case Study methodology with a 100% online learning system based on repetition, which combines 8 different teaching elements in each lesson.

We enhance the Case Study with the best 100% online teaching method: Relearning.

In 2019, we obtained the best learning results of all online universities in the world.

At TECH, you will learn using a cutting-edge methodology designed to train the executives of the future. This method, at the forefront of international teaching, is called Relearning.

Our university is the only one in the world authorized to employ this successful method. In 2019, we managed to improve our students' overall satisfaction levels (teaching quality, quality of materials, course structure, objectives...) based on the best online university indicators.

In our program, learning is not a linear process, but rather a spiral (learn, unlearn, forget, and re-learn). Therefore, we combine each of these elements concentrically.

With this methodology, we have trained more than 650,000 university graduates with unprecedented success in fields as diverse as biochemistry, genetics, surgery, international law, management skills, sports science, philosophy, law, engineering, journalism, history, markets, and financial instruments. All this in a highly demanding environment, where the students have a strong socio-economic profile and an average age of 43.5 years.

Relearning will allow you to learn with less effort and better performance, involving you more in your training, developing a critical mindset, defending arguments, and contrasting opinions: a direct equation for success.

From the latest scientific evidence in the field of neuroscience, not only do we know how to organize information, ideas, images and memories, but we know that the place and context where we have learned something is fundamental for us to be able to remember it and store it in the hippocampus, to retain it in our long-term memory.

In this way, and in what is called neurocognitive context-dependent e-learning, the different elements in our program are connected to the context where the individual carries out their professional activity.

This program offers the best educational material, prepared with professionals in mind:

Study Material

All teaching material is produced by the specialists who teach the course, specifically for the course, so that the teaching content is highly specific and precise.

These contents are then applied to the audiovisual format, to create the TECH online working method. All this, with the latest techniques that offer high quality pieces in each and every one of the materials that are made available to the student.

Classes

There is scientific evidence suggesting that observing third-party experts can be useful.

Learning from an Expert strengthens knowledge and memory, and generates confidence in future difficult decisions.

Practising Skills and Abilities

They will carry out activities to develop specific competencies and skills in each thematic area. Exercises and activities to acquire and develop the skills and abilities that a specialist needs to develop in the context of the globalization that we are experiencing.

Additional Reading

Recent articles, consensus documents and international guidelines, among others. In TECH's virtual library, students will have access to everything they need to complete their course.

Case Studies

Students will complete a selection of the best case studies chosen specifically for this situation. Cases that are presented, analyzed, and supervised by the best specialists in the world.

Interactive Summaries

The TECH team presents the contents attractively and dynamically in multimedia lessons that include audio, videos, images, diagrams, and concept maps in order to reinforce knowledge.

This exclusive educational system for presenting multimedia content was awarded by Microsoft as a "European Success Story".

Testing & Retesting

We periodically evaluate and re-evaluate students' knowledge throughout the program, through assessment and self-assessment activities and exercises, so that they can see how they are achieving their goals.

07

Certificate

The Professional Master's Degree in Sports Law guarantees students, in addition to the most rigorous and up-to-date education, access to a Professional Master's Degree diploma issued by TECH Global University.

“

Successfully complete this program and receive your university qualification without having to travel or fill out laborious paperwork”

This program will allow you to obtain your **Professional Master's Degree diploma in Sports Law** endorsed by **TECH Global University**, the world's largest online university.

TECH Global University is an official European University publicly recognized by the Government of Andorra (**official bulletin**). Andorra is part of the European Higher Education Area (EHEA) since 2003. The EHEA is an initiative promoted by the European Union that aims to organize the international training framework and harmonize the higher education systems of the member countries of this space. The project promotes common values, the implementation of collaborative tools and strengthening its quality assurance mechanisms to enhance collaboration and mobility among students, researchers and academics.

This **TECH Global University** title is a European program of continuing education and professional updating that guarantees the acquisition of competencies in its area of knowledge, providing a high curricular value to the student who completes the program.

Title: **Professional Master's Degree in Sports Law**

Modality: **online**

Duration: **12 months**

Accreditation: **60 ECTS**

*Apostille Convention. In the event that the student wishes to have their paper diploma issued with an apostille, TECH Global University will make the necessary arrangements to obtain it, at an additional cost.
